Opening prayer of gratitude

... at this time of chaos, at this 1,484th Cheon Shim Won, Your Providential work continues and that becomes our source of power to walk along this path... The works of True Mother and True Father, True Parents not to be in vein, let it be time when we inherit the Sweat and Tears of True Parents... In this year of the red horse, we believe in the day of liberation, please Bless the path of suffering to be a path of joy and happiness...

Now we raise our resonating states and please raise up our victory and that disasters are causes for unfathomable development. This time, if we have any impurities, with the fire of Heaven and the fire of the Word, cleanse away our sins and let us be filled with the heart of Hyo Jeong. and be filled in such a vigil devotion...

HJ Praise

We are N.A.B.I. from H Japan

with Pres. Kagiya being one with True Parents and with the heart to be one with True Parents's Dream,
we wrote this song with all the devotion of the member around the world

When I say 'Reach the world' Segani yuroquay

You say 'Voice of HJ' 'Hyo Jeong yoquay'

There's something I must protect in this world

so butterflies spread out their wings and rose above

Butterfly through the storm and rain we kept our faith

It started small, a spark of courage bright, now we gather flying side by side.

Though our legs may shake and voices fade, we go on -our hearts unafraid

The world is full of lies and pain. The rain beats down, our wings were stained.

But we won't yield or turn away. With hopes entrusted, we face the day

Butterfly, to the edge of the world, carry this feeling high

Turn someone's sorrow into light,

spread your wings and reach the sky

and reach the sky

Let morning sun that breaks the silent night, sleeping hearts awakened to the light.

Past the pain and doubt we've known, the butterflies still carry on

The truth was lost in selfish noise, in times consumed by selfish choice.

Yet we will never lose our way,

Our vow and dreams will guide the way.

Butterfly, pierce beyond the clouds. Let this prayer be heard aloud

Something precious we must defend,

on winds of hope, we'll rise again

Ah, we saw our Parents cry,

Their Dreams inside Their Eyes

Ah, we'll carry all Their Wishes as we climb beyond the endless sky

(Mother, do not worry. We are here. H Japan will be victorious)

"

There's something we must protect...

The butterflies keep their flight all along

--- big applause

a small wing flap of a butterfly will cause us great victory

Captain of the 4th overseas volunteer Corps

After being in H America, I returned and attended a Peace Corps Meeting at the DC, and as soon as I began to pray, unbearable tears came down. The fact that Mother is in a place close to us, but we cannot really see Her due to the walls of reality, and the heart of Mother enduring suffering alone in a small space, was deep in my chest...

I thought what I could do for Mother was connecting the witnessing and devotion of the HQ to the outside world. So, I departed on the fourth H America mission. However, in the position of the captain, I inevitably faced my inadequacies and limitations. I thought, 'I must do well, as I am the leader, and not make mistakes as they wait on me every day.' That became a worry, rather than a mission filling my heart.

Looking back, the mental burden I placed on myself was much heavier than the actual burden of work. The entity that made it most difficult for me was not the environment or the people. It was myself. As my mind was becoming exhausted, a quiet realization came to me. I felt that all these processes were not mere coincidence, but could be the guidance and love of Heaven, love of trials to make me grow and have gratitude.

And from that point, let go of the pressure, and rather than fearing the results, had determination to invest everything in this H America mission. Then all looked different, not as seeing first the inadequacies of people, with many moments when I judged them and actually misunderstood them, but realizing that every person has their own pain, stories and heart to save their own nation.

I deeply reflected and repented myself for failing to embrace people with a parental heart. In that process, the words, 'Before seeking to govern the universe, have self governance' was no longer just in my head, but became a standard that held my life together.

I realized that any words or determination would be meaningless unless I first set myself straight (before looking at the inadequacies of others). This change was also clearly manifested in the field of witnessing, when I could most substantially experience the Heart of Heavenly Parent and True Parents.

On the day that seemed like it would end without a single proper conversation, a short dialogue was shared with just one person at the very last moment. And it became the most joyful and grateful moment of that day. At that moment my own heart, which pretended to be fine when I couldn't meet people, that was actually not fine at all, but this was the very Heart of Heavenly Parent.

If it hurts my heart this much, just by failing to meet people for such a short time, what about how Heavenly Parent has sought the children alone for 6,000 years. This brought up a mixture of deep apology and sadness, with at least a little of the sorrow not to meet or the joy to meet even a single child.

I learned that receiving a single contact number, or having a conversation is nothing to take for granted. I felt deep in my heart how much devotion and passion Heaven pours out to connect even one child to us.

Since then, I went out with the faith that Heaven will send at least one person, and everyone I met came to me as such a precious existence. That time of witnessing was the valuable time to grow a lot, and in that way, every academy student invested themselves, while contemplating how we could find Mother's children.

We employed street speaking with all the devotion we could. We stayed up late at night making flyers and practicing dances. We headed out to purify the atmosphere of the fallen Fremont Street. Through those times, we were able to make Mother better known in H America.

To connect even more children we prepared for the Korean dinner party for a week, offering our devotion to invite each and every guest, and all members investing with a single heart solely for Mother. We were able to invite more than 20 guests who came with local members...

I clearly felt that devotion never betrays us, and that all those by my side are precious beings sent by Parents. The synergy is multiplied when we embrace one another with love.

Because the American Academy students and staff and local members provided so much help, we were able to conclude safely. Seeing them gave me certainty that H America will surely fulfill its responsibility as the Elder Son nation.

It was a precious time and I will not forget what I learned to keep embracing it in the future. Gratitude to Heavenly Parent and True Parents and my sincere gratitude to Dr. Kim Ki Hoon and Director Kim Ju Han, Leader Ryuichi and all the members who led us and embraced us...

(Although we cannot see them, I believe they felt our love)

gratitude (and tearful at the start)

Hello, I am Kong Mun Hi, someone who did not believe in the SW very well. Whenever hearing stories about HyoJN or HeungJN's Workshop in the SW was fascinating but hard to believe and I wanted to learn more, and I set devotion condition to call HMH 1,000 times, and around 685 times I saw a rainbow reflected on my counter, but looking at the sky, there was none, but clearly there and I felt it was a sign that Mother was pleased with the devotion Workshop and wanted to find Her children as came to my heart and I further resolved to work hard.

However, it was not easy and my legs hurt so much from the bows and my throat was not in good condition and I began to hate myself as my limitations came more... but that pain time was a time to more deeply think about the pain True Mother is going through.

Even though it was difficult, I came to think of it as a precious experience given to me. The program I liked most was the Cheonshim resonance HD. we were directed to read while thinking of someone we loved and I thought of Heavenly Parent and True Parents and my own birth parents first. (tears)

The moment I began to read, tears came and earnest heart with a loud voice, and I could visualize HyoJN on one side, wearing the Cheonshim robe with a guitar and HeungJN on the other side watching us read the HD and as if saying, 'Let us offer devotion together for our Parents' and before it was difficult to read the words, but then I could read strongly and I felt a great change in me.

I felt that we must cry out and rush forward with earnest voice, and that deepened and with happiness to spend that time. And during the Hyo Jeong time, there was a time to watch video letters from Heavenly Parent's trainee. And I felt so comforted, as if my own parents were appearing and tears came.

Then when my parents appeared on the screen, my emotions surged even more and uncontrollable tears with every word my mother shared as if True Mother Herself wanted to say those words directly to me. Until now, I had often compared myself as not good at things with my elder brother good at everything.

I heard my mother tell me not to compare to others but look at your past self and see how much you have grown. Although I have been angry and hating my parents, I felt how they always love and embrace me, and desire to love and respect them from now on. I changed a lot and I want to continue striving to grow and live thinking bout and feeling the love of Heavenly Parent and True Parents...

Me being here to share testimony is all because of Heavenly Parent and True Parents and my own parents

and good ancestors, and I will do my best for Mother's return and become a large needle from a tiny one some today. Mother, do not worry, we pure water are gather and will offer our devotion continually. TY for listening

HJ Report

centering on the HQ of devotion, this is a precious time with everyone around the world are gathering for devotion...

Report on touring the churches in Korea and grateful to offer it and I hope it can give strength to True Mother in the DC.

Titled 'The Gift of Cheon Shim Won and the 3 Graces in the Era of Cheon Il Guk'

True Parents Words:

When you stand completely within the realm of God's Love, all the forces of the universe bear a collective responsibility to protect you

Therefore, no matter how much you are persecuted, as long as you are within the realm of God's Love, who will be broken, the persecutors or the persecuted Rev. Moon? It may seem that I will perish or fall and die, but I do not die. By the Principle of protection of the universe, those who stand in opposition to this are removed.

Because this has become the Principle of Heavenly Law, those who stand in such a position (of persecutors) will simply flow away. Now you must offer prayers that mobilize the SW. If you seek that cooperation of your relatives and the SW in prayer, they are bound to cooperate. Do you understand? Try praying and see if it happens or not.

If it doesn't work, try shedding tears and visual prayer. Try doing 320-day payer 3 times just for a year. If that doesn't seem to work, they will be struck by lightning or die away or problems will arise overnight. Such an era is coming. You must keep your spirit sharp.

Because I'm in a position as child, I'm giving honest advice. Do not become a people who flow away as a sacrificial offering of indemnity, gone to the SW. Instead, you must move the SW and become a liberated self on the altar of victory, making it possible for the liberated realm of God which is free and active to

flow behind you.

Because this is your task, you must open the way for your tribe, nation and country. This is the responsibility of the current BFs and the FF. Aju.

Today, at this time, our report and impressions on the tour of the 12 local churches and testimonies of True Parents's teaching on facing recent trials and law. And third, what to do in the era of suffering, the Gift of Cheon Shim Won and the 3 graces... I would like to share about.

In conclusion why the change of name of the Cheon Shim Won and the meaning... and about Cheon Shim Won devotion and practice.

So, I am from Chinchundo, and I apologize for speaking so quickly to the translators... so there will be time for PL's Message...

The special grace WSs have the same grace and Blessings as HQ, except for the SW Blessings, and not missing a week our ancestral liberation and Blessing, inheriting grace from Cheon Shim Won and we can see them solving their own problems with that grace...

Just last week centering on NABI, they reveal their faces and appear in Il weather and were shouting out for this education and said the pastor cannot work as a couple but would have rallies separately for 40 days, one-man rallies (police said they can't have them as a couple, so they split up to each have one for 40-days) and they offered sincere devotion for 40 days before the event...

I see, along with the HJ drum and staff, every time I go and conduct these events, many people offer testimonies of the love of Heavenly Parent and True Parents and feel the SW and make determinations to offer devotions more diligently and also say devotion is not enough, aspects of Truth and Spirit and on site, I become a living pamphlet and model and try to practice love, and there are those who make resolution for witnessing services.

And people feel the bonus to receive ansu and also heal others.

True Father in the SW and True Mother in PW, I felt there love and shed tears and thought how substantial the love of True Parents is and my heart squeezed thinking of True Father and Him encouraging me by my side. True Father as if right there in the Main Sanctuary and as the Father of humanity...

While saying we should offer the Cheon Shim Won devotion diligently, our spiritual state rose up and I felt the Heart of True Parents wanting to be on the frontline of guiding this Providence and reach us with love.

(I was surprised... being in a dying situation that I might die today or tomorrow and understanding of heart testimonies and feeling Mother walking the path of the cross alone, and longing for F even more and tears, able to feel the Life and Love of True Parents, to show a model of a true BF and wanting to offer those reports of results to True Mother.

So, through Cheon Shim Won, people say it was for 'feeling' the resonating emotions... Not easy to offer every day, but at this time when Mother is walking the path of suffering, in the night when we are usually sleeping the most, some ask, why do I have to stay up when we have to sleep, is vigil devotion, but coming I fall asleep but can converse with Heaven and they make resolutions, and the words of inheriting

Heavenly Parent's love moving and centering on Cheon Shim Won, I am grateful for the grace to inherit Heavenly Parent's Love and healing...

I will offer devotion at Cheon Shim Won so we can solve our problems, and he explained it to be so easy to understand, and while reading the Word of HD, he emphasized autonomy of making decisions on our own, and many resonated with that.

Also resolutions for offering Epic history to teach and make it known. As a special missionary, although I'm lacking, many members could understand more clearly and offering special reports and we must more strongly push forward for liberations of ancestors and attached spirits... And this is basically the foundation of faith and a historic condition of indemnity so we have to do well and practice love... show results True Mother said when you offer devotion, not faith without practice, becoming live pamphlet moving forward to witness and make results.

Through this Workshop, not keeping to myself the grace but sharing it in practice. I will become a witnessing pamphlet and make this GA time full. And this pastor said that through moving faith into practice, the vertical standard of Heaven was set higher and environment of protection wider, each member holding the Word and would practice and learn in practice.

And before witnessing he also talked about us being one and the spiritual atmospheres of the churches are very important and witness both inside and outside the church as well. And I talk about 6 aspects and Spiritual atmosphere very important, and if they come and it's cold, they will not come again and we must have a warm atmosphere and be very harmonious ourselves before witnessing to those outside, so think about witnessing ourselves and then new members will come and stay for a long time and settle here... Be our own witness of true love reflecting Parents personally wherever we go...

And this pastor says practice is a specific project, and also people who offer devotion for the completion of the Will of Heavenly Parent, and people felt great grace and refreshment, energized...

And those with cancer or something had the illness disappear... When we go to church for 30 minutes, I and the pastor and deaconess offer ansu, and we can't do everyone, so they are making their own ansu hands and I encourage diligent participation in ansu, and some offer testimonies with my gratitude...

I contemplate whether to share or not, but how True Parents's are dealing with law, I feel responsibility to say about this. In South America, there are many legal issues and we made an office and with dozens of lawyers we fought the legal problems, and True Mother giving us the clear words to make right and wrong in the legal system clear. And many orders from M like this.

Early July, True Mother, according to Cheon Shim Won President in America, the first plane appointment was broken but then True Mother visited Jardin in person and now the farm is legally clear and we can have hundreds of members and True Mother was so excited to hear this. 'Today is a very, truly joyful day.' How happy She was with more than 1,000 pure waters and everyone so happy to greet True Mother, and despite all the legal problems, with the love and devotion of True Parents, we were able to resolve it.

We had offered reports of the legal situation last time, and True Mother gave us more work, to check about the books in the book shelf, if there are any problems with what Divine Principle is teaching and are they aligned with our ideals. Also, the True Parents's Theory Text Book... to make one after FD, and we made 8 volumes of these texts and what True Mother is emphasizing... and the HJ cultural Center said we must make all of our songs aligned with this age

Make all of our songs aligned with this age, and have a people especially check the processes of making the songs aligned with this age (how this age is different)...

And True Mother would make meetings for this and that, and one thing She also emphasized is for clearing these legal problems, talking with lawyers and to America offer reports about that... and meetings with America and the conclusion is True Mother saying the same thing that True Father said, and that we must resolve these legal problems now.

And another thing is that we must not make legal problems. And when I was in America, I was in the same position. In Danbury, we had a legal team and even making announcements we had to check it diligently to see if it had any legal problems. And True Mother emphasized our sharp eyes,

but we were unable to fulfill our responsibilities and these messy situations emerged.

So, as a leader, I repent every day. True Mother, very unfortunately in this sad environment, there are things that She revealed to this world...

'Why do I have to do that?' some said. And I never gave that order. And True Mother told us, although it may take time the Truth will be revealed, and through the Inheritors and 4PF True Father, this keeps being emphasized, 'The Truth will be revealed'

An to us, True Parents's Theory and the Epic history of the chosen people of Korea, and True Parents's Life Course, True Mother said to testify these to the world, and although I was lacking attending Mother, True Mother and True Father emphasized the same thing about legal problems, and in this indescribable situation, this is our fault, but True Mother not blaming anything and silently enduring, but we must gather our hearts and offer devotion.

There are those that say there is not much we can do, but I think we need to remember the 3 graces of the Cheon Shim Won... The opening of it was 2020 October 11, when Jeongseongwon renamed Cheon Shim Won, and True Mother under the Direct Governance, whether there was the third Providence of Cheon Shim Won and Cheon Il Guk, and if Cheon Il Guk started with Heavenly Parent and True Parents's then we are able to see that the 7-year Course was when the 3 gen were united, and seeing the eldest sons contributing to this Providence and the Contents where Heavenly Parent and True Parents Dream are being fulfilled and all inherited, we must remember these amazing graces...

First, is the Main Hall of Cheonshim, nurturing spiritual leaders... True Mother's Words 'To set the standard, I made 3 generations and we must make new life environment of pure-flowing waters as pure hearts and pure lineage so they can become leaders... and I hope that Pres. Lee Gi-seong can take responsibility for all of this. This is very important. So, with our Seonghwa students and younger elementary school students, I believe the day will come when they will lead our Cheon Shim Won Providence.

In this Era of Cheon Il Guk, I think of it like this: In America, with the Cheon Shim Won over ther, our True Parents's holding Their Hands in 2012 April 14th the Ceremony, we have translations of it in English, Korean and Japanese and I put them on the walls (I asked the leader in America to get these texts) and they said:

Moon Sun Myung and Han Hak Ja Who were able to become the True Parents's are now in the position before the fall in the original Garden of Eden, and the Cheon Il Guk Era is where we try to live in the original Garden of Eden before the fall, where we complete and fulfill the 3 Great Blessings.

And when we think about our lives today, do we have shadows, or are we at high noon with no shadows at all. Are we pure waters of silver and gold, without blemish and stain? Do we still have fallen natures? satanic natures? (self centered...) living in this age, at least if you are BFs who believe in True Parents, it is an age to sincerely reflect on ourselves... So, this is the Proclamation and Conclusion of the Final Assembly for the Proclamation of the SW of the Settlement of the True Parents of HEH... That is the official title of the Settlement that They held that day.

So, True Parents of HEH means that the True Parents of the PW became one with the Heavenly Parent, and that was Heavenly Parent's Dream. True Mother always says and talks about what is the Dream of Heavenly Parent, becoming one through the True Parents and having a physical Form and being United. That is Heavenly Parent's Dream. And these are worth about one thousand books condensed to a few sentences.

And True Parents said we must read this many times in the future, and She emphasized Cheon Shim Won devotion. So, the 8 great candles of Cheon Shim Won, resembles, divided of True Father's Four Great Hearts and True Mother's Four Great Hearts. And our Ansu Director received great revelation he shared that the 7 Stages of True Father's Four Great Hearts and the 8th stage is where we reach completion along with Heavenly Parent.

So, if we inherit True Parents's Heart, we automatically inherit Heavenly Parent's Heart as well. So, inheriting Heavenly Parent's Heart from both sides, that is Cheon Shim Won.

And it's basically fulfilling Family Pledge first. And these Contents are hidden in Cheon Shim Won, and through this the true life, true love, and true lineage which was Completed by True Parents, inheriting all this, that is the Cheon Shim Won. And to inherit that Cheon Shim Won, we must receive, and we are receiving the Cheon Shim Won grace without any cost.

And Cheon Shim Won has these contents from family to world. And individually, when we have Chanyang yoksa, and on the family and tribe level we have the Hoon Dok Hae to purify ourselves and inherit True Parents... And on the cosmic level True Mother emphasizes that for the unification of Korea, we must center on Cheon Shim Won devotion. And She personally calls our elder members to offer devotion at Cheon Shim Won HQ.

So, Cheon Shim Won HD and Cheon Shim Won devotion, these become gifts for us to inherit the Hearts of Heaven and True Parents. So, Cheon Shim Won, to inherit, we must rid of our blemishes and stains, so with liberation and Blessing our ancestors, many ways, first CY yoksa and Hoon Dok Hae. The spirits go to 100-day and then are Blessed and then go to the Cheon Shim Won and must bring home their spiritual children of faith, but not ending there... We must nurture them, and that process takes about 3 years, and only then they become life that can illuminate lives...

So, first the grace of CY yoksa: for receiving and inheriting the Life of our True Parents. So, even offering for ten minutes, you can solve or liberate spirits that day. So, everyone I recommend, even if you are about to faint, to turn on You Tube and offer the CY yoksa.

And if your spirits aren't liberated through the CY yoksa, I'll discuss with the Special Ansu Director. So, with a very earnest heart, you must increase your spiritual temperature all the way to 83 degrees and with such a heart diligently offer CY yoksa.

Second is Hoon Dok Hae. It educates and saves our ancestors. True Father said to do Hoon Dok Hae. And

what I am very touched about in coming to this TC is, although we have this short time of Hoon Dok Hae, Pres. Lee picks out these words with very much consideration. Ansu insumshim and Ansong gung, two very important figures in Korean history, and it's easy to remember through his words, and spirit is important but also Truth.

True Father said, 'The SW also reads Hoon Dok Hae, but the SW people do not have a physical body, so who has to offer the Hoon Dok Hae? We know the answer.

Through Hoon Dok Hae our families must enter the realm of protection by the SW. That is the purpose of the Hoon Dok Hae. And special liberation of spirits, if you do this, then 40 days afterward, they go home through Cheon Shim Won, and then we have to nurture them after returning to their homes. And we start with something easy and then something more profound. So, even an hour a day is fine, and depending on the SW ancestors growth, then we on earth will become life forms who make light. Our spiritual level rises to such a state.

So, there's no way to be supplied with light in the SW, which is why we need to as much as we can when on earth. So, Hoon Dok Hae also very important. So, when do we offer. Some say you must offer it at 6am sharp. But True Father said if you cannot do it in the morning, do it at night or right before you go to sleep. Don't be thinking that you need to do Hoon Dok Hae, so you don't want to offer Cheon Shim Won devotion.

The Cheon Shim Won vigil is to stay up all night. So, hitting our bodies and restraining its impulses, that is when our devotion amplifies by multitudes.

And in 2009 True Father said that Hoon Dok Hae must be led by 2nd gen, and when that happens, families will have no worries. So, it's not just us but spiritual ancestors and Heavenly Parent and True Parents are there as well. So, you must not wear only pajamas but dress formally and with a loud voice read for the energy to enter our subconscious and change our paradigm...

And those who study neuroscience, we know emphasize that we receive more deeply when we read shouting out the meaning...

Third, Cheon Shim Won vigil devotion grace: In the Bible says, 'Watch and pray so that you will not fall into temptations.' The time when life and death is decided... Be alert and awake... Your enemy looks for someone to devour in the final moment of life or death, share the serious Heart of Jesus praying while sweating blood and appealing for a vigil at the Garden of Gethsemane. And you must walk that path of suffering in His Place.

You must remember what we read in the Bible. Vigil devotion is the greatest devotion we can offer. So, you must put everything aside and offer Cheon Shim Won vigil devotion.

And there are words that, if you cannot witness then you need to at least offer vigil devotion. So, how to offer vigil devotion. Praying quietly is also vigil devotion. But shouting and shedding tears if first place effective... And we do it in the second part of vigil.

People may say that we are crazy. True Father knows this very well. But in the Eyes of Heavenly Parent, 'Ah, you guys are trying so hard.'

Reminding ourselves of this, we must offer vigil devotion. You must offer 120 days of prayer 3 times a year and see if it works or not...

So, will we remember these 3 points of grace, and wherever you are offer CY yoksa and may we receive all this grace... Devotion and grace are two sides of the same coin. And no matter how much it looks like you will perish or are persecuted, but I do not die by the protection of the universe, those who stand in this position are moved...

Be consistent with devotion and more devotion. Heaven is with you.

Let us gather at Cheon Shim Won and build an endless tower of devotion and boldly proclaim True Parents to the world.

Those who offer devotion must put it in practice or they and their ancestors will receive reverse indemnity.

Break

Hoon Dok Hae

The path to overcoming difficulties is the path of seeking true love. Love of a beloved person, the love of a parent/child relationship transcends seasons, youth, old and middle age, like a track that allows one to live eternally and be happy.

The power of life and death shifts, but love alone does not change. You must create such a heart-centered environment and a life of prayer is necessary to continue it, and then grow.

By walking the path of the Will and seeking the path of love, prison is not a problem and death is not a problem. It is a path of seeking true love, and you invest your life force for the nation and world to a position even higher.

The life force and power of love you invest becomes the factors that pioneer the path of the church's development.

If there are people struggling while embracing the destiny of the Unification Church as it collides with the sad circumstances on earth, it would be insufficient, even if you offered all kind of gratitude, devotion and praise for them. Nevertheless, if one criticizes centering on one's self and treats Them with indifference because They are not related to one's self, that person will be defeated then and there.

You must feel gratitude while watching Them and at the same time feel your own lack, and say,

'Today is like this, but please give me strength as well.' You must not simply end with the Autumn season if it is Autumn or the winter season if it is winter. If you cannot find the life force and the power of love dwelling deep inside you that can bloom fully to welcome tomorrow's spring day, the path you are walking will come to an end.

BFs throughout the world must enter the era of becoming true parents. First, all lives of BFs must inherit the tradition of Mother. To become true parents, wives must inherit the tradition. You must give birth and liberate the tribes and the tribal messiah must bring all tribes into one tribal sphere from the position of a tribe.

Therefore, from the Position of True Mother, you must give birth again finding a family and tribal messiahship. This is because you must restore through indemnity the failure of Adam's family and Jesus' family. Aju.
