'Yes, Thank You'

Even before I was born, I smiled at You

As the feeling of excitement grows over time

For a flower unlike any other bloom, I have longed for it.

Tes, I'm happy because I met you.

Our Parents' Love connected us.

Yes. Thank you for being with me. My inexpressible love for You, let it shine brighter than the moon. Let this longing heart be eternal.

'We pure water who were raised and born for true love. We have received True Parents True Love. We will practice true love. We will pay the love back to You with true love.'

Pyo Ga Yon

Korean 40-day

Testimony

2nd of one son and one daughter

Attended church with my parents, but starting senior year of high school and Covid time, I grew distant.

Even while with Seonghwa Youth Group, I attended but more enjoyed playing with friends out of religious faith. I stopped going to church using business as an excuse, and having become an adult barely attended church at all, and only in the passed three years did I consider going once every month or two.

I came to 40-day by my mother's suggestion, but as someone who always had questions, I thought I would learn as much as I could and decide whether to continue on this path, as well as with the desire to truly love and forgive my father. My parents fighting during my childhood remained as a deep wound.

I seem to be on good terms with my father now, but whenever he says he loves me, I hesitated and say, 'I love you.' in a formal, perfunctory way, with a corner of my heart feeling uncomfortable, even he tells me that he loves his daughter more than anyone in the world, which led to a coexistence of guilt. Resentment settled still as an unresolved problem not being able to love him back.

As a high school senior my parents' fighting became more frequent, my father expressing his anger with my mother through somewhat violent words and actions, and I had to watch that inside my room, hiding under the covers and trembling with fear, always worrying that my mother might get hurt.

At the end of these fights the word 'divorce' even came up, and hearing that, my heart would sink. After that, I avoided conversations with my father, and becoming a university student, I hung out with secular friends as much as possible to avoid going home.

Living like that, when I turned 23, my father frequently argued with my brother, using severe profanity toward him, leading toward increasing my disappointment toward my father. However, he could not say bad things to me, and tried hard to treat me well. Yet, I felt uncomfortable with his double-sided nature, and I have not been able to speak to him honestly about the fears and wounds.

Although my father's personality is one-sided compared to the past, there is no major discord in the family now. One of the images of the past pops up momentarily and feelings return of the heart in my I try to hide.

I could not understand my mother for living with a father like this, and came to a point of telling my mother I wished she would divorce my father and live her own life. What even was the Blessing that she tried so hard to protect it to such an extent.

I could not deny the church though because of my mothers love, giving herself so sacrificially. And she was loved by many for this. But frequently encountering my selfishness, I determined that I instead wanted to live a life like my mother, the reason I started attending church again. Also, I want to repay my mother's love even a little bit. I continued wondering what this church was that my mother left her own country and family to practice her faith so diligently.

For me, faith was something I had no particular need or reason to possess. However, having lived as a birth believer, it was not easy to leave this church. If I did leave it, I wanted to first learn about it, and only then walk away.

On the first day of the Workshop, I happened to stay close to a younger sister from my church who has deep faith. Contrary to my expectations, I found myself actively engaging in the training. Listening to Kim Guy Yon's lecture on Principle of Creation and the Fall of Man, and during the final lecture I began to cry. (even I'm not a person of many tears, tears also came while doing Chanyang).

In the past my mother would often cry at church, and I could not empathize with why, but then I realized more. And the next day a Gapyeong Church, my own tears again at praise and prayer time. And looking at someone else crying, I thought of how lonely, sad and pained Heavenly Parent must have been, with my heart aching as well. I felt so sorry for living my life ignoring Heavenly Parent until now.

At the same time, joy was with the apology for what I could now realize with tears, even though yet not fully organized and still with confusion, I have resolution to understand the Heart of Heavenly Parent and True Parents of HEH more deeply through the Principle and become a source of comfort. Then my doubts began to be changed to faith.

I applied for counseling with Director Kim Myung Wok, for the issue with my father. At a small group, she said, 'How would it have been if you were the father, and if the father had not screamed like that, he might have already died.'

But those were not the words I wanted to hear at the time, and as I was leaving still with a complicated mind, the director told me to receive special ansu for the first time. A lot of spirits were coming out from the left collar bone, which happens when someone has been suppressing a lot of feelings.

I felt recognized and could begin to unravel my heart and feel lighter, while continuing to offer devotion and prayer. Then I began to think about the director's question again and think about my father's life from his perspective. I realized that my father had lived while giving up so many things until now. For the first time, I understood why he acted the way he did with no choice but to do so.

Before, when my mother told me about my father's difficult life, I would only continue to be angry, not understanding why he has to use violence because it's hard, understanding how it was hard only with my words, but not really thinking about it from his difficult position. But as I began to understand more, tears of forgiveness and deep apology came for my father.

Still I asked myself if I loved my father, and felt 'not yet' was the answer. But then an image of my father's smile came, with the way he looked at me with eyes full of true love, and I began to reflect and think of those whose fathers ascended early and who grew up without a father. Yet, I have taken my Blessings so much for granted.

As the love of my father that I thought was burdensome turned in to gratitude, I became able to love him sincerely.

In addition, I experience the love of Heavenly Parent and the power of devotion and graceful praise. I was able to make a new resolution regarding the Blessing and have a goal to grow deeper still and go the another Workshop this year. All is because of Mijong staying with me and my mother and all staff... I will live with a heart of gratitude to Heavenly Parent and True Parents of HEH. TY.

deepest gratitude

You may recognize me from doing the 1,700th Cheon Shim Won vigil during Cheonshim Weekly, introduced as a former chef, born in France and joining the Movement in SF in 1989 and Blessed in 1997 to my quiet but strong-willed wife, Marina.

I served as the Director of H USA

... of outreach to Christians with challenges and miracles, through the sincere voices of our young men and women pure waters, many ministers were deeply moved.

We witnessed to the daughter of Sophia Nicks of Heavenly Parent who was reached through H USA and who is here attending the 40-day with me today (big smile) big applause

Last year after 6 years the program closed (new Providential developments with my heart crushed, having invested by the sacrifice of time with my family,...) ending with graduating 12 people including my eldest son from the 40-day in LV. (but still feeling empty, resentful and even betrayed by the sudden end of GPA)

In the silence of prayer, I realized I needed to seek Heaven's direction to move forward... Last October I went to Workshop but circumstances forced me to leave after 21 days, but my resolution remained firm and within 5 years, I've returned to complete the 40-day journey.

overcoming discouragement, I followed to liberate 120 ancestors but then the number became 430 and with some struggle initially resisting, but felt the SW pushing me to obedience through my family.

Praying in the Cheon Shim Won, the story of Job came. He never lost his faith after losing everything. No matter, I must stay with Heavenly Parent and True Parents, and loss was actually H preparing me for something new

The Mission center brought me to tears thinking of Parents' Cross, and I felt grace, confidence and strength returning to my heart.

Thinking of Parents and saw Their Coronation at Cheonjeong Gung and asked why the two paintings were facing each other. 'My child, this is what I've longed for for 6,000 years, the Marriage of True Parents of The Lamb and the establishment of my Kingship and Queenship through Them for fulfilling My Ideal of Creation through Them.

I was overwhelmed with gratitude being given all I need, and through the Love of H Mother and True

Mother, I felt reborn.

All was much brighter and now my son's problem was my own issues to resolve or they would pass down, and determined to solve that problem, I liberated 69 spirits while here.

When I visited the DC, I felt the ground itself was holy, because True Mother never wavered and seeing b and s in Japan standing stronger than ever, I know something is on the horizon. applause

For the remainder of my Workshop, I offer my sincere devotion for True Mother, Japan and my own b and s serving in Europe. Gratitude to b and s in the international Workshop and staff and PL and my wife offering devotion and HMH True Mother, Wang Omma. I love You. Please return safely...

HJ Report

Director Yokoi

March 4th the day we can never forget and great difficulty came to the J members, but H Japan is not that weak. I contacted the social media and not one person made a complaint but said, 'This is only the beginning. This is our turn to rise.'

In the prayer I felt, 'HM and F, I am the sinner and what can I do for causing this situation?' And Father said:

'What are you talking about? Offer more devotion. These are the Japanese members. I raised them. They are not weak members. They will not collapse so easily like that. So, they will move forward boldly with great strength.'

So, I have this report how we are doing that. Resonance prayer Workshop... highlight video

testimony... True Father said to pray for Korea and Mother... I realized I had not prayed properly for Mother until now. I heard that the spirits of Matsumoko Mama and Pres. Kuboki cannot pray for Mother in the SW even they want to... Then I heard my voice praying louder and higher than ever thinking of those spirits. Then hearing the news of Mother's temporary release for medical treatment.

I came to feel that I must pray with all my heart and soul for Mother and talk to more members to come to this Workshop and long for True Mother even more during the devotion.

Youngseong Workshop trainees and Attendance Workshop trainees are leading H Japan and it is reviving and can never be wavered

Video

tears... that we couldn't protect our True Mother... We did wrong but She is putting it on Herself. I was shocked.

I was dormant for 30 years, but I've been reborn in the Cheon Shim Won Womb of Mother and through lecture of Vice Director Yokoi.

If you truly understand about HMM True Mother, anyone can be revived. This must be done holding the Workshop and using the lunchtime, we went to the special prayer room with all our staff and next week and video of us offering prayer as a team

testimony July 2022, the media's bias was most intense with assassination of Minister Abe, and PL instructed me to offer powerful prayer and devotion for H Japan and members, and I realized that was directly from True Father and we gathered every day at noon. At that time there was no internet attendance, and the leaders attended in their stead...

Allowing Cheon Shim Won to move forward in stronger unity, and as the 500 and 600 passed, the Chaplan at the time Yokoi was sent back to the TC, and we enter the era surpassing 500 to 1,000 trainees, and we continue to pray for the victory of H Japan gratitude to HMH True Mother.

I am grateful to devote to 1,000 every day and the message directly through PL... We move forward with resolution toward the 1,000th session with earnest prayers every day. I believe in the victorious H Japan.

On March 2nd prayer and then with resolution of the victory of March 4th, but as True Father said this is only the beginning and I resolved to reach passed after 1,000 vigil and then PL also said that I received as confirmation.

testimony (of last week) re the ruling... I felt my lifelong course being denied, feeling powerless, but then thinking of Mother's Heart seeing the hearts of members, even more than dissolution of the church itself, we want to powerfully proclaim before Mother, 'We are okay. We are okay, Mother.'

Just as Mother told us to be ever more grateful and consider this trial from Heaven and have gratitude, and with this feeling of injustice making our smile bigger with our victory coming.

The Brother Sto ascended to the SW, (tears) as he looked at the hard time of the members... He sent a message, 'I cannot die right now. Mr Yokoi, please guid H Japan to be victorious.' Two days ago, as PL was offering prayer, I was given to eat with him and with a tired look he said, 'The leader cannot show his weakness.' And (tears) thinking about True Mother not showing Her Pain...

When I think about our J members, I felt too that leaders must stay strong and give strength, and I resolved again. When I feel collapsing, the leaders of Japan 4th Region Academy move forward with strength. Significant restrictions and hosting of the symposium also in danger and on the Day of the Event 4 different leaders and through praise and speeches proclaimed the Epic, and I felt the hyojeong toward H is

a power of hope that pierces through the darkness... big applause

The 4th Region, especially graduated Yeongseong trainees here is a vide:

'You are My direct children. I love 1st, 2nd, 3rd, 4th generations forever.'

Now our church companies have been taken away by government, but now it's time for us to reach to other religions and teach them as we should have done earlier. And now we visit and they didn't even know how many of us there are and this is actually an opportunity to visit each family and how precious they are. And the family church is being experienced... in line with Cheon Shim Won and moving forward miracles will occur.

Amidst all that is happening, through the Workshop, we already have 850 registered and we will make victory of the 1,000 and then 100,000 registration for the GWs and find the righteous person who can move H Japan itself.

Realistically it seems impossible, losing all our churchs and building, but I believe this is possible.

True Mother said the more you are lacking the more Heaven will work.' That is right. Because we are lacking, we can cling onto Heavenly Parent and show how fearsome it is to offer prayer and devotion... The difficulty the greater, the greater Heaven can work. Heaven will give us wisdom.

At the same time, during the vacation, 3-day Workshop... and the goal of 80 is too small. If H Japan is achieving national persecution, if we stay grateful, I'm certain Heaven will work, so we put the unlimited number and I wait for the number of the goal from Heaven... So, all members please come to the 3-day and it is time for H Japan to truly become H Japan...

True Parents's Words

May this be a spring of new start to fulfill the Dream of Heavenly Parent

I intend to create an environmental realm for all humanity to visit CP and visit this Place where True Parents were Born. It must become the Garden of Eden. Therefore, I wish to make it Place where hearts are automatically drawn.

Cheonwon refers to 'Heavenly Garden'. The 6,000 years of history of the Providence of Restoration through Indemnity was like a long winter night. Now through True Parents, we welcome the spring where the Dream of Heavenly Parent and True Parents and wish of humanity can be fulfilled. This is precisely that time.

The Cheonwon Complex will change every year. The people will come to experience Heavenly Parent's Dream and True Parents's Providence. Father, as spring indeed symbolizes liberation, we must once again long for the joy of being held in Your Bosom of Love.

Because spring promises a new start, we must make a new beginning held in Your Embrace of Love. Just as all things of the universe harmonize in spring, allow us to be held in Your Embrace of Love and restore the Subject nature to harmonize with the entire universe.

What happens when you encounter God's Love? Even your hair dances and your cells dance. If you invest 100% intoxicated by that Love, you don't just collapse, you aspire to live for thousands and tens of thousands of years. If someone tries to wake you, you tell them not to.

There is a saying, 'The handle of the axe rots while one is lost in the play of the immortals.'

This means that there is a path where one can be intoxicated by high dimensional love that humans cannot even imagine. A mother invests her body and forgets. There's no mother who gives her blood and flesh while keeping a record. While breast feeding a baby, she does not record in a notebook, 'Today I supply this amount.' She invests and forgets, invests and forgets.

The place where a mother stands while raising a baby is exactly the same Place where God stood when God Created Heaven and earth, Investing and Forgetting, Investing and Forgetting again. Aju.

'Mother's Request'

Pres. Lee Gi-seong's Message

Japan is offering unceasing devotion I witness every night...

176th day of devotion at the DC... True Father 4PF is with them. (names the churches)

True Mother's Will is within us, internal faith can become stronger. The true Church is not the building but the heart of everyone connected to True Parents. When we move forward I'm sure it will be on higher end. Faith is not the end but the beginning...

big applause to members at the DC...

When True Mother received these reports, She always said, 'TY'...

testimonies...

never let go of the hope for the children... inherit to the children and repent for your own failings... All the trials, everyone will bow down to learn from such people who offer such heart. Many can follow such heart. Become someone the descendants can follow. All the members must offer life-and-death devotion to harvest such fruits...

She was able to love her father and move forward with the 4PF of the family... We must fulfill the 12 purposes of the family. So, when we draw the 4PF, the Subject is the Position where we must give Love, and if the 3 objects of that Subject, but then all the positions of the 4PF become subject (of love). That's the idea of the 'Three Objects' Purpose'.

Going back to the testimony. As a daughter, she may have accomplished her 4PF Position, but she could not fulfill to accept her father as her own subject as well as her own object of love.

So, what did she feel when her parents were fighting and talking about divorce. When her parents said, 'You're so beautiful and I love you,' she could not let him be the subject or be the object of him of love. Let our family become a family that attends Heavenly Parent and True Parents substantially, I hope that become all's prayer coming to the Workshop. I hope all of you guide your members to 40-day.

She promised to attend Yeongseong Workshop in this year.

The song, 'What a Beautiful Name' Those who call out the Name HMMH, you will be resurrected, you will be saved. In the Bible, they were saved who called out Jesus' Name, but there was a limitation to it.

Jesus entered the paradise, and those believers in Jesus are looking to enter that paradise. But Jesus promised to come again for the 2nd Coming that 'goes farther'... Calling out HMH, you will be reborn... That is the amazing power that that Name holds. The power is opened also to liberate the resentment spirits.

Life is born in the Mother's Womb, not in the air. The Mother's Womb is the greatest. But because Adam and Eve fell, Eve's womb became the place where fallen humanity was born. But because True Parents Manifested, They allowed us to liberate the original sin and ancestral sin and become the absolute sons and daughters who can receive all the love for Heavenly Parent and True Parents.

Knowing that path is Paved, we must realize how amazing and great HMH IS. You can liberated any spirit centering on HMH. The fact that we are calling out HMH is truly a benefit of this era, and it is Authority and Power of the Spirit. So, whenever you are facing hardship, call out HMH, Mother of all mothers, King Omma, that is Mother. The more you call HMH, the greater resurrection can occur.

Cheon Shim Won is like an ambilocal cord where you are connected to the Womb, and to connect to Life, you cannot but through Cheon Shim Won. In order to move forward and receive the guidance, he came back and shared his testimony. Even liberating, he fell down from the faith, but his wife has the deeper heart of faith, and because of her, he was able to do it...

When you were told you would be finished after 210 generations, but True Mother multiplied it to 430, and I saw many shocked by that change and surprised to have to do that. Then great trial would come until you do the 430 ancestor liberations... Then he had denial about the resentment central spirits.

Through CY yoksa with absolute faith, it would be great if you walked the path of fully liberating, not having the problems in familys of the CRSs...

So, it's not about giving ansu to members, but about teaching them how joyful and amazing it is. How amazing that it can be done with such healing result to liberate central resentment spirits.

One liberated 120 CRSs... and one church put a banner about liberating 10... They don't really know...

If you had the heart of Job, you could overcome... with AFALAO to Heavenly Parent and True Parents, on the path of trial, if you attend HMH as the Mother Who will be glorified above all things, that will not be able to be compared to Jesus. Absolute faith that your have the good spirits behind you and not clinged onto the sad, resentment spirits, you will be stuck there...

Only when you realize that you can settle down as the family of the Messiah, and need to restore at least one family, you can grow to the standard of True Parents.

The brother, the chef came to great realization with his son's problems, that he himself had the central spirits and liberated 29 during the Workshop period, and his son's voice and conversation changed with abundanct grace. So, no matter how much despaired we are, we we fulfill our responsibility with faith, we can be raised up.

Because True Mother kept Her Position, Cheonwon is the Holy Ground.

Truly the WSs are the Place of grace and Blessing power...

Brother Hibayashi VP of the J team, he actually translated more than three hours every day. No other translator does translation more than three hours more than 3 years... applause

Pay for the 1,000 and the 10,000...

True Father's Words: With the coming of spring, True Mother will be liberated...And we can promise to set a new start, with the prayer of our absolute earnest... Only with True Mother's liberation will there be spring

With this conviction, please offer prayer tonight
