Opening prayer of gratitude

... You told us that whatever feeling we have whether joyous or painful is a treasure. Let us allow it to be for planting the seed of growth we need to spur us move forward toward You, with You as we need. At this time, with the breath of Hyo Jeong, we need to move forward. We need to not be the one who pierces

Your Heart, but offer the victory to You, Heavenly Parent. We resolve to be such filial time and made this such time of devotion. Please guide us tonight...

## Testimony

Uena Yukika

3rd daughter

Currently I live in the Middle East and attend this Workshop at the risk of my life. Even the plane was evacuated and we hid in the basement part, but then we went on and I arrived here in Korea applause

Since high school, for about 20 years, I lived unrelated to Heavenly Parent. Strangely at one point I felt drawn to the 2nd gen General Assembly, and the moment True Mother gave Her Words, tears flowed, and I realized I am a member of 2nd gen family. I visited CP for the first time in so long and with the guidance of a 2nd gen friend I began offering the 40-day Hoon Dok and received that friends support to endure to the end. On that foundation, I met my spouse, receiving the Blessing in 2025, with gratitude for all who stood by me.

Our family was the 1st BF in that country and trials beyond imagination were waiting for us there, spiritual conflict that could not be explained in words, clashes with my spouse due to language barriers, and there were days I felt self hatred and could not get out of the bed. With help from many people and someone even paying my airfare, I was able to come to this place.

At the beginning of the Workshop, the coordinator said the reason you are here is help of good spirits and True Father and True Parents and HyoJN. I then wanted to give it all my strength. (tears) Talking with my spouse on the phone, having to end the call to go to a lecture, he said, 'Is the lecture more important than me' and I had a flashback to me holding onto my mother not to go to her mission.

I realized the meaning of bowing ceremonies I had resented before, but realized my father was trying to establish a Cheonseong family bound as one.

Experiencing the encounter of death when coming here, I realized that perhaps I have a mission for peace in the Middle East even as True Parents... and I had entered the land called 'The Middle East'. I have come to feel that my life now that clashes with the secular world. And even the time spiritually asleep was preparation for this mission, and I resolve with my desire that no more lives are sacrificed.

I realized how arrogant I had been. Attending many Workshop before, I overvalued my faith. Whenever things did not go well, without accepting Heavenly Parent's Love, I thought I was a being who is not loved. But Heavenly Parent is always leading me and protecting me through many people.

Looking back, the reason I could return to faith was my mother's devotion I realized that my parents

devotion is what allowed me to be at this point now. I had resented her leaving me for her activities and devotions. At the time I did not realize the reason or value of it... My mother offered devotion from 5am and she never stopped believing in me.

From now, I want to receive the Love of Heavenly Parent, giving it to others and discovering that love in my husband and attend him with true love, fulfilling the mission entrusted to me. TYVM... I love You Heavenly Parent and True Parents... I love all of you...

### **Testimony**

Pe Eh Gi

gratitude

I am the eldest daughter among 2 sons and 1 daughter

I am Blessed. About 4 years ago, I attended Yeongseong Workshop, and not wanting to miss the grace of that time, I actively worked as a member of the mission team and church devotion volunteer for 1 year, after which I was appointed as an associate minister.

In the year as volunteer, I experienced accomplishing with prayer when I thought I couldn't. Although so difficult at first, I felt the power of prayer deeply, when with determination to surely accomplish. Through the ministerial course, I had time to practically apply the content in the field. No matter how great a work is bestowed, if I do not have the capacity to work with it, it just flows away. I met many new guests and member experiencing difficulty, but how to deliver the true love and I felt the difficulty. I tried to overcome with Cheon Shim Won devotion but felt burdened and overwhelmed and also my relation with my family deteriorated and my faith dropped, leaving me feeling lethargic.

As my confidence in offering devotion rose and lapsed, my confidence in devotion fell significantly But I continue the Cheon Shim Won devotion as a promise made to Heaven and because of my spiritual training. While like that, I heard the news of Mother's being detained in the DC. I was greatly shocked and began to agonize about my life and read the testimony of Daemonim and heard the director say we are the Temple of God and must change our habits.

But soaked in my past habits, I was full of worry and still in old habits. I heard 'I hope we enter the realm of absolute faith'. I asked about that realm in the prayer, 'What is it and what is heart?' I felt direction to re-read the Exposition of Divine Principle, and that the Path True Parents Walked of one of AFAL and AO, and then Satan could not have a condition to invade, and the history of Providence of Heavenly Parent is one that Satan cannot touch.

The history began from disbelief and Heavenly Parent continued centered upon the heart and faith of the Central Figures and I made an effort to keep my promises to Heaven. Daemonim said that attendance with a joyful heart is true attendance. Wanting this, to return something truly precious to Heaven, I continued and offered devotion attendance that turned into joy. Previously, I followed by moving with an obedient heart. However, by a self-initiated attendance, I felt how joyful it is... and only when I feel joy can Heavenly Parent feel Joy as well.

So, as I challenged, thinking more what I could do, I felt better, but still am I doing my best for True Mother with an earnest and constant heart for Her. Then during the Workshop I received a pain in my stomach and I was taken to the hospital, that must have been like labor pains for a child. I was grateful that I had completed devotion before that. After a while the time for the vigil came and I thought of the news that Mother had been released for a short one-month period. I would have so regretted if my devotions were not completed. I felt that Heaven works when offering devotion under absolutely any circumstances.

As if Heaven knew my heart and difficulties, I felt confidence breathed back into me through many lectures on what kind of heart I should have when witnessing. Through conversation with member and the HD of True Parents Words, and I resolve with desire to continue practice.

I sincerely thank Heavenly Parent and True Parents for calling me to this Moshim Workshop.

### **HJ Report**

All around the world, hello everyone

6th Hyoshim Workshop

True Mother's Words encouraging Japanese members to take strength and Heaven is working even now.

While being moved to the hospital True Mother gave a Message... 'If you move forward, H will surely work through you. Please send my love to J members.'

True Father's Message: This is not a usual Workshop but is one to comfort and encourage J members. To give great strength to True Mother, the SW will work greatly. Regarding the things that have already

happened, H will move according to them to reverse the situation 10 degrees. It was said that if the number exceeds 1,000 people, H moves. This is a Workshop where your hearts where only love remains are united. Let us advance with earnest devotion and reverse the situation together.

Because True Father is working, even there is no official memo, the participation reached 1,185 on their own. Heaven, has always prepared for the persecution and trials and this 3-day began last Oct and through five different WSs coming to this 6th one, resulting in 3,326 all total of the 6 WSs. As we prepared for this, I heard True Father's Voice:

In the past, I lectured you for 16 hours a day to make you into human beings. I delivered My Words. Because you did not become human beings, the Spirit World and physical world have started this Workshop. These Words came to me several times during the opening ceremony, and I shed a lot of tears. And I realized that True Father is not giving up on the children of H Japan and tries to nurture them by calling them to this TC. applause for calling 1,185 J members.

The J Workshop Team on behalf of Heavenly Parent and True Parents to welcome the participants we offered devotion together. Here's the video...

During times of these WSs 12 pure waters were with us to support. True Mother sent Shin chul and Shin heung nim and Shin chul said... Even if we fall ten times but rise 11 times, the Providence will live on. If we receive the Root from Heavenly Parent and True Parents, the Providence will live on. No matter how severe the persecution of the world may be, it cannot steal the faith of our hearts. I resolved to take that with me. So, let us elders and all move forward with that faith to protect our people.

Shin chul name said it's not the fact that we as BFs are persecuted, taking away externals but the fact of the faith in Heavenly Parent and True Parents to move us forward.

Shin heung nim caught a cold and didn't think about singing, but hearing the others, came out singing and all the members were moved to see him walking around just like True Father... applause to Inheritors and also True Mother for sending them

Hori Masaichi came and gave the words of encouragement and I led a prayer... Here is video

3rd gen read a letter to True Mother and we had time to offer praise together, in a time truly when all gen can be one.

One-heart hapshimgido... Sega hachi led this time

People meeting for the first time prayed as if my own family and their hands felt like my grandfather and grandmother and the love felt like something that only the FF possesses.

We must bring this prayer practice back to Japan, especially at this time, when members are staying at family homes to share. Important to share each other's heart more.

True Father's Words:

We're standing in the Canaan of Blessing. Because it is the time of Settlement, the time of the wilderness era was the time of obeying only the Master, caring only for the Master and only to love the Master, but THAT TIME HAS PASSED that time has passed. Do you understand?

Therefore, you must love your brother and sister just as you loved the Master, just as you loved the Parents. You must know that the Parents' Wish is for brothers and sisters to become one, even more than the degree to which they love their Parents.

Now you must love your brothers and sisters, husbands must love wives and wives husbands, parents love children and children love parents more than the Master relation love, and not just family but love the nation and the world, and move forward.

The couple must set a condition to love the world. Do you understand?

Husband and wife must become one like this, to begin the home church activity. We are entering such an era of home church. So, what the Parents desire is this.

H Japan has been walking the path of wilderness for such a long time while only loving and living for True Parents (earnest, tearful face). And we only looked at True Parents on such a long course. Now the time has come to truly love each other. And True Parents allowed us to realize this and set a new start (Be the love of True Parents to each other) and set a new start through this 3-day Workshop. That is something that we realized. applause.

Uno Coordinator led homyogido calling out prayer... With 1,185 calling out together for 130 times, a total of more than 13,000 times will be offered.

testimony: There were so many times when I knew what to do but could not commit with all my strength. However, on behalf of Father and those in the SW who no longer have physical body and cannot offer devotion, I sought to commit with all my heart and strength. And I am grateful that I could do so.

We first call out to the SW to be with us before doing calling ut prayer. And such devotion of over 1,185 will be used to reach True Mother.

This was the 3rd time doing this program with Isowa as Coordinator. Father Heart and circumstance flowed into him and he felt the strong desire to embrace True Father and give Him courage... Members resonated and shed many tears together... video... and resolving to go back with resonance also.

testimony Tsujingte, former Cheon Shim Won Director... From now on I will not seek to reveal myself but live as the resonance body of cheonshim to convey the Heart of Heaven exactly as it is.

testimony sister from Uruguay... realized we are chosen as Mother's younger sisters and sons, because we are needed... and my family is meant to resonate and become one with Mother

I will return to Japan shouting and showing we have become one with True Mother and now there is nothing to fear and nothing we cannot do... applause

Our Korean pastor also had testimony but all the testimony has the common tears from the beginning to the end unstoppable... same for the lecturers too. Vice Deputy Yokoi included, tears as we gave lectures...

one pastor's testimony of the reason crying like a young child, because of realization that Heavenly Parent and True Parents have been shedding so many tears for me, for us, until now, them sending me to Workshop and wanting to love me, and I was very grateful deeply...

The reason for so many tears is coming into contact with that Love and prayer is offered on behalf of

Heavenly Parent. In the SW, today, tomorrow, every day on behalf of God shedding Tears for us, we must comfort God and bring our attendance, that is why we are praying. So, once many children realize this, on through that can Heavenly Parent stop crying... Heavenly Parent can stop when my tears of my heart are greater than Tears of God, I can be the son of consolation for the future. How wonderful would that be? (saying for Heavenly Parent to have hope for H Japan. If we can do it, I believe the time has come at this moment, when we can make Heavenly Parent and True Parents to stop their Tears'

So, bit by bit, True Father is calling His children to the TC. And all the 1,185 wear the purple jacket and took photos... applause

True Father's devotion, this b and s, we will blossom throughout the nature of H Japan and make it the color purple, soaring through the sky and absolutely victorious centering on True Mother.

### Break

---

### Hoon Dok Hae

The Offering of Love, Devotion, Loyalty and Sacrifice

The place where Unification Church members go is 'Wonjon' the Original Palace, the Original Tomb. It means finding the fundamental root from within the Mother's Womb. What is Wonjon? It is the Mother's Womb before a person is born. When the sperm and egg meet, whether large or small, they breathe together, hold onto each other and live in joy. The two hold each other and push each other to subsist.

You must pass through that Wonjon Ideal. The 'jon' in 'Wonjon' is the character for 'the house'. It is the 'jon' of the Royal Palace. When the Mother's Egg meets the Father's Sperm, before being born on earth, one enters to find the fundamental root that existed in the Ideal God.

In the households of the loyal subjects of old, whenever something good appeared, they offered it first to the Royal Sovereign. This is the way of life for Korean loyal subjects. In the future, you descendants must be made to perform loyal service for you.

From now on, centering on the heart of knowing that God is with you whatever you do, you must overcome your environment and strike your roots deep, possessing a life force that can grow through any wind or forest. When knowing God's Will and Love, even when the world or nation opposes, we who know this must endure to the end, even if sacrificing everything for this Will. Because this possesses the highest value, nothing can take it away.

To make H Korea our Homeland, we must be determined to become sacrificial offerings of loyalty, love, devotion and sacrifice. Otherwise, Korea will lose its qualification as the Homeland. To create something good, practice and enforcing are necessary. Even if we must shed blood, sweat and tears, we must achieve it. Filial sons and daughters are those who, even if they sacrifice their body and mind for their parents, still wish to love their parents beyond that. A patriot is one who does not care for their own self but for saving the nation, one who sacrifices, invests and forgets.

If there is one who invests ten times and forgets, another who invests eleven times and forgets, the latter

becomes the subject.

## Pres. Lee Gi-seong's Message

44,600 have gathered

Pastor Song In Yong in front of the DC, his message:

We've been offering the 197th devotion since True Mother's detainment. in this place of persecution, the cherry blossom has bloomed and we feel tremendous love of Heavenly Parent and think of the spring view of the TC. All the flowers are blossomed and waiting for True Mother, each one wanting to show their scent and beauty to True Mother and feel the touch of True Mother. How desperate is all of the nature, air and water and stone. With all of that heart and hope, we offer devotion in one heart and will, to see greater accomplishment.

testimony Uno Wikika is living in Middle East with only her one BF. I hope for them to birth many children to become the ancestors of her who risked her life when the bombs were dropping.

I feel she is the only one who risked her life to attend this Workshop. But before was dormant for 20 years, but her mom offered endless devotion, and now this result.

But I'm sure there are members whose children has not come out after ten and thirty years. But please do not give up. We are children who resemble Heavenly Parent and True Parents and moving forward continuously, we can see the day to welcome and embrace our brothers and sister who come back.

Her mother offering devotion morning and night, with this beautiful fruit. She received revelation after 30 years, let go of the arrogant heart and she will live as a direct child of Heavenly Parent and True Parents.

True Parents told us that the olive tree has the deepest root so that even in the desert it never dies. May she have this kind of root. applause

Beh Eh jin attended the first Hyo Jeong Workshop, attended by a small number... She has a name that means prophet and she dreamed a beautiful dream. I remember her for that. If not for the Workshop, she would not have had the faith foundation to attend and receive much more great awakening. 'How can I attend Heavenly Parent and True Parents' 'Read the 2nd part of the Divine Principle again' She could believe what she couldn't believe. The human fall happened because they did not believe and then risked their life by not believing. Only when you risk your life, can you be called the believer, not only risking your life, but risking everything. Then you can be called the filial believer of absolute love.

You must believe everything about True Mother, or you will not be able to attend Her, not able to attend

Her well.

Ham could believe when the flood came, but he didn't have the faith he needed to show in his father. Every night there are father's who swear or complain at the church during dinner. The sound of Oeg Monsei must not be disconnected generation after generation or what will happen? At Panju Wonjon, there are many members who do not attend their Parents, who do not attend their ancestors well. Even among 1st gen, there are many who do not attend True Parents any more.

So, the negative emotions of the parents pile up on the children and make the children disconnect, and making them fall is easy but restoration of that is very difficult. So, we must learn how important the absolute faith is.

The sister said about the pain that was so bad in her stomach... She thought after returning from the hospital, 'Maybe because I'm so sick, I don't have to.' but she did offer it enduring to the end and right after she heard that Mother had a suspension of detention. Our sister was able to offer devotion well to receive such enlightenment. If devotion is not to a certain level, Heaven cannot work

Our brother Rosario from America, the day after the 21-day devotion he offered, True Mother was temporarily released. And there was a sister on the bus who heard and screamed 'Monsei!' because of offering devotion. You may feel your devotion has reached Heaven... Pastors are testifying, sisters and brothers are testifying, and if you don't feel anything, that's a problem... You must have the heart to resonate with other's stories and want to do more also... with our resolve and greater energy coming.

Arasha Shinori Coordinator, he offered the most Cheon Shim Won prayer and devotion, even in the early days when we had less than ten people. Whne I asked him to pray loudly, he prayed so loudly that we could not understand him and I asked him to speak more understandably, but still he prayed so heartistically and every word when he was guiding was filled with tears and many shared him in tears. I saw him giving such a session... and I blieve he offered Cheon Shim Won devotion maximum times... He became the amazing person guiding the J Team with abundant grace.

Withe the calling out, the time most difficult to offer is at 12 noon but our Japanese team offers such prayer even it is lunchtime. Why don't you try just like them. You may have to go to lunch, but offering prayer and going 20 minutes late for lunch. They have offered calling out for every single member attending. More than 3,200 members were able to receive Blessing...

The Inheritors also came and the participants were able to purify their own spirits as not before. They had the resonance HD time. This is very important, not just to read the words with eyes, and many just listening with eyes and ears on You Tube, but the most precious person is those who offer HD with their mouth. The words are not give to ears and eyes but to mouth. So, through our mouth we can get rid of the dark spirits surrounding and connecting to us. So, that is why we must read out loud.

If you shout out from True Father's Position, you will be able to know how tasty HD is.

Today's HD: We who know True Parents's Will must advance to the end with gratitude. Because you know Heaven's Love and Will, even the world opposes, we must be grateful and move forward to the end, because this possesses the highest value, not grateful when it stays comfortable times, but facing the trial and going forward. And those walking such path are eventually called filial sons and daughters. Also loving their parents beyond the Love of Heavenly Parent and True Parents...

The family who sacrificed their lives of True Family did not have resentment but only wanted to love

Heavenly Parent and True Parents more even at the sacrifice of themselves also in the SW, so that they will be the Subject revered and praised. Wonjon is not for just anyone but it is Mother's Womb, Royal Palace, going back to Mother's Womb and Love, and meet Heavenly Parent... Leaving Mother's Side is pointless for this... Adam and Eve lost true love, life and lineage and we had Satan's lineage for the many tragic events of this earth.

We are leading people back to Mother's Womb, and that is Wonjon. These are the Words read to remember. Although our physical body may die, our spirit body is working. We then receive message after message and abundant love.

True Father said to H Japan members on Dec. 2nd:

In the 3-day Workshop, what have you felt. Did you feel abundant love and comfort from Heavenly Parent? The path we must walk is the path of true love. Then there is nothing we can't accomplish. So, we must inherit the Love that True Mother gives. Then there is nothing to fear of that we cannot do.

It may be difficult to do things alone, but if you move together with Heavenly Parent, True Parents and each other with true love, Heavenly Parent, True Father will work through you, Cheon Shim Won 8's will work through you and all the AGSs will mobilize to move forward. This is the time when we need devotion, even you feel tired, even you feel blocked, if you offer diligent devotions, you will receive glory and Blessing on the path ahead of you.

If you're with True Mother, you can make miracles and be a light that will never turn off with AFAL and AO, also H American and Korean not just Japan, and I hope all of you become such people.

HeungJN Message:

Our beloved members of H Japan. You have worked so hard to attend 3-day Workshop. I'm sure that some received greater strength and others did not, but no matter what you choose, Heavenly Parent will embrace and comfort you as you attend the 3-day Workshop. I hope you know this and receive all grace possible during this 3-day Workshop...
