Opening prayer of gratitude

Most Precious Heavenly Parent

We offer our gratitude for guiding us to this Cheon Shim Won with a heart of contrition, praying for the

health of our True Mother who is suffering inside the walls of a cold DC. We have no way to fathom the pain True Mother has endured, True Mother Who is more beautiful than the blooming in spring.

Although spring has arrived with True Mother shouldering our sins still in a path of our

I completed the Spirituality Workshop and now in the academy. The reason for my determination simply

because Heavenly Parent called me.

After being accepted in Sun/Moon University, True Father appeared to me in dream and told me I did very well to come to Sun/Moon University. From that moment on, I suddenly began to feel the presence of the SW quite frequently.

During the Workshop, I heard a clear voice telling me, 'Go to the Spirituality Academy, which had not been in my heart at all. I didn't understand why, but during the resonance prayer I believe I was feeling the shimjeong of Heavenly Parent but then completely disconnected, so I prayed why. A profound realization came that Heavenly Parent wanted me to realize things on my own and put things into practice myself.

I finally understood why I was guided to the Academy and made my own determination with it. I still didn't know what I was to discover and continually offered the devotional prayer and realized I needed to know the Shimjeong of True Mother. I must independently seek out and act on True Mother's Shimjeong. I feel quite lost t times and heavy, but I will walk this path to the very end for True Mother.

After finishing the Workshop, so much grace I was not aware of. It was a Workshop my entire ancestors and family was attending this Workshop together, not just something for me on my own.

I went and sat down with family and caught up on everything. They told me that while I was at the Workshop, the whole family would gather in front of the TV to look for me offering Chanyang during the special night vigil. Even my younger sister who hadn't been going to church at all joined the family in that.

My mother works as a nursing assistant and exhaustion kept her from church, but seeing me, she made a determination to attend. My father also was same, but now so much more interest. My younger sister and I used to be awkward around each other, but I was grateful and a time for her to get a nice new phone and I bought her one. She told me she would do her best from now on.

My ancestors right there with me eager for me to participate or else they couldn't do anything. I often thought about quitting, but knowing my ancestors were waiting, I continued for their sake, and they cooperated with me, putting themselves on the line and my strength returned for which I am grateful..

I still make mistakes and so much I don't know, but I know True Parents are with me and I have so much gratitude of all who are with me.

Coordinator 7th Moshim Workshop

gratitude

For 6 years I worked as a nurse in Japan, starting with the heart of wanting to be a source of strength for people in need of help. However, so difficult, not able to let go of tension and facing countless deaths, and I thought this could be a growth process, but my mind began to break down with my body.

Through distance from the church, I naturally became stained by society and I couldn't open my inner heart to anyone and spent time in a dark room with depression and anxiety, thinking about dying.

The Workshop was suggested and going was the first in 7 years, unfamiliar but also nostalgic. Through

the Workshop, I learned the 6,000-year history of Heavenly Parent, and True Mother's Life of sacrifice, so shocking, and made me realize how self-centered I have been living.

Rather than thinking of my own hardship, I felt gratitude for being live only by the sacrifice of True Parents. Also, while watching how I left True Parents, I felt the Love of Them always waiting.

I entered the Academy and joined the activities of the Jeongseong Team. Afterward, I took on the role of coordinator of the Education Team. Even when my body was exhausted and aching, in my heart I knew Heavenly Parent always pushing me at my back and holding my hand saying, 'Try anyway and you can do it.'

For over 12 hours a day at the Cheon Shim Won, which is Father's Office and True Mother's Womb, I prayed for countless trainees. At times I offered devotion all day without sleeping, not knowing how time was passing. True Father directly gave me words saying, 'Love Japan in my stead. Do more. And is it not you who decided to do this?'

F sometimes comforted me and sometimes scolded me and taught me that the contents of devotion. On the foundation of that devotion, I entered the Education Team and became the coordinator, but it forced me to face my own inadequacies, and every day I reproached myself saying that I was unqualified and couldn't do it, but every time like that, True Father gave me the environment and Opportunities that I could grow.

After 24 hours a day, my heart and physical strength were gradually reaching the limit, and I was at my end, hoping the trainee would overcome on their own, I became able to look at the trainee with the heart of Heavenly Parent and embrace the trainee with parental love.

Through this, I became even more convinced about the SW. I invested my whole heart into the trainee who needed love and was able to see that the changes were not my doing but Heavenly Parent always with me.

When becoming the coordinator, I said I would try but lacked confidence, not having even received the moshim Workshop and True Father said, 'I called you because I want to love you. Did you not say you wanted to attend Mother? You must know how to do it properly.'

Most trainees were Japanese and despite the language barrier, they had nothing but the heart to attend True Mother, with a pure heart of loving Mother. Watching them I could not just remain still.

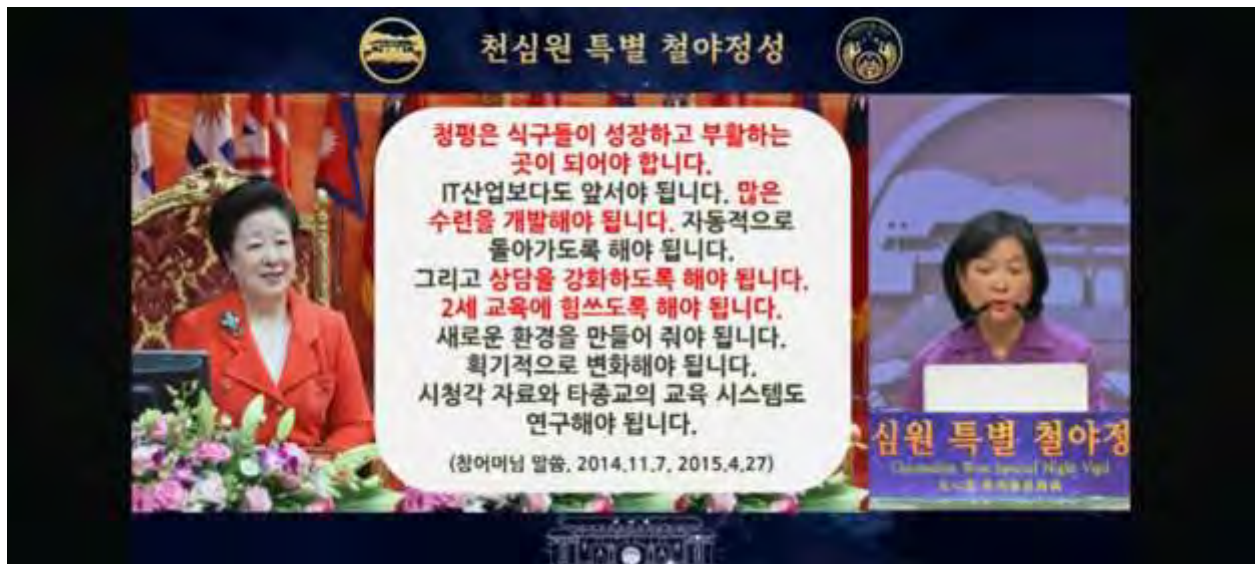

I endured staying up all night, losing sleep, and held onto Heaven saying I was okay, even amidst sudden rushes of anxiety. I also recalled Daemo nim's attitude of attendance and read the SW messages from SW through HD several times.

'Attendance is joy'

Even in a low position, one must move forward, offering even one's own inadequacies to Heaven. It was a day of joining together

How to live and practice the attendance I had only understood with my head without feeling resonating in my heart, but it cannot be done out of just duty, but with a heart to attend that wells up naturally. I realized finally that it is gathering up my feelings of inadequacy aside from feeling joy from giving love to the people around me. It was a time of happiness itself.

Through the trainees, I saw them practicing loving and caring for one another even without a common language and I saw them struggling to find their own moshim, their own attendance. The more I tried to move forward for them, the more I found the meaning of attendance from them, understanding that, even if just a little, the attitude of Daemonim's attendance could be done with joy as how she attended True Parents.

The Message from True Father that He wanted to love me came to mind, realizing that true attendance was joy and love itself, and the heart that wants to do even more, so that one gathers even their inadequacies and puts them with practice. Even though difficult, it was the reason I could stand up again in situations where I could have collapsed.

I resolved to always move forward for the trainees from a low position and become a child who continues to learn and practices the attendance of HyoJN, HeungJN and Daemonim while F in Heaven work together. TY

Counseling Results of the National Tour

In 2014 and 2015, True Mother gave awards about counseling. CP must become where members go and are resurrected. It must become the training place even ahead of the industry, developing many programs and ways to automatically be strengthened with efforts made for a new environment created for education of the 2nd generation, with break-through audio visual materials. Materials of other religions must also be researched, PL working so hard to fulfill this.

True Mother going through such hardship at the DC

PL centering on the Shimjeong standard of True Mother was absolutely obedient to True Mother and our own shame is exposed by how he went a lonely course... big applause

for both him and True Mother

Our Hyo Jeong Family Counseling was able to give sessions and had in person for about 3,000 sessions. I believe, through this, we could help a lot of our members, regarding psychology and problems with their children, also through Zoom and if you are able to call, we will do our best to support. Our staff and volunteers are offering devotion upon devotion day and night, and when I see them laughing and joyfully

working, I have such respect for them... applause

This place is for liberation and devotions so that if you pay the indemnity for sin, you can enter Heaven without going to the TCs in the SW. True Parents said all should go through 120 days... Many mentally ill and phobias in the nervous system. This world is filled with unspeakable fear due to the betrayal of the H Law.

This is the Book of TFs Sermons when in His 40s. 'When you go to Pyongyang, some say it is one big mental asylum doctors say. I think the evil energies in spirits are really working.

testimony depression and panic attack and anxiety when going through the pregnancy. But going through the counseling and Cheon Shim Won devotion and offering 120 bows was the guidance that became habitual, 2 liters of water and Hoon Dok Hae and bowing, and I became healthier, and at the Tree of Blessing shouting out and praying and asking my father...

I could get out of panic attacks, and receiving so much support and my mother quit her job to help me and I have more gratitude than anxiety and I will offer devotion to live normally in daily life.

Also, counseling about her husband as well, and I am happy she could gradually get better, and it is through all of our efforts. I knew her father when he was alive and just seeing your father, I truly wanted to help and support her. She progressed from not even being able to go one step to the Tree of Blessing before, and support that she be fully cured.

testimony 'I am so difficult with my father abusing me and my mother...He was over 60, and I asked about his education. He was not able to get education having to support his family at a young age. 'Would you be able to do like your father?' She said 'No.' think about your father who wanted to support his family and why he was abusing you. He moved into the church and made a Blessed family.

Those children with so much resentment against the father have a lot of negative ideas, and I sent her to an answer. She was in so much pain, but afterward she realized the appearance of True Father and through Cheon Shim Won prayer realized my words to her and came to me and told me she thought she could forgive everything of her father, organized in just a single day.

He came to the TC when PL heard about the optimization of the TC from True Mother and resolution of this kind of resentment can be so quick. applause

One of the Korean fathers came from Japan with his daughter and during one of the programs, I told the father to say 'Sorry' to the daughter and he would say it and the daughter was trying to do her best, but the relationship of parent and child by such a grace are able to forgive. Whenever there is a problem with the family I hope you will apologize and say thank you.

One method is a 'you message' to blame the other person with words. 'Why are you...' and the 'I' communication is simply saying one's own feeling and using the observation method (objective observation stated as of their own without blaming the other person.

There was 5-year old child playing with her mother so tired. So this child asked the mother to play more. But if the mother just said, 'Oh, I'm so tired' that would actually just hurt the child's feelings. So, if you do the 'I' message of words with positive affirmation, congratulating the other with eyes of congratulation instead... So, this training...

One church so grace filled... testimony of her son with ADHD and cannot stay still, and through the ansu and giving him allowance for ice cream and I could see my child coming back more quiet and listening to True Parents's words... I will liberate central resentment spirits... She was the one I matched and Blessed in the HQ and when I see her not losing her smile, I feel hope.

True Mother's Words: Seeing that all must go through the Mother, there is a saying in the Bible, 'Any who speaks against the Son of Man will be forgiven, but anyone who speaks against the Holy Spirit will not be forgiven.

It is the last days of salvation that must be like the first. If one speaks about the last (that must be as the first), how can they be forgiven.

I hope Pres Lee Gi-seong takes full Responsibility to cultivate youth to be the talented individuals who communicate as the pure water of stainless Heavenly Heart.

So, PL when he was the Pres. of the FF of Korea, there were the Words given from True Mother:

'I would like to emphasize that those who speak against the Holy Spirit will not be forgiven.'

So, we can see a lot of our members receiving a lot of grace through these Ws.

testimony... She received an answer... She prayed for liberation of the pastor who kidnapped and confined her, thinking about it, and heard the voice, 'Harumi, thank you. It was a beautiful voice. I prayed that so many who abandoned their faith because of that pastor receive liberation, contributing to the comfort and strength of True Mother.

Hoon Dok Hae

Heavenly Parent Who exists as the Subject Partner in your life. God is near to you and is the One most concerned about you than anyone else. People believe that the love of the world's physical parents is the greater but God's Love is larger and deeper than my human love in the world.

You must become ones who call out to the GodParent while being embraced in God's Heart. While being embraced from a position of being able to say, 'I know the Heart situation of God', you can become such a person who attends Heaven where you attend God, experiencing God in the way no one can take away.

God is not illusional, conceptual or abstract. God always possesses a Subject Nature of Life and is always together with us as the Master of the life we are living, not only the God of our attendance but also of communal life centered on communal love.

I have struggled through My Life in such an environment of opposition, but no matter how much I am opposed, Satan could not strike to demolish Me because without a foundation for that strike, they are bound to fall

Without creating a point of origin where human beings can become completely one with God from the position of the body and attending God at the Center of the heart, there is no way to liquidate this world of evil energy. Therefore we see this as a salvation history of attendance.

In the realm of serving, God is not far away in the air but close in our sphere of life. How should we attend God? Through the Principle of Indemnity, we must restore all the historical eras in which God was sorrowful and suffered pain.

For that reason we pursue the righteousness of attendance, faith... Without being righteous, one cannot distinguish between good and evil. The good and evil world does not separate, but the one who becomes the Goodness of God, just as God believes, just as God acts and just as God attends. God must always be the Center.

Satan could not accuse a person who is righteous (object of how God is righteous)

More than 44,000 gathered

Workshop, those in leadership position are participating Moon Jon Oh... Pastors and leaders as couples, receiving grace to pass the torch of Cheon Shim Won and this Workshop...

Japanese members from March 31 will go to the Cheonshim Resonance Prayer Workshop and more than 900 have registered already, and truly believe we can reach 1,000.

However, after the dissolution order, the hearts will never be resolved. They were speechless, but because True Mother is in the situation more dire than we are, able to renew heart and a 2nd gen volunteered in his community. I wanted to show that we are living happily and to be accepted as part of the community, I went to serve. There were people who were picking up the weeds and grass and I was given gratitude and after the work, we were able to talk, even cannot go and enter the church, I said I will continue my volunteer work, and everyone was so grateful for that.

Through the reciprocal relation with the town people, such a great time. An inspiring testimony... We have holy ground and everyone will go there and listening to True Mother's Words and reading the Epic, we are starting out day. So hard to gather but no so long we could see our b and s and talk and share our shimjeong and this communication and culture of our community, how deep it is.

When we look up the history of our Movement, it always started and started again from despair. And True Mother, don't worry, we are okay. Also, they can rent out venues. Also, this is the 6th H Japan resonance prayer Workshop, and this can be the opportunity to meet and march forward with great strength the more people the better strength and power.

Friday, we are able to receive a lot of strength, and miraculous things can happen from H Japan's participation...

180th day of True Mother's hardships. And at the DC Moon heung nim is currently participating with all of the churches mentioned... They are representing all of us alongside True Mother big applause of gratitude

Kim Hi Yong's testimony...

One of the members whose husband passed away, said even her husband was difficult for her, she would love to have that be her husband (when she had none on earth any more)

On the death bed, they make the dish that they would enjoy... All of you are tribal messiah families and ancestors 3-dimensionally want to attend you and how we could see the power of True Parents.

In 2014 I was appointed to be the Pres. of the TC and after ten years we were able to read the HD of Mother's Message that we should be more advanced than IT Industry, emphasize consultation and become the most advanced institution more than other religious institutions. That was the request of True Mother for the TC.

We have a stage we could not see in others' churches... All the testimonies we need to make as a video, and when those spirits go to the SW, we should be able to give such videos of all of the things happening in the TC. All of our special itinerants, you should really feel and experience the resentment spirits and have absolute with the devotions of 24 hours and 12 hours resolving such great problems.....

the report, everyone was offering devotion and could see how the Japanese members were and could still feel the grace of True Mother, receiving love for everyone else, and I could see Mother walk up to go to other children... and listening to the S American sister who could leave her body and go meet True Mother, I will resolve to fulfill HM's Dreams and truly attend Heavenly Parent.

When we enter the prayer, we should be able to experience and resonance that comes from vibration and tear falling. When someone is shouting out Aboji, that person is receiving so much resonance, and not just sing but resonate with Heaven is most important praise... If you stop the praise because you are resonating, that is the most beautiful praise...

Fulfill the fifth Family Pledge, not recited without heart but with thinking about the content, offering devotion upon devotion, we will draw near to True Parents and then every day will be a day of hope, and we will be the one and only community holy and centering on HMM becoming one, experiencing those very events...
