### Opening prayers of gratitude

... Who have triumphed with true love. You have said that the worst disease is falling into ignorance of Heavenly Parent and not being able to feel how it is overflowing... To pass that love on to us, True Parents passed through an indescribable Course of suffering, fought against hundreds of millions of satans and gave us the Gift of being Blessed families, vastly more precious than silver, gold or jewels. What we must do now is fulfill the goals of True Parents. It is to live while always feeling Heavenly Parent.

You have said that when I empty myself and truly lay myself down, when I descend to the zero point position, we become H individuals and families who can attend Heavenly Parent substantially. Therefore, lead us so that our devotion can absolutely obey True Mother's Words to forgive, unite and love. Through patience and gratitude, let all of our selves be reborn as selves of true love resembling True Parents, so that even the satanic spirits are moved and inspired, allowing us to change this entangled and complicated history. Please guide us. Please work so that this may be a Cheon Shim Won devotion that resonates with H Heart of cheonshim where Heavenly Parent can directly govern.

Please work through us. Specifically, Heavenly Parent, our precious members who came from H Japan have offered earnest devotion for 3 days tonight. Since HMH our True Mother is also praying for H Japan members, more than anyone else, we earnestly beg and desire that You bestow Love and grace, so that they may return with the conviction that H Japan will surely triumph.

at this time today, as 1st, 2nd, 3rd and 4th gen families pray with one heart, we earnestly beg and desire for True Mother's health and return.

big applause for

Japanese 3-day resonance prayer Workshop

Hu Jo Hana

---

She bows to HPs and audience and gratitude

Hyojinora Kadi

The motive for participating in this Workshop is that 6 month already passed for M's detention and by the dissolution situation, this was the first Workshop since then and wanted to seek and experience True Mother's Heart and the contents were for doing real prayer... completely making the difference of the prayers crying out from the heart in conversation of Parent and child.

I have always agonized for changing the situation in Japan but realize that if I do not change the contents of 'me', I cannot do anything. The encounters with the 3 people in the group of 4 in the on-heart prayer, I really felt all had my own affair. One had the same disease of her son as I have with my son. This was a Japanese/Korea couple, and she asked a Korean youth who had participated in the Workshop before, and that happened to be a close friend of my son and my son spoke to my husband and he said, 'While it is fine to participate on either side, when one goes where their heart leads, there will be encounter with the necessary person there.'

With tears, I saw a vision of Mother saying, 'I can only entrust this son to you. Please take good care of this son.' Resonance was so strong from the same situation, and I felt Mother embraces all the pains of

humanity, shedding the tears of the Mother. This heartistic experience has become the treasure of my life.

During the 799 vigil devotion, I was in a very difficult spiritual situation, and I cannot forget how PL, my husband, Chang Sang Il, Pres. Tokuno, Family Director Oh Sun Sok, and Education Director Kim Myung-wok all had my head, shoulders and arms and prayed for me.

I know how much power your prayers become. Therefore, I believe if we pray and support and help each other in district meetings, H Japan will see the way strongly forward. The confidence I have is through the prayers I received in the Workshop. I hope we can offer prayer for each other suffering in agony and pain, that H Japan can see the light so much more, and I pray you practice what you received here in your local areas. TYVM

HJ Praise video

Dr. Atsuko Azaki

from 2 WSs, HeungJN asked her to give a song and as soon as she finished prayer, she wrote this song down

'HMH Let us Be with You'

(so anointed feel goose bumps just from the piano intro and then a lot of chance to sing 'Holy Mother Han')

HMH, we'll be with you... You are not alone... Father, since You've been gone... I am alone... How many tears have You shed through the night, looking at the Moon until dawn, searching in the desert... Cry no more... We are with You

---

Kim Ju Won Director of Cheon Shim Won Team

### **HJ Report**

Now I must smile, casting away this sorrow. This sorrow and loneliness are all years passed by, beating my wings toward the sky, toward the world where My Beloved Resides, I have already departed. With all the lingering attachments, the only thing remaining is only, only My Love. My Love will never change. Oh, My Beloved, I will give this Life without sparing anything, washing away all regrets and lingering attachments, the only thing remaining is only, only My Love.

I love You, Parents. Eternally I will give everything until this Body of Mine is exhausted. In 1998, HyoJN... This is a lyric from HyoJN's song:

(It's been almost 40 years and seems as if he wrote it yesterday, reaching to our hearts)

HyoJN made this place his residence for studying and working on music, from before used by President I Gwon I of Samsung.

PL allowed us to renovate this building upon hearing the fact that it was empty and run down. So, he said it will become a place where young people can inherit his heart, and allowed Cheon Shim Won Team to

manage this Place. We made new roads, and as if building a new house, they built it very beautifully from before being like a haunted house, not believing HyoJN stayed there.

A warm wind blew by my side and suddenly I remembered a time in Cheonjeong Gung at the lake, and because the road was soaked, HyoJN came in by boat, and HyoJN grabbed my should and sudden that member came up to me, and I realized that although it was like a haunted house, HyoJN was still here.

And Mother, hearing the news, suddenly called and visited this Place and said, 'Wow, such a Place existed and She was so happy like that' and PL asked Mother to name it and She named it as Hyojin jon as all served and managed it diligently, including the Workshop participants who did cleaning and help to make it as it is now.

Early this year the Hyojinjon Workshop began. Most of the people who attended this Workshop were drawn by the SW, and because of that we could feel close to AGS realm and grace. Coming there, they can feel AGSs. So, I prepared a video...

missing HyoJN so much, and I had the heart to come and while True Mother is undergoing this hardship, I wanted to give at least one more devotion for True Mother.

At the time of setting our goals for this Workshop, I wanted my mind and thought and heart to be HyoJN's and True Mother's...

hopefully to offer devotion diligently, we can achieve it as HyoJN is looking at each trainee saying, 'Please inherit my heart and attend Mother representing my own body... I shed a lot of tears. HyoJN is one of the sons Mother could give love the most, with heart burning like a fire, 'You must shout. You must shout' I saw HyoJN's words. We must inherit his heart and shout out. 'True Mother, we will protect You' I'm sure True Mother could return sooner then.

We made our faults and were inadequate and it is time for us to realize as much as possible with all our efforts into it, so that True Mother can return...

'Rebirth' is the title of this report that means to live again, someone who did not have hope to live again. You will not but find the right path because HyoJN is waiting:

'Although this place is called HyoJin jon, I hope you can experience Mother's Heart more than mine and be joyful in this time. and thank you for coming with the heart of longing for me... and right now True Mother walking the path of the cross because of her filial children, I hope this place can be restful in the way of understanding Mother's Heart more.

Also True Father said that the SW can be moved by the young generation and come down to this vigil so that the grace is different and you can ask of the AGS world directly. Especially moving forward with the young people, we are realigning our spirit world and especially centering on HyoJN, HeungJN and Daemo nim, the SW will move forward so that each child can invest their all with Spirit and Truth.

And this is what we're going to do, so that the future of the Unification family can develop and be nurtured forever. So, True Father is using all the SW to move through the young people. So, even in this Hyojinjon Workshop, based on these spiritual messages, in order to fulfill these words we were able to create each program one by one.

highlight video

applause for HyoJN, who is working... Going to the Hyojinjon, you will shed tears from first arriving, feeling HyoJN and HeungJN's heart and the place I cry the most is there.

HyoJN's Message:

' So, in this Place, with the True Mother's Word I hope that you can find your answer to the hyojeong, the Word True Mother shared, and as you look at the beautiful nature, I hope you can feel Mother's Warm Heart and Love. And I hope you rest here and receive comfort and move on. That is my heart. '

So, isn't this truly a message that worries about his younger siblings. Such worries were given to us, so centering on these words, Hyojinjon is a place where members can rest, be healed, and through that resolve and move forward. One of the programs is this 'nature resonance art devotion'.

When you come into the area, there is a banner that says, 'Crazy view' so that even the secular world says that. This is a place where probably a boat can land. People went on the boat on this lake with fishing rods as we planned.

testimony

It was windy, but standing where morning sunlight is shining, the wind got less and I could only feel like the warm embrace of Mother and I saw a fruit that looked like it had thorns, but when I touched it, it didn't hurt at all, and the pointy part was rolled up to make sure it could put the seeds where it wanted, and the seeds were so cute and lovely, and how would Heavenly Parent feel, and how would Heavenly Parent feel about human beings, and the heart where Heavenly Parent created could exist.

There was a program of healing our heart, where we read HyoJN's poem and looking up to the sky to heaven and we have a marshmallow roast and people write their own poems.

testimony:

Normally, there isn't much time to look to the sky, especially in the city where there are a lot of lights and you cannot see the sky well. But looking at countless stars in the sky here, I was able to feel HyoJN's Heart, and feel (Cheon Shim Won 8's) always watching over us and embracing us.

HyoJN's Poem 'Victorious Person' Moon Hyo Jin

'The sky as if embedded in crystal water, the countless stars, as if I can grasp them, it is bidding this darkness, and we will send out a paper note and put the stars in there and let it go down to the ocean.'

Chairman Kim Ju Won says: I was able to read this poem when I was young, and I thought to myself, 'This is how the heart of HyoJN has been and lived on. So I had a moment where I was able to resonate with HyoJN's Heart. And it was a similar moment where members were able to feel how HyoJN was living.

After healing our heart, it was time for healing our body, and we did the Hyo Jeong exercise. With the song, 'Let It Blow' we created a choreography dance.

One Psyaka testimony given task to make the dance that goes along with 'Let It Flow': With not so much time to make the dance, I prayed desperately and HyoJN said, 'Psyaka, I can dance well. Let's make it

together. It's okay.' I started receiving strength from him and making the choreography within an hour and this morning hold the time for the exercise. As I listened to trainees comments that they wanted to do this again in their home, I was able to feel HyoJN power and that this Place is where he directly works. I received the revelation of HyoJN for this, and somehow there was a trainee who dances well, and we resolved to create the dance together

testimony Koreko...

My knee was injured and I was limited, but after the dance, I could feel release in my knee and it getting lighter, moving as if dancing, but wondered if it would hurt the next morning more. But it didn't and felt that HyoJN worked to heal my knee.'

For years she had this pain and in one day it got better. She was so excited to tell me this story. This was another way of the liberation of resentment spirits... applause gratitude to HyoJN

In order to resonate with deeper heart, we gathered for healing, and in the 8th batch of praise/prayer, she played Monarch Butterfly, and the trainees were so moved. I hoped that we could listen again, and the next day she played it again with such grace. I hope that the 2nd gen can share their talents with many members.

One of the members said they needed a chair to sit down and we placed a sofa there. And I saw a sofa and we saw HyoJN sitting in that sofa, and as he was pointing to each and every one of us and I saw him in the chair and saw him saying, 'You, you know my heart. Hyo Jeong is mine, and you must inherit Hyo Jeong. And you must protect True Mother.' and I was so moved to tears to see him and hear him say that.

I hope that many can come, 2nd gen, and 1st gen sacrificing for 2nd gen can come and inherit from HyoJN, and I believe that we can be victorious. this one-person beige sofa was actually used by HyoJN in Hamnam dong, and upon hearing the grace of Hyojinjon, the person who stored this sofa, Im Yon Eh, applied for the Workshop and actually applied on the day, at 3am. He was actually in a position where he couldn't come. But suddenly his situation changed so that he was able to be free to come. And he brought HyoJN's sofa in his car by himself and was able to donate that to the Hyojinjon.

So, we only had True Parents Seats, but we have HyoJN's seat right next to Them. So, the trainees were able to feel close to HyoJN as if he were right there.

So, if there are members who have other things that HyoJN had used, I hope you will also donate those things.

Actually, I was lacking in confidence to prepare this Workshop, and when I fell asleep on the table, I had a dream, and HyoJN was standing there at the door holding his guitar, and even I knew it was a dream, I said, 'Woe, HyoJN came into my dream for the first time.' And I said hello excitedly to HyoJN. And he shouted, 'Hey! Filial piety is mine!' and I said, 'Yes'. And he shouted louder, 'Filial piety is mine!' And I was a little startled and said, 'Yes. Okay.' But he said, 'No. You repeat after me.' And I realized that he wanted me to repeat it. And I shouted, 'Filial piety is mine' and he said, 'Louder'. So I shouted it louder. And he said, 'Yes, that's it. You guys, you must all shout that filial piety is mine. You must all be able to shout it. You go and spread the words.' And after that I woke up from the dream.

I realized, 'Woe! This was the first time to have HyoJN's dream. As I looked at my note I had written down. I wrote, 'Filial piety is mine' three times. And I thought to myself, 'Who wrote this?' And I checked my pen and realized this is what I wrote. And after writing this 3 times, then I wrote it one more time on

the top. And I actually forgot about this dream as the Workshop was getting closer and closer, and during the opening ceremony as I was turning the pages, something in red was written and I realized that is what I had written. And because HyoJN knew that I was going to forget this dream, he allowed me to change the pen color to red when I usually write in black.

And HyoJN allowed me to remember this, and I couldn't help but to shed tears, how much HyoJN is directly overseeing this Workshop, and how much his love is embedded in this Workshop. And here are the words that are written at the end of HyoJN's book:

' We must begin with confirmation that we can do it. From now on there will be a lot of good things that we will be able to do, that's what I believe. Why? Because we're special. And we can prove it. We have something that is greater than others, that others don't have. We will fight until the end. Let's compete. Let's perish the evil with the goodness. Let's see who's better in the end. Some day I'm certain that things will be accomplished based on our will. For the future, I have great hope. As long as I can do, I will support. I will share, and I will try my best to be with you.'

In this difficult time, I feel that HyoJN is trying to send this message directly to all of us. So, this Workshop, not only our younger people, but our elder 1st generation members came and shed a lot of tears, clenching their fists and making their determination before returning home.

video

testimony

Should I express that I was able to feel HyoJN's burning heart. I hope that my children do not live in a world where satanic spirits are ruling, but a place that loves them, and I am hope that you are not persecuted. I made this resolution for my children and while living in the GA, make one family of Heavenly Parent with True Mother. I was able to feel how painful would True Mother be if Her 2nd and 3rd gen are separate from Her, and when people do not know about the Blessing and about their True Mother. How would HyoJN and HeungJN's Heart be looking at this situation? And I shed a lot of tears to think about this.

I truly feel the grace that members come to me and tell me, 'Director, I didn't know about HyoJN until now, unlike before able to understand about and resonate with HyoJN's Heart, HeungJN's Heart.

Coming here, even more than at the Main Hall of Cheon Shim Won, tears naturally flow. I want to become a pure water child who can testify about True Mother. During the prayer, calling out Aboji, Omoni, HyoJN said 'Yes, You must go now. Someone was shouting this out to me and patting me on my back. And I could feel that HyoJN was guiding my path.

We held a frame making of HyoJN's Words. Our trainees were receiving messages from HyoJN and focus on his book and walking the path he walked, listening to his song thinking more about the message HyoJN wanted to send, and without taking that much time, they found the words and wrote it down with this kind of grace.

I also made my own 'Filial piety is mine' and when I cross by my frame I can't help but remember my dream. I hope that many of you come and receive HyoJN's message and become one with the path of the Will.

testimony: words I saw were, 'Move forward. Move forward. and do not lack confidence in moving

forward.' or else True Mother's Heart will ache. So, I will run forward 3X more. True Parents's Life of Sacrifice has enabled us to be where we're out, so I wanted to walk that path too. And although not easy, with people beside me, I'm sure I can accomplish soon... I felt HyoJN's true love in a place of healing to receive abundant love of Heaven and be healed.

The tears of healing my heart could come out to live happily forever no matter what. We must go back to early days to set the right foundation of families, and this is the work, and the person closest to True Parents's Life is HyoJN, and we must understand about his life and become one. So, I thought of True Mother's Heart missing HyoJN, and She would come here often. I saw a person that looked so much like HyoJN, and I think it is him being here. The path of HyoJN, hearing his lonely story, a path he faced on behalf of Heavenly Parent to complete true love. HyoJN endured through it and was able to have the heart of true love.

This is the time not only of realization but also of repentance. I will truly, truly live a life of attendance.

He is going out for witnessing and he actually brought 3 or 4 new people. He practiced right away after the Workshop. We hope for more like this.

Just like HyoJN's song 'Rebirth', we hope many will find their new hope and receiving education directly from HyoJN here, find a new path for yourselves. This is for all the generations and to become one, and somehow the ratio is quite even. In the past we said you must attend this Workshop only after receiving the purple robe, but now more than that can register and I'm sure HyoJN will shout at you right away. And anyone is open to find your own artistic talent even you didn't know an artistic condition to come....

We are creating a beautiful blue line where you can watch and listen to HyoJN's music at a cafe and souvenirs you can only buy hear... This is echanbeck, and HyoJN always wore jeans singing the song and the fabric of this blue jean material and we have the blue cup and welcoming kit with a towel and feel the abundant love of HyoJN...

Through this Hyojinjon, our youth are truly reviving... Every Wednesday, they hold the Workshop and many receive the grace. Trainees becoming weary, after this Workshop, their eyes and passion becomes more like HyoJN. Also there is a signature post we need to make... and to shout 'Filial piety is mine' with the thumb pointing toward you. We take the photo with the polaroid camera...

178 graduated... Let me share True Father's Message. 'if there is an academy, there must be a dean. Who would that be? That would be Me. And HyoJn is the professor. You must realize how close to True Mother are pure water. And our trainees don't move forward with their own humanistic, individual thoughts but always with Heavenly Parent, True Father, HyoJN and HeungJN as the ones directly teaching, and with that pride they overcome and liberate spirits and their fallen nature and limits in performing service for the Workshop and for others...

3 main teams 'Specialist team, Education team and Devotion team' are there with teams within the team, so I hope that our members can feel the grace of Cheon Shim Won and buy the goods to bring back home to remember this time. Also, we are creating drinks and foods and kids' cafe and Hanwon House, trainees put themselves into action, and holding the different WSs and Hyojinjon Workshop is also done by trainees, and they don't have time to sleep well, and they offer devotion without leaving Cheon Shim Won one second continuously.

And there is the team that creates Cheon Shim Won documents, and those going abroad as missionaries, and the cultural support artist team that take photos and films to record our members' graceful moments.

Recently reading HyoJN's book, these are the words that I encountered:

'Our 2nd gen children, in order to educate them nowadays, we need music and movies. Going beyond that, we need a broadcasting system. We need music and movies made by us and our own broadcasting system putting our Principle and philosophy into our art, so that we can educate 2nd generation and young adults. We need such multi-media.

So, these are the words of HyoJN recently, and to be honest Pres Lee Gi-seong is trying his best to

emphasize that we need the Cheon Shim Won broadcasting system where we can educate and move our members hearts 24/7. Because I was lacking, I couldn't make this happen, but fortunately, starting from this March, we will be able to begin.

So, through this Cheon Shim Won Broadcasting System, HyoJN's wish and desire can absolutely be fulfilled. As you can see, as you open your cell phone, you can click your bar code, scan it and join there. I'm actually joining right now. I hope you subscribe and share likes.

For those attending by video, all you need to do is open your You Tube and search CSWB, Cheon Shim Won Broadcasting System and go there and watch the Content. So I hope that with Yeongseong Academy trainees we will push forward so that we fulfill HyoJN's desire. There are people in unseen areas where they are preparing for the grace of vigil, grace of all the programs. They are not receiving any payment but working truly only with the heart to support True Mother and give hope to our members, giving their time 6 months, some even 3 years.

testimony of a Japanese mother of an academy trainee:

If I did not come to America as a missionary and deep root my faith, I'm sure my faith would have changed and I would not be here. I may have left True Mother. But because of the mission work, I was able to change and walk this path. And I cannot but be happy to see my child also walking that path. I hope you can lead so many more on the path of sacrifice for the Will with Yeongseong Workshop training. (The joy of Heavenly giving as we humanly need to) There are those in the dark rooms where air is not flowing well, to make all of this happen, and I truly want to say thank you to them. applause...

For the safety and well-being our academy put their lives at stake, instead of just only Cheon Shim Won devotion, 24 hours a day, and even any free time, offering devotion... shouting with the hoarse voice. True Mother said we need Cheon Shim Won vigil devotion so that the Will can be accomplish. Recently during the 6th Cheon Shim Won resonance prayer Workshop Shin chul nim said, we are not only about building externally, but the root of our heart that True Parents want us to root directly. By Their sacrifice, we can reach the dream of the Cheon Il Guk, and become the fences to protect 2nd gen. Our Academy are the fences, and we will become one with early elder members to inherit their hearts, and move forward.

Taking this opportunity, we will attend our elder and senior members and offer prayer and devotion with our entire lives.

### **Break**

---

### **Hoon Dok Hae**

Wear the raven of heart and attend Heavenly Parent

J members, have strength. Heaven is surely alive and

working even now. If you look through the eyes of faith, Heaven is by no means silent. Within the 6,000-year Providential period of human history and at this very moment, H is working to fulfill the Will for the beloved children. Heavenly Parent Who has endured and waited through 6,000 years is always with us, and ultimately Heavenly Parent's Dream will surely, surely be accomplished. Therefore, we must move forward without losing heart under any circumstances.

Heavenly Parent always knows our prayers and sincerity, and the tears we shed and the hardships we undergo, always starting a new Providence through difficulty... We can know our own difficulties are in the process of fulfilling. Do not lose your center, Heavenly Parent's Dream will be fulfilled. The process must be done with the rament of heart, along with the mind and hymns that H surely will work through you.

Adam and Eve were driven out while shedding tears of sorrow, but you must shed tears of gladness not to lose the God heard through your ears and sense of touch Who permeates into your very heart. No one can interfere with this, or separate the God Who enters the heart, and you must attend that God who strikes deep within the heart.

---

Brother Benjamin Lyda practiced and led the song

As you cooperate with the Holy Spirit, composers cooperate with the SW...

In the past HyoJN had to take a boat to get in the bulding because there was no road. How happy would HyoJN have felt from that Place

After a while we gave that building over, getting rent for people to live monthly, but it became a place looking like a haunted house... now with roads to go there..

If a place used for a religious purpose and then left it does become haunted... but now so beautiful place of easy resonance with HyoJN and our academy trainees putting themselves into action and growing as precious leaders.

Isaiah gave the prophesy, 'The day will come...
