Summary

Message from the head of the church before the detention center

"The true mother who walks alone on the 115th day of tribulation is the mother of peace who embraces humanity, and who opens a new era in heaven with love and peace." As true father and mother, you walked with your father for the salvation of mankind and a world of peace, and after your consecration, you alone opened wide the gates of heaven. I sincerely ask that your mother's frustrating situation will be resolved as soon as possible, and that the truth will be revealed completely, and that her health will be protected. Tonight, let's focus on special eligibility as one mind and one thought. "\

Certificate of 40 nines

If you deeply repent for your ambiguous faith life and participate with your husband, it becomes an ascetic training session that embraces the feelings of Heavenly Parents and True Parents. She screamed together in the Navi troop, abandoned her weakness and couldn't move forward, and reborn as a strong and dignified lady, and declared her determination to love her children without letting go of her mother's hand in the future. I believe you will be a blessed home that will testify openly with your mother.

Certificate of being a young student of the first generation

Born in a non-believing family, spent 20 years, joined for the ascetic meeting, but never lived a solid life of faith. However, they participated in the Kami Nihon Kyonono 3-day Shu, and 430 Japanese trainees became one lump and cried out from the heart with all their body strength, and for the first time, tears flowed and melody ran all over their bodies, and they began to have time to pray for their name loudly. After hearing about my true father's life route, I felt sad not being able to meet my father, but I am grateful that my mother is still here, and I decided to worship her with all my heart and soul when she was still alive.

After the entrance ceremony of Tenjongu-gu Tenichi Shoden, the gate of Tenichi was opened in the era when Heavenly parents ruled. Don't think of this just conditionally. Divine individuals governed by Heavenly Parents directly, divine households are emerging. It's the unification training session of mind and body to lead. As the words spoken at the entrance ceremony, "Love your sons and daughters as much as you will." When Heavenly Parents reign, they will be guided with love. Heavenly Parents true love put together human bodies. Vertically true fathers and horizontally true fathers and fathers are fully united and expressed love. The true love of Heavenly Parents and True Parents, that is the very core of our unity.

So we walk with the family pledge, centered on true love. It's going to be hard if you let evil love centered around.

"Even if you carry a worldly cross, do not fall. Every arrow of penitent and misery will become a resolution of heaven's glory. For our church is where we gathered our waist belt and looked at the avenging man before us, and walked one or two. Still managed to shout million years old because I came to my true father and mother. ""Happy are those who have parents they can die for with their lives. For we must be born of the feelings of our Heavenly Fathers and die in the feelings of Heavenly Fathers. Those who can do that are the ones who can go to heaven. Everything you achieve as your center will become leaves falling in the autumn breeze in just one day. We must be the ones who can go to our parents and die for them. "\

Therefore, I am still praising the song. Jesus' struggle on the cross washed away the sins of his disciples and brought about spiritual heaviness. Walking preparing for the coming Messiah for 2000 years with tears in my eyes trusting in the Lord's ability to wash my sins by His blood. We must let our sins be washed away by our mother's afflictions and with her tears. Don't just stare at the struggles, wash away each of your sins with tears and move forward with new determination and determination Heavenly Father and Father will do the role. I would die for my father and mother, the promotion shown by his actions would be useful to us by listening to today's kun-doku only. "I would die for my father, I am a lucky person to see my father." If you pray with your heart today, the blessings of heaven will be with you.
