Testimony

(all of the above was wiped out suddenly and when clicking 'undo' which usually restores it, the text appeared and disappeared right away again repeatedly... So, when trying to retrieve it other ways, that didn't work and too much time was going by and from here is the rest of the vigil until the time cutoff... want to look for it some more, but HyoJN said just let it go... maybe there will be a Cheon Shim Won TV video... such a good testimony... There are some extra challenges now with the type out: broken keyboard keys, especially the 'a' key and have to recover what the cursor does when it jumps around the screen on its own... as well as blocks to the email send... Please tell me if you are not receiving...)

end part of Testimony is from here:

... to attend Heavenly Parent in the midst of serving that one person. And I realized that if I pick and choose who to serve, I could never stand before God for my entire life.

I realized that I was not giving my all for the sake of love. I received the vision, 'Your parents love you with all their hearts, so why do you leave a margin when you love people, and call that love? Do not run away. If you truly want to love, throw away your pride and stake everything'

I wanted and resolve to offer 1,000 bows every day for my mother and family. Amidst a busy schedule, I offered bows from early morning, after meals and sometimes passed bed time in the dormitory or sometimes even outside in the middle of the winter. Even when my knees were swollen and in pain, I felt that the pain disappeared if there was love and gratitude in my heart. But one day even walking became difficult and after only offering 300 bows at night, I confessed my inadequacy to God. At that moment I felt God saying, 'Even a single bow is okay.' And I felt that what's important is not the number but the heart.

(He is so present and heartistic with his testimony reading, reading slowly like that)

Actually, the job I had before attending the Workshop was a well-paying job that could have solved my

ancestor Blessing which is my root problem. However, the more I offered devotion at Cheon Shim Won, the more I felt that this period was more important. Eventually, I miraculously received a 40-day leave from my job, but on the 39th day of the Workshop, I lost my job. However, as I remained at the TC to serve, a righteous person appeared and supported all the liberations for 430 generations of my ancestors... applause

Through this i experience that devotion absolutely brings results and not just my own efforts but thanks to my mother who never let go of her faith and my father who loved his children, and I testify that these two were the more wonderful parents than anyone else.

(He speaks difficultly, slowly and carefully)

I want to convey gratitude to all who led me from Malasia, Japan, Taiwan and South America I testify that if there is love in the heart, even without a church building, one can reach True Father and e will work. After graduating from the university, I will join the academy and go on overseas mission, using photography to inform the world about the reality of South America and contribute to improving the environment.

And as a son, I will keep my happiness, and aiming for the Blessing, I will attend my family before God. He bows so seriously...

HJ Report

a pleasure to meet you all.

True Mother's Course of suffering continues... Earnestly wishing for True Mother's swift return, I report.

True Mother's Words: God created human beings as God's children. God is the Absolute, unchanging and eternal essence of the soul. If the human ancestors in which God placed God's Soul had not fallen, they would have completed their spirit bodies

to the same standard (of Love) of God with AFAL and AO eternally, not unfortunately living as descendants of the fall.

Therefore, whoever they may be, human beings can only lead a life of completion by being born through the 3 stages of the Blessing through True Parents:

Rebirth

Resurrection

and eternal life

In other words, rebirth is being reborn again on an individual standard,

Resurrection is being reborn again on a family and national standard,

And eternal life is when all of humanity completes itself on a world standard to attend True Parents, Absolute Subject, realizing the H on earth and in H, to live eternally in God's Homeland.

True Mother's Words: We must build the foundation of perfect devotion in Cheon Shim Won and on that carry out all spiritual Providence, offering sacrifices to Heaven, and raise 2nd and 3rd gen leaders, the so-called

'Priest group'

We must develop the spirituality of pastors, and spirituality of Blessed families. When we resonate with the hearts of Heavenly Parent and True Parents to discover and develop our cheonshim, H heart, the true settlement of Cheon Il Guk will be achieved.

on his 6th tour... report on churches...

(All of us) Centering absolutely on HMH True Mother, exposing and shaking off the blocks and dark clouds accumulated in the body and mind, and return to a life centered only on Heavenly Parent and True Parents deeply engraved in (all our hearts individually and together)... must organize fallen nature so that one can move toward happy life...

I felt the responsibility to comfort and encourage one another while seeing the members keep faith in difficult situations.

The early church played such an important role, attempting the expansion of the church in Tegu... In May 1954, active in the region. Currently there are five churches there... Susong Church is the oldest and the district HQ had the largest number of members... The choir and youth praise team was strategic...

At CY yoksa, spirits are organized and also fallen nature so that the spirits can be liberated through praise and clapping... By becoming one with Heavenly Parent and True Father and True Mother, my hands become healing of body and spirit.

We heal our mind and body, inheriting Heavenly Parent and True Parents Heart for a life-and-death resolve, so that you move beyond the pain, and it becomes amazing grace. The hand as representing the entire body... Our veins are between bones and muscles, and our hand as a miniature version of the entire body. So, just by clapping your hands, you can become healthy.

Method of happiness through clapping, some clap for days to become happy. So, the acupuncture is similar... needles coming into our body so we become hotter and blood flows better...

We are stimulating the focal point of the blood. You must understand that both of your hands must be at

the center and symbolizing the whole body. Anybody can make anu hands. So, when we clap is the moment you can be healed. And with absolute faith, if you move forward you can receive good results.

I had vocal cord problems after a few days, and feared losing my voice and feared speaking... After one day, I couldn't speak at all, and I carry medicine around. Then the thought that I should not accept this but fix it and I focused on my neck, and the first week was so bad, I did it only lightly.

Later, my voice got better and I can continue speaking, shouting and I don't lose my voice, and can confidently tell you to make sure you clench your fingers to meet. If you do it that way, 100% I'm sure you will get better. If you go out in the winter and clap that way, your hands will get warm...

The dark spirits do not like hot things, only the cold. So, we must raise our body temperature. Similarly, all the diseases and viruses live in low temperatures, need to receive the fire of the Holy Spirit, even jumping on ice thinking it is too hot...

When we raise our body heat is when miracles can occur. This is a fact of the higher the immune system is.

True Parents Words: Now the era opened by True Mother, attending together for the perfected er through True Parents. However, the world does not know H Providence. Moreover, we are completing the Temple to attend Heavenly Parent on earth. How wonderful to attend Heavenly Parent on the foundation of the environmental realm and the standard of restoration.

Last year, confession that I thought the Cheonwon Gung was beautiful and just left it with that. But True Mother said, 'This is the completion of human history, not just simple. There is a course of fall and course of restoration, but 6,000 years of H's Providence, no one understood and felt it, as only True Parents.

Heavenly Parent created Adam and Eve and God gave them H Blessings but by the fall Heavenly Parent lost everything that would have been through the 3 Blessings, life love and lineage of God. Instead the disconnect and profound ignorance of God's bitterness, sorrow Course. So, True Parents also told us that this temple is the Completon of human history. No one is without the parents of their birth, whether they are relatively more lacking or distinguished.

But the Parents of humanity did not start with True Parents, there was no relationship with Heavenly Parent's Heart. All relationship was severed. But now with the First True Ancestors of humanity come at this time through True Parents, the time has begun where we can live while attending Heavenly Parent as our eternal True Parents, starting with Cheonwon Gung Cheonil Sanctum. And this is the moment of grace we are living in and the Completion of Restoration history time.

So, at the final moment of victory, the time when Heavenly Parent, HF and H Mother completely uses the Body of True Mother, to govern and rule all things welcomed, must be welcome by us all ALONG WITH the Sanctum Entrance, as the final completion and victory of the long H Will, through which H has governed and led history.

And there was Cheonil Gung Han Shik, the Ceremony of Restoration of Divine Status, which sought out the original status of Heavenly Parent that had been lost, and returned it to H. This was the original status lost for 6,000 years returned to earth, made possible only because of True Parents.

True Parents's Words: In Cheon Shim Won you must command and move the SW, when we set our earnest desire and hope in Cheon Shim Won.
