Opening prayer of gratitude

Most Honorable Heavenly Parent

Beloved TPs of HEH

Sincerity gathered in one place allowing this Cheon Shim Won devotion to move Heaven so that our Mother may be at peace and have long life... We are those who are to inherit Your conviction and we earnestly hope that Heaven will be able to work in fullness. Thought we are lacking, we will gather our devotion for Heaven and TF to work wlslo in practical way, with gratitude and patience... Let us to hold onto the hope of welcoming a new day ...

As BF's, we will do it ...

Testimony

Itsuko Ysumi

in Japanese

...attending 40-day Workshop with my husband having also gone to resonance prayer Workshop, making my resolution ...

When I met TM at the 2nd gen Future Gen Assembly in 2023, made dedication to be a full-time member ... but wavered at times with limits in ability to love. The NABI opportunity then made me have concern about those around me instead of just testifying boldly

During the prayer times, tears always flowed feeling Shimjeong of Heaven ... but times I neglected the Cheon Shim Won vigil, thinking this much should be fine passing over some matters ... How much love did I have with the same perspective of Mother ...for my family and brothers and sisters and felt so sorry ...

Saw the image of the lecturer who suffered so much but continued to speak with humility ... and heard the story that when the shimun of my heart was opened and met Heavenly Parent, Heavenly Parent said, 'I could not do anything for you. I could not embrace my sons and daughters whom I only could not embrace all through history' watching children sin again after passing through such painful heart. There is no way Heavenly Parent has not done anything (as thought came before) ...

I felt so sorry for being a daughter who made my parent say such things and said to Heavenly Parent, 'Please don't be sad any more. I am here' and Mother's Words, 'You will help me, won't you?' was still in my ears ... wanting to be one with TM Who said, 'Heaven is with you, so reveal the Truth fairly and squarely.'

I swore never to let go of the Hand of TM and allow Heavenly Parent to know me in these graceful days.

'Monarch Butterfly'

Testimony

Ko Jin Che 1st gen

Korean Workshop trainee

... lived without believing in the existence of God ... Went to Sun Moon because they were the first to accept me ... After military, learned Japanese and had Japanese friend and then 2nd gen thinking they were the same as 2nd gen and feeling their warm heart I was curious about the Church my friends believed in allowing them to give love so unsparingly with others and participated to encounter the doctrines of the church and May last year filled out the application forms but it was for getting help with the fee... thinking you are you and I am me and never really would be a UC member, just coming to this Workshop to have friends and have fun, so no change in me in terms of faith even forgetting I had signed up.

There was an incident that caused me to want to have faith ... There were two candidates who often spoke of the church and advise that there was no choice but to offer devotion to solve my problem, so went to 40-day, a period not so short, and made determination in a time when I had to prepared for my job but hearing that the more you have at stake, the more you can grow and that I would not have opportunity again ...

I met and talked with many new members here ... and many said it was amazing that I came here as a 1st gen and then I felt not worthy of praise since it was all for myself and no experience of feeling Heavenly Parent. In the midst of this the choir leader at that time, who saw I had brought a guitar and asked me to join the choir ... but had intended not to appear on camera and invest time in practice or join anything more ... but actually the practice time was so warm and the time felt so short and I could hold the mike and give remarks and sing, 'Let's Love Heavenly Parent' and the thought occurred that there would never be another moment in my life to feel such grace ...

I learned that it was not just the song but was praise and asked to be a choir leader and again an op that would not come again. Singing, 'Butterfly Effect' we went on stage right away and I made a mistake in the opening statement and felt so sorry ... It was after hearing about Mother' I decided to let everything be offered to Heaven ... I had felt that calling out prayer was tedious and difficult but ended up shouting out with tears and a shiver in my body and at the top of my lungs, and not knowing at the moment if it was an experience of Heavenly Parent and TPs ...

I gradually came to understand the meaning of entrusting my heart to Heaven and many realizations, moving one step closer in terms of shimjeong and thinking what I could actually do for TM in this difficult time ... My spiritual sister was receiving the Blessing but also concern because of the negative stories ... but then again the sensation of dazzling bright and everyone without exception looked truly happy and my heart overflowed and I was deeply moved and thought I would also like to receive the Blessing ...

After lecture of TP's Life Course became sad that I could not see TF myself, no memories of those days at all, but at the same time to be able to enter UC when TM still on earth felt like a destiny, and I seriously contemplate what I can do in this time. Then I was able to set a clear goal, finishing this 40-day continuing my devotion and be Blessed and offer a happy family to Heavenly Parent.

My biological parents to be honest, I haven't been able to tell them anything yet because of the ongoing negative reports at this time, I could not find the time. I told a lie saying I will stay for a friends house near school to prepare for my job, but since coming here and making resolution I will have to tell them and they will surely oppose, but I will persuade them through the true values to receive their recognition one day (tears)

gratitude to my spiritual mother who always listened to my concerns that were her own even she was very busy with her own Blessing and to the choir and everyone who cheered for me, and also thought I cannot mention by name to my precious friend who must have offered so much devotion for me ...

Applause and encouragement

HJ Report

... although TM's Physical Body cannot be with us, Her Shimjeong Heart is with us ... applause for Her

The Era of Running Toward the Purpose and Direction of HMM

60 years ago, these words at a former church ... Humanity came to have two purposes instead of original one ... and must establish a realm of chosen unified for the original standard ... Since history did not begin with a perfect person, we must start anew and when Last Days come, this word will be one word and you must not lose heart wondering how, but this universe must align with a single purpose ...

The year of red year will return in a 60-year cycle starting since the beginning spring and it begins from this day Feb 4 and so the baby born is a snake and this is a year with fire upon fire and the horse of power and activity, it is a year like

that ... and passion, ardor and good luck ... Also there has been belief that the color red drives away bad energy and spirit and if we simply transform the energy of last year ... I believe the truth hidden will be revealed and brought to light.

Events occurred that could be a new starting point as in 1846 with Pyung oh persecution of Catholics in Lay chosen Dynasty, although fewer martyrs, it was when the famous figure was martyred and government's strong move to oppress Catholics and how much they endured as in the movie, to protect their faith and a time when events were a catalyst for moving toward a new stage, in particular a righteousness army arose which was great foundation for the later revolution movement ...

We can transform the energy of this last year into greater goodness ... And I have conducted Workshop at 280 churches and met 1800 beloved members and listened to stories and giving ansu to convey at least a little the very touch of TM ...

2026 January was first tour and the first thing I do is to enter it with GPS as Mother said, 'Go in My stead and deliver My Touch' and while driving for a long time, I had the thought of our members running this distance and TM knew and sends us to give love. As my realization I would like to invite all brothers and sisters to applaud for glory of TM and for all the members and missionaries ...

Yongju Church was assigned in the fifth session but there was a Workshop twice for that and it was the fourth visit and I see how sincere the pastors and members are with Cheon Shim Won devotion with every family attending daily and is mobilized for all events at CP ...

After driving, I parked for a short break and then starting again a sound from the engine and found the gasoline smell and almost pouring on the ground and quickly called a tow truck, but on a Saturday, they said repair was only possible on Monday and had to wait and arrive late to the church, and I was thinking, 'Why did this happen in the year of the red horse, when I should be running' but I realized it was a work of Heaven's protection, for this not to happen when I was driving.

The church members thought this happened because they had lacked devotion, but it was because of their devotion that I could go until the end ... And illnesses of our members and I thought we must be humble while offering devotion and receiving ansu and that we must be one ... Youngju Church received great grace ...

Two 1st gen attended and joined and were preparing for the Blessing ... and I saw the banner Cheon Shim Won even bigger than the church banner and these members received the Blessing and are preserving this culture ...

next church had been offering devotion and elders sitting in the front row as the center of the devotion. The one who served as MC said he received ansu and had clear sensation of Someone holding his hands and giving such energy ... felt like God telling me, 'I am with you' and a clear moment of grace... God is always with us, but we sometimes don't feel it... This was a substance feeling ...z

Another two ansu testimonies

next church the internal and external environment could be felt ... Pastor received answers during his resonance for a miracle, 'Is a miracle not already happening since new members are coming. Move forward and all will be fulfilled.' The happiness and brightness was because Japanese husbands were able to attend, which I felt was from devotion every day of the sisters, calling out prayers and resonance prayer and felt so happy seeing them sitting there with their husbands and how happy Heavenly Parent must have felt ...

Also a relative's husband passed away and so grateful to offer special liberation while the candidate herself attended and the witnessing candidate said such gratitude. What is our pride? It is us becoming one, no matter where TM is ... I felt hope through this revival meeting that I will run through 2026 to fulfill Heavenly Parent and TPs Dream.

So, during PL's message, he said every place Heavenly Parent and TPs visited should be made into a holy ground ... The window circled is where TM and F had their meal and be sure not to just pass through but go there ... I didn't post the name not wanting to advertise ... but stop by the church and ask the pastor and give a donation of gratitude ...

In the square box are Pastors and with me are the youth with minister far right ... and in their mid 20's are investing all their might ... applause to revive all the more ...

difference after 400th Cheon Shim Won devotion ... especially those places during the Korean War I could go and feeling so shamed before the liberation and hearing the missionary say that the walls of the DC where Mother stayed was because of

all the internal problems of we the members and I came to really feel my R and that our devotion is still lacking with members not truly becoming one and this is the day of walking the path of suffering with the cold and wind and other elements blocking our way ...

Vision during one-heart resonance of TM praying outside the DC, where no light could enter and I was offering a prayer to TF feeling I could not do anything, and even getting angry for an answer what on earth should I do. 'Mother was praying while facing the cold snow and wind and what must be done for Mother's return quickly' and then the walls were magnified and within those bricks I was showing our own faces staying with sin and fallen nature. Those faces were not the people of the whole world but the faces were us BFs.

Z

Ultimately the limits of our faith and fallen nature, not completely one with Heaven were built and we were hardened into bricks blocking TM in and I realized ... Where is the land of the hometown of evil, it is not an organization with a sign board, it is none other than human beings. In this year that blows away all the negative energy, we will hold the Entrance Ceremony just like Heavenly Parent has provided the pure white snow to drive out the fallen energy and when all is organized to grip the Cheon Shim Won, we are the one who did not unite with our TPs.

Only resolving this and creating a Temple of national and worldwide environment and we must pay indemnity for this and build a Temple which is the House of Life. What was established was from the indemnity that TM paid and Her hardships are from our imperfection ... These trials are also signs of our failures to be one, lack of wholeness and this a message from Heaven to return to our original position and live the life desired by the original mind and body. All our diseases and trials ... even me with an incurable disease at a young age and hearing my mother crying desperately for me and at one year old I was spiritually born with a life of faith and going to CP taking one hour to go to the Tree of Blessing and going to the Korean office shouting, 'Are you going to let me die.' I want to live and receive special ansu ...

I confess to you, the reason of my faith and desperate devotion was to cure my personal disease, but on my last day of 40-day noticing that the bus was about to leave, the last bus and found myself 'running' to the bus, which was not imaginable before that I could do and I realized that I am the son of our Heavenly Parent and TPs, and the Love identity I am as a child of Heavenly Parent and TPs ...

TM's Words: In this era One Human Family was revealed and environment where HMH attends in substance and to create the substance you must become one with HMH

This reveals One Human Family and the Essence of HMH, She opened a Day when the order could be established centering on Heavenly Parent. So, we must not forget this was the Love Heavenly Parent intended to liberate the sorrow of Heavenly Parent God and proclamation to open the way for us to become true filial children following the statutes of TF and M and opening of a life beyond mere resurrection but attendance with gratitude ...

That is why we must mobilize the SW fully, or we cannot form CIG ... just like TF telling us, isn't that the Principle of Resurrection when it appears in the result ... the importance of attendance and Cheon Shim Won prayer to show Her in this 2026 red horse year, present to result to TM not only with these testimonies ...

TPs: In your life you must not fail to think of God and TPs or you will manifest when you go to the SW, where you yourself become one and personal R is the important recovery of our internal and eternal values becoming a habit in Cheon Shim Won and then TPs transform our lives and this is the importance of life of attendance and personal R to pay indemnity for sin so you go directly to Heaven in the SW ...

So, it is not what we are told how but when we give birth to sons and daughter who can enter Heaven is the victory centering on TP and Cheon Shim Won as we can inherit the perfected Heart of HPs and also become the true parents who inherited this H Heart ... Cheon Shim Won is the very place and the position of CheonBo, H's jewel, is opened and 430 tribal families are carried out by adding faith upon faith in CP Providence and knowing the Blessings were done only conditionally when we did not make the 430 families truly established ...

If we did our very flesh would be organized through that process and we would love with the Heart of Heavenly Parent and the central hurting spirits would be organized and no place for them to come to attach to me. This is the consequence of TM in such a place. We must truly become one with Cheon Shim Won. It is our only way to live, not only offering prayers but the devotion is to fulfill the words and become the substance of TP's Words, where TF works through us and then CIG can be substantiated ...

Through the 3-year devotion of TM, Their thoughts became one, and we need inherit this through Cheon Shim Won year of red horse ... Truth will surely be revealed. you must know this people are the chosen and a nation Blessed by Heaven must attend Heaven ... and I earnestly hope for fulfilling ...

((Tried to get this above part better)) By HMM's (and needs to be our) Proclamation revealing the Existence of HMM, to liberate the sorrow of Heavenly Parent who had no choice but go the suffering path and establish statutes of both HF and HM, the opening of the path for us to follow ... We must mobilize SW, importance of life of attendance to show Her the result from being one with Her Direction with all mind and body, God and humankind like the cells of one body, is why the personal responsibility and habits must be those the same as CIG, through Cheon Shim Won earnest attendance being transformed, paying the indemnity for sin ... becoming mothers and fathers of sons and daughters who can enter Heaven realm, that we may then enter after them .. TPs don't tell us to enter but to have the pure sons and daughters who can enter in order for us to enter ... Heart of the victorious King Father and King Mother and we inherit that Heart and also be true parents after them with this H Heart, (not by ourselves, not without the Power of TF and HMM at Cheon Shim Won in our most earnest devotion ...

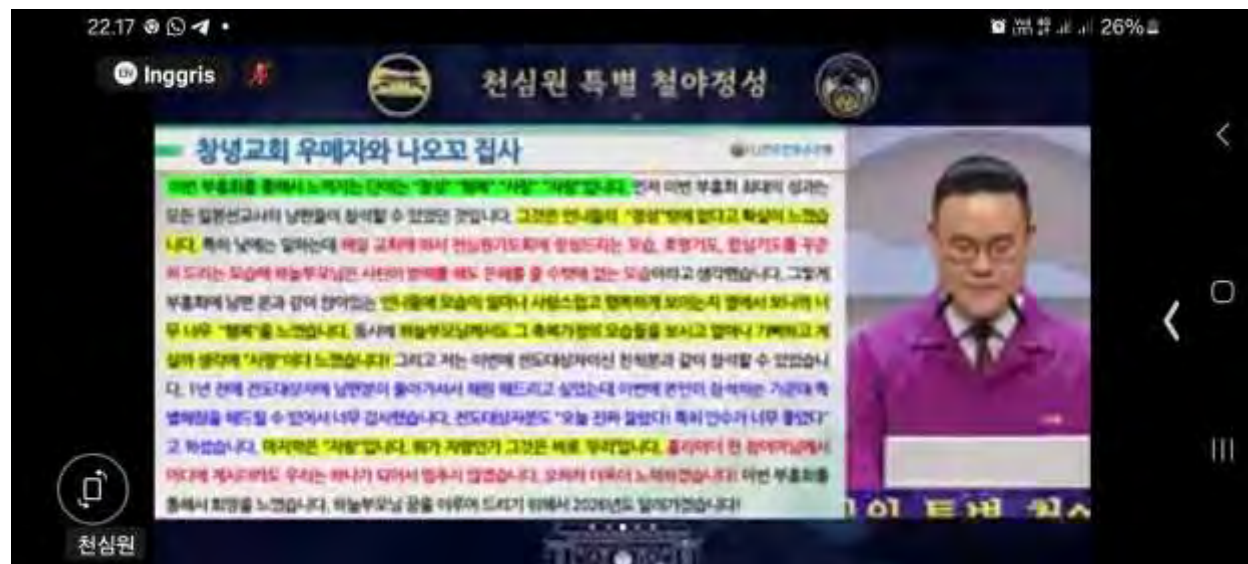

The 'cheonshim' ... centering on the 430 number, for resurrecting vertical and horizontal fallen natures ... carried out by adding faith upon faith and I cannot help confess that the 430 families was done 'conditionally' (done first awaiting true condition for it to follow) ... If we had truly become one and put our whole heart with TP's Whole Heart, us becoming the people who show true love heart wherever we are at any time ... conveying that more naturally when witnessing, every moment centering of the Heart of Heavenly Parent and TPs, the central hurting spirits would have been liberated and there would be no furth place for them in me, in my soul. Our failures to do so have formed the current wall of limitations and TM came to be in suffering of such a detention place ...

We must really become one with Cheon Shim Won as the only way to live, not just offer prayers but become the substance of the Love, not just the Words ... (not just intellectual inspiration but ourselves being the sincere, aware pursuit as one with Their Direction and Pursuit). That is when TF can mobilize SW and CIG will be substantiated and our own thoughts can be TF and TM's thoughts that are already One ... Cheon Shim Won is this Place. You must know these people truly are the chosen and advocate well for them to fulfill their responsibility.'

((He is saying to follow TM's every direction, be aware of and take TM's every Direction most seriously (far beyond our own preference) to help us BE the chosen people so that TM can be released. His dream showed that the bricks around Her have our faces. I need care most whether a brick has my face. She can be released as quickly as we are willing to expose our repentance, sacrifice our ways and habits of living in the world so far, our self-centeredness, our own thoughts as an identity we value, and truly inherit our Parents' Thoughts ... being the happy people who have Parents Who we want to fulfill nothing short of Heavenly Parent's earth and Heaven liberation for, happiest when we have ownership of Parents we are willing to live and die for (die to our fallen world selves for, die to fallen world joys for)... Prents of our own caring about ... caring and passion for Them incomparable to anything else ... and do devotions for that, pray to have experience for that ...))

A word 'chun gun chun ma' means worth a thousand pieces of gold (priceless meaning), which is when we truly become the treasure of CheonBo that actually opens the Era of CIG.

What is more important than running hard ((impressing others by how hard we run)), is the clear Direction we must run. It is only One Direction. It is the Direction of Holy Mother Han.

I pray that you become members who move forward with the Direction and purpose of HMM. That is the Direction where TF can work through us. Let us become the first people of this result, ourselves the people of this result that creates true, needed Cheon Shim Won result. (from HMM's every Direction, ((We must become the 'priesthood' like that)) substantializing as CIG true-love (vertically and horizontally 90% angled)) brothers and sisters comprising a whole of our Movement).

Like this red horse with clear purpose and direction and only one Direction of HMM ... And I pray that you will be members who move forward with every Direction of HMM and Direction that Father can work through us with mobilized SW and let us become a whole of our Movement like this ...

Break

Hoon Dok Hae

We who attend TPs are happy people. Although we are moving and shedding blood for the sake of the nation, it is not only for the nation but for the sake of the SW, to create one great family that can love one another and even exchange life across borders, one family where blood and life flows intermingling as one with Love. This is the Unification Thought. Sacrificing and overcoming oneself as core and bound to follow the path of Love. The Essence ... Therefore, religions tell us to sacrifice and serve.

It is because that is the way love goes. It is not about sacrificing and crying, but about rejoicing.

In an individual position, one must not stagger and collapse while carrying a world-level cross. Even if you collapse, you must collapse and/or die on the foundation of the family. This is the Unification Thought. Even if you receive all kinds of arrows and suffer all kinds of injustice, those arrows can become a pledge of H's Glory.

The UC has walked one step and two steps staggering while tightening its belt and holding its empty stomach and staring at the enemy's camp before its eyes.

Even a person in the world who has parents for whom they can say they are willing to die is a happy person. Whoever had a mother and father in the world whom you could love by risking your life, these are the Parents you could have since joining the UC and be a truly happy person.

That is because human beings are born in God's shimjeong, live in it and must pass away with God's Shimjeong. Those who do have it, can go to Heaven. Centering on these Parents, the UC can expand. If you go forward centering on yourself, instead of basing on yourself, you will perish. You will become like falling leaves in the Autumn wind.

Cheonshim won Choir

'Oh Moni Ma Tangu' 'Mother's Request'

Pres. Lee Gi-seong

Our Inheritors and Word Missionary Director and all around the world attend together in this Place

115th Day and Message:

TM alone for 115 days all by Herself and our tent is reduced to half and we are so sad about that ... but still we gather for TM ... She is the one opening the Gates of CIG and with our TF investing Her whole Life and opened the Gate of Haven and we offer our sincere heart for the truth revealed and that She gain freedom as soon as possible with one heart and spirit and will offering together ... (Pastor Song) and they are on behalf of everyone here ... unbearable days, but we must offer our heart and mind

In HyoJong Church we offered 100 wish papers and also in the Academy offering devotion Saturday and Sunday ... 43 bows, praise, devotion, 130 times chanting and 130 bowing and next day the same continues ... 22 times of 3-hour devotion continuously, praise, CY and 130 times longevity for TM, release TM and then one-heart resonance prayer ... special devotion by Yongsong trainees ongoing and it may move Heaven ...

Gathered tonight are ... piling up devotion

Testimony ... no times when did not shed tears and couldn't stop ... How can we do this direct governance taught by Cheon Shim Won prayer ... Just like TM said, 'Love your children as much as You want, because Heavenly Parent and TPs are in complete unity, True Love of God is the Essence, and centering on it is the True Love of Heavenly Parent and TPs, and that is the Essence (not our individual thoughts) ... The individual of the true love of Heavenly Parent and TPs ... This first gen member unconsciously, he is crying and shivering ... The latter becomes the first ... The Direct Governance is widely open and begins with an individual and for the family it is widely open.

Still in this time of Noah's flood judgment, am I still in the OTA or NTA, still waiting for the return of Jesus, age of still just looking at TF. Even Christians today, they criticize because they became like the gathering of just old people. They ask even in Buddhism, 'How to find the young people' We were taught this rational people... How to plant the word of God. Only our Word has conviction and confidence to witness to them and gather them for the future where we can praise Heavenly Parent and TPs ...

The first gen brother, through his testimony, we can gain courage and conviction and realization that we must study TPs Words continually to witness the youth. He was so sad not to be in the time when TF was with us, but TM is still with us, and time passes quickly, but we could not call Them our Mother sincerely and 2nd gen upon the lyrics of the praise, the time to attend Father is passed, but we also could not attend TM truly valuing Her Essence... and now we must...

He 1st gen knows it makes sense that he will be opposed, and opposed by his parents, like PL himself, and when I went witnessing they would go out and chase after me and bring me back to my house, and I would go out again, and they would say, 'You are not my son.' This kind of passion needs to be what I can share in testimony when I am older. With this heart Heaven can finally work through you ... and let us applaud this mother who witnessed to him with true love he could recognize and personally feel consistently ...

When International trainees offer praise, you may think, why are they singing, they are not good enough, but because they practice so much and when on the stage, they receive grace and the parents are so happy for seeing them there.

testimony of their hearts moved by the praise and the lyrics ... finally inheriting this Heart of Heaven through these Cheon Shim Won songs, this praise and shivering and shaking their body and their parents so happy and so lucky. So, send your sons and daughter to this Workshop here where Heaven absolutely responds to sincere prayer ... shouting prayer ... This is an indescribable hard time in Japan, but still they send their sons and daughter here ... applause for them offering devotion tonight ...

I Gwon U gave report ... Year of red horse is fiery heart ... Let us become a red horse to run endlessly ... All here with the purple jackets are the red horses and let us run forward ...

He saw the vision of TM incarcerated in the small cell and the bricks were the BFs who must change from these bricks of insistent fallen nature ... not following TM's Direction, not valuing Her Essence ...

Hoon Dok Hae says even if you collapse and die, you must die for these Value Parents (that is you true happiness to have Parents like this you can really want to die for, knowing the Love of our TPs and Heavenly Parent) These are the words of special missionary who offered benediction last night ... and we brought it to repeat because it so touching ...

Have you ever had a father or mother in the world you could love by risking your life, that is a happy person ... Because human beings are born and must live with God's Shimjeong. If you go forward instead of basing yourself on self, even we risk our lives to die for our Parents, when we do CY yoksa, after two cycles offer 'ty chin ga' the song of risking our lives for Parents ... Jesus offered His Life to forgive our sins through his true love and willing to go to the cross by our failures as chosen people ... Not just TM sacrificing for us, but we must be the ones for our own mistakes. ...

And HeungJN upon hearing these words will work through us tonight and let us offer chanting and devotions sincerely tonight with this heart ...

Calling out / Fight Song

Chanting

Prayer and Praise

precious time to gather our whole hearts together, truly, truly grateful on the 115th Day that TM's sacrifice continues after also a Lifetime of striving for the peace of humankind, day and night working for the new history of CIG and proclaiming the statutes of TP's the focal point when Heavenly Parent's Dream is realized ... Heavenly Parent, please work that these values may be revealed to all people ...

In this land of Korea to which the TPs were sent let only the Owner's Glory be revealed and this nation repent and be the Homeland of chosen people one with TPs ... earnestly for TM
