Summary

Celestial Sutra page 1021

"Who is the one who carries difficult things for the sake of His will?" It is not enough to give thanks and praise for all your devastation for earthly affairs. If you criticize yourself as a center and think that you have nothing to do with them, that's where they're finished. Thinking that my father and mother is about me, and my church is my destiny, I pray and pray not to end with the winter season, but rather, deep within me, we must become full of blooming with vitality and love. "\

This time, I believe that the god Japan was completely one with the true mother. Centering on the Korean

National Ethnic Poetry, completely united with your mother, Chairman Liu said, "Good things will happen in the new year. "I heard your mother say. I really hope that many good things will happen, God Japan will make an explosive revival, and that fortune will bring fruit in Korea, and it will be time for a new start, with surprising officials.

Nippon Tenshinni, the god of the mother country, is a global role model, if the Tenshinni culture, where leaders return to Japan and pray like war, is established, 2026 will be exponential. Some people will make new plans with their full chest, but if they keep moving forward with the integrity of Tenshinzai, they won't stop. When there is no lonely person who goes by the hand and goes forward, heaven prepares a greater blessing.

Even in the Shinamerica Tenshin-ni, spiritual practices have been performing and bearing fruit of evangelism. We have to move forward thinking that now is the time when we can't do evangelism. The core of your mother's words is, "Study Korean National Ethnic Poetry and do evangelism." Since the entire spirit world is being mobilized for evangelism, it's time to face it without fear and with all our best that heaven will be touched so that as many as we can before the time we die. Don't be condensed because you will suffer tribulation.

Only Tensho-kyo Sutra says, "We are pursued, pursued and developed. We are not hopeless people but hopeful people. There is no one who occupies us because we are people united in absolute love that cannot be severed by anything. Only love can win all things. Where there is love, eternal victory and eternal kingdom of heaven. Everything is free before love. That's where the teacher is trying to move. "

"People who enter prison carry feelings of despair and discouragement, but the teacher took considerable interest in what the consequences would come after a life in prison." I guess you all understand now that you've learned to decline. I have always wondered what will happen if I cross this axis, the pain I am going through is not the problem, but what is the one new historical gift that will come after that pain. We must therefore move forward, forward, believing that we are not hopeless people, but hopeful people.

A message from Kim Ritsu's assistant minister conveyed to the second generation:

"I did not have the honor of meeting my father and mother, and when I grasped heaven and prayed serious prayers without knowing anyone, I wiped my tears and swallowed my overflowing sighs many times." There will be times when you can't see the way you're moving forward, but only despair. But there is a spirit world, and heaven is with your mother. I stood alone saying I had to go, but I looked back and saw the great love of my Heavenly Father and the great role of the absolute spirit world. Heaven has heard my every prayer, He has crushed me, He has troubled me, He has marched me, He has grasped my hand and walked with me. It was not a road to walk alone, it was a road to walk on your father's back, grabbing your father's hand. NO MATTER HOW HARD THE ROAD MAY BE HEAVEN GRABBED MY HAND AND GUIDED ME Therefore, everyone, trust that the heavens will take charge. I will walk with you, I will always endeavor to guide you, and I will guide you through your path. So let's go together. "\
