Opening prayer of gratitude

Most Honorable Heavenly Parent

Beloved True Parents of HEH

As if True Father's Heartbeat is echoing, as if True Mother awakes, is alive here, we offer gratitude for allowing us to hold Cheon Shim Won vigil devotion. The Place where we bow down here is not just a Place to offer prayer, but it is a Place where Heavenly Parent and True Parents Sorrow and Bitterness will be wiped out by our prayer and devotion. It is a Place where CF's throughout the Providence have gathered to work through us. It is a battlefield and a Place where all the hopes and desires of the ancestors have come together to fulfill through this Workshop.

So, please, through this Cheon Shim Won, allow us to feel and inherit all the heart of the SW.

For a long time, H Mother's Love has been secretly hidden, and whenever True Mother, H Mother found Her children, She would say, 'You are the needle that I've been looking for. You are My direct children. You are the chosen people.' The sound of those Words of True Mother, truly resonate within our hearts in moving forward with our lives. So, please work through us.

Please forgive us for being so arrogant thinking that we knew True Mother well because She was next to us. Please allow us to realize that, if we miss the essence, and just meet people, then we are missing the fundamental aspect purpose of meeting.

Please allow us to become the people of Blessings who can move things forward through this Cheon Shim Won. By doing so, the trials that H Korea and H Japan are facing are not the Satanic force trying to break us down, but instead it is a stimulant that can allow us to become absolutely one, centered on Heavenly Parent and HMH. The greater the persecution, our faith will become stronger than ever, strong than the iron, the metal. And the Truth will radiate brighter than ever before.

Despite this darkness, our 2nd gen and 3rd gen are facing and experiencing their Parents' things They have Faced. So, this is the reviving Place. This is the Place of Hope, the Place of Blessing. So, please allow us to realize these facts at this time.

As we shout out with all our heart and voice, please let our prayer break down the satanic walls, the satanic Castle of Jericho. And please allow us to be united through our prayer and devotion. Please work through us.

As our small devotion can create big waves of the spirituality, in order to break down the walls of disbelief, the walls of doubt, so that we can set a condition to bring True Mother back to us. Please work through us.

Please allow this time to be the condition where True Father can work. Please allow this Cheon Shim Won vigil devotion to become a devotion that brings comfort to True Mother. Please Bless this 1,526th Cheon Shim Won Special Vigil Devotion.

Jun Yu San of a BF in grateful attendance to HMH

Testimony

I Won Jon

40-days trainee

She bows to True Parents and the audience

Hello, I am the 4th daughter of one son and 4 daughters...

Until entering the 19th Yeongseong Workshop, I had lived turning my back on the church. Although I had deeply faithful parents, I did not know the depth of it growing up. Unable to feel that heart, I distanced myself from the faith. After Covid19, I was unable to attend church well, and as negative thoughts about religion were added, I closed my heart off on my own.

Even when participating in various WSs, I would just spend time and return without any heart to learn. By living distant from the faith like that, an unexplainable anxiety began to take root in my heart. Along with busy academic studies, my heart was shaken to the point where even daily conversation with others was difficult to handle. I would fall asleep with the worry of whether I would be happy tomorrow.

Thinking that I can't go on like this, I decided to take a leave of absence from school, but the anxiety did not easily disappear, spending a lethargic life doing nothing but a part-time job. But I then came to worry what the goal of my life was. In the midst of conversation with my parents, I was encouraged to attend Yeongseong Workshop. And for the first time, I took those words seriously.

When I first entered the Workshop, I tried to stay alone with a closed heart, but because of the great love

my team members gave me every day, my heart gradually began to open.

Then on day, a team member told me about a dream she had. It was a story about me sitting in a bright, shiny first-class seat inside a dark and dirty bus. The moment I heard of that, it did not seem like a mere dream. The fact that only one seat was shining brightly in the darkness and that I was sitting in that seat, gave me the feeling that Heavenly Parent knows me and is watching me even among countless people.

At that moment, I felt in my heart, 'Ah, You really love me.' And at the same time the courage arose that I could escape from the anxiety and rejection that had troubled me within that Love. I went straight to Cheon Shim Won to offer a prayer. And for the first time, I came to deeply experience the Love that Heavenly Parent wants to give to Heavenly Parent's children. The more I prayed, the more my heart became at peace. And I felt the Warm Love, as if Heavenly Parent was saying, 'I am listening to all of your stories.'

Actually, even before that, with the heart of wanting to feel the Love of Heavenly Parent, I had been offering 40 bows of devotion and 1,000 calling out name prayers every day. I felt that only when I first felt Heavenly Parent's Love could I really attend Heavenly Parent, only when I felt something of Heavenly Parent's Bitter Sorrow Han.

So, I desperately wanted to experience that Love. Since that day, whenever I experienced difficulties, I sought out Cheon Shim Won and had conversation with Heavenly Parent there. Then I began to feel an even greater Energy and Love. With the conviction that Heavenly Parent knows even the heart and love I cannot fully express in words, my mind began to stabilize and brighten.

Furthermore, whenever anxiety arose, I thought Heavenly Parent is both in Heaven and on earth and F and M are with me in front and behind, and my heart became warm, and miraculously the anxiety disappeared quickly.

Looking back, after 40 days, I had completely changed with so much of the anxiety disappearing completely. People around me began saying, 'You have brightened up.' Above all, through this Workshop I came to know what true happiness is.

I used to think of this Place as only where people having a hard time came, and where I would be struck.

However, I found it not so, but a place of love so warm and happy, not a time of forced endurance but of being filled with love. I thought it would be truly wonderful if many people could feel this Love.

I also came to know that True Parents Who were the first to find this Love, have constantly struggled, risking Their Lives so that Their children could feel that Love and know true happiness. In the midst of that, on the one hand, I felt how it is not easy to live for the sake of others. Because my heart wavered depending on the reaction of the other person. Through that I realized that love is not one-sided but is completed in the mutual giving and receiving.

Thinking about it now and wondering about what I experience, the earnest Love of Heavenly Parent Who always sought to find me, was Present.

Through the Workshop, I came to establish the goal and direction of my life. From now on I want to attend the Love and Direction of Heavenly Parent in my heart, follow the Words of True Parents and live while practicing that Love. Though still lacking, in order to more deeply plant the roots of my faith, I have applied for the 7th Attendance Workshop and resolved to join the 11th Spiritual Academy.

I resolve to receive the direct education of True Father and be a child who can now attend True Parents.

### Testimony

Morimoto Tachi

The sixth son of a Blessed couple...

I occasionally attended the main adult church service... but also in the GDT Workshop received the grace of meeting True Mother in Person, and through Her Expression I could feel a depth of Pain and Heart. I thought, 'Not many people know Mother's Heart.' I resolved that I wanted to take responsibility for conveying that Heart somehow.

I entered the Dept of Theology at Sun Moon University, graduated safely and am currently working at LV Cheon Shim Won. Two years ago I was preparing to enter graduate school in the US and was waiting for my exam result. Before that, I had wanted to establish a deeper center of faith and attended the General Japanese 40-day Workshop. While praying during that period, I suddenly felt a voice saying, 'H USA Cheon Shim Won'.

At that moment I thought, 'There's no way I'm going there.' In reality, the only time visiting there was a dedication mission trip in my college years. But if it truly was H's Will, it bothered my heart not to follow it. So, with the heart of asking, 'Is this truly the path You want?' I offered a 3-day devotion. I then gained conviction for this path, even I didn't feel like it. But thought to check if they are even recruiting staff, and received the response to come for just 3 months, but became a staff member.

At first it was enjoyable with what I could learn, but then the people I was with left one by one, and my tasks and responsibility gradually increased... CheonBo registration, vigil... and I began to have doubts, 'Why should who am not even American do this work for H USA? Shouldn't an American be in this position?'

When the Yeongseong Workshop began in LV, I started asking myself when a good time would be to quit. But the right timing didn't come easily. As my responsibilities grew, so did my desire to leave.

But because I felt that Heavenly Parent had called me, there was also a fear to quit, especially without witnessing results.

As a result, a close friend was attending the 19th Cheongseong Workshop in Korea, and I contacted him. He encouraged me to try coming. I was exhausted and had desire to go, but thought it was realistically impossible because it overlapped with the Workshop schedule in America and we were short staffed.

To be honest, a part of me didn't want to go, even though also feeling my ancestors were calling me there. I felt to at least ask. So, I spoke to the Director of H USA. Since I was in charge of various tasks, including interpretation, the Director contemplated deeply.

However, a week later, while preparing for morning devotion, the Director came and said, 'You have received the permission.'

Then, it became a situation where I really had to go. And I thought to myself, 'I'm doomed.' Having majored in theology, I didn't feel a particular need to attend a Yeongseong Workshop. But I prepared my ticket and went, but with many worries, also wanting to go back.

However, while praying at Cheon Shim Won I set a goal to resolve, 'Since I've come this far, let's do my best to feel True Mother's Heart.' And the first 3 days' schedule was relatively relaxed, maybe not much different from the General Workshop. But on the 4th day, after the Opening Ceremony, I began to feel that the SW was leading us.

While offering personal devotion, a realization came to me,

'You did not come for yourself. You came for the revival of H USA.' I realized why I had come, not just for my personal growth, but that I carried the responsibility to move American members. Only now, after 2 years, have I come to clearly know why I was sent to H USA, and felt apology for failing to realize that until now.

I have come to experience Heavenly Parent's Love in everything I do, and feel that the every situation is a H education directed not just to me, but to American members.

I asked what kind of devotion I should offer for H USA and received the response:

20 minutes of earnest prayer for the victory of H USA and revival of Christian clergy. Doing that was to begin to feel God's Heart toward America. Reading the HD Words about America, I experienced how much God has Loved America, and tears flowed... realizing how selfish I had been over the past two years being where Heavenly Parent had called, but without a sense of ownership, merely investing swept along by the current and thinking mostly of myself.

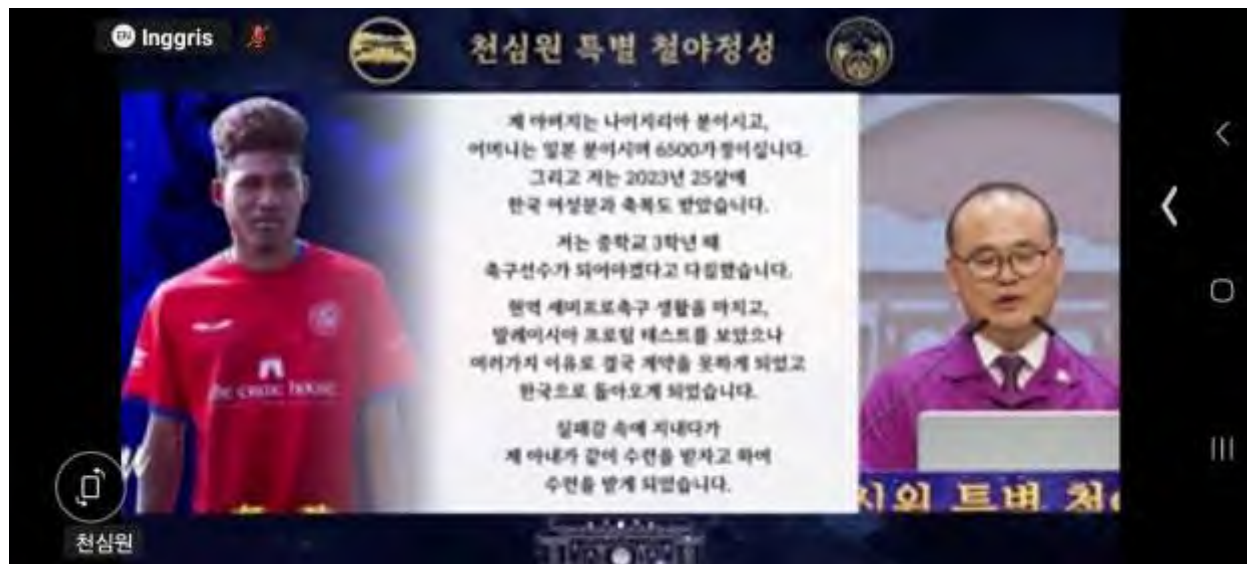

Now, with the CY yoksa and in every vigil, I participate in it with the heart that represents America, with all my thoughts and focus directed toward America.

Through every process I deeply feel H's Love and True Father leading, also realizing the difference between the yeongseong and general WSs, with deep gratitude for the grace so far.

I intend to receive even more grace, raise my spirituality and return to America to be a person used for the revival of H USA. I will become a filial son who enters the position of responsibility with a greater sense of ownership.

I offer my gratitude to Director Kim Gi Hoon of Cheon Shim Won, Secretary General Ryiuchi, and above all my beloved wife Macco, for supporting and being considerate of me to attend this Workshop. TY for listening to my lacking testimony.

spouse always smiling and volunteer service, now Unification Foundation

last one, last week he had interview at a famous company, and question, 'What is the most memorable moment in your life?' and he said volunteering at the Korean office at the TC of Unification Church. Because of that, he got cut off... He wanted to say and be a proud child proclaiming.

So using his talent, he had an interview in the TC and I told the leader how precious he is, and I don't know what the result will be but applause for the amazing young people...

Please join Workshop quickly all Blessing Gen...

True Mother, we miss the most in springtime...

testimony Pilgrimage along True Mother's Path...

True Mother's Words: The Path of My 53 years was preparation for FD. God set the path. The 8th year, God's Day was set. The 27th year..., the Completion of the Providence is Spring. We must achieve the spring of Completion.

April 26, 2023, on the very spot where True Mother came and Blessed us, we thought of True Mother and sang, 'Within the Love of True Parents'

True Mother's Path was not in good walking condition after the winter weather, but our trainees piled up their devotion only thinking of True Mother. Although their shoes and pants were ruined later, symbolic of what trials will eventually pass by.

testimony... muddy and smooth parts... whether to cross over the mud felt like Mother's Heart, we must ultimately pass if for the sake of someone else. We do this with the heart of attending Mother, and I felt True Mother with me and apologetic not to be able to carry Her on my back...

Now more than 183 days of True Mother enduring pain alone... Our 40-day trainees held the prayer with this in their hearts...

True Parents's Words:

Devotion is not something you can lend to someone and then take back. The beginning process and end changes in various forms. You must go with a single-hearted and unified mind. But if that heart becomes centered on yourself, devotion will not be achieved. Sincerity of devotion must be for the sake of a larger object, be it the family, society or nation. Only then can the devotion of now be established.

You must have single-mindedness for the sake of the object and have God's Heart... based on a foundation of love. Only then can devotion be established. You must constantly strive with the single-hearted mind of Love.

With True Mother and H Japan in mind, we practiced the praise song, 'I Will Rise' in Japanese with all our hearts, and we prostrated ourselves shouting, 'True Mother, thank You for the tears You have endured. We will surely protect you.' putting our heart into each and every bow...

testimony...devotion for H Japan... and repentance for not giving enough devotion to True Mother. Then there was great grace and I was moved.

testimony... Pyo Guy Yon... While climbing the Tree of Blessing, I heard the cry of countless birds... then I saw a small bird trapped inside the pillar. I could not get it out and prayed for that bird to be saved, then I heard the cry like what we offer at vigil and then the small bird came to me as an image of True Mother in the DC. Looking at that scene, what must Heavenly Parent and True Father's Heart be like, and I offered prayer with a more desperate heart.

Then a flimsy tree branch caught my eye and when I pulled it, it came out by the roots and a small hope arose that I could free the bird with this... and I wondered if this bird would understand my intent that it grab the branch and come out... and it did, and I felt that True Mother was released from the DC, and felt how our prayers are never in vein... She took video of saving the bird...

testimony of Mother in front of my eyes and tears over Mother's aching legs and Mother so radiantly smiled... We are experiencing beyond time and space that we can come to True Mother...

Along with the Words of True Parents, I read the Words Jesus spoke to His disciples as they faced hatred and rejection from the whole world

'I send you as sheep to wolves, so be wise as serpents but innocent as lambs... You will be hated for my sake... brought up for my sake, but take no thought how you shall speak. It will be given to you from Your Father who speaks through you... The brother shall deliver their brother and children put to death, but those that endure to the end shall be saved.... You shall not have gone through all the cities before the

Son of Man comes...

We are the chosen who have received H's Promise. Becoming one with True Mother is the only way to salvation and moving Heaven... We will continue centering on True Mother... TYVM

---

**Break**

---

**Hoon Dok Hae**

What is loosed on earth shall be loosed in Heaven. What is loosed in Heaven shall be loosed on earth.

I made a promise to True Father that no matter how difficult the Course, I would fulfill in my generation God's Purpose of Creation and the Ideal World for Him. I said I would fulfill it at all costs.

For that purpose, I will not change. On the day He departed True Father told me He was so sorry and so grateful. I want to fulfill the Will left by Father together with all of you. I hope there are no sons and daughters who become drop outs.

My wish is what Father wishes as well. What pained my heart most when sending Father off was that He was not Someone Who should have had to go through such a difficult Path.

One Who came as the Savior, the Lord of 2nd coming and True Parents should not have had to start from prison. Heaven prepared everything, but because humans were blind and deaf and lost the prepared environment, He had to start from the very bottom of hell.

Until now, there is nobody who has left behind greater achievements than True Father. The H culture of a unified world, that is our dream. We must fulfill it at all costs.

Do you have something to boast about? Whether you boast of money or academic achievements? What

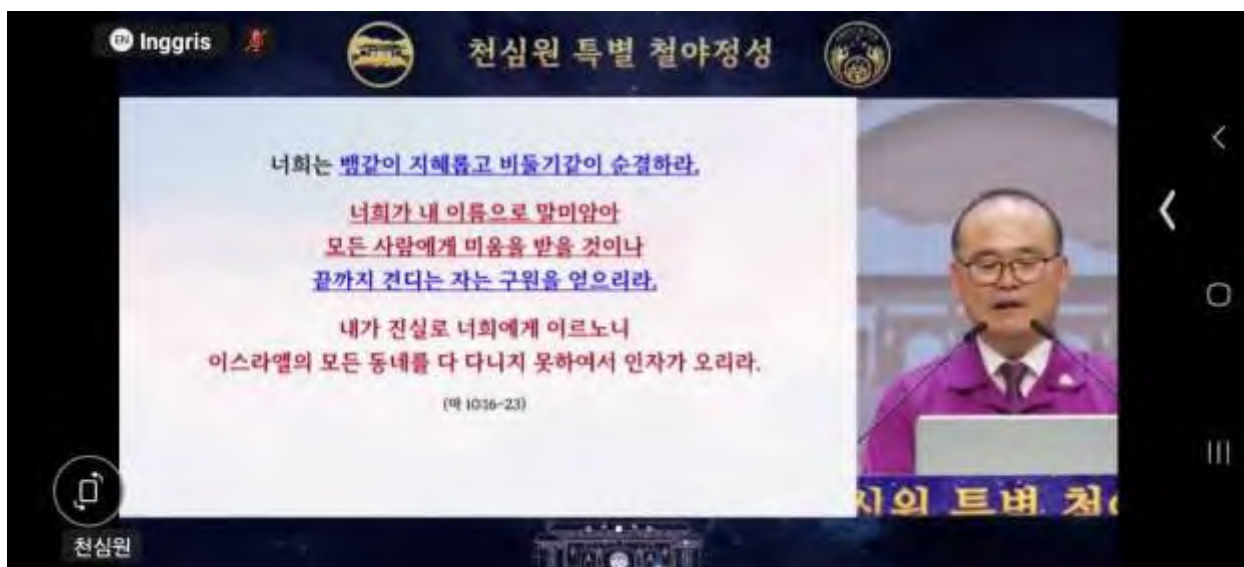

will you boast about? After Father's Asension, He remains at Phyongyongwon, and pay My Respects every day.

In Korea's prestigious families, it is traditional to observe a year vigil devotion at the grave site when a parent passes away. It is not about coming and going from home, but living in the mountain, unable to eat or drink properly. Even in the cold winter, one lives without lighting a fire. Even when it snows a lot in winter, one lives with the very parent for 3 years. Only then is one called a filial child.

What about you? You must inherit the tradition left by True Parents. While reading True Parents's Words every day, just as if you were attending True Parents. When will you ever fulfill this Will for Heavenly Parent, if we do not resolve to die?

During this time, people only wish to be treated well. There is so little we have returned to True Father. You too should wear sack cloth and offer prayers of atonement. I hope you pledge to True Father once again today. At this time, when True Father is making a new start in the SW, we on earth must become His counterpart,

It is said, 'What is looked in Heaven is loosed on earth... Now is the period to repay the Love we received from True Father.

From the DC:

183rd day

TFamily and (names churches...

Although the tears and hardship, as we educate and offer devotion, every small evidence will be the proof of Your Providence with U Family one for the time of resolution

In Australia, Sydney (Anita Berfield) attended, 26 years old... In the past doubt and disbelief, not accepting True Mother as my Mother, but with the TC, changing gradually. I tried my best to understand why Heavenly Parent chose True Parents... Before coming to Korea, a part of my heart felt sad... when I heard True Mother was in the DC and Her Health not well, the feeling of sorrow was so extreme, and I wanted to find out why... not able to stop myself from crying entering all the rooms and looking at my past, made by pain I received and the confusion in my identity, the distance I made to myself and True Mother, but True Mother never gave up on me.

I was able to repent, and for the first time I could attend Her as my own Mother, and so grateful... experiencing the deep healing, and I will offer more devotion and live a life of love and for Mother's return. I can confess with all of my heart, 'I love True Mother'... Heavenly Parent guided me and allowed me to find my H Heart.

'H Mother please do not give up, be healthy as possible...

---

I Won Jong Testimony... If nothing happened to her, nothing would have changed.

Morimo Tatatsio

Message to go to H USA... Heavenly Parent truly loves H America Cheon Shim Won... The place needing someone to work diligently, and H called this person to work there... It is not easy, and I believe he must have had a difficult time, and during that unless he knows the SW and could move the SW to move forward, but because he didn't know it well, and if he stayed there like that, I'm feel sure he would have run away.

Friends are important and his friend suggested the yeongseong Workshop... Many may have had thoughts like, him including among the public leaders.

He actually asked the Director of H USA...

Our brother, not here today was so excited to join the Workshop, but this brother said, 'Oh, I am doomed.' when he was accepted to the Workshop. But when he joined, everything changed. Last week, I gave a strong message, and every word I (PL) speak is in pain... So, my brother could not help but put everything to move forward... With a deep faith he could realize it was all for H America so loved by Heavenly Parent.

To be honest, to work in H USA, one must graduated all the programs in Korea. All must be inherited by the Branches and connected to each branch. You have that responsibility. Our brother truly realized the different. It is only the tenth day, but he has received the great grace. Having the new sense of his responsibility (Morimoto Tatsia), he can be used... applause of encouragement.

Because I am lacking, how can I fill this up, understanding of HMH True Mother, deny yourself to accept everything... Many criticize the Providence and even blame True Mother based on their own understanding, which is lack... We must be the ones who received the guidance of Heavenly Parent and True Parents, never by just human intellect...

Today, there was a report of Korean 40-day that the majority are youth... more than elders, and this is the great work of Heaven. I'm certain this is higher percentage of youth than any other religion, and their intensity and depth is their transformation that is all our hope. All of the parents must send their children

to Heongseong Workshop for the future of your family and future of all of us to grow...

The soccer player, Allawa Honsu,... I believe he can become one of the famous players of all time...
