Opening prayer of gratitude

Mose Precious Heavenly Parent

Beloved True Parents of HEH

In this exceedingly precious time, we offer our sincere gratitude for being allowed to offer this vigil devotion together with all of the cosmos, while attending True Parents of HEH.

Heavenly Parent, through this vigil devotion, permit us to empty ourselves completely. We earnestly hope that our hearts may touch Heaven's Heart, so that this may be an hour when we can communicate solely with You. Heavenly Parent. Allow us to resonate with Heaven's circumstances, Your clearly reflected Heavenly Heart, so that we can be those who can fathom Heaven's anxiety..

With a heart determined to comfort Heaven, work through us so that we may resonate with Mother's circumstances. Work through us so that we may become those who can offer devotion toward what Mother so earnestly Desires.

Our True Mother Who, after True Father's Ascension, told us to move forward with Spirit and Truth. Despite our inadequacies, shall become those who can move forward in Spirit and Truth by mobilizing the entire SW through the devotion of Cheon Shim Won, hearing the earnest outcry of Father in Heaven, we shall become those who move Heaven.

Earnestly hoping and desiring that we may be the gathering that offers sincerity with one heart for our Mother's health and longevity, and for our Mother's reclaimed innocence and release.

2nd son

After attending the Workshop, I wanted to pursue my dream of becoming a chef, but after the difficulties put to True Mother, I wanted to be Her bodyguard and left my personal dream to enter the tenth spiritual academy.

Since I have a shy personality and because I was not there from the very beginning, it was not easy to memorize the trainees' names, or be the first to approach them and fully focus on them.

After the spiritual Workshop and attending the Academy class my spiritual standard again dropped and I became worried that the trainees could recognize me as coordinator. I was given the opportunity to do 2-hour devotion at the Academy student relay. But my mind was so disorganized that I couldn't do anything for a while. I just sat there blankly staring at the portrait of True Parents.

Then, I realized that I couldn't look properly at True Father in the Eyes in the portrait, not honorable before Him. To be a coordinator who helps the trainees become one with Heavenly Heart on behalf of True Father, Who has no physical body, but I was so incredibly sorry not to be doing that.

But Father said if we simply bring the 2nd gen to CP, He would educate and raise them Himself, but I had been trying to do it on my own. When I received spiritual training myself, I didn't grow because of the training from the coordinators, rather they helped us to received the training well. Then, I found myself growing before I knew it.

Spiritual Workshop was truly a place where True Father, HyoJN and HeungJN directly taught us, and I only needed to fulfill my part with devotion. We offered prayer for the victory of the H Japan trial. The moment I heard that, I was so incredibly grateful to the Japanese trainees, and felt that desire and supported what the trainees needed to succeed in the 24-hour devotion offering, and could look upon them with even more love, seeing their devotion with tears.

I thought of Heavenly Parent looking at children who had lost the place they were longed to return to. And I shed tears with them. Even after the dissolution, they had already resolved that H Japan will never collapse, but one day they would lead Japan to victory. While watching the trainees I resolved to reflect myself and make the strongest determination.

I was again invited to serve as coordinator, and through it I will move forward with sincerity, so that the trainees can feel the love of Heavenly Parent and True Parents and attend Heavenly Parent and True Parents, thanking our good ancestors.

eldest son of 2nd gen...

After my father's early ascension, my earlier faith I'd grown up with eventually faded. Bullying school violence in middle school again tormented me in the military. But through the 15th spirituality Workshop, I completely established the roots of my faith.

Through the 13th Resonance Prayers Workshop, I resolved to walk the public path and began to be active as a member of the tenth Cheonshim spiritual academy.

I've been doing music for a long time. With the goal of spreading the culture of heart here, I was hoping to be in the Cheonshim team going to Korea, but then was to be a coordinator instead. I wanted to refuse not feeling adequate, but then because I was convinced it was the Will of Heaven.

I had great fear of counseling and I regretted it. I realized I had to do the counseling and I had to lead the trainees and that it was not arrogant, but just the mission I was given. As if Heaven knew all of this, my first times as a coordinator were dealing with the trainees' applications and performing various interpretations. I saw that I was still not able to let go of myself, for not speaking my own words, but someone else was saying, but I was doing a lot of paraphrasing, based on my own thoughts, thinking it would be conveyed better doing it that way.

I struggled to somehow lower myself while carrying out my activities. One trainee told me they had great anxiety while performing on stage. I had to speak with the mindset to resolve something, but a thought suddenly came to my mind,

'How is Heavenly Parent looking at this trainee right now?' 'If I were this trainees' parent, what words could I give them?' 'What would Heavenly Parent want to say to this trainee, using my body?' (instead of me, what I thought to say myself)

At that time, even I was the one speaking, I felt it was someone else speaking. The result was that that training went up on stage feeling much lighter with a refreshed mind.

Even I struggled to let go of myself, I realized that with the position of a parent, you naturally have no

choice than to let go of self. For a long time I agonized over the thought, 'How can I feel the Parents' Heart?' I often thought, 'How could I be in a parents' position when I don't even have children yet?' However, through this position of coordinator, I was able to feel the Parents' Heart, even if just a little.

There were times I felt deep emotions just seeing the trainees offer praise and even they had incredibly difficult circumstances, gaining brighter expressions and becoming reborn through the Workshop. On March 3rd I offered devotion alongside the trainees praying through the night about the dissolution order, despite their busy schedules and desire to rest, seeing them become so earnest and encouraging each other to pray more fervently in prayers for their parents and their own children, for the Mother Nation of Japan, about all for H's Will.

'Please protect these children. H entered the position of a Parent and I had no choice in the reason Heavenly Parent and our own parents walked this course was for us, their children. I experienced the position of a parent and learned the position of sincerity.

Still, I am inadequate, but Heaven has educated me a great deal and I felt H's desire for me to go further, so I resolved to serve again. I will do my best performing my duties from the lowest position. I would like to offer thanks to my wife and devotion for the victory of Workshop.

Grace of 19th jeongseong Spiritual Workshop

I truly respect and love all of our brothers and sisters offering devotion. I have been praying and did a HJ paper to fill up my inadequate heart, and to please work and give a message to members and picked a card from True Mother's Words.

'Heaven will make miracles when we forgive and unite'

Am I truly practicing M's Words to forgive and love one another. With that inadequate heart, I stand before you.

True Mother's Words: 'I have waited a long time to meet you all. I wanted to find (small needle is the children who can be one with H Mother

In 2017, there were people who would ask me, 'Is True Father really together with tM? and working with True Mother?' I tried to give an answer, but I felt it was inadequate, and I prayed, 'Father, are You really working with True Mother. Please show me'

There was an event in Okaka attending True Mother, and we were gathered during the performance and some time was left and I went into the booth and told myself to wake up when Mother started speaking. Then I dreamed and saw endless lines of people in white linens lining up, and I asked why, 'Don't you know? True Father is coming' and True Father came with a lot of body guards and started working toward me and all were lining up, but I had a different outfit because I was from the earth, not a spirit, but then

True Father pointed at me and one of the body guards whispered something, and He didn't even move His lips but carved the message in my heart:

'I am currently trying to find the shimjeong trainees who can be one with True Mother. When you go back, find those trainees'

It was the spark coming like engraving letters in metal. I was so dumbfounded about that. Then Father started walking, and I could see the Gates of Heaven opening and Father descending. I ran toward Him, and I saw the Gates, when they opened Father was descending, and when True Mother was at the podium, True Father actually became One with True Mother at the moment when True Mother was saying,

'Most beloved and distinguished leaders from all around the world (When She started talking, at that moment I woke up, and I was looking and could see True Mother on the screen saying those same Words, and I couldn't stop crying until True Mother's finished Her Words.

And I would tell to the spiritual trainees how True Father came to my dream and told me to tell them this... But now, you can truly see the 2nd gen in their 20s and 30s listening to this message. True Father had been so desperately searching for them and educating them to read True Mother's Hearts and establish the 3 gen and True Parents are One and we must also be one and raise the youth from elementary school.

We have Seonghwa students participating in the intensive prayer and with all the heart at Workshop, I could see their fire not extinguished and to see them is a lot of hope substantially for Heaven to work.

We must raise these bright children and from the position of high priest, convey the Words of True Parents to them. There are a lot of children who listen to True Parents Words and resonate with True Mother's Heart. At the very last day we could see these young people repent and offer devotion to True Mother.

testimony: First time returning in ten years and first CY session and reflected on what it means to have a self-driven faith, not that just blindly following. I realized my faith was from others.

I hope many come to know the Value of True Parents and the right values and direction for my future. Now this church is where I belong. It is my identity and it is my religion.

This last statement moved my heart and I believe it is F's and HyoJN and HeungJN's work... applause for encouraging her

All of the Workshop and university students, I believe can make a wind of witnessing.

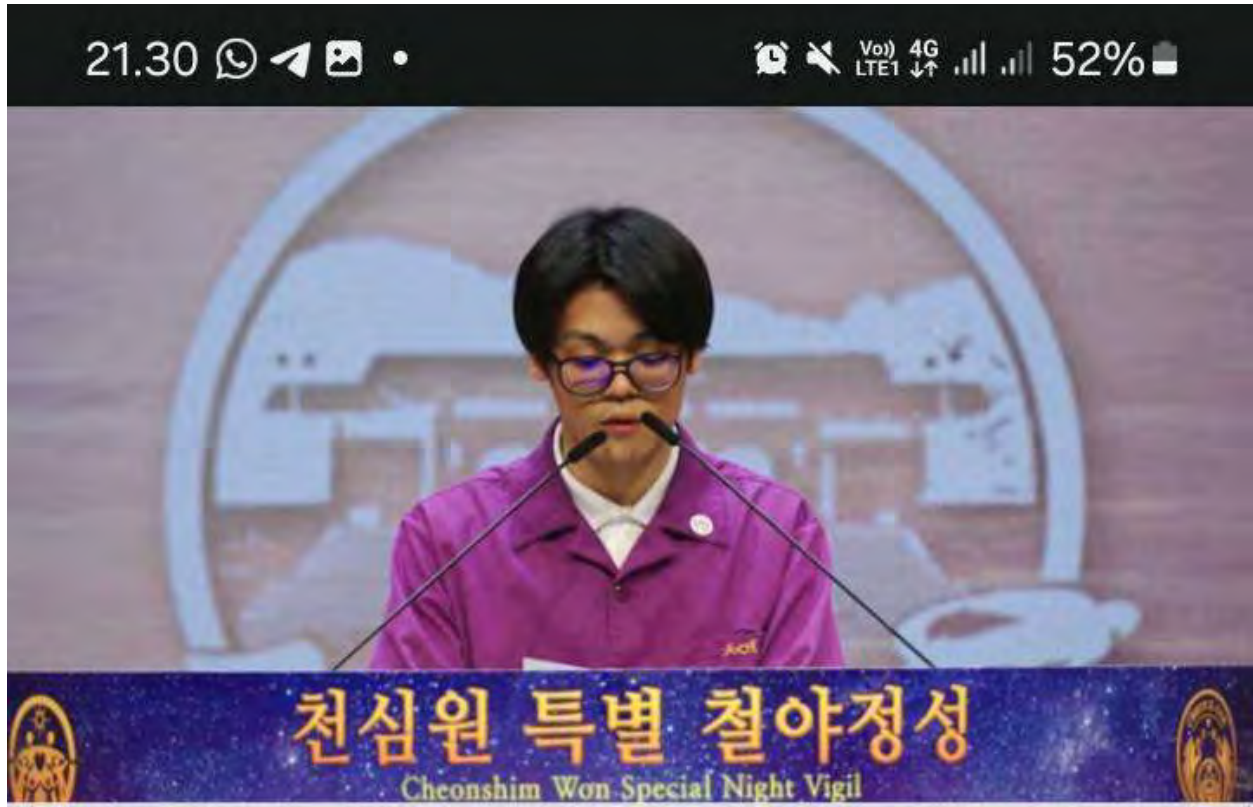

There were the heart-breaking moments with the dissolution... There were activities set up, but they would say that it was important to do the activities but with earnest plea from the members we allowed it, and for 24 hours the Korean, Japanese Dept and all who wanted to participate started devotion at the risk of their lives, and I had absolute faith that Heaven would work. I got the sad ruling message from the coordinator that they wanted to end the devotion, BUT the trainees wanted to offer even more devotion for the members of H Japan who might be hurt from the ruling.

When I got that message, I couldn't help the tears and was so proud of our trainees... They offered devotion as if they don't know the ruling and to give thanks for our Japanese members, and if you saw,

you could also not feel that heart.

I truly believe that new miracles and works will happen. This trainee was distant 15 years but was truly reborn as the son of Heavenly Parent and True Parents...

'I prayed desperately for protection of Japan and I prayed for power to defeat dark spirit, and H embraced me with the joy of hearing, 'I love you'... Heaven provided what I truly needed, not everything I said I wanted at the time.

It was like a lyric of the HJ Praise. I wanted to make this graceful part into a lyric of HJ Praise.

True Mother's Words: We should meet True Father 365 days in Cheon Shim Won.

testmony: five straight days without sleep 1,010 bows, calling out, 433 time each for HyoJN, HeungJN, Daemo nim... I met True Father 'For you this 40 days were just general, but these conditions are the true Workshop with your ancestors pouring in all the power, while you thought you did this yourself...

He was able to see a Living and working True Father right in front of him working...

12 years of marriage he reflected and truly repented. Because of the Cheon Shim Won prayer and devotion, miraculuous results... I thought the crisis in his company was so profound that he should go back to Japan, but I asked Father and He said to go to Cheon Shim Won and let him risk his life to offer devotion, and then he will be able to give a HJ report to True Mother of testimony... I cancelled my guidance, and did what True Father told me...

During the 4th day of devotion, he met True Father. One of our coordinators took a video of his devotions, when others were sleeping, and he bruised his knees... (the one with the beard)... He has a lo of tattoos both of his arms and I actually felt scared to even talk to him, but he actually came to me with the phone to share his grace and I felt he was so pure as a baby, looking at me like my baby looks at me, and I thought we should offer devotion like that... such pure heart callingout and I was able to repent and realize and believe he will do greater work in the future...

another trainee, all of the family offered devotion with one heart, and they could see miracles.

True Mother: You must command and mobilize the SW from the Cheon Shim Won. As a result, you must untangle the issues on earth, and responsible fulfill the Dream of Heavenly Parent and True Parents here on earth. If we live attending Heavenly Parent and True Parents, when we shed our physical bodies. You must live a life of Heaven on earth in order to go there in the Heaven realm in the SW. Try offering calling out prayer 1,000 times. You must pray and offer devotion so that the SW can mobilize. You must raise your voices to True Father and offer devotion every single night until it is accomplished.'

That is the reason that even on weekends we will offer this intensive prayer with even more sincerity and desperation... True Mother has given us the guidance to offer 1,000 calling out prayers and now we are

offering devotion so that we can mobilize the SW throughout calling out prayer.

True Father also said about. 'I am telling you to post the person's name and you must be able to do this continually. We are capable of waging a two-front war, a spiritual battle and a physical battle. People of the world cannot fight spiritual battles. If they become indebted to us, they are the ones who must repent. We engage in a two-front war. We must shed tears.'

So this calling out prayer, in the early stages of our church, when we had less members, True Father would offer calling out prayers all night with the names of the members. That is the history of the calling out prayer.

I had a reason for our needing to do this calling out prayer. One Sunday night the Secretary General Pak Jung Gi was in a critical position. PL asked us to offer devotion with a desperate heart and offer calling out prayer and ask for medical angels and for hyojeong offering papers. Because it was a critical moment for Patchung gi, we would call out for the health of him.

We actually changed to do it 430 times, and True Father said not 430 but 1,000 times like True Mother said. Then we called the coordinator to fix the program a moment before entering the devotion. The medical angel registration form was written by Pres. Lee Gi-seong. The death rate of the position was 40 to 70% and we offered as 210 trainees, calling out 1,000 times and we were able to do 210,000...

Upon that foundation we could see miraculous things. When I closed my eyes hitting the drum, I could see resentment spirits moving rapidly in front of my eyes, dark, black spirits, and I started calling out and beat the drums, but you could feel hands numbing, but passing 500 time, I couldn't beat the drum longer and was so embarrassed in front of the trainees, but someone came up with a memo, 'We have prepared a second drummer' but I didn't realized that I was saying, 'No.' even I couldn't move my hands, but at that moment I could feel the pain in my heart become zero and I could hit the drum even harder and feel that there is more...

I could beat the drum even harder and raise my voice even louder and when I closed my eyes I could see golden light emanating and could not see the dark spirits any more and I heard the voice, 'Pak Jung gi will now be living'... I was so joyful, beating the drum like singing and dancing.

I told my wife and 2nd gen will now leave... Also, my wife had a dream last night indicating that the Secretary General will live, and True Father is truly educating and working directly at Cheon Shim Won... applause for True Father enduring and working with so much love for His children.

We saw him sobbing uncontrollably, he had such a profound experience to see the evil spirits with beaks like eagles, looking for him waiting to die, but when he overcame that, he could give such a miraculous testimony, and I believe he will be able to give this testimony himself. He is returned of 44 years of public work. Let us offer him more applause to recover and offer devotion with us at Cheon Shim Won...

And this was such education for our trainees. We had the special devotion and New Year and Commemoration of True Parents Holy Birth and could see our trainees resonating with True Mother, and the day before the ruling, we could see a lunar eclipse the first in 30 years...

A lot of our trainees would feel this was True Father's Words (PL there taking photos of the moon and met with the trainees and a photo together) A lot of grace-filled things happened and the faces during their graduation ceremony, I could see how much they had changed and I would like to first show how I changed from 2017 being away from the church and this is the image of me during my 40-day... I wanted

to go back home, so complaining. On my sweater black clothes representing the evil spirits, even I truly loved those clothes but then I didn't like them any more after the Workshop.... I had not been able to smile but could change my appearance smiling... I'm not faking the smile.

I would like to share some of the trainees... sorry to them but please remember the image of after... If you have a problem, please send me the message...

These trainees, I was not expecting, but they will pledge to be public missionaries... No one asked them, but they voluntarily pledged themselves...

testimony... want to be someone who can have a one-on-one conversation with Heaven... I agonized how to repay and attend True Parents and to draw closer, I joined the UPA and learning from the lowest possible position. I chose to volunteer at a local church and answering Heaven's Call, later will return to Cheon Shim Won and renew my determination to volunteer. I received my overseas calling and will now volunteer at the H Europe and ME Branch for half a year.

True Mother has shown how we can fulfill:

'Especially those of you who are participating in the Spirituality Workshop, you must become one with the SW and clear away every single obstacle that stands in the way of completing Cheon Il Guk. You already know how to clear them away. Through the devotion at Cheon Shim Won, you simply need to create the conditions for the SW to mobilize and work. Let us act with the immense pride and achieve H unitified Korea.

And True Mother has said:

The right time is not always there. There is a specific time. If you miss the time, you will be condemned by your descendants. Even though I have told you time and time again, if you fail to put it into practice, you cannot avoid the responsibility. Do you understand my Will. It is unacceptable for you to just sit in comfort. What is so difficult about offering a night vigil prayer after 3am? To sleep for five hours is more than enough.

You must raise your voices before True Father and offer vigil prayer every single day until everything is accomplished. This is the words given in 2022. When I first heard these Words, I felt they are as fresh as new. So, starting today, let us offer devotion for True Mother and remember the standard is until 3am, offering our spiritual lives. Until 3am is the standard. And if we look at our trainees, they will only go to sleep after 3am...

I believe we can see the firm foundation of our church spread out to the world.

True Father at the graduation ceremony: Knowing that Heavenly Parent and True Parents are with you, I pray you become children who can receive Heavenly Parent without hesitation in every situation. I hope who, no matter the circumstance, find your direction through prayer and seeking Heavenly Parent as you walk that path, H will continuously work through you.

In every situation, your direction will naturally align with H's Will, so let us fulfill that Will. This is not the end but the beginning, moving forward attending Heavenly Parent and brothers and sisters in every day life. '

Our participants engrave these words from True Father and from the lowest position, mobilized the SW

through the devotion at Cheon Shim Won. For me, I was able to be revived from the Gates of Hell, and I made a promise, and I think because of my promise I am in this position to educate the 2nd gen, but it is not me, it is not the coordinators who are educating.

When you bring your trainees to the SW, it is because True Father has said He will directly educate and guide them through this Spiritual Workshop and work. So, even if you feel you or we are inadequate, please bring your physical and spiritual children. Let us all come to the SW and experience workings of the Living Heavenly Parent and Living True Father.

If you are able to send them here, we will be the humble servants and do our best that Heavenly Parent and True Parents will work through us and educate them directly. I truly believe we can offer a message of hope to True Mother through our Cheon Shim Won devotion.

Break

Hoon Dok Hae

Never forget the sight of Heavenly Parent for even a moment. One who works for the sake of the nation is a patriot, and one who works for God is a son or daughter of God.

Those who work for the nation give birth to children who worry about the nation. On a global scale, a country of such citizens does not perish. Only such people can set up right are born of history. You must become people whose hearts and thoughts and circumstances coincide with God's. Do not worry for the sake of your own physical and mental life. First, worry for the sake of the heart that seeks Heaven.

Your anxiety must be for making the sons and daughters of sin into the s and d of God. You must not forget that, today, God is worrying over the individual, society, people, nation and world. Throughout my 40 years of Life, I have never forgotten this for even a single moment.

when you go to the SW and call out, 'Father' from anywhere, you can meet Me at once. You can meet Me immediately. There is nothing to worry about.

If you attune yourself to the Heart of Love, you possess the right of equal participation, equal status and co-residence.

Therefore, if you call Me, you can meet Me instantly. Such people, I will show the entire SW.

Without the unification of the SW, the unification of the earth cannot be achieved. In walking this path until now, the SW has cooperated entirely from such a background. That is why every religion has testified to Me.

Originally, after WWII, if oneness had been achieved in the unified world of the Christian cultural sphere, the spirit and flesh would have become one from that point on. Because that was not done, the work to unite the unified foundation through our 40-year course has been repeated until now. By doing this, all has been ended, by unifying the standard for unification of the SW with the PW, so that there is communication. Before now, everything was blocked.

The SW must be mobilized. I must be ahead of the ancestors of the SW and in everything offer sincerity. Furthermore, one must move from the position of self awareness as a filial son, filial daughter and loyal subject.

Therefore, do not remain alone, but become one with your parents as well as your ancestors, representing the 3 ages. Thus, you must exert influence before your descendants. You must clearly teach them about the SW. It is the time for the SW and PW to unite. Therefore, you must absolutely mobilize and move your own ancestors.

Following that environment, let the ancestors teach spiritually. You must conduct a movement for unification on the earth as well.

Remarks of True Father

Moon Yeon ah nim

big applause

Hello, beloved members all around the world, today, tonight, I was not supposed to give a message. However, even if not every day, whenever I meet True Mother I truly want to share the Heart and Love of True Mother. And I decided to come out to share Her Love to you. True Mother, looking at the members offering devotion all around the world, outside, doing their utmost best, offering devotion, listening to the report of that, She was truly moved and happy, and She wants us to truly elevate the culture of devotion.

When we look at the entire world, we can see how the environment is so poor. Some of the places are war-torn. And True Mother has said that we must absolutely do our best to educate the Words of True Parents and to cultivate our younger leaders and developing the community as Blessed families.

The Movement for Peace that True Parents's have educated us in and the sacrificing for society and the witnessing, True Mother listened to all of these report. And when She heard about it, True Mother was

truly grateful and happy, and also really proud of our members. And True Mother gave us the guidance that we should share all of these things to the entire world.

And True Mother said that, even though it's so hard on some times on the field, True Mother was encouraging us, even though She is the One Who is in prison. So, all of our members, please remember that True Mother is truly thinking about our members and I really wanted to convey the Heart of True Mother in this time.

There are those who already heard this message that I shared several times, reading this. The standard of shimjeong of True Mother, the Love of True Mother toward us, and the standard of Hyo Jeong toward Heaven of True Mother, I was able to share some of these things. I truly hope that you will be able to experience True Mother's Heart at this time.

Beloved members, be strong. Heaven is absolutely Living and Working at this moment. When you look at the Eyes of Faith, Heavenly Parent is not being quiet. And when you look at the 6,000 years of history, Heaven has constantly advanced the Providence and is currently working at this very moment for the Providence. To fulfill, Heavenly Parent is working.

Enduring 6,000 years of human history, Heavenly Parent is still now residing with us. And we know that Heavenly Parent's Dream will be absolutely fulfilled. So, because of that we should not be despaired in any circumstances, but just trust in Heavenly Parent. Heavenly Parent knows our devotion and prayer. Heavenly Parent knows the tears we're shedding and all of the hardships we are going through.

When we look at the Providence, Heavenly Parent was able to start a new Providence even in the position of despair. But it might be hard for us to look at it in our own perspective, but however, from Heaven's Perspective you could know how profound Heavenly Parent's Heart is, for 6,000 years.

With all of these hardships we are going through at this moment, Heavenly Parent is in the process of fulfilling Heavenly Parent's Purpose, so family members please do not forget the Central Heavenly Parent, and the Will will be fulfilled.
