### Opening Prayer of Gratitude

Most Honorable Heavenly Parent

Beloved True Parents HEH

As we welcome the 1,489th Cheon Shim Won devotion, we sincerely thank You for Your infinite Love. Our HMM, Who we miss so much, our HMM, the Substantiation of the H Mother, Who has come after 6,000 years, during the time of Mother's unspeakable devotion of tears, we are also being reborn day by day into mature children through gratitude and patience.

We are realizing with a heart of wrenching death, what it means to not give up and endure to the end. As we feel every moment intensely through our entire bodies and minds, not to offer devotion easily with words, we feel that tonight is the night that Mother comes to mind even more.

Beloved True Mother, please do not worry about us. No matter what trials lie ahead, we will not be bound by the eyes of those around us, not swept away by the voices of this time. As direct children who have resonated in Heart with True Parents and bound as no one in history can ever take away, we will firmly plant roots in Cheon Shim Won devotion.

The earnest, united resonance prayer of BFs around the world will surely move the SW, and as the vibration resonates in our chest, even the satanic spirits will be moved. Please work through this devotion with joy and work so that this nation can be changed as Heavenly Parent desires and so that righteous people in this nation will be the true leaders of the H Will.

Even at this moment in Her advanced age, True Mother continues to pray for us in the DC. We earnestly pray for Her health and safety and long for Her return to the Palace and we hope for the protection and health of all praying at the DC.

Captain Overseas Volunteer Corps

eldest son of three sons and one daughter

gratitude...

As captain of the OVC, a confession of 300 days, facing... Following the Seonghwa of True Father, my entire family lived as immigrants for five years. I returned to CheonWon Complex in 2017 and graduated from high school.

I struggled to adapt to life in a strange, foreign land, and even after returning, I wandered, without fitting in. I experienced a major accident and was unable to walk for several months, taking nerve stabilizing medications and anti-depressants... At that time, I thought all of this was because of my parents, and my being 2nd gen., and because of this church, as well as True Parents being the cause of all my unhappiness.

With the Spirituality Workshop, my life was completely transformed from before... I cannot forget the day toward the end, when I received an answer to my prayer, my spiritual senses awakened and I was completely born anew.

The very first words from God that I heard from Heavenly Parent were:

'I'm sorry. I'm sorry. I've been watching over you with a pained Heart. I wanted so much to forgive and embrace you in My Bosom. Even in every moment you turned Your back and threw Me away, I was with you. I always believed in you and waited for you. I am sorry for not being able to protect you from the

closest place. Yet, you came here to pray. Thank you for staying alive and coming this far. I love you with everything I have.

Upon finishing the Workshop, as representative of the 5th Spirituality trainees, I shared my reflection that I would prepare to run out whenever there was a calling. About a year passed and in 2024, I was employed at the Cheonshim Volunteer Academy 3rd class, that I completed last year, and I wanted to please True Parents as a law student at Cheonghi University. However, knowing the Heaven's circumstances and the guidance, knowing that I am needed, I became a Volunteer Corp volunteer for a year with the permission of Cheon Shim Won.

In Sept. last year, with H's guidance, I was able to join the 103-day course with 7 countries in the Middle East attending Branch Leader Moon Im Pyo. Everyone, this was by no means a path that started from a prepared stage. The day before it began was Mother's trial, and I hid cowardly before that.

Even though Mother is in Her most difficult time, the image of myself as if running away, spending time far away, unable to offer help from afar, remained as shame in my heart. During that time, I was at a loss. I didn't want to do anything, and I couldn't say or do anything.

Arriving in Europe in that state, nothing, not my faith, my life, my heart was whole. I didn't come because I wanted to, and the title of missionary only felt heavy, so I wandered looking for places out of the Branch Leader's sight, just enduring, looking for corners to escape and rationalizing myself.

The person who first reached out to me was Shin chul nim, the Inheritor of H's L and B... Seeing him pour out his heart at Cheon Shim Won vigil devotion stage, I shed tears looking at him from H's position rather than my own. I realized I always had a place to escape in a shadow and had an excuse to rest under a justification. However, within that Inheritor Name, there was no place for Shin chul nim to escape.

In a position where one must always stand at the front and bear all arrows and criticism with one's whole body, after that, just as I felt while coming to learn about True Parents's Life, I came to learn through the Inheritors the great comfort and at the same time, the pain of loving. And that day, although I was so far away from Mother, I cried without hiding.

Heaven's Heart and the Heart of a Parent rushed in all at once, and I had no choice but to wail and sob shamelessly. 'Why did you send me to the distant land of Europe at such a difficult time for True Mother?' Holding that question, I stood at the end of the 103-day course of mission. It was faintly drifting away as a sound heard from my consciousness diluted and buried in a light sleep.

I looked out of the window of the plane and saw the aircraft taking off with all of its might and roar from the engines until reaching a certain orbit, the aircraft continued to ascend, squeezing out every bit of its strength. I suddenly realized that our path of faith and the 103-day mission was exactly like this, a time when we had to change the spiritual realm until reaching a certain orbit by squeezing out all the strength we had, witnessing countless moments where walls collapse based on our spiritual blood as a condition.

Looking back on our tour, two figures from the Bible suddenly came to mind. Around 3am on the 103rd day, the last day of our European mission, while offering my final prayer at Cheon Shim Won and UK National HQ, Apostle Paul and Matthew appeared in my heart. I asked Heaven again, 'Why did you send me who are so lacking, to Europe?' Within my pathetic questioning heart, a clear answer came. Through Matthew's resolution and Apostle Paul's history, it is so that Jesus and the Holy Spirit could be together when they returned, it is to shake the spirit of Europe once again.

Faith is not perfected by words alone. It is within love and relationships. In the final words Heaven gave me. Matthew immediately set out for the Will, leaving his task as tax collecting without a moment's hesitation, upon hearing Jesus' Word. And Paul was struck by spiritual lightening on the way to Damascus to persecute Jews, causing his eyes to go blind, becoming blind on the outside but at that same moment, his eyes being open on the inside.

I clearly remember being struck by lightening like Apostle Paul, and when I set out clearly for the path of the Will, like Matthew upon the foundation of having cleanly liquidated the past. The reason I could follow True Parent's Word without a moment's hesitation was because I knew how much Heavenly Parent and True Parents Love us.

It is so precious to remember such moments in my life and to live with such memories, especially for someone like me who likes words and writing and has a loose tongue. If I do not remember, my words easily scatter. And if I do not stand upon memory, faith becomes hollow.

Passing through 103 days in 7 countries, the only Word Heaven continues to give me was, 'Cast your net into the deep. The Words Jesus gave to Peter were not just instructions for fishermen, nor a simple exhortation, but words that directed my entire life.

I need change from thinking only to be guided onto a comfortable path. Are we like that, like the path True Parents walked? We need to be broken, scolded to penetrate first a path tht no one else had walked. And now I think I understand a little that Heaven was not looking for capable people but to establish those who know how to become small before anyone, and those who can lay themselves down because of love.

Therefore, I resolve again today, "Rather than living as a person of many words, I will live as a person of deep heart. I will become a person who becomes small rather than a person who becomes high, a person who says,

'I will endlessly expend as much as the size of my love. I confess that calling someone as lacking as me and placing me under Your European course, was not because of my ability or devotion, but entirely because of Heaven's Grace. This was a process of an unprepared person rising back onto the orbit of faith to a place of love from which one cannot escape.'

In the future as well, I will walk as if casting my net into the deep, getting broken more, repenting more and learning more. Through this European mission, I have resolved to be employed as a volunteer staff member for the H Europe and Middle East Mission until August of this year.

The third class of Overseas Cheon Shim Won Volunteer Group for the H Europe and Middle East Branch will depart for Germany after the Great Works in February, and pass through several countries including France and the Middle East, and finish our schedule in Albania, with the first Workshop starting the end of February.

I will find the needle H Mother is looking for on the European Continent. In that way, I will establish a new tradition and culture for the future generations of family in Europe, that True Parents love so much. I will do my best, although lacking to lay the foundation for the future generations of the Unification Church that will be inherited for all generations across the continental branches worldwide.

Most of all, I sincerely thank Pres. Lee Gi-seong for Cheon Shim Won, who offers devotion with unchanging heart. The Cheon Shim Won Secretary, who established someone as lacking as me, as the

captain of the mission, and allowing me to grow, the team members who embraced me despite my many shortcomings, and the staff of the Middle East Branch, the Leader Moon Im Pyo, and the ones who invested themselves more than anyone in the field, the UPA candidates who dedicated themselves in far places known only by Heaven and themselves, and the brothers and sisters with whom I shared my heart and lived together with for 103 days.

With a heart that loves Mother, I will invest devotion for the substantializing of both internal and external aspects until the Day of Mother's conclusion. And I conclude today's confession, with the words that BL Moon Im Pyo often says at the end of offering prayer, 'Pause and move straight ahead'. I will work hard.

He bows to the audience and to True Parents... big applause

### **HJ Testimony**

Kim Un Eh

eldest of 3 daughters... I was an inactive Seonghwa student. And I followed my parents to church since I was young, but in my first year of Middle School, I went through a difficult time with depression and thought, 'Why am I living?' 'What was I born for?'

As I encountered the bad rumors about the FF from all around me, my faith was shaken. As my worry deepened about whether attending church was right, I gradually distanced myself.

Then I heard the news that True Mother was going through a difficult situation. I found the fact hard to believe, and seeing my mother crying and praying before the holy portrait of True Parents in the early morning, I felt a deep sadness in the depth of my chest. I went to my room alone, and for the first time I offered a prayer not for myself, but for True Mother.

There were many times when my heart was shaken while looking at the news and various articles. Amidst such doubts, I encountered Mother's Words. Seeing how True Mother worried about and comforted us, Her children, before Herself, I shed tears that if realized were longing for True Mother.

I began to attend and listen to the Cheon Shim Won vigils and hear the testimonies and warm praise of the members around me, and I gained the strength to stand up again, wanting to be one with True Mother, the desire to return to the church having emerged. I went for the first time going to church, my mother mentioned invitation to go to the Workshop, and I was not very confident, but wanting to do something pleasing to Heavenly Parent and True Parents, and I wanted to work hard, but my physical condition rapidly deteriorated, and I wondered if I should have even come, but I received so much support from friends and family, and I thought that even if my body deteriorated, I should try to do my best.

The CheonBok resonance HD time moved my heart.... At first I wondered about the results of just reading, which books were not my favorite. But the Director said, 'If you could save a person you loved through this, how would you do it, and thinking of Heavenly Parent and True Parents losing their children, tears came and earnest thought of True Mother, and experiencing the Words... Before, it was just boring, but then I had enthusiasm.

Before I would get annoyed at even trivial things and found it difficult to understand and empathize with other people's hearts, but now no matter how annoying a person might come across as to me, I came to look at them instead with the eyes of Heavenly Parent.

I began practicing a life of trying to understand others and reflecting on where my own shortcomings were. Also, with the opportunity to visit the HJ Jong, and upon hearing that I could meet HyoJN if I offered earnest prayer devotion at HyoJinJong, where he stays, I determined that I must try my best.

During the praise and prayer singing 'Way Maker' we were told to think of the ancestors who wanted to cry out, 'True Parents' but could not, when the lyrics were True Parents, I felt strongly that my ancestors and HyoJN were entering my body.

With the lyrics Chambumo nim, True Parents, tears came rushing out suddenly... How much did my ancestors want to call out Ommonim and call out HyoJN, and how much did HyoJN, HeungJN want to call out how much they miss True Mother... This remains in my chest. After the vigil, I went again there and I felt HyoJN and HeungJN close with me and resonance...

It hasn't been long since I returned to True Parents and the church, and I feel very lacking... However, I feel I was able to come to the spirituality Workshop because Heavenly Parent and True Parents loved me, enduringly waiting for me. Even if moments of shaking come again, I will grow into a child who walks with True Mother until the very end, rather than a child who hides and retreats.

Gratitude to Heavenly Parent and True Parents Who called me here and to my parents, who comforted me and were a source of strength when I was struggling, and to my younger sisters who gave me laughter during the hard times, to my friends at Cheonsun Church who consistently contacted me, even when I was inactive, and to my grandmother who allowed me to plant my roots of faith. tearfully...

Although I couldn't talk much to my maternal grandfather, he was one who always smiled when he saw me. He is now in SW, but when undergoing Seonghwa, he gave me strength by saying to go to the Workshop and become a child who protects True Mother. I will surely show him how I offer devotion toward True Mother even more diligently in the future.

She bows

## HJ Report

Director Kim myung Wok

Family Counseling Center

1,489th Cheon Shim Won, I welcome, respect and love you.

True Father's Words: 'We teach everything at the TC, and make true people and sent them out as completely useable people for Heaven. Everyone needs to go to the Workshop...

The sister who said she will not go home, but will die here at the TC... and she has become so much more healthy, at first carrying two walking sticks, but now no walking stick at all... And we can see such works all the time of the Holy Spirit healing... 70% who go to the 40-day will be healed without hospital stay...

At Cheonwan, met a boy and the mother said she was not interested in studying, not good at it and took over the business when her husband passed, and we made a pinky promise and her son attended and gave a testimony...

At first he said he didn't want to go, but going to the Tree of Blessing was grace and coming back going to the Cheon Shim Won every night and in Dec. I promised to go to the spirituality Workshop and offer earnest devotion... He came to the 18th Workshop and graduated yesterday and I met him, and soon he will go to the military and afterward he promised to go to the Academy...

He was able to do what he couldn't in the past, prayer and shed tears with some realization of the Heart of Heavenly Parent and True Parents, because he did his best, able to grow and comfort Heavenly Parent and True Parents a little more and will offer prayers during military time and would like to witness to those in the military...

There is something in common with those who do not study. They have many difficulties and fight with their parents. But Workshop can make amazing change...

We have small group consultations and if really needed, picking those for one-on-one... One was wounded heartistically because of how the husband was and then the trainees empathize with alcoholic husbands... One even after the Workshop, the husband continued to drink heavily. I said to the husband, 'How much does this pain the heart of your wife?' Why don't you leave your wife. And he got angry... We embarrassed him, but 'Do you think I said that because I hate you. I said it feeling bad for your wife'

Then that husband offered such diligent devotion... We were complimented by the consultation, and attending our parents, we live together and even my wife works, she would take our parents to the hospital and serve their needs... We did what my wife likes and complimented each other more... And my wife said, 'No matter what, I'm on your side' And I was comforted and strengthened and will continue devotion...

Coming to Korea, I did many hobbies and was a teacher, and my son was able to grow up health... There was about a ten-year period not coming to the TC, but for his bad habits not to be inherited by his son, he came here... and I was so grateful... Now, the 2nd Workshop, he has made resolve, and I believe we can make a new start, and as a couple and family we will try to fulfill that dream...

First, going to the Tree of Blessing and Director Kim myung wok would compliment us, and I didn't

really want to and negative 17 degrees outside, but with that strength of her compliment, I couldn't stand still. 'Compliments make whales dance.' And the wife was truly happy.... The husband would report to me at the Kakao talk whether he offered devotion or not.

Is it easy for older members to offer reports like that? I believe he can be a central member. His wife came to the 21-day and wanted to see her husband again for 7 days. And they have 7 children, and when asked what are the compliments for you husband and she had so many... One of her children had trouble, and she would come home late and he would make the kimchi, and calls my eldest daughter and does what is hard for me to express love. And although he is taking a lot of medicine, I am grateful that he comes to CP, and I figured out that you're the best husband in the world.

Most wives have complaints about the husband, but when I ask them to say compliments about their husband, it is amazing how much they come up with compliments... It is truly moving to see the changes...

Last time Cheonwon Church a 2nd gen couple Japanese... He couldn't leave the house for years, sometimes not leaving his bed either... and He would say, 'I don't want to do it' but suddenly 'I'm grateful!' and he would offer bows and read Hoon Dok Hae... He expressed love to our children and takes out the garbage, things like that... She said, I would give 1 million and I refused and then offered 2 million and I said I would go. So, he received 1 million won.. along with great transformation for the family...

She gave examples of couples being healed, and said that there was nothing he couldn't do... and the wife did three times more than whatever he agreed to do... offering devotion here every day to do devotion and then going back home... and give each other a hug...

applause for the wife...and couple

33,000 members met, going through difficulty and listen and offer Heavenly Parent's Love to them and see them smile... risking our lives doing these tours for that...

offered ansu and small group consultations... (They never had this kind of atmosphere and chance before, and it was so strengthening and a condition to feel something more and be healed, and think of the spouse more and the ancestors and others and have a refreshed heart and with gratitude confidence to fulfill their mission as tribal messiah)

Members could feel the good spirits coming with the missionaries visit, and the SW could no longer be denied.

and feeling Daemo nim came to her and sort of vomiting body movement... with the spirits being liberated... and making goals to witness to at least one person per day...

The pastor's mother passed away and he was not able to go to Japan for her and then blood pressure was too high to take the flight, but after ansu could normalize and qualify to go see his mother...

She was doing public mission, but forgot Heavenly Parent and True Parents doing it because she was really doing it for honor... and then health problems healed from ansu, feeling like a fist coming out of her throat... and now wants to do mission with a pure motive... To Tather and Mother, I repent for my past not working hard enough...

Seeing deaconesses repent if really beautiful...

had vision problem and surgery didn't work... but like needles coming in the ansu and Mother's Hands covering her eyes, and like bugs coming out, and she was so healed...

### Break

Busking with MODU

---

### Hoon Dok Hae

Live with responsibility with living, breathing activities. We are realizing we are living with oneness with the SW. This means that if you simply established a reciprocal base with the SW, it will work 100%.

It means you yourself should live with a sense of responsibility and carry out activities that are living and breathing and then the SW will cooperate 100%. What is the wish of the SW. It is realizing the Heaven realm of Cheon Il Guk. How amazing that we really can achieve this within our lifetimes.

If you live while realizing this, how could you just sit still? How could you not put in the effort? We have True Parents, we have the words of Principle. We must have True Father's Life known throughout the entire world (and Mother's Life). Our future is bright. I will make it so that even the local churches are revived.

In Korea, the churches must live and breathe. Blessed families taking action and practicing, you must make it so that your neighbors and tribes follow. If you have an attitude that there is no particular difference between yesterday and today, then you will not receive cooperation of the SW.

The words 'life-and-death determination and total investment must feel real to you. That is why I'm telling you to practice, become people who report to Heaven every day. The Messiah, the Returning Lord unfolded many works of the Providence on this earth. But because we were lacking, we could not make it

all known to the world. That is so deeply harmful or regrettable.

It is natural that, if we fail our responsibility, our descendants will have a more difficult time. Therefore, you must somehow let the people know that the Messiah, the Returning Lord, the True Parents Who Heaven has been waiting for and longing for until now, have come. How much effort has there been to find life during this time?

The time remaining until we go to the other world is shorter than the life we have lived. When people living in the same era as us go to the SW without knowing True Parents or Their Words, how much will they wail. They will accuse you saying, 'Why did you not tell me when I was alive?'

If you fail your responsibility, there will be indemnity through your descendants. You all know the Principle and the True Parents's Words because you were directly taught. From now on you must fulfill your responsibility...

### HJ Praise

Cheonshim Choir

'Longing For True Parents'

---

Along with Inheritors and 4PF True Father, we are more than 45,400 offering devotion together... 396 including online in one church...

President Tokano so diligently offering devotion through Zoom.. applause

Without much money, it's a time to have good experiences, and we are able to spread this grace... Testimony... 5 years living as an immigrant and the big accident... unspeakable trials... coming out from that...

testimony... a basket of diseases... pray that Heaven could not help but come down, and every day write our diaries what Heaven did that day with tears of that day and what was the difference from yesterday... If that diary is full, then the descendants will see it and pray with it, and then you will come down from the spirit world, 'I'm coming you little boy.' And even if you hit your kid with the book, saying, 'Why don't you pray?' They will be happy...

As the SW created Adam and Eve, the SW must be mobilized to create the Cheon Il Guk, and you must offer devotion like a war for that results... each church like it's the end of the world, or are you just praying for your kids, or truly for the release of True Mother, for this nation's chosen people to walk their chosen path, and then you will have reflections we will be able to share with others... May it be such a graceful time tonight. Thank you...

(Did you all hear about the miraculous transformation taking place with Japan's media? Brave youth are risking their jobs to rise up for making it honest, factual reporting with integrity, rather than a political and economically rewarding self-interest of twisted truth, sensationalism or lies for propaganda... We love their Prime Minister who is also standing up for Japan's moral integrity rather than money, material or political gains being the motives behind so much of the government and media system...) (That's what it says in this Japanese video:

[www.youtube.com/live/rYmvaBMozIc](http://www.youtube.com/live/rYmvaBMozIc)
