Most Honorable Heavenly Parent

Beloved True Parents of HEH

We offer our gratitude to You for guiding us today so that we may offer our devotion for the sake of HMH, The Mother of Peace, Who offered Her entire Life for the salvation of humanity. True Mother, the Wang Omma of humankind, the OBD, True Mother Who Manifested after the Substantial Body of the H Mother for the first time in 6,000 years.

Please forgive us for our lack of loyalty and filial piety, for failing to protect You, and causing You to walk the thorny path once again. We long for our True Father and remember His Words that the Path of Restoration through Indemnity cannot be traveled without Blood, Sweat and Tears.

We also remember the Tearful Pledge of True Mother, 'No matter how difficult, I will fulfill My Promise. I will Complete the Providence of Restoration in My Generation.' She came through trials like in a sandstorm, all alone. However because of us being ignorant and lacking, True Mother Who should only receive praise and glory, is walking the path of the cross and suffering once again. How can we sleep or eat or live in peace.

This night, your children choose the path of devotion over comfortable rest. We choose earnest prayer. We choose the war-like battle of devotion. And True Father Who is here, please work so that we may achieve victory of our part in this decisive battle against satanic works, separating us from the Love of Christ and causing tribulation and distress, persecution, famine, nakedness, peril or sword. In all these things, we have more than conquered through Him that Loved us.

As the Bible says, we declare at this hour that no persecution in the world, no trial can sever our hearts of Hyo Jeong toward our True Parents. No matter how much they persecute us or dissolve the Church, we will become stronger by Cheon Shim Won devotion and easily become one in body, heart and thought and harmony with True Mother.

Beloved HMH, True Mother, now centered on Cheon Shim Won that You have established we will become an energy of devotion like an impenetrable fortress, a fire wall of the Holy Spirit, so that no evil energy can approach. At this time, we completely empty our bodies and minds to be filled with only Cheonshim. So, please look upon our prayers and tears and be comforted. Listen to our shouts and take Heart.

We earnestly wish and pray that this devotion offered today will make True Mother's Physical Body strong and healthy and proclaim the victory that swings wide all the blocked gates of the Providence...

Testimony

10TH Academy

Hearing the news of Mother's having to return to the DC after 9 days, this time of not being able to see You felt even longer. Only being able to encounter You through news is so heartbreaking. My longing heart is apologetic for not being a child able to fulfill my responsibility. Embracing these feelings, I am writing this letter to honestly offer my current self exactly as I am.

When I was young I followed my parents to church, but I was a timid person and could not easily mingle with people and would feel intimidated for no particular reason when among many people. Standing in front of people was also frightening as my heart would beat fast and my hands would shake whenever there was a presentation, and I tried to avoid such situations. Even when going to WSSs, I sat quietly in a corner rather than stepping forward. In that way, my footsteps became distant to the church and faith.

I was comfortable hanging out with a few small friends, and did not think of it as a problem. The person who led me back to the place of faith was none other than my older sister, who consistently kept her faith and attended Sun Moon University. Seeing that, I wanted to become like her and also came to Sun Moon University as an international student.

There, I began to learn the faith again, but looking back, I see I was more just fitting in with those around me, following along rather than making voluntary effort. I was praying and offering service according to the atmosphere and environment of people.

While contemplating my career path at SMU, I heard that one sister, who had returned from a mission was going to a Spiritual Workshop. Since I thought I should receive it at least once, I participated in the Cheongseong Workshop with my sister.

During that Workshop period, Mother underwent a search and seizure, and there was a day when all the trainees offered a devotion for Mother all day long. I still cannot forget that day, feeling for the first time

that my prayer was directed toward Mother, not myself, and I prayed with the hottest tears.

However, once the Workshop ended and I returned to daily life, that heat did not last long. I was returning to my familiar self again. If I stayed at home like this, nothing would change and I resolved to join the 16th Spiritual Workshop.

This time I truly wanted to change, but I heard that Mother had been imprisoned in a DC, and my heart was greatly shaken. Negative with a lack of faith and foolish thoughts with me, it was a time rushing passed with such things when I participated in the Workshop, and internally very difficult for me. Even I knew I should pray for True Mother, I felt tied to my own thoughts and emotions and ashamed of myself.

A child I knew should pray even more earnestly for the Parent in that kind of situation, I tried to pray falling forward. In the midst of that, I was appointed as a team leader, but that position was one that clearly revealed my deficiencies rather than growing me. I saw my own image of not being able to embrace people until the very end and wanting to respond.

Even though I had taken it on, I realized that because of the problem inside me, not the environment, there was a problem.

When the Workshop ended, I fell into deep contemplation with the fear surging that, if returned home like this, I would fall back into my old self and live a repetitive life without growth. So, I resolved to join the 4th Moshim Workshop

that started 3 days after graduation. It was to try to cross my limits, not stay in one spot my whole life. I was still seeing negative images and many moments I wanted to run away. However, it held my heart that Mother was enduring such a difficulty in the DC.

The question gradually deepened, 'Is there nothing more I can do for Her?' I resolved to join the Tenth Academy, but also had the excuse that I was not prepared for the many difficult aspects for the Japanese to be active from the point I was in, and I even wondered if I had to go that far. But when I thought about Mother, I could not live without doing anything.

I am currently offering devotion as part of the Jeongseong Team and the owl team from 1:30 am to 9am.

At first, I was not grateful because it was not the team I hoped for and my physical body was tired as my life rhythm changed and there were complaints in my heart. However, with time I came to realize that, at this time, when Mother is spending Her most difficult hours, the fact that I am awake and praying in this spot is by no means a coincidence.

I could not help but be grateful that I could offer devotion for Mother at a time when everyone else is asleep, and felt that this was the mission given to me. The results are not immediately visible, but I will continue with a grateful heart even more earnestly, laying down my sleep and comfort and praying for True Mother with my entire heart.

I am changing little by little. Although still clumsy, I have been able to have conversations with my b and s and to lean on someone rather than just being alone. I am now trying to stay in my place without running away. Although it is a small change for me, I feel it is a great grace.

True Mother, although I am still very lacking, and as I pledge my devotion, I easily waver and become exhausted, however I will not run away. I will build up my sincerity day by day in my place.

Through this period as part of the Cheongseong Team, I pray for our Mother's return and recovery of health even one day sooner. I will offer the greatest sincerity I can give. Mother, thank You. I love You.

Noriae Takaki

Video of the Song 'Rise Again' by missionary Moon Shin heung.

I believe that our GWs will make this Place Holy with Holy Spirit if we fill it up with devotion and we will be able to see the victory of Mother. I plead with you to let H see our words and wishes that they become praise and historical victory for True Mother... with our entire hearts so that H can come down...

Testimony

I participated in a general 40-day since last December and Wive's 40-day and now the Cheonseong Workshop, with a heart to protect the 2nd gen in the church, but due to my own heart and inability I sometimes hurt them, and I also suffered from nightmares...

When I heard that M had entered the DC, my soul cried out, 'Mother'. but the thought, if even one person like me cannot change the situation for Mother. I began to imprison my heart.

I even hesitated to come to CP that I loved so much and didn't even want to bow my head before the photo of True Parents. But with the help of others at CP, I recovered my heart wanting again. I had long wanted to attend the spirituality Workshop, even hearing my name called there in a dream, and finally now.

I had a small miracle while on a flight returning to CP, I met a Korean woman who was a member who had lived with North and South unification as her life-long mission. It was a time when Mother had bestowed the Death Valley Holy Salt, that was a key to finding the righteous people. Through that meaning I gradually began to have new-found interest and connection to unification of N and S Korea.

During the General 40-day Workshop, a fellow trainee introduced me to someone who gave me more realization that the reunion of Zionichi Koreans and Mindan and Chochodan is the path to N and S Korea unification, and that is the mission of Japan the Mother nation. That person is someone who prays for it every night at 9pm before the vigil prayers, and I found out later that she was my father's spiritual parent.

One day a woman asked me to offer prayers and offering paper for her daughter and it was a time when that could not be obtained by her... Her daughter of the diagnosis for cancer...

In fact, several years ago my younger sister also suffered from cancer, but through central spirit liberation and prayers, she experienced healing. When in a life-threatening situation, those prayers of desperation never fall to the ground..

With the Golden Offering Paper, which I learned was directly connected to Heavenly Parent, I began name calling for her and some family members also... It was to be 1,000, but with an apology heart I offered 430 because there were others to pray for as well. After hearing again in a Workshop lecture that

Mother's standard is 1,000 calls, I resolved that even if I couldn't finish them all in Cheon Shim Won, I must challenge myself to reach that number 1,000, and did them even while walking outside.

At the Holy Ground, at the moment I finished, I felt burning lights shining from around and holding them in my hand with the darkest scattering. The family was waiting and I felt apologetic that I hadn't done it sooner. A few days later the joyful news was that chemo would not be necessary after the surgery. I'm certain that this is the healing work of H and True Mother.

I was joyful to hear the news on the day that was anniversary of HyoJN's Ascension... I came to realize that the Cheon Shim Won is a place prepared by Mother for the devotions for unification of N and S Korea and HyoJN, HeungJN, Daemonim, True Father always working on our behalf. As Mother nation, we will pray for the Father nation and move forward as one. applause

I will commit myself so that all trainees can resonate with True Mother's Heart as soon as possible and inherit the cheonshim with gratitude for everyone who has raised me until now. TY for listening.

HJ Report

Uno Takanori

40-days Japanese Workshop

I am currently a coordinator in the Workshop, born Japan and my older and one younger brother. Turning

point was 40-day Workshop and to repay I started as a volunteer and graduated from theology at Sun Moon University. There are some things I will not be able to convey but will try my best...

Before the dissolution True Mother gave the message through Pres. Hori Masaichi, True Mother gave the message:

'Heavenly Parent is Alive and currently working as well. If you look through the eyes of faith, Heaven is not being quiet, and in 6,000 years of Providence has constantly worked. As this Movement, for the loving children, for the fulfillment of the Will awaiting, and is always with us.

Heavenly Parent's Dream will absolutely be fulfilled. For that reason, in any circumstances, we should not despair but have faith in Heavenly Parent Who always listens to our prayers and devotions and knows all of our tears and agonies. When we look before our Providence, God has always started a new Providence in a time of hardship.

If you look with human eyes, you may see mostly difficulties, but with the eyes of faith and the bigger 6,000 years of Heavenly Parent's waiting and difficulty to bring us to this point, all of these things we are going through is still the process of fulfilling Heavenly Parent's Dream. This is the faith we need to have for Providence to advance. So, beloved Japanese family members, please do not forget your Center with the same Dream, and know that it will be realized.'

It was such a grace-filled and encouraging Words of True Mother, Who calls us beloved twice, and we could really see how True Mother loves us. Whenever I see how we are truly being loved, and without hesitation for us to walk toward Heavenly Parent.

Two points of hope, Heavenly Parent always sparks new Providence in times of despair, and in the eyes of faith Heavenly Parent is always there and the door is always opened, embarking H Japan forward.

On March 4th, the results were unbelievable, but our J Workshop staff did not despair but offered devotion in Cheon Shim Won... video

testimony... There was worry but more than that I felt apologetic that the church the seniors built at the risk of their life might disappear. I participated with the trainees letting this serve more determination,

shaking my body for Heavenly Parent and Mother and during the ansu, my heart became the hottest, and thinking of how Mother is spending Her time.

Even a small devotion, that accumulating with all the others can bring Blessing. There was Christian pastor who said we may use their sanctuary, even there is some distance. Of course it is for free. Please take care and God loves you. And many realized the freedom of religion was being attacked.

H Japan is not stopping but are using this as opportunity to build a family church. One of the staff returned to their home and are doing activities in their houses and offering SS in the communities as well. Because of that foundation, H Japan is not wavering but spreading the culture of home church. Our rights of freedom of religion cannot be removed

Top five lectures of the Workshop

Most of Director Yokoi's were top five

and there was a lecture that moved all of the members

The story of the encounter with H Mother stayed in my mind, holding bitter sorrow of apology saying no matter how much She gives and gives it is not enough, and She cannot even reach out Her hand to Her dying children. Them thinking it is okay to just exist, instead to realize the Words they truly needed and wanted to hear... True Mother truly loves us unconditionally as True Mother. It is the needed experience to realize once more.

You might say that the grace-filled lecture is only for us, but we were able to share it, to tour the church with the permission of Pres. Lee Gi-seong, able to go here for such a meaningful and grace-filled time, because after the dissolution order, after 4 to 5 hours of driving to the TC, it was a hectic schedule but a lot of things were happening...video

Also a behind story, the District leader and his wife, before the touring, they had an accident and with the heart of loving the members, she left the hospital and we could feel there was H's guidance and applause

for all the staff...

Next, about the lecture, there was also the experience and the first place was the vigil devotion praise team of the most praise giving 25 praises of the 28...

Three were able to sing as a collaboration with them... thinking about what words to share, what praise... singing new songs the next day to memorize everything, but looking at the growth and development of the children in this environment and being the leader, they were looking at me to convey what all could follow in that period. I felt with all I did, there was the Center all could follow...

She did her best and during this vigil applause for the praise team... and going to 145,000 registered with 85,000 in H Japan and have a new record. There were a lot of members involved in the registration... offering prayers for more grace... and I think True Mother was greatly pleased...

tongsong go ho, reporting prayer is allowed with a desperate and longing prayer heart is opened up at the special prayer room of the Holy of Holies directly governed by Heavenly Parent and True Parents (that you needed a ticket)... where all of the wishes were granted

Many angels and AGSs are here, and because of the limited time and space, only with ticket. but in two weeks can register to participate just if you come here to GWs...

PL gave a request to offer devotion for H Japan, and it was in 2023 January, for the victory of H Japan we did calling out and this March we could commemorate the 800th Cheon Shim Won and receive the drum, and I had the realization what a special place this is where Heavenly Parent is residing and listening and responding to our prayers. Prayers for those going through difficult experiences and centering on the lectures, the staff enters there. The conditions are really important to offer with more than 3 people joining, and staff also moved by members, and all going through difficulties are able to revive.

One announcement of having the 800th vigil and in H Japan 900 also and we march forward to 1,000... Do you know how many are already registered? Already over 1,000 people... Some may cancel because of earthquake... but open for all who speak Japanese all over the world, so let us accumulate the devotion...

August 1st we plan for the 21-day Workshop for the J Seonghwa. True Mother said to cultivate children from the very young age to be pure and cultivate them so that we can be victorious...

All WSs will connect everything and we will make works like the Upper Room of Mark, attending Heavenly Parent and see the works of the Substantial HMH...

Break

Hoon Dok Hae

The path that is not traveled in life must be traveled in death. Where should BF's go? A person who only goes toward their own family was for a goal to fulfill the mission of the cosmic restoration.

When you open your eyes you must pledge for that work and shed tears that embrace that work. This is the gift that must be left behind as parents for our future history. Going this way is the philosophy of life centering on the tradition that must exist. If BF's are not in a position where they cannot walk such a path, they must embrace a thousand years of bitter sorrow, ashamed to look at Heaven or earth or True Father, True Parents, unless they are in a position to appeal for atonement with endless tears flowing for thousands of years and hope for God's Compassion, they cannot go before God.

We must prepare for this time. There's no alter for atonement except for the Unification Church. Representing this nation we must be mobilized and sacrifice for the sake of this nation and serve for the world, restoring the world through tears and blood. Korea is not the only issue, but to return the world and cosmos to God.

You must go through your ancestors, now being like the Israelites who came out into the wilderness. Just as Moses and the Israelites were driven and suffered in the wilderness and just as Jesus was rejected by His nation and church and family, you too must pass through such sad and unjust positions. Even so, do not be discouraged. If there's something you must do in such an unjust place, it is to embody the Heart of

Heavenly Parent (and True Father/True Parents) Who has suffered historically.

So, think of the suffering of your ancestors and of your own suffering for the sake of uniting the world after thousands of years and march forward with a heart of enmity for cooperating with Satan thoughts. We must become the soldiers who can feel the bitterness and sorrow of Father's Heart and embrace it in our bodies.

We must charge forward by unifying our ideology for releasing the sorrow of Heavenly Parent and Jesus and ancestors and the sorrow of our descendants. This sorrow is the path you must go even after death. Those who seek the H path are always lonely. No matter how many environments are around them to overcome like a mountain to pass over, they must cross it and have a standard more than the summit. That person otherwise will surely walk the path of a loser.

Therefore, those who have taken the responsibility as a leader are always serious. It may be easy for you to follow as a member of the Unification Church, but the leader must put the whole of all they do (and need) on that line. The outcome of victory or defeat depends on how that responsible leader acts.

Cheonshim Choir

'Way Maker'

Pres. Lee Gi-seong's Message

We should be able to see the entire world through the eyes of faith. That is why we were educated in the Divine Principle. All the chaos came because all humanity could not attend True Parents from the

beginning. We need to offer all our devotion to see True Parents Word on this earth and see the power of Heaven or we cannot be able to see the ideal of creation on this earth.

The spiritual angels were also working for this ideal of creation. So, we should also be able to see the spiritual things happening and how the AGSs and angels are being mobilized by Heavenly Parent. We'll be able by devotion. If our faith becomes 100%, we will be able to see the firm settlement of Cheon Il Guk. So, with AFAL and AO let us do our devotions.

Korean 283rd 40-day Workshop, Korea has the 103rd Workshop.. and the difference from the past is that the trainees mostly do not go home but continue with WSs and often seeing how True Father and HyoJN and HeungJN are working.

I truly hope our Japanese members can receive the love and power of the mighty Heavenly Parent, so that there is no time for us to feel low, resonating with Heavenly Parent and True Father of SW and True Mother on earth.

Let us be the subject of love and joy towards our Heavenly Parent... currently 1,010 before coming to the podium... and all these 1,000 resonate and pray sincerely, amazing works can happen. If you feel hurt because of the difficulties, by participating in the Workshop, you can see the power of prayer and be able to offer it to True Mother, bearing the Cheonshim robe... That atmosphere is being prepared, True Father working through all of us and having dreams and visions.

The most difficult time is overcome when we receive the most love, and may we be able to have a lot of grace tonight..

Prayer and Praise

Cheongi Opshim

Most Beloved Heavenly Parent, True Parents of HEH

On this 6th day of the 14th year of the 2nd month of Cheon Il Guk, we offer our gratitude for guidance to be here at the Cheon Shim Won devotion you preside directly over where 46,000 around the world are gathered, leaders and BFs, in the Main Hall, becoming one as brothers and sister, offering their sincerest devotion for the swift return of HMH...

Heavenly Parent, we remember the promise of True Mother to True Father that no matter how difficult, to fulfill the promise... in the bitterness of winter, the Value of Life and Your Glory allows me to walk into the glory of tomorrow...the glory is all the more in the spring of overcoming... We will become the Unification Church that inherits all the Life and Tradition of Heavenly Parent's, while on the path of suffering to bring that spring of HMH, Who only wishes to fulfill the Will of Heaven left by Father, together with us one with Her Desires....
