Opening prayer of gratitude

You established us before Your Will, taught us the standing as children... Please engraft the shimjeong in us and representation of our Heavenly Parent. Please guide us to mature and represent and carry out what is entrusted to us and overcome trials and emerge victorious, protecting this nation You reared as chosen, and the politicians and all citizens realize the Will and the work as chosen, and may Japan Mother nation become one with HMH, True Mother. Please work so that we may gather the righteous people and become the 'okdongda' nation responsible for the Providence.

We will correctly testify and shout to all humankind that True Parents are the Ones Who have walked Their entire Life shedding BS and Ts, with single-hearted devotion to achieve the salvation of humankind and the Will of Heavenly Parent. As we attend Them as the Central Axis and march boldly, please grant us Heaven's amazing power and wisdom. Please respond to the prayers of your earnest children from across the world who are crying out in this hour determining to fulfill the Will of loyalty and filial piety, and work so that they may offer the results of victory for Heaven in order to achieve that Heaven realm of peace, that Will which Heaven has so greatly desired.

Please work so that all the prepared multitudes and righteous people who are offering devotion may be gathered and offered as one centering on this Cheon Shim Won. Earnestly wishing for the health and long Life of our True Mother...

respected and beloved leaders and members around the world

Mother has said many good things will happen in the New Year, so please work hard

Since Abe assassination, we suffered many things, but have had numerous activities, the street speaking inspired by members not leaders... and the public official who determined to make a new start together with HMM... after fasting and street speaking...

I began distributing the Segue... I would sometimes be cursed out, but not long after street speaking with hand-made banners and proclaiming the crime of confinements... To facilitate we were supported and senior families began to support and spread and the canvassing and butterfly unit was formed... Until 2026 I've done this street activities every day and wherever I traveled, even inside airplanes When I went to the countryside, I gave speeches at the plazas of those areas and at CP at the Tree of Love plaza... I wore my sash and shouted the truth as if I myself was a moving billboard...

I've completed 7 fasts of 3 days 33 times and especially since Mother in prison, fasting in the cycle of 3 days, resting for only one day and fasting again. When I think about the situation Mother is in, my heart is too sad and I want to do whatever I can... My fasting has exceeded 120 days. I will continue until the day the Truth is revealed...

Director Katahawa and the members conducting the canvassing activities throughout the country...

Kiroki Mishikani...

until my middle school years, I was a cold person, even coming to know love I was neglectant and indifferent to Mother's Heart... Please forgive my inadequacy in trying more to know Your Heart, and when praying like this I heard Mother's Voice saying, 'Thank you' during the Cheon Shim Won vigil devotion. Tears flowed at Mother's Love which embraces even someone as lacking as me.

And I pledge that from now on I will not lead a faith that seeks Heaven only when needed but a life of always living together with True Parents.

Furthermore, as a public official, I had a question that I struggled with for over two years, 'What is

shimjeong of salvation?' And during the testimony session, as I realized for the first time the Tears of Blood of Heavenly Parent, Who has endured and endured while looking at the state of humankind, which is like hell without even being able to cry, I finally found the answer...

'I will surely save humankind. If all of humankind is not saved, how can Mother ever rest in peace?' As this prayer burst out of me unconsciously, a burning heart, the shimjeong of salvation burst from deep within my soul, a desire to never let Mother cry again, and liberate Her by saving humankind and establishing true families as soon as possible.

From now on, I will not forget Parents for a single moment, practicing a life of constant conversation and communication. Embracing the heart of salvation, I will go forward for all my life, attending for 2nd and 3rd gen and all members becoming true families... applause of encouragement that he may be victorious as a 2nd gen public official...

H Japan will attend HMH and become one and unwaveringly achieve the dream of the Monarch Butterfly team.

Director Kim Gi Hoon

With all of our hearts united for Mother's swift release, I'd like to give my report.

First about the fourth spiritual academy, upon the completion of their 40-day Workshop volunteering here and conducting their witnessing activities...

The 4th spirituality Workshop, with much of your devotion and from the Workshop Center in Korea, were able to offer the victory of completion to True Mother, and with the Inheritors and True Mother, we'd like to share their words given on a pilgrimage and a report of our witnessing activities.

Our first 4th H America spirituality participants here, everyone through Hyo Jeong resonance prayer conditions felt the great spiritual works...

After 40-day, we all with one heart and will went to the holy sites, natural canyons and Bedrock, and were able to walk after the footprints of True Parents and Inheritors also walked. Without skipping a day, through busking and witnessing... and on Fremont St, we have a few cultural centers of the FF and we used these to introduce Who HMH True Mother is and Her Work and the situation of Her and religious freedom and being one with the leaders, we testified for 40 days and able to have a precious time to offer this as victory to Heaven.

True Mother, Her Heart and worldwide activities were made into a brochure and at a Korean night, we will share the Korean food the Academy prepared and there will also be Christian ministers joining as well...

Testimony

Yomu Jun of the 4th Spiritual Academy Corps... I kept thinking what is witnessing? Rather than a heart to persuade, I realized a heart to understand the other and the pain and experience behind their words, must come first...

While calling out names of every academy member, I prayed that at least one could bear fruit through this journey. As the center of Providence with True Mother taking all R, I realized I must have the attitude, not to be shaken by results, but to keep going... is the true standard of victory.

As the captain, it was a time I could experience the Heart of True Parents that I thought I knew, but standing actually moving and with my physical body is necessary to understand... One day after not being able to have a proper conversation, at the end I was able to have a short conversation, and when not able my heart inside was so much pain like the pain of Heavenly Parent Who waited 6,000 years and a profound sorrow consumed me...

One contact, one conversation could not be taken for granted... And Heaven, how much did Heaven work to bring one child?

'We want to speak out for the situation of Dr. Hak Ja Han who spent Her whole Life dedicated to Peace and this song is dedicated to Her. It's called, 'Holy Mother Han'

THIS IS IT! (see video below):

((Thank you Academy volunteers to follow through as Mother said that arts, music, song lyrics, lyrics of newly created songs, after Entrance songs, popular songs only after updating lyrics sung by holy waters, dance forms of entertainment and joyful and sincere, consistency of public service witness showing Mother's True-Love Heart in us for the people, is the way to reach people's hearts... rooted, protected results for leaders follow because of them 'together' with One Parent Center... and all taught and attracted together with them, mutuality of individual hearts' creativity following Mother's Heart and Direction... any opposition to Mother's Direction leaves room for blocking or invading results...)))

'Faith can light the lamp of hope in a person's heart. It can transform this world into a peaceful one. Faith becomes the driving force that can create love'

'The reason I thought to stand here in this place is because I cannot forget the love and the people who saved me in the Unification Church and the FF. I want to tell you that it is not fake but real. And I want to prove it to myself as well.'

'The voice of the 2nd generation member of the FF, I came here because I truly want to protect the freedom of faith in Japan. It broke my heart and upset me so much that the Unification Church is being misunderstood. Therefore, I would like to speak my honest feelings here.'

'I hope people will stop denying, without knowing anything, the lives of my father and mother and the members of the FF, as well as Rev. Moon and Dr. Hak Ja Han, Who walked the path of sacrifice, even at the risk of Their Lives.'

'The FF Church is such a warm place that we share with people precious to us.'

'There are members of the FF in every country. What I commonly felt while looking at them, is that the reason why we work so hard is because we long for and love our neighbors through the Eyes of God. And that is our driving force.'

'In my middle school life, I faced discrimination because I had Japanese blood mixed in, and because I had Korean blood mixed in, and because I was a person of the FF. However, what I learned in the FF is not to decimate, even if countries, languages or religions are different, but that

the righteous life is to love those people even more. '

'I know God doesn't give up on us, and God sent me to share what true love means, and what one family under God means. And for me, one of those people are Rev. Sun Myung Moon and Dr. Hak Ja Han Moon.'

'They taught me that if I feel sadness or get hurt, God is a Parent Who feels that pain and sadness'

'Love is something that gives Spirit, that gives and receives and that you can actually follow to do, to realize and not have any regrets.'

'The teachings of the FF taught us not to start from hating each other but from loving each other, beginning with the heart of mutual love. Through those teachings, my belief.'

'My dark skin is my individuality and not a flaw. I believe God gave it to me, so that I could use this individuality, not just for Japan but for the world.'

'The fathers and mothers who have practiced faith in the family federation have devoted their entire lives. They were not brainwashed. They purely and simply wished for world peace, for their children to live happy lives, and to live in a happy world.'

'My family was a very poor family, but I feel now that my heart is not poor.'

'So, when people ask me whether I'm happy to be born in this church, then the answer is 'Yes.' Yes? not because it is the easiest path, but because it is the happiest.'

'I want to move forward with the thought that I want to be (tears) the first to fulfill God's Wish.'

'I'm not standing here because I am forced by someone, but because I am a Japanese person who wants to achieve the ideal world together with Rev. Sun Myung Moon and Dr. Hak Ja Han.'

'Because I want to deliver the voice of truth, I'm here to appeal before you, with courage.'

'Faith is a wonderful thing, and the FF is by no means an organization that should be dissolved.'

'We will never give up in the future. The FF is a wonderful religion, a religious organization that can lead the world as one family. Our N.A.B.I. will not give up, and will continue to deliver the voice of the 2nd generation to the world.'

year end assembly at the end of last year in Sangmon area. 50 and sometimes 100 came... We started our youth activities a year ago with much devotion... There was amazing result already prepared by Heavenly Parent... Mr. Uno leading our CY team and Director of ansu team was there and all were enthusiastic, genuinely... even dancing... and loved the song and entertainment... We will continue until Mother's Han is fully resolved...

testimony about starting to understand her mother's pain and as also her own... no longer to compare her to other families and that she was wrong, arguing back at her as I thought was right at the time... My life changed through Cheon Shim Won vigil with my father... I realized the bad points in myself... even there was a vague part of still not understanding each other, but Mother's Life began to flow through me, and the Image of Mother of such sacrifice Her entire Life remains...

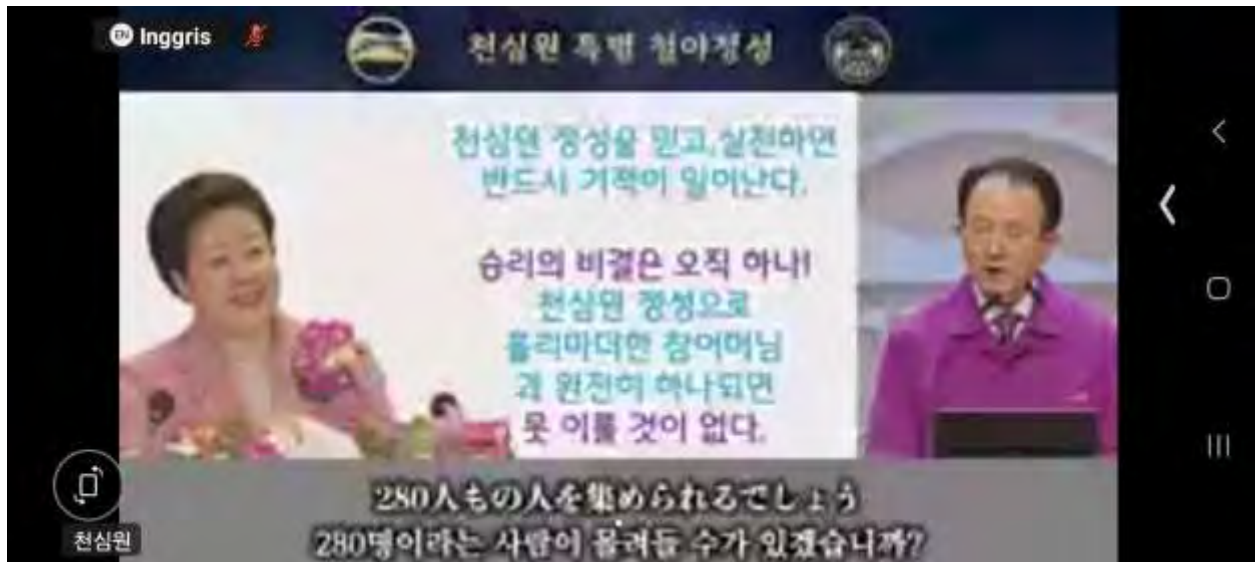

The Epic of Korean history and Japan marrying into them but little of Korean married into Japanese... I realized that True Mother had come alone from Korea to marry into Japan, the enemy nation and how much determination when She could not speak to people because of cultural differences, and my mother was always bright and I thought she was fine, but only now have I realized that deep heart of my own physical mother, and because she did everything so quickly, I took it for granted, and even with skills, she worked hard to learn Japanese cooking, and so happy if I said it was so good.

My mother told us to always repay good... I was able to mature as a human being because of this... I had difficulty to have to break my Blessing. The hardest moments, my mother was always the one absolutely at my side and only said bright things to me, like it's okay, you are a wonderful woman.' And because of that I could work hard and find my present spouse... She suffered to give birth to me and raise me. How to bear my past when I could not be honest nor filial to my parents... It has become a han for me.

Mom, you were hurt a lot because of me, weren't you. I love you so much, and thank you, mom. A mom is like that who stands alone to lead us and blocks every storm. We think she can just live that way because she is a mom... and she supported my father, a public official who prioritized the will, and I saw how many members were saved by my mother's deep love and I'm truly proud of her now. Even before I felt that the AG ancestors were protecting me...

Only now, finally have I come to know the amazing value of my parents' devotion. Please worry not about us any more, but take care of yourself...

Sometimes, we don't take care of the birthdays among us, but True Mother attended to each one, remembering the names of countless leaders, even giving them new names and wishing for good fortune to be with them.

I am You direct child, but have lived without knowing Mother's Heart, think of Her only when I was going through hard times... How must She have risked Her Life, taking the sorrow of Heavenly Parent on Her shoulders alone, and reaching or each one of us children and praying for us, saying it was okay. I don't know why, but Mother's Love was always conveyed to me, imagining Mother praying for me. My heart aches with regret for not being filial until now. Being here I feel pierced to the bones as Mother is not carrying out all our crosses not resting well or eating well and so cold there and dark with only burdens and attack...

If only I could take Mother's place, how much more at peace my heart would be. Father, please protect Mother. When offering repentance at Cheon Shim Won, Father came to my side and told me that I must protect Mother. 'Father, I'm sorry for not being able to protect Mother.' 'Mother, I'm sorry (with gushing tears). Even when I sleep and eat, I feel sorry even for laughing. When Mother returns, She will see how we worked hard to become strong, and overcome the SW and make it so that work can happen on this earth... We will now repay to risk our lives, and shout out for Mother as She did all for us...

Mother, I love You so much. Please have eternal health and longevity.

We are no longer children but adults, so we will carry Mother's Burden on our back.

Pres. Lee Gi-seong's Message

...one of the members at the DC is Petchung gi... and one day when it was snowing heavily, he was in charge of the devotion at the DC, and he was there for about ten hours, and it caused him to have to go to the hospital. And others take his place...

I as well was able to offer this devotion, even long distances to come back here and times when sick and

difficulties unspoken of, but in spite of this I was exhausted and saying perhaps this is the last day of my life... and there are people who would cause a great fuss about one wrong word given here, and there was persecution outside, but also inside. So, we cling more onto Heaven. Please think of such a heart and you'll be able to understand the value once you offer 1,095 days of devotion like True Mother at Father's grave.

While establishing this Cheon Shim Won, She said it will be the most important part of Providence and She told us about Shimul devotion and to attend like that. Attend True Father like He is present in His office, and like making a river and ocean, She wants us to offer prayer in bigger and bigger groups. And at the Pongyangwon, She is awakening us and the people of the world with prayer, through Father's works to bring about unification of N and S Korea with Him from the SW, but is He unable to work because of lack of our devotion, and I receive from True Mother that our devotion is not enough.

True Mother says that when you offer devotion to the point of collapse is when Heaven works, and we must offer like that. But even people still ask why we even do it. Even pray before speaking anything. if you don't want to do it, okay. But when True Mother asks, you must reply that you will do it with your life. With a pure heart, when we ask, 'Do we have to attend Cheon Shim Won devotion?' Do you think True Mother will reply that we are the needle She is searching for?

The atmosphere of all of our churches must change. How much will She ask us to have devotion... 24 times in 3 hour sessions they would shout and offer devotion in prayer and amid that True Father speaks to them... and we have messages from True Father...but I don't think I should read all of them because you'll be too?... that is how much the SW is trying to guide us... We are living in such a time...

Each and every devotion is heard from the SW... You must hear, 'Now, you must hear the voice from the SW, 'Ah, now you are offering devotion and filial piety to True Mother' It must move the SW by watching our true selves...

There are about 46,000 today worldwide

The atmosphere of all our churches must change... True Mother at the DC, how much is She asking us to offer devotion...

Those registered for Special Liberation, 1,982 and ancestor Blessing conducted here, 1,330 families... In such a time of difficulty how sad would Heavenly Parent and True Parents be and also myself need the strength of many here filled with overflowing... what about those who don't come as they can...

I too am liberating central hurting spirits to be a model... Even if I liberate all my ancestors, the 2nd Coming Resurrection (In Buddhism they talk about reincarnation rotating and rotating) so even in Mozambique we see spirits going into them and making such sounds and a religious leader with name that means 'fart'? in Korean... and at the time 28 people clapped at once and it was really a mess to deal with and one sort of over weight woman shouting from a spirit and saying, 'Heavenly Parent please save us' and Rev. Chun reported that' And I said let her shout louder, testifying to True Parents in a way... and in French repeating and when Rev. Chun offered ansu on her head, she would just lie down. So how high is Rev. Chun?

In such times, we can see how mighty and high True Parents's standing is... And the authority that transcends time and space is bestowed to True Parents and how embarrassing when that is soon manifested... and they will risk their lives witnessing...

Going to Africa, she said they would only take a shower in the heat once a week, and what if others of True Father went there... and then also giving ansu, I think just to touch their heads ansu liberation would happen.

When True Mother went in latter half of 2017, She said to go and liberate Africa, and She had Her Great Works there... As I went there to try to offer ansu, they would shed tears immediately... I think it would be good if the Inheritors go there and quickly by one touch, miracles could happen...

Yo Han min sen, before going to the SW was a basket of sickness and there was family relations difficulty and extreme exhaustion and the family would offer ansu and told him to go to the Workshop for 80 days, and he felt that it got worse from coming here, but he got the amazing realization that when offering CY yoksa his symptoms were not there, he would not choke at all, and even watching Mother tears filled with sorrow and pain would flow naturally instead realizing our own and True Mother's situation, and that this is the heart of me loving Mother...

True Mother at the DC, there are many members who are like this. He realized this is my heart of love and after 80 days, he went home and his symptoms continued to decrease...

testimony... going to Workshop to set roots deeper with Heavenly Parent and True Parents... and able to resonate and set roots, and how precious is this how you root your faith... if to True Parents's level, you don't have to worry about anything. Because of floating without deep roots, the is when facing tragedy. And then She would give a gift to True Mother of witnessing to Christians and becoming also the greatest #1 firefighter with other 2nd gens who must be #1 in whatever their field is.

There are teams going to the DC every day centering on My. Sahminyong... and even Chun Wan Ung age over 80, representing the elder members head to the D> and applause to them...

Now we will stand firmly on our faith and let your prayers reach Heaven and on the foundation of 1,480th devotion, please widely open the doors of the gates of prayer.

...Let us confess that this time of difficulty is because of us being unfilial. Let us have true heart of sorrow. Please wipe away the tears from absence of even one of your truly pure waters... The Truth ultimately shall triumph. Please let leaders no longer ignore Heaven and just do politics... Let them become people who strive always to hear Heaven's Voice, and establish H faith among all people... Please protect and keep the Providence of Heavenly Parent for so long... Let them become a good people and give strength to exhausted members and may not even one fall astray.

Let us be one with Heavenly Parent's love and Blessing and open the settlement of the substantial H
