The 1480th Tianxin Garden is sincere all night

Summary

It's been a long way to 1480 times that can't come without the work of Heavenly Parents. With difficulties that both body and soul can't even imagine, I have walked one step or two until today. You can only know the value of seijin by dedicating more than 1095 days of the Imperial Tomb without taking a single day off. Mother built Tenshin-bi with 1095 days of devotion, without failing a single day, even when it rained and snowed in Hongo-sakura, saying, 'As perfect sincerity, Tenshin-ni must be made like Tenshin-chi.' will be the most important provision agency. "and told. In your father's office, it is said that you should dedicate Tenshinsai Seishin as if you do.

Fathers and mothers who make a stream as a drop of water, and become rivers toward the sea, gradually

becoming a large group of people in prayer. It is your mother's wish that we may move the throne of heaven with sincerity and prayer to the blind people of this world, and bring them to the unity of North and South. Our lack of diligence can't serve. The harder your mother is the bigger message comes down. There is still a lack of integrity, and while devoting all sincerity, we must follow the path where we will bow down and die. When you devote your sincerity in that position, heavenly affairs occur. It is said that one must have a heart to give their all and devote themselves. Seeing nearly 1,000 students gathering and praising them really gives strength even in the midst of pain. Even your mother in the detention center, she would be empowered to hear that people are so full of heat that there is no place to sleep in Tenshinzu.

For us to receive the salvation of the spiritual flesh, there must be a lot of diligence. **EVEN IF WE BLESS ALL OUR VERTICAL ANCESTORS, WE HAVE THE FINAL MISSION TO RESURRECT THOSE WHO WILL REVIVE THE REVIVAL.** In Buddhism, they just preach contour and go round and round. Those who have such power and phase transcending time and place are the true fathers of heaven and earth. Once you know that, you will soon understand how embarrassing it is to quit or sue the church for saying it is hard. Young people can't sit still, they learn to love and evangelize with their lives.

The root of faith that will not waver no matter what must be brought down to the spirit of true fathers. Two generations who have taken root in faith have no trouble in their lives, nor will they cut their own lives. Two generations who have rooted in faith need to become the best in each field. Thank you to all those who are serving their hearts in front of the detention centers today, establishing their faith upon faith, and praying that today's prayers will be transmitted to heaven, and opening wide the gates of the spirit world.
