## Testimony

40-day Spiritual Workshop

he bows

I am Kim Yo He, youngest of 60,000 couples of four siblings, born into a family somewhat lacking, and suffered from identity confusion, not feeling I belonged to either side in things, and when my older sisters fought ran away or tried to stop it, but home was not a safe place and exhausting and lived quietly in my room amid repetition of school and home, but even with that I saw my mother so devoted and went to church and through the prayers for one another, I understood the life of living for the sake of others,

But with the negative reports outside, I felt shaken and wanted to strengthen my roots. I learned a new perspective but doubts about the church and HMH still remained and there were family members opposing our life of faith even I had in the past... and while looking back on my mother's life walking sacrificially alone and my heart ached with tears and how Mother while being denied and ignored sought for Her children, and I became a believer in True Parents.

applause

When we offered 'Mother's Request' and when I heard the words, 'one family achieving this together' and I felt Heavenly Parent was asking me to achieve together with Heavenly Parent... and I rushed out afterward to pray 'Do you really need someone like me?' and I heard 'Who are you' and I answered that True Mother called us 'direct children' but I am too lacking and I heard, 'Go on overseas mission' and I had wanted to be in the Airforce academy after Workshop and could I really do this? but no answer.

I heard the testimony about witnessing in the Check Republic and it stuck to my memory of his do-or-die heart even without knowing the language... Rather to seek to satisfy initial desires, one must advance a greater position as a child of God, and I decided to fulfill if even a small part of Heavenly Parent's Dream rather than just live for myself.

On the very day of my decision, I received a call from my parents and they had come to the CP Complex and took the chance to tell them even they had strongly opposed and my father said, 'Live your own life' and I was able to receive the difficult and fearful task, and honestly I am quite scared, but I met Heavenly Parent and want to return that love to people who are struggling as I once was and help fulfil One Family under Heavenly Parent which was a word to move me... 'You must be a person who can stand up ten times if you fall ten times. The one who remains has strong endurance'

I am grateful to my mother who never gave up and all who offered devotion and grateful to be able to offer this testimony in this Place... TY

## HJ Testimony

Achu Yeong Jon

gratitude

eldest daughter... 15th HMM Special Devotion and 18th Spiritual Workshop... I had come to church because I like my friends and began school as a Unification Church member but lost my faith and identity as a 2nd gen... Our family faced great economic difficulty with shocking news but offered my vigil devotion and could feel it giving me strength and resigned from the company I was working for and went to Workshop and let it be a turning point.

As I came to know the Life Course of True Parents to fulfill the Dream of Heavenly Parent, I accepted the status and value of True Parents for the first time and could feel the direct Love of True Mother, and the nemo shirts to us... and could I turn my back after receiving this much love, but it felt like Mother was saying, 'It is good that you came' as if saying, 'You know how much I love you, right? Go and share this love to other children.' And I will do this with those who left Mother's side.

The words, 'devotion must never fall to the ground' stuck with me. I returned home and found a job near the local church and made it a habit to attend and made goal to attend Workshop again and suddenly my company closed and I took it as a chance and I resolve that through this Workshop, I would fill myself more and awaken more from ignorance but tested positive for the flu and had to be in isolation.

I prayed and thought Heaven must have a Will for me through this isolation, and I thought of True Mother alone in the DC and unbearable tears flow, and I repented having my own emotions before Mother's situation... Then I heard the news from my mother that my father promised to attend the service at the beginning of the New Year and felt Heaven listening to my prayers and the AGSs would be there... and more faith in the SW being planted in me...

And the words of the Scripture card, 'Do not forget that the ancestors in the SW are with you and live a life of them together with you' and began to realize that...

Because the truth in me was limited, I did not feel confident to witness to this world... With the lectures, I came to know that True Mother's walking the path was knowing the sad circumstances of Heaven and determined to follow and will witness to the OBD HMM True Mother with my own voice and so that the ones who have left will return.

Thus, I will achieve my family restoration and form a Blessing family with a blessing partner that will make others envious, and I pray for those who keep devotion every day... HMM True Mother I love you...

## HJ Testimony

40-Day Moshim Workshop

Qwon Won Zong

5th Moshim Attendance Workshop... After Academy attendance, went home, got a job and back to my daily life, but heard of True Mother going to the DC. When I first decided to join the Academy, I thought to serve True Mother at aa place closest, but now resolved that I would now protect Mother, but it was so painful to realize that during this time when Mother was struggling the most, I was unable to be close and at home my body became weak and with employment environment realized I was living centering on myself rather than Heavenly Parent and returning to my past self.

Then I saw a video of the devotions solely for True Mother and felt to raise my heart again through the devotion Workshop and later be able to answer confidently, what did you do for Mother during that difficult time? With determination I returned to the Main Hall, but the prayers did not come out well compared to the those around me and their earnest. I would get exhausted quickly but the words wouldn't come out and heart was lacking.

With the single thought of wanting Mother to be victorious and return to the Palace quickly I kept trying and then there was intense devotion for 4 days and we divided into three teams so that the light in the special prayer room would not go out for 24 hours, and this was aa time for me of grateful grace.

Tuesday of Mother's trial, I offered 15 hours from 7am to 10pm in the special prayer room and then continued group devotion with trainees and was so grateful I could pray all day for True Mother earnestly wishing for Her return even a little sooner, and with certainty that Mother would return after this period... My team kept on with the schedule, and this was after having heard the result and such guilt rushed over me and I shouted Mother's release on bail, but could not look at the Image of True Parents.

Father's prayer, 'I know that this night will not continue as night, but morning will come and an historical day of light will continue on earth...' Please protect this nation then pierced into my heart and the thought that morning would come, resonated in my heart... And the song, 'The Sun Surely Rises' came but that night felt so long... And I prayed for Father to be the bright moon with Mother and that She can feel that we are with Her... came to my mind.

When it was time to select a leader for the united prayer, I could not raise my hand, but when I heard the leader say, 'This is the last chance' and that became greater than my fear and I raised my hand, and then I thought it wasn't me praying but as if Heavenly Parent was organizing and speaking on my behalf, and I felt the heart I felt only twice before in the Overseas Group. I couldn't even remember the words, but felt my inside completely cleared and refreshed.

I felt I was not alone but numerous AGSs and ancestors were with me... and I was sincerely grateful for the company of others offering devotion with me... I was truly grateful for Heavenly Parent calling me to

Cheon Shim Won and how much grace it is to be able to offer devotion in this place... I felt that I had offered gratitude but did not make a determination because of the fear in me, and I was hiding my heart in that fear.

Now the determination is in me to proudly proclaim Mother before the world. After returning to daily life, I will not lose this desperation I feel here, but be even more firm to offer devotion.

TY for listening

### Testimony

International Yeongseong 40-day... big applause

(recognizing her by her singing performance)

Baranee Retanawshi

Philippine with Cambodian husband 1st Blessed family after history of conflict of the countries, cultivating resentment, anger and disregard of the nations' people

English with translator

TY for the opportunity to share my

On behalf of our ancestors, my husband and I realized we need to pay indemnity and repent, and I knew it would not be easy but determined to be a filial daughter to comfort the hearts of Heavenly Parent and True Parents. It was more difficult than I could imagine. On the day of the Blessing, we could not take a single photograph.

My family lives in Cambodia and my husband has worked for the public mission since our children were small, and we could not always do well as leaders and parents. But we watched the video together on Friday with other Blessed members, helping us do better.

After hearing about True Mother's detention, I wanted to go in person to CP... and more opportunity to offer devotion as a community for True Mother... I cannot thank my husband enough for the decision to support me at home and watching the children, while I attend.

I entered the 2nd International Workshop clearly to offer my jeongseong devotion for Her victory and release... The first challenge was 1,000 bows and after 400 my body failed and I had to rest and though I was physically unable to move, my spirit remained focused on the goal, and after a heart-felt prayer, I hurried to Cheon Shim Won only to find that I was 100 bows behind the group.

For my offering not to be incomplete, I used the ten minute break to catch up, and doing that I completed 600 bows without a single moment of rest. At that moment, I knew this was not my own physical strength and my health was restored and I felt my ancestor and AGS standing with me to fulfill this devotion for True Mother.

This breakthrough in my physical body opened my heart to received even deeper realizations... The

prayers continued during our intensive prayer. When Dr. Moon spoke of how prayer/praise can open us deeper, and as we sang 'You Raised Me Up', I began to reflect on the Life Heavenly Parent intended for us, a life of joy and goodness. That is Heavenly Parent's original Dream.

At that moment, I was overwhelmed by grace, infinite love washing over me, but also a deep piercing sorrow, and I realized that Heavenly Parent is unable to reach all the humanity as so deeply wanting in Heart, and this broke my own heart...

Through my tears (tears), I spoke to Heavenly Parent, 'I am here. I can feel the Love You long to give, and I receive it all.' I offered my shoulder to Heavenly Parent, telling Heavenly Parent to lean on my and that we could cry together, and as my tears flowed in that sorrow, I was not weakened but was empowered.

I emerged with a new confidence, not in my own strength but in the profound love of Heavenly Parent and True Parents. I must share this love and help fulfill the Dream that has been waiting for so long.

Three years ago when Mother opened the Providence of Cheon Shim Won, I didn't fully grasp its significance, but after this 40 days pushing my body through 1,000 bows and offering my shoulder to Heavenly Parent, I realized that Cheon Shim Won is Heaven's greatest treasure for us.

applause

and it is the key for our faith, the for our cure(?) for our children, and the entry into our victory, and I am determines to help every BF recognize this Divine Gift and am proud to confess that this journey in 40-day Workshop has transformed my heart.

I pray to Heavenly Parent that even if the path ahead is steep, even if I never receive a formal Blessing photo, it is enough. I am already overflowing with grace. Heavenly Parent has given me a husband with a heart of a filial son, and two lovely children who are the joy of my life. My family is happy. And that happiness is the depth of love I wish to repay.

At the Cheon Shim Won, the Dream of Heavenly Parent is no longer a distant hope. It is becoming a substantial reality. Heavenly Parent and True Mother, I offer my eternal gratitude. I stand ready to comfort Your Heart and protect Your victory, and to march forward until Your Dream is fully realized.

TY Heavenly Parent and True Parents, I love You...

**Testimony**

Yeongseong 40-day Workshop

She bows

sincere gratitude to Heavenly Parent and True Parents for guidance and to stand in this place though lacking

San Ya Dam

eldest of 3 daughters

In early November, 2025, after my father passed away following a ten-year battle with cancer, I came here after a long absence as an inactive youth to receive the 40-day with my 2nd younger sister, according to my parents' wishes.

During the seonghwa years, I naturally grew up with a faith, serving as vice president of the students' counsel and was a passionate pure water 2nd gen member even being selected with a scholarship with a dream to enter the Department of Theology and Pure Love'...

At that time, I had a clear dream to change the world for Heavenly Parent and True Parents through art, but when I failed to get in my heart crumbled... Is my faith lacking compared to others, and my faith failed and I entered the secular world and with alcohol and comparison to others, and knowing I was shaken when with secular others, my parents sent me to a church dormitory, but even understanding my parents' heart, I could not shake off the influence of the world...

I was doing the arts I wanted, but forgot why and lived each day merely enduring it. Then I made the HJ Team participating simply because I could work through art, but I began to feel the faith inside reawakening and hearing of my father's health deteriorating, I returned home. Even while undergoing the painful chemotherapy, my father did not let go of his faith until the end. And he worried about his three daughters and my mother who would be left alone, he pushed his pained body to take responsibility for the family until the very end (tears, cannot speak).

While nursing my father for the short period of a week and a half, wiping his face and thin skeletal back, the thought that he must have cared for me when I was born and my heart ached. Why did I not treat him better sooner? Why only just now? And my father left the final wish that we go to 40-day and receive the Blessing, And I came to this place because of that.

My mother did not show a single drop of tear in front of us. Even while my father was ill, she finished her work and dinner boxes for him, silently endured and nursed him by his side. A week after my maternal grandfather also passed, having us attend two funerals in close time. I said I would just quietly go away, but joined the choir and involvements by suggestions of those around me and there was the resonance prayer with others, and I was moved at how they held onto their circumstances as if they were mine and praying with tears and they mine, I made the decision to enter this spirituality Workshop.

If I entered the general Workshop, to find my faith again to resonate with Heavenly Parent and True

Parents and find a place to be with the pure water youth despite being easily swayed by the world and came to sense the mysterious guidance of Heavenly Parent... And did Heavenly Parent really love me and if so, why did I fail to get into the Dept of Theology and until then I thought Heavenly Parent did not love me as much as other children because I was easily swayed by the world and I shouted and prayed, 'What is Heavenly Parent's Heart?' 'Why do you keep calling me, a foolish child?' 'What is the path of the Will?' And the image of my father who worked for all his life for his children, and my mother who did not cry even in front of her children... I experienced why Heavenly Parent and True Parents had no choice but to live that way and be able to resonate the Heart of Heavenly Parent through my parents.

I saw the Image of True Mother in my mother's deep and firm gaze as the images overlapped, swallowing her tears, not matter how sad as Mother on the day of Father's Seonghwa and that I must become the filial daughter that Heavenly Parent and True Parents can look upon not with sorrow but with delight (applause)

And in this GA when we can be with True Mother, I will unite my heart even more to make the Will known to the world. I will become a top leader in the world and a proud true child... Although I have much lacking and much more to learn, I have come to know that a parents' love never changes, and that resembling that love is our path...

Therefore, I will no longer be swayed by the world and will move forward with such confidence. I will create artistic? with the heart of Heavenly Parent and True Parents to witness to our culture before the world and become a proud, filial daughter who boldly reveals Heavenly Parent's Will... applause

TY for listening

applause

---

## Testimony

Ajiman Kinto

40-day Workshop

bows and gratitude

only son... experiencing a turning point during the 18th Workshop where I found and began moving toward a true dream and goal. I would like to talk about the kind of life of faith I had before coming to this Workshop...

I begun the year of 2025 in the most difficult state emotionally after my Blessing fell through, and my faith in Heavenly Parent was shaken and losing hope in the Blessing...

Through the summer 40-day, I learned that Heavenly Parent only desires for me to be happy, and my life has been under Heavenly Parent's guidance, but still did not know the Heart of Heavenly Parent well, and resolved to attend the Workshop. Even though, right now is the Providential GA when Mother is still on earth and even when She entered the DC, I thought She will be out soon, but seeing the situation intensify, I became violent... and wanted to do something, but thought that if the criticism intensifies, I will retreat until it improves... running away...

But learning about the desperate yet sublime Life of True Parents, I was like struck by a hammer, and this time of restoration being the most important for Mother's Devotion to the environment and peace while She silently suffered the cross among the ignorance and condemnation of the children. With the Peace Prize I saw Her more how She is...

The heart of determination came and even my body so weary, it was nothing compared to the cross True Parents walked and giving birth to 14 children and Father having to rise again unable to run away and while knowing the sadness of Heavenly Parent. I had been an unfilial child only thinking of myself and then I must no longer run away and must confront that sorry and live for the wishes of True Parents and HPs and offered prayers several times with an earnest heart, 'What can I do to help even in a small way?' but now answer

I saw the mug shot taken of True Father looking as a mixture of willingness to suffer anything but sorrow for Heavenly Parent with a humanity ignorant... and is this the situation of True Mother also, because humanity is so ignorant. Mother said to become our best and be the leader in the world. The reason True Mother is in the DC and the people is ignorant is because of the media information science is a powerful way to witness to the world and now through the spirituality Workshop I found the true dream of my life in information science, to deeply explore and build firm expertise, information literacy and helping people find it for themselves rather than be swept away by emotionalism from words of the world...

Through academy practice and through my major I will become the best without stopping until Mother's Dream is realized on earth. Following the path of my True Parents I will be a light of the world, and I sincerely thank Heavenly Parent for calling me to this Workshop and my brothers and sisters and parents giving devotion in Japan, and that is the end of my testimony. TYVM

---

## **Break**

Busking

---

## **Hoon Dok Hae**

The path of restoration requires the condition of having loved the enemy. If you look at the Bible it says not to lose your first love. Throughout my life, while taking responsibility for the Providence of Restoration, and undergoing many sufferings and adversities, I never lost my first love with God. I walked this path, saying that no matter what anyone says and even if torn apart ten million times, it cannot be denied. God knows this.

When I look at God and think of God's circumstances, I sometimes feel resentment toward the 30 million people of this world's nations who opposed the Heavenly Will. However, even while having such thoughts, when I think of how God has endured while leading the Providence of Restoration until now, I feel shame. And in this way, I have also endured and walked this path.

When I heard rumors that the children of my enemies were starving, I wanted and gave them everything I had, leaving only an underwear and single blanket for myself. Then I lived covered only by that one underwear and blanket and eventually I even sold that last remaining blanket for them.

Why did I do such a thing? It was not because I was foolish. It was because to go the path of Restoration, one must establish the absolute condition of having loved the enemy. I did such things because I had to practice the Biblical Word to love your enemy.

Things do not happen by chance. There is no such thing as no preparation. Looking at one's entire life, those who know that their youth is a period of preparation, for the young adults' future, middle-aged is preparing for old age, and old age is preparing for the SW.

One's entire life is a preparation, a training period to equip oneself with the character of the great universe. Young people try to be victorious in any environment. They absolutely hate becoming losers. As young people, you must stand on Heaven's side and develop the Republic of Korea.

Therefore, you must leave historical achievements in every field of society and renew those fields. You are all young people. Most young people in the world today, especially university students are agonizing over how to succeed in their own country centering on themselves, how to achieve their own happy lives.

However, the youth of the Unification Church must not be that way. Rather than thinking of your own

happiness, you must think for the sake of the nation and the world based on a higher level of ethics. You must have such a high level above your happiness, and be able to process it. You must have this central sense of mission.

### **HJ Praise**

Cheonshim Choir

'I Will Love You With My Life'

---

### **President Lee Gi-seong**

giving of the Cheonshim drum and staff

Hori Masahychi...

became President of H Japan last month and receiving as representative of H Japan

'TY True Parents. We will be victorious... '

Main Message Pres. Lee Gi-seong

We filled this Palace offering devotion, through the devotion not only on the earth, but in the SW also giving the utmost devotion and the person on earth wearing the Cheonshim robe, the spirits will also be wearing it. Our cheonshim is also offer to the spirits and we will be able to develop our spirit self even more with AGS able to be with us today...

40,000 people are connected...

Every day's connection to the Main Branch is moving Heaven...

All of the negative energy upon Korea, we need devotion so that we can see the new light of day...

---

### **Message from the DC**

We truly believe that Mother can be victorious... and names the churches and elder pastors, and it is crowded in that place of offering devotion, and our True Mother is the Great Mother able to fulfill the Providence of the Heaven and Dream of Heavenly Parent, and this time becomes the time we could be loving, uniting and forgiving for the sake of True Mother...for Her health and protection.... in the cold...

Every day so hard and we don't know when it can end... Let this suffering be shortened. Through devotion continuously

Last week the testimony... When first having the diagnosis of cancer in lymph and through the chemo could keep a stable state, but last year an relapse... and yesterday I was told by the doctor that my cancer is smaller and able to complete the second chemo nd hospitalized for 3 weeks and there was the small tumor in me but that couldn't be seen so the doctor said I could get off the chemo, but that tumor became bigger and just before I was hospitalized it came on the same side and with that I felt that this is a battle between God and satanic side, and through the resonance and calling out prayer and offering papers and attending all of the Cheon Shim Won vigils, my daughter currently living in the US was giving calling out for my health and after a week the tumor disappeared and the doctor was shocked and said how rare this is for this kind of cancer to recover and all the tumor was gone...

I thank the devotion of all of the members in my church and Cheon Shim Won and other devotions, this is how it happened. In the Bible, young will receive visions and older will have dreams. I had two dreams, one was True Mother making and feeding me with a soup and felt True Mother is really my Mother. and a second dream, Shin chul nim said what foods are good and put them on the table and I felt to really attend Shin chul nd Shin heung nim with my all... And this network of prayers is opened by True Mother and is a special grace... giving all my gratitude.

This member did everything he could do with his wife and was able to give Hoon Dok Hae every day and bowing and offering papers and attending Cheon Shim Won devotion and through it, the elder daughter

and members of the church, by all of it, this could happen, individual, family and church level. Some say it is important to be able to sleep 10pm to 1pm hours, and this kind of message was through the SNS, but when we see the miracles, how they happen in the most important time to be sleeping, but if we offer devotion during this time, we can receive more grace and healing energy from Heavenly Parent that is unknown to the secular world, but we know through the testimonies of the Cheon Shim Won...

We were able to listen to the testimonies because the 40-day period is coming to an end, and I felt a lot of youth will be inspired also to attend.

The other testimony again with devotions from the mother, made the difference for him... and is eventual determination... after listening to the voices of Heaven and he will go on an over sea's mission and even get his negative father's approval... and he will be able to stand up even ten times after falling...

testimony... SW and AGSs and ancestors, through being a Blessed family of enemy countries, very precious, really working for the peace of the world and 1,000 bows going beyond her own physical strength, feeling the SW working through her and giving her the strength... and then feeling the Love and sorrowful Heart and determination to repay it.

testimony... Her father was in the TC... He passed away but he appeared in a lot of members' dreams and was protecting the TC, and he gave the important message to the children to attend the 40-day and get the Blessing... and he also told me his dream was to see his daughters get the Blessing, but he was not able to see that... Her mother was a 1st gen member, but when she was able to listen to the Principle, she could accept and become a member, a really good mother able to pass on the faith to the daughters...

testimony... He said 2025 was lowest of his life when Blessing didn't go well, but he grasped onto True Parents and when he looked at the trainees participating in the 40-day, a lot who are thinking about the Blessing and searching for that... while reviving their faith to be on fire through passionate prayer and having the turning point... and made resolution... True Parents Life Course was shocking and impressed what an amazing era it is to live it to the fullest...

A lot of people wanted to hide because of the criticism the church is facing, but when you look at the time of Jesus to the cross, there was not disciples but they all hid and only Peter was looking from far away...

And in our Holy Songs there's a lyric that accuses Peter for it... and there are also former members who accuse our church more than Christians do, and then members seeing that criticism, all that times when you deny you are a Unification Church member will be recorded... You will want to give the word that you were at the DC in the cold winter and through those devotions, I was able to meet HyoJN and HeungJN... That kind of devotion is such a time... and feel True Father and TC are working...and feel your AG ancestors supporting you.

There are a lot of people who were following Jesus who were not actually able to meet Him and those who just came and went, but we know the Truth of the Providence and were educated to know how True Father and HyoJN and HeungJN and Daemo nim and ancestors are working and how to tune in our frequency... We live in such a profound era... these final days... And if we deeply resonate, we can understand how great this grace of Cheon Shim Won is...

We will be able to make the church, be the grace to revive the church and see a lot of amazing things happening in Cheon Shim Won and H unified Korea can be fulfilled by that... Through Heavenly Parent and True Parents, it should be the world where we love each other and strive for the ideal world. That is the reason why we are offering our utmost devotion and praying and witnessing...

The most important in our life should be the witnessing and everything else should serve that purpose main... If we determine ourselves and work for it, Heavenly Parent and True Parents will be working powerfully with us also... Aju
