Bow and Pledge #7

Opening prayer of gratitude

How much has it been difficult, sending central figures with constant failures of our portion of responsibility and watching the OBD suffering, and forgiving even you were betrayed and those who hated You... Please work that we may become the substance of true love that protects our True Mother. Following the heart of Shimjeong and let us cry out at the top of our lungs tonight that our Mother may return as quickly as possible, earnest hoping and desiring for the well being and physical health of our Mother who always prays for us despite Her harsh conditions and for our brother and sisters at the DC tonight...

True Mother Branch Tour

Hyo Jeong Building

devotion and love for our brothers and sister, a spiritual revolution and resurrection is continuing

'I'm Alive'

Kim myung wook

Heavenly Parent and True Parents and everyone is here in Mozambique...

True Mother knew we have many problems and says for us to resurrect with the ansu... We have to fill the empty space where the evil spirits went out? We need to pour many devotions so that the Heart of Heavenly Parent's is filled in this place where the spirits went out... after their liberation...

telling the brother to say, 'Holy Mother Han' over and over and open his eyes... and then he is okay... 'I still have something here in my chest' 'That is a central hurting spirit'

families hugging, revived... She is leaving one place with tears and we see so much spirit to wave her goodbye...

now more spirit obsessions... And they are holding her down... while she screams... and they have her say, 'Holy Mother Han' and they have her write the names of the central hurting spirits in her body... Branch Leader is there watching

'So sorry, how resentful are you because my ancestors killed you. Don't worry, I will liberate you. You will go to the SW Ws in the SW and 'Thank you' 'Holy Mother Han, I love you.' HyoJN, HeungJN, kamsahamnida... and she is slapping her... 'HyoJN kamsahamnida...'

big room doing ansu so many there... one is possessed collapsed on the floor... yelling and two of them are clapping while one holds the head... then he is able to sit in the chair and they ansu hi... and the children do ansu clapping... They were T-and sincerely efforting to clap themselves all over... and pray... shirts with MHH's Image and Branch Leader Sakua holding the African instrument.....

Kim myung wook... 'You are now much better' Rev. Sakua, with Heavenly Parent, HMM, so many substantial works of miracles taking place and members spiritually and physically with family relations, there are healings and foot washing ceremony too, they could reconcile and in West Africa, we will keep it up for our HMM. Please come back to the Palace...

Testimony

Chon Ys Hi

I am trainee of the 18th spiritual Workshop and daughter

I think of how I would be living in the future if not having come to this Workshop... As a seonghw student, I enjoyed a life of faith and continued attending church while continuing in a medical education and with my academic focus, began to drift and then thought I would never again have the chance to attend the Workshop for so long and gain what would never be shaken and my mother said 'Whatever path you take in the future, I hope you will never be shaken from Heavenly Parent and True Parents... Realized something of the shimjeong of Heavenly Parent Who loved Jesus and had to go through such a way of failure of chosen...

I offered devotion and climbed to my favorite Hyo Jeong tree and with countless prayers, could then realize the incredibly sad shimjeong of Heavenly Parent and True Mother searching for Their children and heard the words, 'We must bring joy to Mother' and contemplated how to live this year, and what kind of joy and strength could I offer in these times. Some days so frustrated and felt to engage in public ministry and focus only on Mother, but also drawn to dreams and plans, but worried about it. Before my dream existed, there was Heavenly Parent's dream and this thought came, so because of this, I felt I could not live only for my own goals and offering devotion for Mother the key words, 'Witnessing and Christianity' came to mind...

I realize the joy to Mother I could do was witnessing to Christians, and remembered a friend who called me late at night and spoke of the Unification Church as if it were a cult, and I had debate with that friend all night long... Then they said they wanted to come to our church, and I was so hopeful that if I really listen and witness to them, they will be revived. They are human beings just like me.

Looking at the Course our True Parents have walked, such concern to jump into the Word now, so determined first to study more and witness continuously, no matter what the result might be and give joy to Mother and become the best in my field through devotion. Heavenly Parent wants me to be joyful in preparing for my own goals as well, so determined then to do both.

Dream to work in the Emergency Room and be a firefighter who saves both spiritual and physical lives, living while boldly testifying our True Mother. Grateful to be called here and I will save many, many lives and bring joy to Parents...

'I Thank God'

Wandering into the night

Wanting a place to hide this wearied soul... this bag of bones

I tried with all my might, but I just can't win the fight, slowly drifting... a vagabond

I can't deny what I see
no choice but to believe
My doubts are burning
like ashes in the wind
so, so long to my old friends
burning in bitterness

You can just keep them moving
for you ain't welcome here
(in my heart)
You saved my soul
The wayward son has found his way back home...

Taiwan brother

Yon Ren Sen

Good evening brother and sisters from all around the world

gratitude.

from Taiwan, one son and one daughter Blessed couple... Looking back I must be filled with only gratitude Heavenly Parent and True Parents and my family staying by my side with love, and could participate 2 WSs last year and now coming for the 3rd time and precious grace of serving as the coordinator and each and every step of these processes is deeply engraved in my heart...

Before participating last year so exhausted in mind and body and work not going well and relation with family always tense and I even fell asleep while standing up doing CY praise...

One day I had asthma and went to a hospital and chest pain and tinnitus and fatigue every day, lacked the will to do anything. My doctor told me, 'You must be this way for the rest of you life and rely on the medicine.'

I thank the branch leader of Shinchang Church for concerning about me and my wife the same loving me and never giving up and the family calling out for me and giving me ansu in prayer times. even though my wife was carrying the financial difficulties alone, she supported me without complaint and sent me to the Workshop...

However, my condition did not improve, but got worse and I also caught a cold, but no fever, and then slightly better but then worse again... and one thing I could not forget, at the moment I offered praise to True Mother, the cough disappeared completely and I had an amazing experience never to forget.

One more period affected me.... I knew I should love True Mother and understood that She loves us too, but never felt that love with all my heart. On the morning of July 18, 2025 when I heard that True Mother had Her Residence raided, my chest closed and filled with pain and sadness, and was Mother ever safe now...

As a child, I felt that could not do anything, no strength to protect Her and the helplessness was beyond my imagination, but realized this must be the heart of loving Mother and every time I offered praise I could feel myself connecting more deeply with True Mother's Heart...

After the Workshop, returning to Taiwan the problems that plagued me for so long, improved little by little, and the doctor affirmed it and even the tinnitus that persisted noticeably improved...

Not only that, but relation with my children is noticeably better and we watch all the lectures and not only preparing the lunchboxes and things so that my wife is not so exhausted after work. When I wear the purple jacket and participate in the Cheon Shim Won, my sleepiness decreased significantly and I'm able to participate in the prayer and praise...

Furthermore, my wife found a job for me that I never thought of but that fits me perfectly as a professional organizer. Although I took only one step forward, I felt such joy and gratitude for the grace Heavenly Parent and True Parents have bestowed upon me...

Last year I had the opportunity to visit the DC Center with my brothers and sisters to protect True Mother and was able to feel anew the preciousness of BFs and the value of each and every one, and the warm heart of the family becoming one and being together. Even when we were cold and exhausted, we continued because we believed it would not be in vein and the release would surely some joyfully and that fills my heart. applause

During 40-day, I felt the grace come to me and stopped complaining and instead think it's so good if I can do a little more and forgot the pain in my body and no more thought that I cannot endure like this and able to sleep much better than before...

At the same time learning the heart of repentance. Why could I offer more devotion before, only thinking of myself and causing pain to my family... and lacking gratitude and full of complaints and anger... Walking together with brothers and sister, able to reset myself again and my body and soul increasingly renewed and deeply grateful and will now love myself with the same heart that True Mother loves me and will sincerely love all my brothers and sisters...

Lastly, I thank Heavenly Parent and True Parents and all who prayed for me and my wife always keeping by my side...Heavenly Parent and True Parents, I love You...

HJ Report

Kim myung wok

Today, 1,479th devotion, I truly respect you and I would like to convey my report about the West Africa Branch... How much True Parents loved Africa and poured Her hard work in old age, so that they would convey the result. The Gate of Cheon Il Guk is open, and if we want to meet True Father, come to Cheon Shim Won... This is the amazing work of grace because of this Cheon Shim Won Providence...

So, here is the media staff and our sister in the back, Chul su Him... So, in Africa there are no Asians. It might have been dangerous if only two ladies went there maybe so dangerous and this man was so gentle to hold our bags, and grateful for him...

And True Mother prayd, 'Your OBD has come here and in the Name of True Parents we pray the liberation and release of spirits who had been filled with resentment in their souls, so that they can become a light and lamp before the world.

True Mother's earnest benediction at Goree Island has saved this Africa and how much did True Mother love Africa? Such a far off place, True Mother went there, and it was an amazing work of grace for our True Mother... applause

So, I offered the... July 28, 2024 and the HJ Offering papers written could be conducted... and the African cleansing to take place with great grace, not only spiritual grace but cleansing of their souls, and the HJ Offering papers, the staff in my team have gathered for praise and grace for H Africa, and how to gather this amount of money from their budgets, I was surprised and our Chairman Lee Gi-seong told us to share this grace and he was telling me I should go to Africa to feel the love of Heavenly Parent and True Parents.... (Hard to hear interpreter over her voice that is louder) What happened was that Chairman Lee and Director Chung, when they went, there were 28 people... and people were falling possessed, and it was shocking, and PL was telling me there are many phenomenas and spiritual attack...

And they speak Portugese, because they were colonized by Portugal, and enslaved for 500 years and so many resentful spirits. This kept in my head and the mix with diverse cultures and tight, intense schedule and was thinking I wanted to tour, but was told there was nothing to see in this country, but even in this barren land, there was a church and heritage of our Movement, so applause for Heavenly Parent and True Parents.

When I went this unpaved path for more than an hour, we went to the Mozambique Church and the family

is very strong on the internet and they were filled with jeong, horizontal love and so lovely people and all staff and members came to welcome us, 20 people in the truck... It was such a harsh situation looking at this vehicle, tough to be there... So, this CheonBo took it place translating Korean to English to Portugese... and this two times of translation, but even so, they were so moved and touched, these people so pure and this man Palaco, he was a pure, beautiful man, national leader of Mozambique and I was so happy to meet him in this place, the righteous who translated the lecture, and he speaks the fluent Korean and into English and English to Portugese, and this is a staff member of the branch and applause for them so essential to this tour.

And the amazing work of Cheon Shim Won and CY and the liberations, amazing things. Whenever I watched them, they were fiercely intense. We see 2nd gens in CP that are dozing off when doing CY, but the Africans do it so passionately, like risking their lives, clearing their spirits and offering devotion. I wanted also to give a lecture on family relationship, and I had to lesson it to less messages, but I actually delivered two lectures and our Branch Leader is not worrying, not water, mosquitos, 'Don't worry, just wait and everything will be okay'. He's such a type of man, and I was thinking that after two years, Heaven trained them to become such easy-going man. applause for his hard work...

I was thinking how they speak such fluent English and so loving these people. And in Africa the is the situation of one man marrying many woman and thinking, 'Is it a patriarchal country?' and 'Yes' but how is this happening. This does not happen in Korea. Father told us there is gender equality, and the people were quite surprised with this. This family counseling were quite touching and moving for them and many couples joined.

In Korea, there were only wives often, but in Zambia, women and wives together, and look at this kid, so pretty. I cannot bear myself. And the media staff took beautiful video and pictures... If we take pictures, we cannot make it like this. When we went to the church, we cannot... not nothing so went to the restaurant but so expensive, maybe we can take it another time later... I took it but sorry it was actually so bad.. Even if I make it myself, I can make it better and I was telling my team to buy some ingredients and I would just stop and make it and I brought the tachiga Korean food she made) because I wanted to make it for the branch president and then there was no tofu...

So, this kimchi was so fertilized and sour, but we just took it and bought some noodle for more Korean food... and bought the mushroom but it was actually seaweed and no beef here for one dish, but there was chicken instead and we made that soup and an amazing memory, going in the middle of my lecture to cook that and the people were so slow cutting the ingredients and I was so fast. I was not in my house and everything was strange, but still the food was good and the memory was good and there was Cheongshim inherited...

So we have two Academy family in Mozambique H Africa Branch and I taught them ansu on the spot and they were the ones who gave it to these African people... and I was thinking how they have a kind of order, so when I give them ansu, how could I hold onto their order, but I found out there's no order, because of their pure heart and spirit, I never felt an order from these people and gave it to 70 people, quite spiritual and tough to show what happens spiritually, so many things...

This man since five years old could not kneel or bow and so many pains, that I came to notice they lack nutrients and often get sick. There are many spiritual things... so this man receiving ansu, a tribal leader went inside and we continued, and I told him to repeat 'Holy Mother Han'!...instead of saying, 'Oh my God.'

testimony... gratitude... indigestion pain and with ansu the reaction... She gave me the ansu and my body

felt light and the pain was disappeared... TY so much Heavenly Parent and HMM, I sincerely thank you 'Obligato'

and this old woman could hardly walk the stairs... now can run up and down... and running...

So, this family-centered country, we were sharing tears and on the way to the airport, they were so good to us and we wanted to treat them with a meal, and the BF members went together and these people came up to us and treated the meal saying we should treat and they paid, and it was full of love...

The true love of our Heavenly Parent and True Parents... amazing love... and then went to the DRC and immigration like more difficult than to enter the Heaven. If you see the history, they were colonized by Belgium and used more than 200 languages, and we arrived in Congo quite late, like 1am, and in the airport of DRC... we were so happy that there was an air conditioner, but as soon as turn it on, no fan, no AC and no shower and the sweat dripping... and electricity back but black out again and he went to the sofa and was saying Kamsahamnida, and singing and we were saying that and TY HeungJN, HyoJN, and playing HyoJN's song, and then closing his eyes and I was telling him I need the electricity...

And our brother beating after him, Kamsahamnida and it was contagious and when the electricity was back everybody was singing it virally that day and going back to the sleeping quarters, the electric cut off again and they brought this bucket and we did showers with that and made an amazing memory and our members there still ongoing prayer and Workshop still with these conditions and where we did it was full of dusk, and you have to wear pants because so many mosquitos. And I got bitten and look at these very unique brothers and sister who spent three Workshop days... and look at this young 2nd and 3rd gen.

So, we should call our brother photographer... How can he make this kind of photo and we were supposed to share and see this mother and child... We did a leaders Workshop for core members, and 'we respect you and hope they become a truly wonderful person while being educated...' she said... So since the child is 2nd gen, please apply for more liberation of central spirits and sharing about enhancement of their relationship and he rushed over and hugs her... and they kiss...

This man was rejecting at first... our mother Maria was so touched and former national leader was so respectful... and they hug Kim myung wok and national leader and he asked, 'Can I hug you?' nd she opens her arms to him... so the present nationa leader needs to inherit the spirit of the former, so please let us reconcile and hug each other... and they do and the wives hug each other... so that you guys can forgive, love and unite...

The former national leader was such a respected man that so many loved him, and it might have been quite tough to receive a new national leader, but the former said, 'We will serve a 2nd gen national leader' and tough for the present to approach the former, but it was a moment of passionate time for this approach and they are good at kissing. We are Asian, and we don't know where to put our gaze at, but these are amazing people and we gave special ansu and there was a blackout, but we continued and the building, the construction still ongoing and even we have the university run by the DHQ and they are still giving lectures in the university.

So True Father told us that there are about 3,320 central spirits each of us on average and also the BCFs and True Mother said all the families have to attend 4 times a year to liberate them..

and we can see what happened to the one girl (also shown in the video earlier) and for her I needed ten more people... and I was surprised because this person doesn't speak Korean but was saying HyoJN and HeungJN, I have so many dark spirits and saying Hannimanna which means 'I have so many resentments'

and I felt HyoJN was coming and working and I told her to liberate ten spirits and they were writing the names that were shocking and hiding in me... and then we went to CY yoksa ad to see how she was..... Since the child is 2nd gen please do the liberation on behalf of the church and they applied for 3 but I said you need to do ten more...

Then try for the whole family giving ansu and Daemo nim is with you... and look at this sister afterward... so much brighter and the work of Substantial Holy Spirit unfolded here in DMC and we were on the road, and they were not keeping the lines but always crossing the lines, and how many years will it be to restore this country, and we went on a tour to see this country... and the amazing work let the whole Africa to realize this grace to open up the whole history to this lonely man and looking at them is tough how for decades to save this country, one in heart with Dr. Kadima and Rev. Sakua the light will be bestowed upon this land, and I hope the leaders can serve and Pres. Lee and looking at this land, how can this land be unfolded with the ideology and teaching of our True Parents.

Also, Dr. Kadima and Rev. Sakua pouring out their investment, please work through us. And True Mother has proclaimed the new era and is still undergoing this suffering, we hope She will quickly be back to the Palace and on the foundation here, I hope the amazing work of Heaven will be unfolded. I hope that in this land of DRC the amazing work of Heavenly Parent and True Parents will be spread out and the ongoing construction will finally be finished and one of our members working in immigration will help us finish this branch tour.

And we went to the restaurant and look at this mask looking like Rev. Sakua. Pres Lee, there's a reason True Mother Herself sent him and he had malaria 8 times and let's applause encourage him... thank him...

With our 40-day Workshop trainees we heard this man 'I couldn't go out from under the covers, and still my husband takes care of the children so well... since I work and he does all the work and takes out the trash and you already earned 2 million won and talking about that the wife should give him a lot of the pocket money and buy the car... I told him there is nothing he cannot do and encourage him... and even at first he was saying 'No' but now increasing his bows and working so hard on it and now doing 70 and 200 bows and he must come every day even after Workshop and that is your homework and until keep on all the way until you get better, and with the heart that 'I cannot live until I am getting better'

There are so many couples joining the Workshop. There were members who could not do even one bow, and the wives so surprised for how the husband completely changed. And after this Workshop, their relationship so enhanced... applause

Love solves all things... Given by President Lee this picture and 'I will do my best to continue with love and I hope Mother will be consoled and comforted with my report...

Prayer and Praise

Most Kim Yong Hee said about giving happiness to the people we witness to and songs being the all-important way to reach people... so many amazing songs created anew for after Entrance... and when pure waters sing them it's amazing...

Korean Cheon Shim Won said we are truly happy when we have Parents we would die in place of... filial piety begins with looking for and doing the True Parents Direction because Their joy or sorrow is our own true joy or sorrow respected Heavenly Parent

Beloved, Victory True Parents HEH

On this 116th day of Mother's Detention... We gather at the DC where Mother is in a narrow and cold place in the DC and She endures and only concerns for the nation and Her children to love their faith and please comfort the Heart of our True Mother.

Heavenly Parent that on the condition of our Mother's suffering, you are working to liberate both the Cain and Abel nations are involved in a fierce war and Heaven must emerge victorious. We know that since FD, Heavenly Parent has been working in the realm of direct dominion, and if we still fail to be filial, please give us an immediate indemnity to wake up and realize our faults and break through... Through the hardships and pain, please refine us. Is there anyone who still blames others and does not conform with the chosen responsible life.

True Father, HeungJN and HyoJN please work that we might repent and pierce through the difficult

suffering and be victorious in 2026 and 2027... Let our devotions be the spark that opens blind eyes and hearts so that members can be as one. Anyone suffering through personal difficulty, we ask Your Guidance to them.
