Opening prayer of gratitude

Let us fulfill by unified mind and bodies, and not become the children who cannot bear the Providence and fall apart.

Today, we cannot help but worry about Your Will being accomplished, but please allow us to cling to the Heaven when we offer prayer and protect us to endure and endure until the day of absolute victory... Because of lack of wisdom and in the bottom of ell enduring the cross. Please work through us, so that Your power and territory is revealed in this land. Let us become the victors through this Providence.

Please guide us and let us erase the doubts and disbelief under the shadow of the death. Let us cast away those energies and cling onto the words you have on behalf of You and put all our devotion and entire

being to become true children of Yours that you receive comfort from us.

Please protect his chosen nation to become realization from Epic chosen people. also, H Japan that You Blessed to become one with True Mother and stand in this course of trial and soar through the sky to become true children of Yours. Through their prayer allow them to find more righteous people and work through H Japan.. Our b and s have gathered to offer prayer and devotion... We pray for all 1st, 2nd and 3rd gen who re here and let us offer this victorious result.

all the b and s and people of goodness, please guide them to come centering on Cheon Shim Won to become one with us and work through them. We hope for True Mother's longevity and safety...

True Mother gave a Message about March 4

Beloved Japanese members, please have strength. Heaven is alive and Heaven is working even now. If you look with the eyes of faith, Heaven is not staying silent.

Within the long human history of 6,000 years, Heaven has progressed the Providence. And even now, Heaven is working in order to fulfill the Will and give love to beloved children. Heavenly Parent Who has endured 6,000 years of human history, is always with us.

And in the end, Heavenly Parent's Dream will absolutely be accomplished.

That is why, no matter what kind of circumstances we are at, we should not be discouraged or downtrodden. And I believe we only need to keep faith and keep moving. Heavenly Parent knows our

devotion and our tears and all the course of trials that we're facing.

When we look back at our Providence, God always stood at the hardest, most difficult, hardest place. From a human's eyes, things may look difficult. But from Heavenly Parent's Eyes, Heaven's Will has progressed through there and made victory.

If you think about Heavenly Parent's Course of 6,000 years, this difficulty that we're facing is just a process in the course to fulfill Heaven

My beloved members of H Japan, do not lose your Center. Heavenly Parent's Dream will absolutely be fulfilled. Aju.

Rev. Yokoi... I believe that H Japan is alive, Heavenly Parent is alive and working. I will show you proof

I have shown that this Workshop is for the HMH, and I asked Heaven, please show me why this Workshop is for HMH, and as we see the graph of the numbers, we can see a crane-like figure. Do you think this is a coincidence. (It drops down here) All the numbers have a reason. The image of a crane and because we have made the

64 who can speak Japanese and a total of 9 foundation, and including interpreters and international, 918 have come but we still have time ten days left to make 1,000.

I feel we need to make a goal of 1,300 people so that we can reach beyond the goal. I will not say who told me this. A pastor from the Southern Region gave me a revelation telling me that. I said, 'Oh, pastor, my brother, please do not pressure me.' But as I offered prayer, I received

that I should have that conviction, and only then we can show that H Japan is alive, not only first but 2nd gen is alive too.

After finishing 40-day Workshop a testimony. She wanted to offer keumbay, so with a heart of repentance, she offered 120 bows but that was usual from before and thought she should not stop there and too small for my inadequacies, and before I knew it, I had offered 503 bows. But even what had made me exhausted to my limitation before, I felt a strong power through me and felt light. Later I learned that

the # my father had offered at the church was 503.

At that time, for some reason, the images of my father and mother that I had failed to realize until now flashed through my mind. It was of them offering devotion daily and praying with tears. The image of them discussing how they could help True Mother Wang Omma and overcoming painful and agonizing experience and wounds within their relation as a couple and with their own parents...

Through this we can see that there are many, many b and s in H Japan who have sacrificed themselves and their own family in order to fulfill Heavenly Parent and True Parents's Will. So, it was truly a heart that she never felt before as she looked at her own parents again.

So, the devotion that first generation has offered has inherited directly to 2nd and 3rd gen. Such a moment has come, and behind these WSs, is on that foundation of 1st gen both from Korea and Japan.

Through the 1,000 3-day Workshop, I'm certain of this inheritance, and you can imagine if 1,000 start the 3-day and pass that on and they go out to the streets to carry out the butterfly strategy, the miracle will occur and is already occurring.

Through the You Tube, we have 17,000 and not just 1%... People have sent their photos to us of whole families gathering, meaning that more are connecting. I'm certain that on weekdays every day, the number is like the GWs. And my conclusion is that H Japan will soar high.

revival...

Cheon Shim Won H USA

in front of J Embassy

about 500 gathered for America and leaders for H Japan...

Rev. Demian Dunkley

Joshua and Takai Holmes

with members at the church and 300 vi a Zoom... 80% of participants are youth...

Shin heung nim spent a year last year in Los Angeles working with 2nd gen... and the Cheon Shim Won is now 3 times larger... Especially those who completed the Yeongseong Workshop, take turns leading the devotion every day.

Also, Bishop Rosario who visited Korea recently continued to offer a 20-day special devotion before Heaven for True Mother, together with their pastors and congregants and our brothers and sisters

The precious member Steve Childs has attended from the first day not missing until the 1,000th and still today of the Cheon Shim Won vigils... Here is his testimony...

On the 1000th day, Demian Dunkley told us that sometimes we think it up that it's too difficult what True Mother expects from us. What True Mother wants is simply for us to hold hands with our children and grandchildren at home and joyfully attend Heavenly Parent. During these first 1,000 days, I realized that we have received this miracle...

In the spring of 2022, I received a completely unexpected call from our daughter living in LV. We didn't

know it then, but it was just a few weeks after True Mother had come to LV and Blessed the Cheonwon Gung as Cheon Shim Won. (I believe we later were the very first American members to attend the Cheon Shim Won) We drove ten hours without stopping, from Reno to Las Vegas. But before meeting our daughter, we stopped at Cheonhwa Gung first.

The interior was in reconstruction, filled with saw dust and tools, but I believe we became the first American-born family to attend vigil devotion there. During the first vigil, Director Kim Gi Hoon gave us the remains of one of the very first candle, and told us to hurry and move to LV.

The first line of the Reno Gaza Journal read that it was the worst time to sell a house. Interest rates had risen three times before we put our house on the market and 4 more times while it was listed. We lowered the price 4 times and even borrowed thousands to perform renovations to make the house more attractive.

Even so, not a single prospective buyer came. Every morning in front of the candle and the hand-drawn picture of True Parents was placed, we sang the Song of the Holy Garden and prayed while circling the house.

One day, after 120 days had passed, a prospective buyer was standing on the front lawn. They said they would pay the original price before our 4 price cuts, including all renovation costs, but wanted to move in the very next day.

We moved the very next day. Before 180 days we were able to settle in LV before Mother came again in October 2022.

More than a year later, my 36-year-old daughter who was unable to conceive even after three rounds of IVF, finally experienced the miracle of pregnancy. Now at the 1,000th day mark, our granddaughter has become a healthy and beautiful 2-year old. By the grace of Cheon Shim Won, we obtained a house in LV, a grateful daughter who was able to conceive despite all odds against her and a joy-filled two-year-old granddaughter. What more grace could any family wish for.

Mother's hope is being fulfilled like this. Holding hands with my grateful daughter and joyful granddaughter, we intend to attend HMH in this miraculously-give home.

testimony

Junko Osberg from Tennessee testimony:

Despite the 2-hour time difference, I participate in the

LV Cheon Shim Won devotion every day through Zoom.

During my childhood, there was a large dream in my heart, aa dream of wanting to save the world. However, that dream was so vast that I didn't know where or how to begin. So, I could only keep it quietly deep within my heart.

That dream began to move in Feb. 2023. It was from the very moment I wrote down, 'Please let me know my mission', with tears on a HJ Offering Paper at the LV Cheon Shim Won. Since then I was led to WCLC, and my dream gradually became a reality.

At the same time miracles began to happen in my life. The allergies I had suffered from for a long time after giving birth to my daughter through C-Section were healed. And even three years after being diagnosed with cancer, I am living without fear, but rather with the conviction that I am being protected.

I feel that all is the grace of Cheon Shim Won. In October 2023 when True Mother visited the Cheon Shim Won, I recall Mother's Expression from 20 years ago, which had looked somewhat sad, and I had understood back then, along with the joy of seeing Her again, I was overcome with a sense of apology for myself, despite having come this far, unable to offer anything.

The image of Mother's Back as She silently gazed at the Portrait of True Parents in the prayer room felt as though it contained an unspeakable loneliness and remains deep in my heart even now.

In that moment, the image of my own mother began to overlap. My mother began to share her heart with

me little by little as my faith grew. I realized that even if I could not understand everything, if my heart grows, I can comfort my mother's heart even a little.

Therefore, I developed an earnest desire to grow into a being to whom Heavenly Parent and True Parents could open Their Hearts. Since then, through prayer, Workshop education, ancestor liberation and Blessing, central spirit liberation and Workshop education, I have strived to understand the Heart of Heavenly Parent and True Parents, especially Mother's Heart, even just a little.

On the occasion of the 1,000th devotion, during the gathering of all American members, the moment I recited the Family Pledge, tears flowed for no reason. Those tears were of Heavenly Parent watching us who have failed to fulfill our responsibility with the Heart of Heavenly Parent wishing to realize true love. The moment I looked at that Heart and the reality of the countless people who do not know True Parents and our own self who are not yet fully living out true love, tears did not stop for several hours.

I realized that Heavenly Parent's Wish is for each and every one of us to experience true love and share that love with the people around us. I came to deeply feel that such a world is the one Heavenly Parent rejoices in, and that path of loving people like family through true love is the path of victory for America and further for world peace.

I am sincerely grateful for having been able to experience the unfathomable Heart of Heaven through the 1,000th prayer devotion

HJ Cheonshim Weekly

Pyun Sun Su

Theme 'What Is Devotion?'

Our brother, in a desperate situation he chose the desperate struggle with a 120-hour devotion... the 1,100 bows devotion and with the flesh tearing from his knees and consciousness was fading, he experienced a massive cooperation from SW that was not of his own strength.

Oh hatako,

I sincerely thank Heavenly Parent and True Parents.

I am participating in the 19th Yeongseong Workshop. In 2014, I entered a secular marriage with my wife who is a 2nd gen member, and we have 2 daughters.

Until recently, I lived a life unrelated to the church. Through my wife's parents who are a Blessed family, I was witnessed to in 2019. It took some time, but in April of 2025, we received the previously-married Blessing, and I had a chance to speak with a spiritual academy student I met at the TC and heard about the meaning of the yeongseong Workshop.

I had not experienced a Workshop before, but began to feel a heart that told me I must surely participate soon, so I resolved. While waiting for the notice, I set a devotion condition together with my wife.

However, an incident where the company my wife and I run together happened where the company was sued by a former worker. The first trial date was March 4th, exactly overlapping the Workshop schedule, and I had to re-consider, but then the more difficulties arose, the stronger I felt that I must go.

So, leaving all the litigation entrusted to others, I went and discussed with my wife my resolution to restore the entire company, executives and all the employees (to be Blessed). I felt that the litigation arising from my Director, who was like my right arm, was clearly a satanic attack. I pushed it all aside to focus on the Workshop.

For someone who has mysophobia and does not like nature, life in CP felt like a prison of fences and I was exhausted mentally and physically. I questioned why I was even here.

Furthermore, compared to the 2nd gen around me, I questioned even the meaning of my own existence.

Nevertheless, my heart that I must accomplish these 40 days no matter what happens, did not change. If a time to separate from satanic things, I had to make victory with a perfect standard regardless of the circumstances.

I came to have a high fever of over 138 degrees Celsius. I called my wife every day to share the days thoughts and anxieties to steady my mind. My wife became source of great strength for me. Then there was a serious situation with the company's fund manager, where two years of net profit was about to vanish completely.

Simultaneously, in the ongoing trial, the court required a vast amount of additional document submissions. However, being in Korea at the time, it was extremely difficult to respond directly. When I reported this to the coordinator, I was told to discuss it with my wife and decide whether to return home temporarily to resolve it and return or remain in the Workshop and continue the devotion. Our couple resolved to continue this Workshop to the very end for the sake of True Mother's swift return and the mission of our tribal messiah.

It was put to me, 'How about offering the victory report to True Mother by resolving for devotion and one-on-one dialogue with True Father centering on Cheon Shim Won. Accordingly, with special permission, I stayed in Cheon Shim Won for a total of 120 hours offering bowing devotion together with our devotion team.

My daily devotion conditions were 1,000 bows, 10,000 calling out prayer for HMM, 1,313? calling out for True Father, HyoJN, HeungJN and Daemo nim to mobilize the SW (each of them) and 1,000 each calling out for my wife, including 9f in Japan as well as the company executives.

I set these and practiced them as a promise before Heaven. When I finished the 4,000 bows on the first day, an enlightenment came to me.

I thought, in this moment, which is the most difficult physically and mentally, if I could offer just a hundred more bows, wouldn't that become the most precious devotion of all? With the heart of, 'Please use this as a devotion for Mother,' I offered an additional 100 bows.

Although it was not a Providential number, I ended up offering 1,100 bows every day. There were several

times that I fell asleep while reciting the name in prayer, but as soon as I opened my eyes, I checked the time to see how long I had been asleep. If more than 15 minutes, a feeling of despair would wash over me with apology toward Heaven.

The process of making this devotion promise to Heaven every day, I reached my limit physically and mentally, with the skin on my knee peeled away from the third day, due to the bowing and blood flowed. I reached the state where I could not even recite the name properly and even staying awake became an ordeal.

Initially, I started this devotion to resolve my company problem and to report a victory to Mother. However, from a certain point, I forgot about the company entirely and was only focusing on 24-hour devotion.

Not only my desire for sleep and food, but all other desires began to vanish. My consciousness began to be increasingly hazy, and during the morning devotion for HMH held every morning in the HJ Workshop, there were times when I lost consciousness while standing up.

When I entered the 4th day, things previously invisible in the Cheon Shim Won began to be seen and previously inaudible sounds, heard. At a certain point, True Father appeared to me before my eyes and said:

'Dor you know how much of the SW moved just to lead you to this Place? And even during the Yeongseong Workshop, you must have realized several times what you surely have to do. However, this time you passed it by pretending not to have realized it. Do you know why I called you, a 1st gen member with a short faith time to this Yeongseong Workshop?

Originally, I wanted to educate you starting from the regular 40-day Workshop. However, in the Providence there's no time. Have you ever wondered why your spouse, a Blessed 2nd gen member born without original sin had to come down into the fallen world to save a fallen person like you?

At that time, what do you think the Heart of Heavenly Parent was like? What do you think the heart of your spouse was like. You are lacking considering the heart of others. That is because you are self-centered. For you, this 4-day Yeong-seong Workshop is merely a regular 40-day Workshop.

These 120 hours, however, are the real yeongseong Workshop for you. You are strong from satanic temptations. Do you know why? it is because the people who love you and their SW are helping you with all their might. Yet, you are under the illusion that you overcame it by your own strength.

Because you cannot be grateful, even when you repent, you repeat the same thing. The task given to you now must be overcome with your own strong will and determination.....

Have you ever risked your life for someone until now? The fact that you have not is the problem. Do not run away. The time has come to return the love you have received to those who love you.

The moment I heard these words, I realized that this trial was not from satanic temptation, but a trial given by Heaven. At that moment, I experienced seeing our 12 years of marriage exactly from my wife's perspective, and my wife's heart flowed into mine like a revolving lantern.

I realized to my core how arrogant and self-centered I had been, and how I had lived considering only myself as the most important. Even in situations so painful and agonizing that she wanted to die, driven so far mentally that she wanted to let go of everything and be alone, I saw the image of my wife who has sacrificed herself for her husband and children.

Actually, in 2014, just ten days after registering our marriage, I caused an incident where I was arrested by the police. And in 2019 at the age of 26 I came to owe a debt of over 1 billion won. Not only that, I have committed many wrongs and sins that are difficult to fully disclose in this place.

Furthermore, in 2023 I was diagnosed with an incurable disease, which is still progressing now. Amid these difficulties I brought upon myself, I have always lived thinking of myself first, and in my weakness always busy protecting only my own heart, far from wife. I even made her shoulder responsibility for the wrongs I committed.

When I came to look at myself objectively, I realized that although I had committed many legal and moral wrongs in my life, the greatest was failing to cherish my wife who had sacrificed everything for me (tears).

Afterward, while offering bows, True Father came to me again:

'When you two truly become one, the mission of tribal messiah will surely be accomplished. If the wisdom of your spouse and your practice are combined, you have the qualities to restore even nations and countries.

First you must attend your spouse with a true heart. The SW is a war. If you are careless for even a second, you will be struck. Your body must already be at its limit. However, you must not dominate your body with your head as you have done until now.

Lead your body with your heart. When the mind and body become one, that is where Heavenly Parent dwells.

I received these words and resolved to continue the devotion to the end to overcome my weak self and for the sake of protecting my precious wife and family, and also the expression of repentance for living selfishly, stepping over my wife until now.

On the final day, I reached my limit in every aspect. It took over 8 hours to offer 100 bows, but even in the midst of that I clearly felt the cooperation of SW, and was able to safely complete 120-hour devotion

Afterward, True Father appeared again and said:

If you live for the Will, everything you need will be provided.

I immediately called my wife and shared the entire process of these 5 days, repenting and giving my determination to live a new life.

What we as a couple realized while sharing this devotion is that, if a true family is not established, nothing can be accomplished. The starting point of all Providence is with true family. If we achieve true family, it's as if faith is not even necessary, except for living in a fallen world, that requires our faith to achieve a true family.

(Things happened with the company problem... The time to submit the documents for the trial was

extended... and it started to be resolved)

Rev. Yokoi testifies and prays:

He was repenting that this kind of situation for Mother was needed for Providence to advance because of failures... and asking exactly why... Father came to him and said:

If you have time for such regret, then give your utmost devotion. What is important right now is protecting the religious corporation of H Japan, but most important is protecting True Mother HMH... She said pray for True Family and the Will, but without True Mother, we cannot fill the Dream of True Parents. and

I realized that the most important time, I forgot that most important thing of the wish of all Heaven to protect True Mother.

Now is the time to stand up for Mother and offer our spring devotion of J the Moher nation... that True Father loved with His First Love, could not leave J because more than any other, you loved this Mother nation

I know there's not a single spot in any building where their investment did not leave a mark, but even if we must sacrifice the Mother nation, the one we must protect, pray for is non other than HMH True Mother.

Please let us realize that happiness, and to repay the grace we received until now. Especially, let us be the beloved b and s of Japan, but do not let our lack of devotion result in the BS and Ts of our elder members be in vein. Let us repent and from now, please guide us so that there is no more sacrifice, but by this last sacrifice, let us rise up to establish this country and the world.

We cannot die even when we are dead. Now the suffering of the J members, struggling with everything in agony. The brother before passing had a final request not to die because he felt so sorry to True Parents and he said to me, 'Please let Japan be (the way of Mother
