Prayer of gratitude

Precious Heavenly Parent

Most Beloved TPs of HEH

We offer our gratitude for Your grace and love in guiding us to this Cheon Shim Won Place where we can meet TF 375 days a year, a place where we can converse with TF 4PF, and a Place where we can interact with the SW ...

Today marks the 114th day since TM began walking this path of suffering ... Oh Loving Mother Who overcame countless hardship that no one could understand or dared to know, and Who triumphed by crafting minute by minute with a single-minded determination to dissolve Heavenly Parent's han, to fulfill Father's Wish and the Heart of a Mother to embrace and give new birth to all of humankind.

It breaks our hearts to see You walking this path of suffering and persecution. Once again, due to our ignorance and disloyalty, and lack of filial piety, and we can only shed tears.

You told us, 'Now you must live in accordance with the Era of CIG. Cheon Shim Won is Father's Office. You must be able to converse with TF 365 days a year at Cheon Shim Won, for H unified Korea, you simply need to move the SW at Cheon Shim Won. Cheon Shim Won is the hope. You must move forward with Spirit and Truth through Cheon Shim Won prayer.

The church must move forward in unity with Cheon Shim Won. You must strengthen the Cheon Shim Won prayer. You must strongly drive the Cheon Shim Won prayer. And whenever dark clouds loom over the Unification family, You emphasize and re-emphasize Cheon Shim Won devotion as a key to solving all problems. We must no longer repeat the same mistakes.

We will pray earnestly through Cheon Shim Won prayer, so that Father can work, making lies vanish and the Truth be revealed. We will move forward and move the SW so that Mother can be released and returned to the Palace as quickly as possible.

Please do not worry, as we will unite and move forward calling out, 'Aboji and Omoni.' We will command the entire SW in the name of True Children of Cheon Shim Won, so please work through us.

Please let us be children who do not miss this Golden Age of the Providence, which will never come again in history.

Almighty Heavenly Parent, Mother must no longer walk the path of suffering. We can wait no longer. We earnestly, earnestly desire that Mother be released by Cheon Shim Won prayer. We earnestly offer all the devotion in Cheon Shim Won today will be fully dedicated to TM's safety, health and swift release.

'We Shall Achieve It'

Korean Workshop testimony

Toshie Egoto

she bows to the audience and TPs

gratitude

A year ago my daughter who had received the 13th spirituality Workshop suggested that I go to the 40-day Workshop as well. However, since I had work to do and already attended before, I didn't. But I heard the news of TM entering the DC and was so shocked ... wondering, 'What is happening?' and immediately began the breakfast fasting condition announced by the HQ. I thought, 'She will be out soon.' But we

hardly heard any good news. It reminded me of Jesus walking the path of the cross.

I thought that I should not be a bystander like the disciples who did nothing. So I made a determination to enter the 40-day Workshop to offer devotion for TM. However, what to do about my employment, but just at that time there were company circumstances so that I ended up leaving my job, and felt Heaven strongly calling me to this Place.

Three goals:

First is devotion for TM

Second is to become one with my husband who went to the SW 25 years ago.

Third, is for my daughter's Blessing.

There were a few times when I truly experienced the feeling that he is by my side, when financially struggling and money suddenly became available, or when I saw myself easily overcoming really bad situations. I felt grateful, thinking my father was helping me from the SW. Over time though my feeling became dulled a bit, and I thought to truly become one with my husband in the subjective H world and offer deep devotion, then TM's return to the Palace might happen more quickly.

From the first day, I felt close with my husband, as if he were walking with my right and left feet. Scenes of when we received training together in the past came to mind. During CY clapping, my hands did not feel like my own, so powerful and painful that it felt like they were my husband's hands. When I endured the pain and clapped hard to be one with my husband, tears suddenly flowed.

Soon after his seonghwa, I received the joyful news that I was pregnant, which was not my first pregnancy, having had a still-born son and a daughter who passed away after only three days. Therefore, I cried out of anxiety to be able to give birth and because I missed my husband so much. During CY, I realized my husband's love and that he had cried during that 6 months but hid it in his heart, fearing that so much crying would be bad for the baby in my womb.

I said to my husband who is in the depths of my heart not to feel sorry any more. Let us offer devotion together for TM. And during the Gapyeong SS, PL said to write a HJ offering paper to wrap up the year 2025 and start 2026 right. Along with my goals I said please work for my husband and I to offer devotion as a couple, and I did 120 bows and calling name prayers and HD of TM's Autobiography ... TM said She always lived thinking the Me of today is more good than the Me of yesterday.

I felt that every day of the 40 days was very precious. After the lecture in the CY yoksa and thought of my right hand as my husband's and my left mine, and while performing ansu on my face with my right hand, I felt my husband's touch and heart as he looked upon me with pity and tears came of apology for not realizing he has been with me all this time.

I prayed, 'Honey, I believe you are with TF, Hyo HeungJN and Daemo nim. I earnestly hope that you move according to TF's Will and I will move forward on earth with earnest Cheon Shim Won devotion and please do all you can do in the SW to help TM return to the Palace as quickly as possible. And as I ansued my head, I felt my husband's warmth surrounding my head and face, miraculous substantial experience, and realizing the Word to become a new person through Spirit and Truth.

I am feeling that when I practice the Word exactly as it is, it is fulfilled immediately. This 18th day of the

Workshop, becoming one with my husband is only the beginning. I will do my best to offer devotion for TM, and for my third goal to find a Blessing candidate for my daughter.

TY for listening and she bows

Sister Ko Say Hi from the 40-day

Testimony

from Japanese Administrative Office Staff, Motamoto Masaye

She bows

Reading letter to TM:

I offer this letter with all my heart imagining You listening at the DC. Having grown up feeling that the church was my home, with my parents walking faith, TPs have always been like my own Parents Who embraced me, and being able to send a letter is a great grace and gratitude. It is an incomparable, precious time of my life.

Mother, when I think back to the special day in April last year, when Cheonwon Gung where Heavenly Parent will dwell on earth finally had Entrance and all BFs worldwide offered it with joy and gratitude, it feels a very long time ago, and the season has turned into a winter of endurance. When seeing the snow covering everything, my heart filled with worry ... Is Mother not cold? tears And I looked up at the sky many times in prayer.

Even in such a situation, despite being in the most difficult and painful position Yourself, You deliver Words quietly yet powerfully as if to comfort Your children.

"Do not worry about Me. Do not pray for Me. I hope you will pray and offer devotion so that you, your family, Unification Family and Heavenly Parent's Will can be fulfilled. Blessed families, I love you."

Mother, the moment we children heard these words, our hearts tightened, and we felt strongly how small and self-centered we have been. Nevertheless, standing before Your great Love and You embrace and Love everything, we cannot help but shed tears. We offer vigil devotion every single day, and there is a scene that I still cannot forget. When you had to return to the DC after a brief medical treatment, You hung to Missionary Moon Shin chul nim and said with a trembling Voice, 'Don't go.' And those Words were containing a sense of loneliness and pain that cannot fully be expressed in Words, and above all a deep Love for Your children.

'Don't go' ... that honest outpouring of Your shimjeong shook the hearts of us, Your children, and remains heavily in the depths of our chest, continuing to echo even now. Mother, you have crossed mountains of shimjeong that we can never possibly fathom, walking the path of sacrifice and mission You determined from the very beginning of Your Holy Wedding, without wavering.

Even the promise shared with TF just before His Seonghwa, 'Let us rest a little when this work is finished, could not be kept as He walked without a single day of rest, solely for humankind and Heaven. To picture that my heart breaks, but at the same time I keenly realize what a great love I've been living within.

Through Your Life Itself, I have learned that a Parent is a Being Who endlessly, endlessly thinks of their children, and there are those who have taught true love through their lives to their children 2nd and 3rd gen. The first generation ... They are like grandfathers and grandmothers to me. Mother, I saw it with my own two eyes. I saw them holding their trembling knees and supporting their bodies, offering the devotions until the very end.

I saw the fathers calling out Your Name with trembling voices, with all their life. The sight of their earnest calling out name prayers, even when their families weren't watching, and tears poured ... Their backs looked so painful and I felt my chest torn apart. Seeing the first gen mothers, I see an image of my mother and the Image of TM overlapping.

When I see the first generation fathers, I'm reminded of my grandfather's back, my father's back and TF's Back. If my grandfather, who has now grown distant from the church, were here in this place right now, if I could have seen him sitting here together praying for You, how happy Heavenly Parent, TF and my grandmother in the SW would have been, and I feel a mixture of regret and longing. Those who kept their faith and carried their missions to the end with pain that cannot be expressed to anyone. It is a path of love itself.

What is family? What is love? What is faith? You have taught us not through Words, but through Life itself. We who attend Heavenly Parent as our shared Parent, are one family. We are brothers and sisters, even when there are times when we hurt one another, cross paths or want to grow distant, the place to return to in the end is only family.

Even if there is resentment, she is still my sister, even if our minds do not meet, he is still my brother, and even if they go astray, they are my siblings. That is why we can return to being one, over and over again. Because we are family.

Mother, I pray that You will no longer shed tears of sorrow. I pray that all the pain You have endured, and all the tears You have shed will surely be repaid. And we children offer the determination here today to become the children who save Their Mother, not children who makes Mother cry or be sad but children who put Her at ease, who become a hope to Her.

Though we are immature, weak and easily lost, I will surely transform this life of being born as Your daughter into one that is not shameful before You. Mother, please believe in us and watch over us a little longer. This daughter who has only committed acts of filial impiety will surely show You the image of living as a true filial daughter.

From now on, Mother I sincerely thank you, and as 2nd gen I sincerely thank first gen mothers and fathers. We will never forget the traces of tears remaining deep in Your Eyes. The depths of Your Prayers, You cannot fully express

and the steps You have walked, we will surely protect this faith and pass it on to the next generation.

Mother, I love you ... offered by Your loving daughter ...

Japanese Workshop trainees

'Running Hearts'

HJ Report

Rev. Yokoi

continuing from last week, I am here this week as well ... to talk about the 4th resonance prayer Workshop ... While praying at Cheon Shim Won, the voice, 'It's already been 25 years.' Thinking about it, 2001 January 13th was the coronation Ceremony of TPs and I was working with youth of public mission and a day we offering preparation for this event. We said God then... and thought God is coming, but why is there only 2 Chairs. And we experienced that Heavenly Parent will be released and liberated and with TM and TPs of Heavenly Parent God coming down substantially, we know such an era has come.

And in this history the 4th CS resonance prayer Workshop was a profound event. Like the 3rd Workshop, there was a great Workshop in the East Japan, but on the day the trainees were coming (magnitude 5) and many regions were affected ... As you can see in the picture, stones were falling and breaking and a member called me and asked, 'Why when we have this Workshop every time, there's an earthquake'... And I said if the SW is shaking the earth must shake too.. and she didn't think that made sense, so she hung up.

So, TM is trying to find those who understand, and how much is the SW moving for this, and this was an incident to feel all that earnest of the SW and TM. And last time I told you we had 462 applicants, and I told Secretary General Pang Sang Il and Pres. Lee Gi-seong, and said it was a pretty funny number ... And last 123 and this time goal was 450 ... and exceeded that, ... Then Heavenly Parent gave an answer of putting all the Workshop together 1st, 2nd, 3rd and 4th the number adds up to 1,943 ...and to conclude 2025 we needed to have a firm foundation, and not just the 4th Workshop but all the WSs coming together. Then I believe we will achieve victory in H Japan ...

HJ's Words of a MESSAGE from the SW:

I realize that from the time I was born until now, I could not have even stood in any position without the grace of Heaven. And to repay that grace I offer determination for the coming year saying, 'I will be reborn as a filial child and spend the rest of my life together with HMH. If you do so, Heaven will work through you as one person who can change the fortune of your family, your church, your community, your region and your nation. And beyond that change the fortune of the world ...

Do you believe? Those who believe, please let us offer a great round of applause to HyoJN. applause Together with Heavenly Parent and TPs, we are individuals who represent Heaven, not just individuals with power for even cosmic change.

And put to the 2nd gen, 'Don't you think the Cheon Shim Won prayers need an OSC of background music? If I had competence, I would do it myself, but I am more of an encourager. So, if I have a song, I

can use that to encourage people. I have connections, like Kagayama Irena and Watanabe Ine of the Academy, who actually completed a few works before our Workshop that in the following video ...

Our 5th Workshop will not just be Korea, Japan and America, but Taiwan and Philippines and Canada and Japanese missionaries who worked so hard in these children countries, and if they come to the next Workshop what soaring inspiration ... Applications starting today ...

And Rev. Ikuichi ... realized that especially now with Korea and Japan facing persecution, how important America is ... and this Workshop guided by Heavenly Parent... learned to bring them to the Cheon Shim Won of Dr. Ki Hoon Kim and will grow as a Kodan member to meet the expectations of Rev. Demian Dunkley for the witnessing ... Beyond Korea and Japan, the wave of this Workshop is spreading to America, and for grace we have people who work so hard without notice, 8 spirituality Academy and 4 special volunteers who come from Japan ...

Right now it is vacation time for Sun/Moon University and 2 came and last time in H Japan Cheon Shim Won, we had a camera man and video editor who wasn't able to come and to replace them we had to go through a lot and after thinking a lot, someone said we should offer devotion for it, and 4 volunteers as a result came ... applause to them ... and this report was possible and the the sketch video they made:

with calling name prayers, it made our throats sore and many shed non-stop tears ... and with that foundation we opened our Workshop and Rev. Adahishi is representative of this, working over 20 years in Cheon Shim Won, he is a model 2nd gen. and here is a reflection from him ...

I learned that in order to become one with Heavenly Parent and Mother's frequency, one must lay down himself, more about how much one's heart and shimjeong is put into the prayer (not just 'praying well') I felt that I lacked words in my prayer, many things I failed to express ... video follows of him praying ...

reflection: singing Holy Mother Han and weeping, I thought this is truly how Heavenly Parent is weeping deeply, and I will keep this Heavenly Parent in my heart ... able to connect more ... and the more I offer Cheon Shim Won vigil devoiton and have these WSs it feel that us as staff are receiving more grace and love and unconsciously we share more ... another video

chanting prayer time: tears from apology and repentance to Mother and Her deep Love, and more earnestness and determination to fulfil Her wishes with shimjeong united with Mother ... and lecturing with tears ...

He was doing games and staying inside, but now perhaps feels CheonBo stronger than many ...

We tried to have a 2nd gen in each team ... And in Japan they don't do until they tell you, so Japanese standing up on their own almost never happens ... and while embracing the member and crying out and wanting them to fulfill their wish and feeling I too have grown receiving great love ...

video the most inspiring prayer was of 2nd gen in Korean even I didn't know what they meant, an incredibly warm feeling ... I felt we can truly become a family ...

While conducting the 3-day, most inspiring is that the 3 gens can attend together, and now 2nd and 3rd are praying for the 1st gen ... and I feel our organization is maturing ... even because of the trials ... applause if you agree

Please join 3-day with your children and grandchildren for more grace ... and we had Hoon Dok Hae with

heart of determination ... with the spirit of proclamation not just reading ... and brings tears and apology for not realizing the shimjeong that Mother spoke these words with ...

It takes time to feel the Mothers Love, but then never wavering ...

Break

Hoon Dok Hae

Now, you must live in accordance with the era of CIG, going to Cheon Shim Won 365 days a year and be able to converse with TF and 4PF TF, at the Place where humankind can always have experience of living while attending Heavenly Parent and TPs and interacting with the SW, in the Cheon Shim Won environment, stating you wishes, so that the 7.7 billion people can quickly come to know, creating the environment on earth, from Cheon Shim Won where TF, Hyo Heung JN and Daemo nim are attended, leading a life of loving and embracing.

I put forth the 3rd gen to establish the position of the Providence. While I'm on earth, I will create all environments so that everything can flow smoothly like water. This becomes the most important work for the future. For a unified world of on family under Heavenly Parent, we cannot give any room for impure (or self-centered elements) to enter. Now you must live in accordance with the Era of CIG. Cheon Shim Won must call and educate infants whom Heaven considers pure.

Just as the Dalai Lama in Tibet raises people from youth, we must raise spiritually bright infants. Cheon Shim Won must raise clear and pure children from elementary school. When moving toward the system of priesthood, Cheon Shim Won is a place that raises people who can hear the voice of Heaven and convey the Heart of Heaven, so that no one can come and sway them.

The SW and the PW must move forward in complete unity to convey to the people of the world that God Heavenly Parent is alive. At this time, you must let them know that Heavenly Parent is working together with TPs. You must move forward with Spirit and Truth (but that is in a stagnant state). I said that the church will move forward with a dual system. You must move forward in unity with Cheon Shim Won. Strengthen the Cheon Shim Won prayer meetings. Again, we must now strongly drive the Cheon Shim Won activities where one can have the experiential knowing... It is the pillar Place of faith. Experience this yourself ... !

Cheonshim Choir

'Looking toward the Sky'

Pres. Lee Gi-seong's Message:

Pastor Song In Yong's Letter:

TM, in this difficulty, with an unwavering Heart 114th Day in th DC ... At the DC the churches (about 60 members from those churches offering devotion) TM lived entire Life in sacrifice and for world peace ... opening the Gates of CIG and today may the Truth be revealed and wishing for TM's swift release I offer whole-hearted devotion.

It is not easy to send such messages every day ... applause to encourage Pastor Son In Yong ...

805 long-term trainees give tremendous energy in devotion and praise for a hot fire around the world ...

From 12 to 19 years old, from people entering middle school to high school, we had opening ceremony, and the atmosphere was good ... Grateful to be able at least now to be fulfilling Mother's Words ... The Cheonshim resonance HD method, not read quietly but proclaiming outloud ... and then each and every word can be energy to your life ...

When TM talked Oct 11 2020, She said we must live this era of CIG and educate youth from a baby even ... and we will have such a Workshop ... so that when they go out to the world, they cannot be swayed but set a fire of influence instead ... develop that spirituality ... one with their True Parents ...

I was witness to as an adolescent and it's been 56 years and how poor were we then, at a state of starving. We had to FR selling pants and socks, and for 20 days witnessing activities, and in the 1970's no organized church buildings ... as now are firmly establish and stable church TPs founded ... If SW works with us, ten and twenty years from now we can witness an unfathomable victory. Don't languish, even the media like batting our heads is reporting bad things about us. And this is strong. But looking at our spirituality trainees, we can see our future.

We have many religions in this world, but where else is a religion that sets such a flame in the hearts of the youth, and with this standard Heaven will work.

We saw East Africa, Mozambique, seeing our facilities stable there because Heaven's Providence is in the entire world ...

testimony today ... Japanese missionary who overcame amazing trials ... Those who converse with the SW so often, when they go to the SW, they go peacefully, and those who have a spouse in the SW must live in such a way and you will become very spiritual, with the AFSs, our missionary will from now on will not be bored at all but able to converse with her husband and receive his teaching her and supporting her ... even substantially felt with her... applause of encouragement for her daughter finding a Blessin candidate

May you become a person of spiritual influence ... ever more offering devotion ... The Providence teaches us these things ...

The song 'You Raise Me Up' can be a song that gives all of us strength and comfort ...

The letter she wrote to Mother and in the Cheon Shim Won Workshop many weiled when she read it ...

If you go for 80 years but then suddenly shift direction, what will happen when you pass away?

TF's Words: In the WonjongJon they were gathering around TF and one asked the question, 'Please give us one word of wisdom.' And TF said, 'You must die well when you die.' No matter what went before, if you die separate from your Parents, those all previous years become a source of accusation.

Peter ended up in a position of betraying Jesus. And the past days were accusations. Until you die, you must keep your faith ... for eternity become someone worth of Their praise. Those who lived diligent lives, I have conviction that your lives will be made in CIG dramas. How inspiring from now on.

In this age of video, we must make masterpieces people can shed tears with and then more restoration miracles can happen ... If not a standard of resonance, perhaps a worse earthquake can happen. This era of Heavenly Parent's direct governance has opened and so we see the Heavenly individuals truly living in this era.

So, being here and experiencing the Presence of Heavenly Parent and going home and then that heart disappearing ... This must not happen ... Don't just ask why is this happening, but be apt for the governance of Heavenly Parent, and centering on those individuals, revival can come.

Message From TF:

'The SW is in a very severe, fierce war. But don't worry. Heavenly Parent has already opened the Gates of Victory, even though we may not see it right now, do not languish. Do not lose hope. That starts individually. So, remind yourself of the Will, and those who know it never lose hope.

We all know the Way to making the Ideal World of Peace that Heavenly Parent desires. What is more precious than this. Even if a sandstorm hits us and we cannot see anything, if we have this heart to find true love, and try to live for the Will as a filial child, when it's dark Heaven will bestow Light and guide us on the path. That is how our UC has walked until now. Even in situations where arrows are flying everywhere, we cling onto Heaven.

And we lay our lives down for the sake of our FF not being taken by satanic forces, Heavenly Parent has prepared our paths forward. You must experience that and see it, and no crumble through the trials we are experiencing today. We cannot be swayed. Have pride. True Love is mighty. Heaven is with us. Our devotion reaches Heaven. What we need now is unchanging filial heart of children and the heart of Parents.

If we have unchanging love as our armor, no matter how much persecution comes to us and how much negative energy comes to us, we remain peaceful. So, believe in the works of Heaven. And I hope you make conditions for Heaven to absolutely work through you."

(end of TF's Message)

So, the point where we lose hope is the point when all of us lose hope. No matter how dark it is, if we have hope in our hearts, then we all have hope, because the Living Heavenly Parent works through us, because TF is with us, because the substantial, subjective SW is with us.

I hope this is a time when you have faith in this and offer prayer. The AGSs can only work when you have absolute faith. That is when we have the right frequency. So, who are the AGSs that have your frequency?

In the testimony, I believe it was the husband who had the frequency that matches her and if you have spiritual parents in the SW, that will be the frequency that matches with you ... Please offer devotions like this ...

Calling out / Fight song

Chanting

Prayer and Praise

A person who has Parents they can love unto death is a truly happy person, because a human being is a person who is born with God's Shimjeong, they live in it and must pass away with that Shimjeong. Centering on this, the UC must expand. If you go forward centering on yourself, you will perish and become like autumn leaves ... We are happy people, if you can see the Purpos of Creation and the One Who created it ...

The process of Creation was one without doubts, of absolute faith ...
