Opening prayer of gratitude

Most Honored Hp

Beloved True Parents HEH

deepest gratitude for allowing us the Cheon Shim Won to unite our hearts for the safety of True Mother... Now 121 days that True Mother has been bearing the burdens of us for our inadequacies. Please protect out True Mother and that She may return... The prayer of a mother... how much more, sown with tears and blood must there be for the fulfillment of Her prayers. We will build the tower of devotion, holding fast that all churches must unite and powerfully accelerate the power of devotion.

True Father we believe that in the SW You have prepared everything, working daily and at Your Office at the Cheon Shim Won, You prepare an environment and we witness You every day. Act 17 verse 22, 'I will pour out My Spirit on all people' Your sons and daughters will have prophesy, your old men will dream dreams... Our young adults are being resurrected and even 1st gen's faith revived. The greater the crisis, the more we will unite with HyoJN and HeungJN and the heart of Daemo nim and push forward.

Even today like children waiting tearfully for their Mother, we wait with tears and pray for True Mother's health beyond our own well-being... May She swiftly return home...

Testimony

gratitude

18th spirituality Workshop... About 5 months ago, no matter what I talked to my grandmother about, she would conclude that I must go to the spirituality Workshop, and I would think, 'Ah, there she goes again.' and would become quieter and avoid the topic. My faith was not strong, but after various testimonies, a desire arose to deep-root my faith life.

I attended with a mindset that I would not accept the burdensome role of a team leader, but I felt instead that I should work harder for the others to feel True Mother's Love more... I had only been thinking about my own situation...

Learning about the sorrowful and painful Heart of God truly is. When we offered one-heart prayer, my grandmother who raised me and my mother who gave me birth came to mind. There was something my mother said then, 'We are not you physical parents but you are an adopted child, and I didn't even know why I was crying but tears would not stop. I learned through a church member that my mother suffered a disease that she could not have children. I understood that I was not abandoned, but came to think about family and the life I lived now.

I had several chances to meet my biological family, but as I listened to my siblings and their stories over the years, I felt alienation... Was I sent for adoption out of love. Gradually, negative emotions came but I thought, 'Is it okay for me to be abandoned and how could it be considered a great deed?' and I lived with loneliness and but is it okay for me to cry when so many have such difficult situations... To avoid not worrying my parents, I pretended to be okay, hiding my emotions... tears

However, when I realized the Heart of Heavenly Parent Who loved children, I felt that my mother felt the same way when she sent me for adoption. The person who first came to mind was the mother of my birth. Until now, there was not aa time for a serious conversation... How was it out of love? The moment my biological mother came to mind in the witnessing practice, I felt I must ask her. The first time calling and we had never spoken just the two of us, but I took courage and ask, 'Why did you send me?' and my mother said before I was conceived she made a promise to God and also said, 'You don't know how lovely you were when born' And it was difficult, but my heart was at ease seeing you live happily in another family...

Tears poured out that I couldn't make a sound and the tears were or joy, accepting that I was loved with a peaceful heart. Through these realizations, I realized I was sent into the world as a messenger of love, because Heavenly Parent loves me. And I was able to grow within that love. Afterward, I realized my mission is to witness to my biological siblings currently opposing the church even I face strong criticism.

However, my biological mother said she would never give up until my siblings return to the church and I want to be a filial child who gives Her joy and happiness, and just as Heavenly Parent and True Parents never gave up in any difficulty, I am determined and I deeply proud and respect my parents and want to pass on love to others.

I want to thank Heavenly Parent and True Parents for guiding me to this place and my grandmother and mother who always supported me. TY for listening.

Kim Jin Chun

Special Lecture

he bows

truly nice to see you

From here is a very different perspective

seeing you all in gowns, I feel we are a united forum... the 121st day of True Mother's detainment, a very hard path alone

As we know Jesus' path of the cross, and F's modernized path of the cross in Danbury and True Mother's path now of the cross and especially in the severe cold, we are worried about Her health.

With True Father in the SW, and our True Mother walking this, I express my sorrow heart and heart of gratitude and for the opportunity from PL...

450 leaders came here and so nice to see them and I believe the Japanese members are especially prepared for this Providence and the same for their nation, so I always have great heart of respect for them and gratitude, but also of sorrow for them, having so many difficulties in their families and with their children...

This hour, what I want to share with you is the life of faith in this Golden Age, as PL himself asked me to offer a lecture about this... The 'AI' has many meanings and even then word Golden Age comes out... and in two categories: First, the expression saying it is a golden time in one person's personal life, but the more fundamental perspective as a Providential Golden Age.

As we know from the Providence of Restoration, now it's the age of Completion and this is only possible when True Parents have manifested, so from the 1960 Holy Marriage start of first stage, but this matured GA looking more internally is the substantial ideal world, the Cheon Il Guk established on earth.

So, we can see that FD was the start of the GA, and the manifestation of the True Parents is the start, because the completion comes through True Parents and They conduct many activities... and after God's Coronation Ceremony, where True Parents were given authority and the time when Cheon Il Guk started from FD, and this Cheon Il Guk is substantial Heaven Cheon Il Guk. After that the #13... we're still in the 13th year solar calendar and last year 2025 was important turning point and the yearly motto continues on.

In this GA I like to see 3 things: This GA is basically the closing stage, so will be very chaotic, and in this we need a unique, unchanging Center as well as a universal standard. And we have many visions in society, but the roots of all visions, the Vision of Heaven of HPs is the first Subject I want to share about.

This is Unique, Unchanging and eternal and that is the standard. This 13th year of Cheon Il Guk shows precisely the contents of Cheon Il Guk, so motto perpetuates, and centering on this vision of Heaven, we would like to see True Mother's Life Course.

True Mother said Dec. 1st during Her hearing, we can see True Mother's Life Course was entirely for the Vision of Heaven: It goes beyond culture, religion and borders and having such universality, so it is definitely not of a cult. Why do people call it that? I don't see any of this in Buddhism or Islam. Our True Parents's have established this. And True Mother ever since Her Holy Marriage with that Contents, She was always trying to do a Peace Movements. There are records of 290 peace movements.

Is She a criminal? Are we a criminal band? Absolutely not. In such a perspective True Mother's path of the cross must be victorious, because it is Heavenly Parent's Providence and Heavenly Parent is Alive. True Mother's struggle, because it's in Heavenly Parent's Providence will be victorious. To not repeat these difficulties, what must we do... something persistent and stable and health and holy with all the values I just mentioned. Heavenly Parent's Holy Community, to establish that, how must we live and conduct ourselves in daily life?

This Vision of Heaven is the eternal absolute standard, not something that can be compromised or yielded or give up or alter or change... because it is absolute, unique, unchanging and universal... and this is connection to HMH Her Name but also directly to Her Life, and I have conviction of this and want to prove this.

So, this vision of Heaven is the first, the beginning Alpha and Omega that must be the same beginning and end. Only then can God's uniqueness, unchangingness be true... and this vision of Heaven is of the First Cause, The Creator and presents the Essence of Origin of Existence and the purpose of life and direction and content of living and the motivation of faith and goals of life.

Why do we live in faith? I came to find that this vision goes beyond religion and everything. Because I have this conviction, I kept my faith. Why do you keep your faith through many sufferings and difficulties. But I saw that it all returns to this vision of heaven, not for power or money. Why does the FF exist. I think and have all certainty that it is to realize and establish this vision of Heaven.

So, I put what I understood in the power point and AI understood this and drew this... like a highway road that goes to Heaven... with master key NGPS and also a compass and scale that can determine what is bad and good...

So, what is specifically this vision of Heaven. First, 3 things: As related to Oeg Monsei, we are trying to make this holy organization and be a member of that. Di Plato or Sacrates say anything about this: No philosopher said anything about this. No.

We are trying to attend the ideal humans, who are the complete substantialization of Heavenly Parent, and we're trying to attend Them. And what is wrong about that. We are trying to make the complete, substantial Ideal World, where the SW and the PW are in complete unity and peace.

So, since 20 years ago, I applied special meaning to Oeg Monsei and would say to student not to worry about careers, but to understand what this means all will take care of itself.

The Three Great Blessings, next... Nothing exists that are not related to that... PW and SW, related... This goes beyond religion and ideologies and self values... And everyone becoming True Parents and True Owners... This should be the base of everything, not a cult at all

The third group is that with true heart and love and the Word and Life and Lineage, making it through that. How much love is in this world, with true love and life and words, we are trying to make a lineage

with that... the great vision... not just peace, but freedom, peace, unity, happiness and joy... and also gratitude that True Mother emphasizes... These are outstanding contents and we pursue it absolute, outstanding and universal, something great from True Parents...

Third category, something from the real world... The modern society, interdependent and pursues mutual prosperity and universal values... We try to establish also a culture that transcends religion and culture and nationalities and international laws and race. And this is what True Father emphasizes so much.

In our 21st Constitution, first to keep lineage and purity, and second not to

violate the heart or human rights of others, third, not to misuse public funds. These are the three Heavenly Laws.

Do other religions have this? I also studied many religions of other countries, and they don't have such laws. We are the only organization living by such laws of high quality. So, these 12 aspects, are we a criminal band? Absolutely not.

So, with this vision the first related is the Principle of Creation, but we were not able to complete that, so there was the fall and the human history to try to find a way to restoration, and if we are victorious, the next stage is substantial governance. Because Heavenly Parent does not have a Form, Heavenly Parent governs through the True Parents, to also be here substantially.

From April 13 Heavenly Parent could substantially govern on this earth (through HMH True Parents Trinity). But three months after that from the raids, July 18 to September 17, October 10th and now December 1st, the trial continues on. And this substantial governance needs to be amplified, and because it's not, it feels like we're being stuck... like it's being delayed...

But after this substantial governance, this stage, when Mother goes to SW, the GA enters Completion and True Mother brings everything with Her. So it takes a long time from the construction of Heaven and putting everything into practice. And there is a mission that becomes the center of this 13th year of Cheon Il Guk...

So, the year 13, True Father said centering on that number, Heaven operates and all purposes are completed. Centering on that number, we can attend Heavenly Parent and realize the Kingdom of Heaven. In the 13th day, is the day when God's Dream comes true and a new world begins. That is what True Mother said.

And Jesus died because He could not stand in the position of the #13. To find the #13, we had the Coronation of God's Kingship on January 13th. And now it is the 13th year of Cheon Il Guk. We may ask why was the year motto given in the 13th year to perpetuate and go down in history? Because it is the central # that never changes until the end. And knowing this, I am surprised and shocked to think about the wisdom of this.

First thing, Why does the motto go down in generations? and Second, in the perspective of the Vision of Heaven, what meaning does True Mother's suffering have?

and Third, on Sept 21st before True Mother left Cheon Jeong Gung, True Mother called some leaders to request that we must make a healthy, stable and continuous organization, a global standard that is transparent. And what has all this? It is in the Constitution.

And in True Father's Words, the word 'constitution' comes out about 2,300 times. And even in... Jesus said there must be a constitution. First, the #13... 2025, True Mother made proclamations unheard of before, which were contents necessary to complete the Providential GA. How did True Mother know all this and lay it out like a puzzle if you put what happened in the last 12 years together and then you see that in this 13th year of Cheon Il Guk, it becomes a basic formula that brings about the completion of the Prov GA.

2025 is a very important year connected with the #13 even we otherwise don't want to think about it again. Because of this, people throughout the world made prophesies about the year 2025. You can see it on You Tube, the many prophesies, and they are all connected to this.

The Second Subject is about True Mother's Life related to the Vision of Heaven. People receive the Noble Peace Prize based on politics, but True Mother's Context of Peace are about the Vision of Heaven and past, present and future and all of humanity, transcending culture and religion. There is a peace that has such values. So, I believe that these Contents should receive many Noble Peace Prizes and go in the book of Ginis records...

In the 60 years from the Holy Marriage, True Mother conducted about 380 Movements for Peace as no one else has come close to doing. So, if you have time, True Mother said to come to Gapyeong and see what She has done. It's all records of what She's done. First, it's Heavenly Parent's Dream, not any political dream but moved to pursue the peace of the Dream of Heavenly Parent, and of all humanity, not one nation or political party, but world peace and peace of the cosmos that includes the SW.

No one who received some grand prize ever pursues such a grand goal, the peace that Heavenly Parent can substantially govern and that complete the Substantial Golden Age, not mere political contents.

So, all these contents are what True Parents did together when True Father was alive. There are a lot of details here. Do you think the Korean, Japanese and American governments can do what True Parents did here? No. Not knowing the 3 Great Blessings, how would you be able to do this. Our Japanese leaders who contributed to all of this, my deep gratitude for their blood, sweat and tears mixed in here. It requires so much money. And I believe the day we bow to our Japanese members will come. How much help and sacrificing their families, missionaries came here and thinking about that, tears flow.

And all this was done in 53 years when True Father was still alive, about 220 peace movements and many movements repeated two or three times.. The science rally was conducted 27 times, but only counts as one Peace Movement. So, there are about 220 peace movements but by conducted events, it probably surpasses 5,000 and much money and man power was required for that from our Japanese members...

And when Father ascended, for these requirements for world peace what did True Mother do? Categories are Heavenly Parent, True Parents Cheon Il Guk and many contents with something new added to the boxes, and looking back on it, all True Mother did matches what She says and we must run this Heaven Vision, like professionalism and vision is run. And nothing overlaps, everything unique, we have to establish a model of education, office, health, welfare, organization, culture... all added together are about 160 and True Mother having to do all this. no time to sleep and unfathomable money and people and manpower, and True Mother running it smoothly...

This for about 13 years, after True Father's ascension, what True Mother did alone. There was about 260 and so many victorious events of True Mother. But these contents, 220 events of Peace by True Mother and we may have to multiply that by ten-fold... After True Father's ascension True Mother initiatively for 13 years conducted about 16 160... together 180 that we may have to multiply 8 fold... Why do the judges and police and media... This is all recorded, not a story made up but with pictures and witnesses...

True Mother has lived this life. How can we treat Her as a criminal. And in the trial, True Mother said She is not the person of their mold they put Her in... As we know, we have this 5% of responsibility and it

goes to relevant people and our members... And I categorized this promotionalism, education and professionalism... because we are related to this world, you must be of these three things and only then does the path of the cross end up victorious.

It requires these things: Heaven's Providence, Devotion, and Professionalism. So, our devotion is conducted at Cheon Shim Won and seeing this, the difficulties that True Mother is walking must be victorious. Why? First, it is because the Vision of Heaven is eternal, unchanging, unique and universal. No one can give this up, or yield this or compromise this.

Second, because True Mother's Life is a Life Lived for this Vision of Heaven with the unchanging, eternal and universal values.

Third, is because we have the earnestness and desperateness of our members that cannot be ignored. It moves the SW and PW with such power.

Fourth, this time is in the Completion Stage, so we must be victorious and move to the next stage, so True Mother's cross path must be victorious.

And when visiting True Mother, True Mother always says not to worry about Her, as She is One with Heavenly Parent and One with the Vision of Heavenly Parent. And that is how She lives Her entire life. And no matter what anyone says, if they curse at me or compliment me, nothing changes. She does not worry about Herself, but worries about us (because we are not like that). I feel this strongly. Then how will we live?

First, no matter what anyone says, we must live with the Vision of Heaven at the center of our lives. This is our GPA, navigation of our lives. If you pray, you can see this...what it inside and around you, and practice solving problems and seeing the world through this compass that gives us direction, a scale and standard of whether something is enough or not.

And if we are engulfed in this, we can overcome anything, any political problem and find the peace and joy in our hearts and see the good in others, and live in peace with others. The doors of our heart open, if we have this Vision of Heaven.

Second, is Spirit and Truth. Cheon Il Guk is where the SW and PW are one, representing the SW, that is very complicated and chaotic, and what becomes the Center of that is Spirit, it's God's Realm and there are many spirits, but the Center is God's Spirit. When Truth is accessed, everything is organized.

And I believe that our TC in Cheonshim Won, are the maximized Places where you can truly put these things into practice at the highest level. So, here almost every day from 40,000 to 60,000 members from around the world come here. And by location, and during GWs a hundred thousand are connected to here with about 40 programs here, about 8 here but specifically about 40.

Do Catholics do like this? No. And I asked AI if there are any other places that do like this? No. Our Place is one of a kind. And Catholics and Buddhists emphasize Spirit. But I've never seen any emphasize same as us...

And through this we will eventually find professionalism. And many people, their diseases are healed. We haven't seen this in the past. So, why do we have this astonishing place. Why do we have so many people having a negative eye upon this Place. It's very sorrowful.

And next is True Love that is able to melt anything like the Master Key. In university I would ask why what True Father says 80% about True Love? Because True Love is the Essence of God and the Master Key for everything. And being able to specifically express that True Love, these are the three great phrases from Watergate incident: Forgive, Love and Unite.

And the NY Times advertised about this and accepted it, and this is only possible when we have true love. So, how immensely most important.

And the Fourth thing I want to share: about the Constitution (that True Father talked about 2,300 times). And True Father's Words of 1974, He said that it's a necessity that we make the Constitution of Heaven alongside True Parents and our members. So, we were able to establish these Constitutions with much devotion and studying.

And on December 22nd, True Mother told us to hurry. And on April 22nd, we were told to establish these Constitutions of Heaven. True Mother said, 'Do it faster.' So, 2026 becomes the starting year of the governance of these constitutions. Ever since the creation of our church, for 72 years, we haven't heard of an age where we would be governed by a Constitution, but whether it be June or July, I believe they will be established.

And now it's been almost a year since the year of direct governance has opened. Governance by Heavenly Law that effects our lives will be the latter part of this year, not something very distant. And there are many things at play. First, is how to establish the Heavenly Community of HPs and Second, how to complete the GA and True Parents's Standing and a System for the Settlement of Cheon Il Guk and the Rights of Missions of the Citizens... How to establish those?

So, in front of the Constitution, it is stated that all are equal. And everyone has the right to vote, and has the right to seek help. And there at the right, to enter a trial and to be educated and to be a public worker.

First, is that they must keep purity

Second, not violate the heart and human rights of others

Third, not misuse public funds

And a hot issue also stated for Cheon Il Guk public workers, public officials, and that's in the Constitution is that officials must establish and complete our Cheon Il Guk, and three standards and first required is faith and second is professionalism and third is public workers must maintain their status and have ability, and those who are incompetent must

step aside for them, or remain their elegance and take responsibility for their actions...

Three versions of public workers: ministry, public worker and third is a foundation worker... and the mission of BFs... first is to inherit the tradition of True Parents, attend True Parents and remain in the sense of elegance of model to others and have FL and O and respect and attend the True Father... This is about the BF's responsibility and going deeper the CheonBo families come out...

The conclusion is that we, centering on the Vision of Heaven must rediscover our Principle of Creation and through this history of Providence of Restoration, we can see that the conclusion of that might be the path True Mother is walking and that happened in 2025, so True Mother must be released quickly and the direct governance of Heavenly Parent must be accelerated.

While True Mother is on earth, we must complete this GA of Providence and True Mother must set that model going down through generation must be the conclusion, before True Mother ascends to the SW. First True Mother must return to the Palace in healthy form to accelerate this and True Mother's Value must be revealed and Her Ideals and Values through media and to those who oppose us and keep working to purify ourselves and strive for professionalism.

So, the question how we will conduct our lives is first to live centering on the Vision of Heaven, Second

that centers on Spirit and Truth and Third, a life centering on true love, Fourth, for our hardships not to repent, establish a system with a global standard and make a healthy organization that can be recognized by the world. And I believe our 2nd gen must have pride...

I hope this becomes of some help to you.

Pres. Kim Jin Chun

Break

Busking

Hoon Dok Hae

(with the Cheonshim resonance reading method, let us all read together earnestly)

Always be awake, pray with Spirit and Truth and be grateful. When True Father prays, He holds onto the Summit of this world and engages in a battle to turn this earth. Then within 5 minutes, sweat pours out. It is the greatest battle of all battles.

When Jesus prayed before the cross, He offered pray of Blood and Sweat. That is the greatest battle. Do you know the meaning and effects of prayer. That is the greatest battle. You must have such experiences and have the conviction that if you pray, it will certainly be fulfilled. Do not keep doubting, thinking, 'Will God listen after you pray?'

If Father instructed and said, 'It will be done.' Then it will be done. If you have prayed and ten or one hundred years pass, things can only go up and never go down. God will always help you. God is not trying to fulfill a Will that can be achieved by working for only a few years. it is a Will that God intends to fulfill, even if it takes hundreds of millions of years.

You must have the conviction that you will never change, even if it takes one hundred million years while upholding that Will. God desires such a person. If you live a life praying with everything, praying in Spirit and Truth and always being grateful for everything, you will hear the Voice of Heavenly Parent, and you will feel Heavenly Parent like a shiver.

Moving beyond this, everyone must meet the Representative of Heavenly Parent. Human history is to establish One Center. Two thousand years ago, Heaven established Jesus as the OB Son, but He died on the cross due to the disbelief of the Israel people, and the Providence had to extend. Finally this Blessed Era when the Lord of the 2nd Coming has come to this earth and Married the Bride, the OB Daughter and Manifested as True Parents.

Humankind must meet, attend and follow True Parents, Who are the Representatives of Heavenly Parent.

Only then can the original sin that has come down for 6,000 years be liquidated. You can be reborn as an original human being of Creation, full of love and wisdom.

In the year 2025, with the Entrance Ceremony of Cheonwon Gung, Cheonil Sanctum was held, you as BFs who fulfill the duty of loyalty and filial piety before Heaven as citizens of Cheon Il Guk, must practice and move forward for how to expand the environment.

I have said to you that BFs living today are living in a GA. There is no other GA in the past or in the future. Only now, when the True Mother, the OBD is breathing on this earth, only then, right now is the GA. I hope you will pledge to become one with Me and eternally build the King Mother and King Father Realm on earth and in Heaven.

HJ Praise

along with the Spirituality Workshop, the Cheonshim Choir

'Monarch Butterfly'

Pres. Lee Gi-seong's Message

At this time, in front of the DC, they are offering for the 121st day despite the cold... Message: True Mother despite the weather, is standing steadfast on this 121st day with piercing cold air (names churches) the prayer team and Marshal Arts... Heavenly Parent along with True Parents gave birth to humankind and being the Substantial HS, OBD, opened the Gates and this Cheon Shim Won devotion and one with True Mother, I resolve to become such a child for True Mother's swift return and wishing for True Mother's health and longevity, I offer devotion (as representative for all of us)

Today, worldwide 43,000 members are offering devotion...

Naemon Church 700th vigil... 20 of their members are offering devotion at the DC... It is a great distance for them to come

H Japan leaders and ministers are here...

Youngon Church 700th vigil

Today's Hoon Dok Hae... as we shake our phones and read in such a way, we shed tears instantly... through Cheon Shim Won resonance HD method... great revival of heart

testimony... noble grandmother... even it was irritating to her granddaughter she ended every conversation with, 'You must go to the spirituality Workshop' and it resulted in her deep-rooting her faith at the Workshop... and deeply experience the heart of Heavenly Parent and True Parents... Cheonshim resonance prayer is so important... Then could heartistically understand both parents... and going diligently until the end, you will have success...

HJ Praise was with piano and flute and vocal music major... We have many talented members here...

Today the special lecture about the lifestyle of the Providence that many members asked for... very moving words... The Lives of True Father and True Mother are mighty and holy... With 53 years and after ascension 380 Movements of Peace and no one else comes close to doing this.

So, people on the earth, because they don't know True Mother well, we face difficulties of today... Our responsibility is to educate the world, but not fulfilling this, we cannot help but think is why True Mother is being detained now. If we truly boast about our True Mother and their work, and even if not our members, if they understand how great our True Parents are, they too will praise them.

It's not too late. Even now we should tell the world that the greatest Beings of this world are True Parents and They are the Ones Who gave us the great Vision of Peace... True Mother is waiting for us to offer much devotion and witnessing and education along with ABSs working with us...

And many times I was being scolded by True Mother, always in True Mother's Heart She has this feeling that our devotion is lacking so that True Father may be mobilized and reach all our leaders... wishing for unification of Korea and the world, we cannot hide our lacking hearts, and our leaders, having the thought that we are still lacking and engraving the words that the prayer is the greatest battle.

So, clinging onto stones and trees while offering prayer and sweat within 5 minutes... and conviction that if we pray, it will be fulfilled. And through the testimonies, we heard of the prayers being answered.

And we heard these words that the more Heavenly Parent makes you struggle, the more Heavenly Parent and True Father and the SW will work through you, like when the missionaries are imprisoned, and Heavenly Parent then teaches them and helps them and Me and it was a time I was proud of, a most mysterious time that is my treasure time and only I know that.

We are in a GA when the Gates are wide open and Heavenly Parent directly governs us. But we are in the middle of struggle. True Mother said that through this struggling we can truly feel greatly the help and support of Heavenly Parent and experience and feel the workd of God and that time is the most important GA of our lives. If you are not able to really feel and experience the Living God and feel the love, you are not living in this era.

For us to live as this GA people, we must do our utmost, and HMH should not be in the DC and should come out swiftly. (I need to change myself quickly to know and give True Parents love whole-heartedly)

805 long-term trainees, and through this prayer with Cheon Il Guk leaders, let us move the throne of Heaven and SW and move and bring down the authority of Heaven... May this be such a time for all of us.
