Opening Prayer of Gratitude

Most Honorable Heavenly Parent

Beloved True Parents of HEH

May the month of family, many children and many parents are sharing gratitude and happiness this month, but our True Mother knowing that we come here to Cheon Shim Won, all Her Life the Path of Tears, and now at the point of settlement 232nd cay of this path of the cross. She tells us to forgive, love and unite.

But that path we were not able to realize. Like a knotted string, True Mother never blamed anyone else, but True Mother knows that only through forgiveness and love of the entire humankind can we untie this

knot of history.

We desire to be the needles True Mother is looking for, and we need to be children not blaming anyone else but changing our lacking parts first. And we will become needles of forgiveness that True Mother is looking for. Allow us to become such needles. We will first heal and soothe the wounds that are in our own families. Let us become such needles of love.

The empty Heart of True Mother Who cannot be with Her children right now. We will stire ourselves more to fulfill Her Heart as Her children. Let it be so with us, please to be such comfort.

So, may the 157,000 registrations of the GWs not just remain as record, but all these people be connected to the umbilical cord of True Mother. Only then dies the weight on True Mother's Shoulders become lighter and the path She walks bear flowers that lead to victory.

May the family month and confessions of love and truth shake the Cheon Shim Won. May the fire of love that is ignited through this devotion expand throughout the world and bring the firm settlement of Cheon Il Guk.

HJ Praise

Yeongseong Academy trainee

Anarmarie

When will the thin ice on the front river finally melt

A boat laden with cargo has emerged from the distant dawn mist  
Holding an armful of pale pink bouquets  
It casts a faint ethereal light, a hazy glow  
down upon their village

Will I drift again today like a raft along the rivers flow?  
The songs of winds and the flow of water  
The radiant longing flows  
Will I drift again today like a raft along the river's flow  
The songs of birds and the sound of wind flutter like running water  
Fluttering like flowing water

---

HJ Testimony  
Kim Un Jin  
Cheonshim Academy trainee  
gratitude  
Hello. I am 2nd son among 2 sons and 1 daughter

Until last year I only attended church because my parents wanted it. I rather harbored a heart of hatred, but lived while enduring. Only because of the earnest love of my mother, who fought against lung cancer for years, but my mother said, 'I am grateful that it was discovered even now.' She quit her job and devoted to surgery but it left and came again. The doctor said to prepare our hearts for the worst.

Our family began Cheon Shim Won vigils and HD devotions for our mother's recovery. With her aching body my mother entered 40-day and made ansu hands for herself and joined devotions, and an amazing result became that the lumps decreased. After the 6th 40-day Workshop, she returned home.

More than anything mother wished for us to join the faith. My brother quit his job to join the Workshop. My mother said, 'It is the same if I go to the SW now or live longer, it is the same depending whether her son would be changed' The cancer returned and my mother entered the Workshop again and my pregnant sister went to the Workshop, and every member of our family made prayers but we realized they were private prayers and we thought of our mother's last request. My sister asked my brother how our mother felt having to ask her son for a condition like that. He said it did not have to be the academy...

He shared a conversation with my mother. Then he said, 'My mom wants to live.' Only then did he put everything down and join the academy. My mother said, 'Is their value in living. My family wants me to do my best. My mother stopped the chemo and went to the Workshop. We all quit our job, thinking there was not more time... But not long after my mother's health deteriorated rapidly and she was hospitalized and could not breathe without an oxygen supplier and her muscles were gone. She had severe pain and had to sit up with uncomfortable posture that made 24 hours of death more than living.

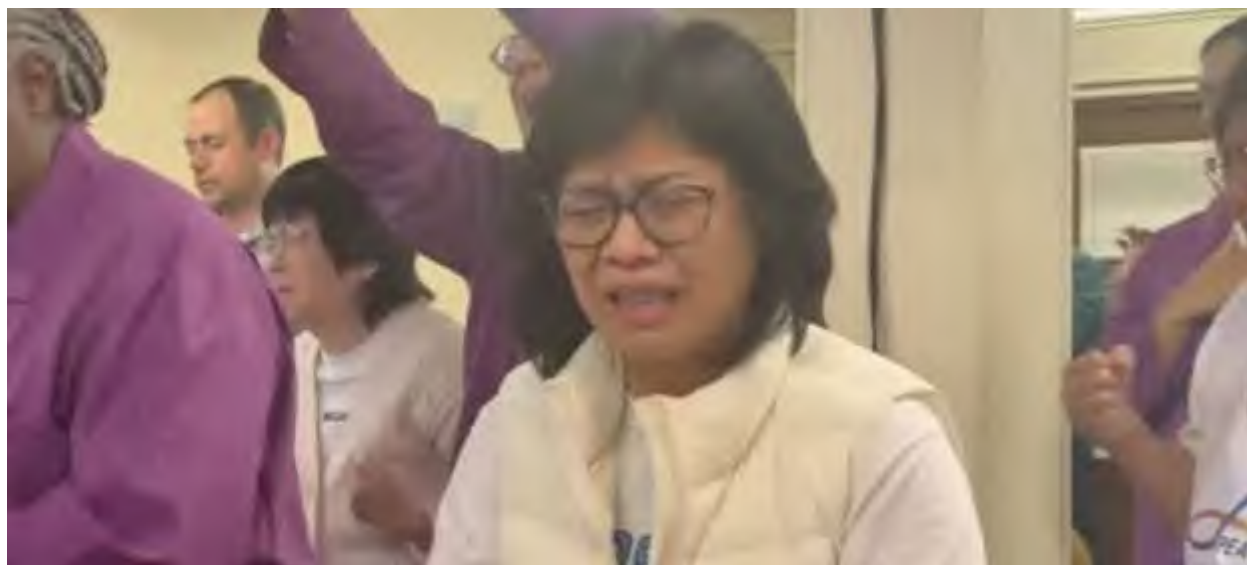

On the day I offered my first dawn with my mother in the hospital seeing how she was, unable to do things, and saying the pain was making her crazy, offering ansu every day and doing prayers, I realized how lacking I was to think that was enough. Even though she had passed the crossroads of death the previous day, she looked at each one of us, asked the reason that she was enduring pain, not simply because she wanted to live but for the family to have a mom, and all the family replied 'Yes, that we would pursue the Workshop' and my mother passed to the SW comfortably, at age 63, while my family watched (tears)

That day my mother slept deeply for the first time since being hospitalized. At the end of her notebook

was written: I thought the suffering that happened to me was only my suffering, but everything was Heavenly Parent's Love and seeing the changed appearance of my son, my suffering became grace. She did her best to the end, but she went to the SW because there was another Will of Heaven, and she departed and now I truly believe and will join to set out on the path of service.

I engaged in this with the heart that I could do anything for the sake of my mother, but I face suffering as a coordinator and the schedule and lack of sleep, but my inability to look at the trainees with Heaven's eyes was worst. I pushed myself with a sense of self reproach that I was failing my mother's wish. But then I met my father and opened my heart. My father silently listened to my story and the day my family prayed together... Those tears were the first and last that my father showed since my mother's situation became difficult until the days after her ascension.

My father did his best to offer devotion and then go to work and then back and forth to the hospital, which took 2 hours, and coming back home without being able to stay for at least an hour. He was the one who felt the empty space the most, and leave the remaining children on the path of faith alone. He filled mother's empty space with worry rather than sadness.

I asked my father with what kind of heart he attended my mother. He said it was what filled his life. I shed tears and thought there is nothing to fulfill my father's heart but living a life like my father. I must be a person that can fill my father's heart. That I can live a life one day like this is because of the earnest devotion of my parents.

I will live feeling the shimjeong of Mother Who is Alone... and I will attend... I receive during the time of Academy the endless love of Heavenly Parent and True Parents and will try to return it with endless devotion and these words are for my mom in the SW:

'Omma, even in 2026 without you, I wish and search for happiness. Even when difficult moments come, because I smile, the day is lived through. Mom, I hope you can spend time in the SW with smiling. Even I only had 30 years with you, I received happiness from that time. Now I received Love to fill my father's heart. I know that mom's loneliness and sadness will become dull. Thank you. I love you.

HJ Report

Moon Im Pyo

Branch Leader

H Europe and Middle East

---

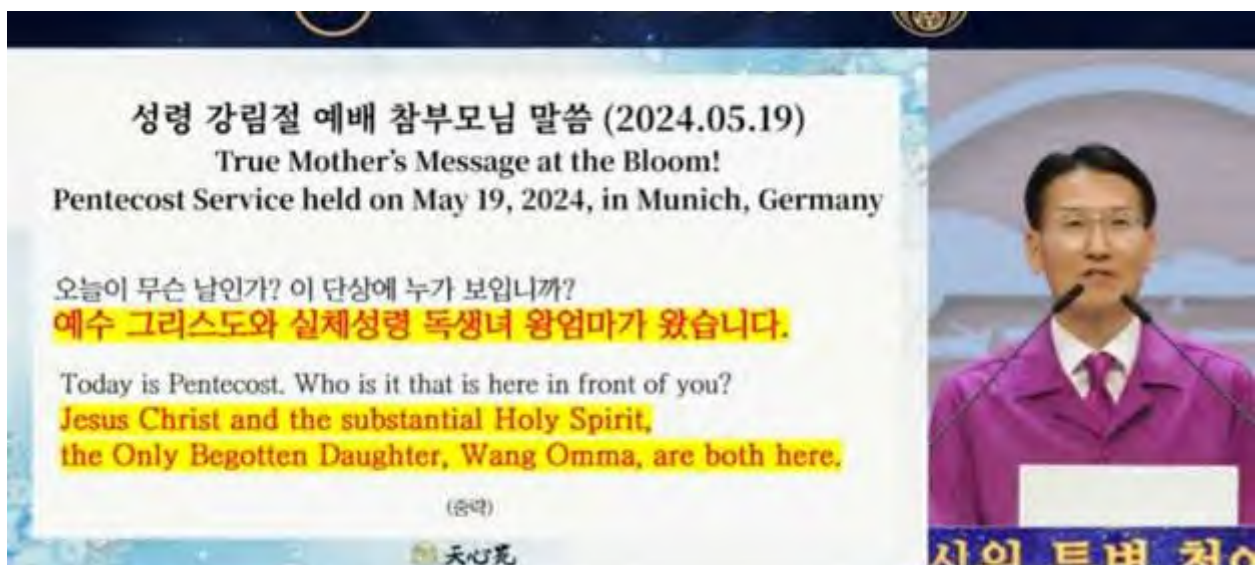

He bows

Members good evening. I offer my greetings. Facing family and the beloved Heavenly Parent and True Parents,

My youngest is elementary school 2nd grade and suddenly he arrived home a little late and my heart of worrying for him was so big. It was past 7 o'clock and he did not come. So, my mother was a minister at Kimcheon, and one day I lost my way home and... (translator dropped off)

True Mother: Who do you see on the stage? And She said Jesus Christ and the Holy Spirit are both here. And the truth of why True Mother came to Europe was for the Words of the OBD and HS, She wanted to bring re-birth to the European Continent. She said, 'I am you Wang Omma' and She asked us to fulfill the world of substantially attending True Parents.. True Mother called our future generations pure water. When something is dirty we use water to clean it. How important is water. So, I believe True Parents's bore the pure waters to clean the stans of this world.

So Mother said, 'I am Your Mother the Wang Omma, so will you live with Me. Will you help Me?

She is a Mother Who wants to see more of Her children and She wants us to do our best.

The Dream is One Family Under True Parents's. My children ask why I go abroad. And I say, 'I love True Mother a lot and I want the world to be the family of of Heavenly Parent and True Parents. And I want to make my children's future brighter.

With the Works of the OBD and the Holy Spirit to reach where we want to go we have a plan of 5 points:

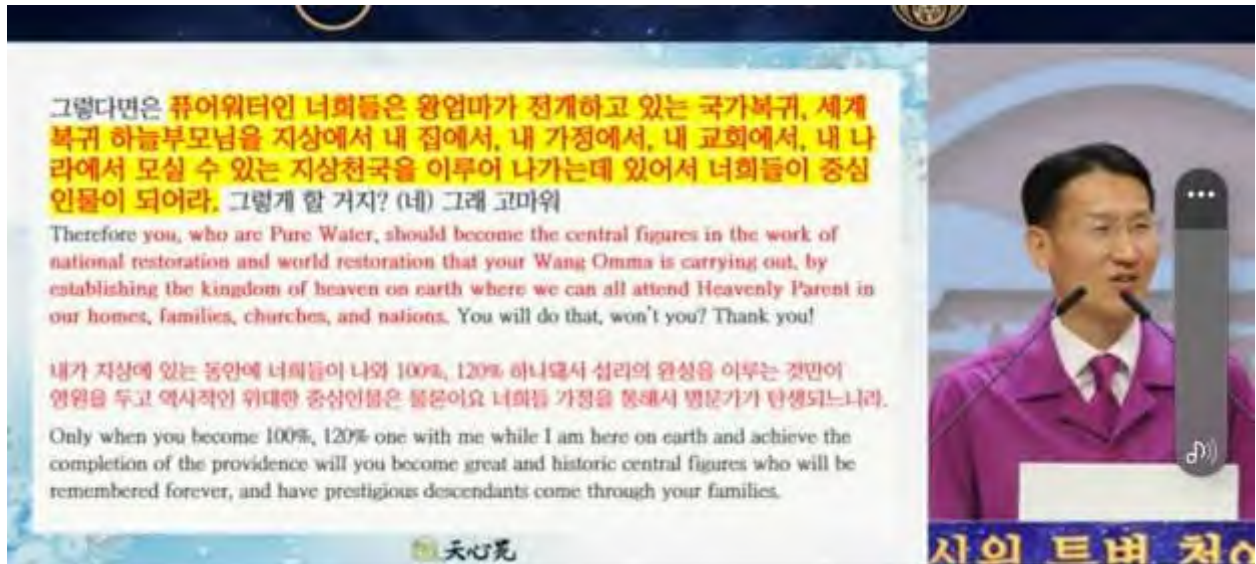

1. For the education of the 1st, 2nd and 3rd generation

and establishing an environment where 3 gen can live together

and offering education about the 3 Great Blessings, we also want to expand the Cheon Shim Won culture, media and music.

So, everyone like money and I also like money and jewels. HPs gave us the Blessing of money, but we're also going through a time of indemnity

Now HMH opened an Era where we can live alongside Heavenly Parent. If we live a life of completing the 3 Great Blessings, then I believe many people will look upon us and be happy.

I met a friend that lived in a CARP house together, and he had a very nice car. Rather than being jealous, I was happy, and a 2nd gen had a nice car and was living a comfortable life in society and added to that wouldn't we thrive in this age of AI.

HyoJN said, 'It music evil itself?' You know about heavy metal that is hard to listen to, but HyoJN basically wrote his lyrics while conversing with the SW and if one listens, they can be reborn.

Do you know the song about Kamsa... (He sings) It's about someone giving gratitude to their parents..

Sa rang Kam si da ba ra ba da da \

When I meet HyoJN, I wonder how he could come up with such music in such a short time. He would say when we me him, I will meet you in Manhattan Center in NY. The world of HyoJN, I was emersed in it. My family, the kids look at shorts a lot and we do about an hour and a half a day of HD and excluding that they look at the shorts. I think we should make our own You Tube shorts and that could truly move the world.

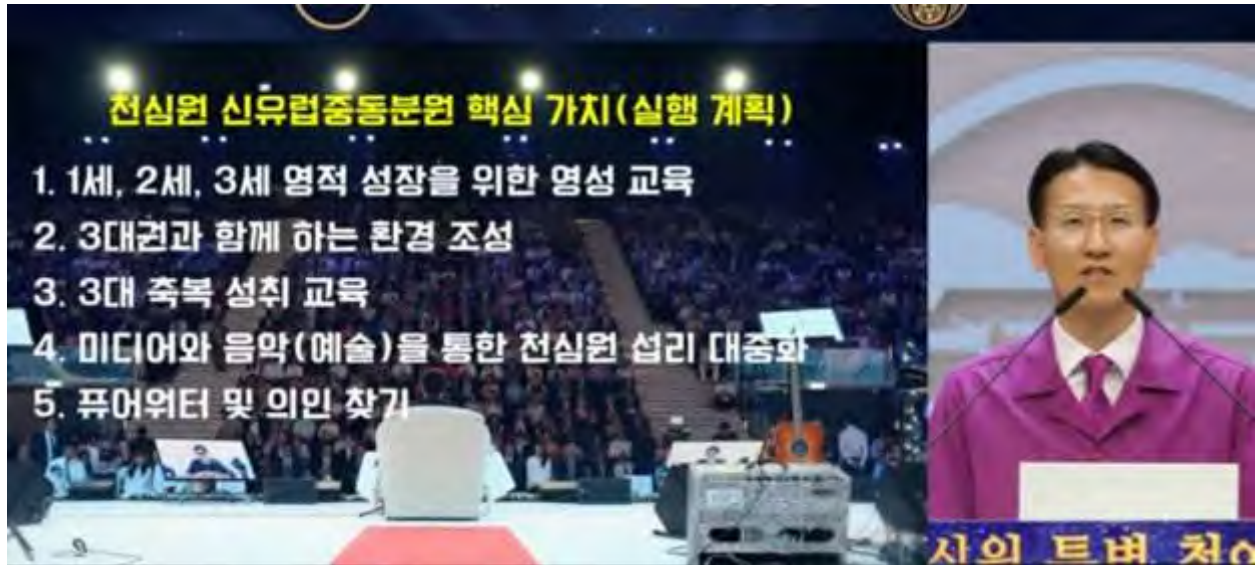

What do we do after accomplishing the 3 great Blessings. True Parents said we do leisure activities, sports, music, and through this many 2nd gens can come back and many youth can come to our church. So Middle East and Europe we want to have our movement trending. So, we need good contents with a family vibe. Forced education doesn't work, so conclusively, we need some forums while expressing and

sharing our opinions.

So, the child may say, 'I'm not thinking about the Blessing now father.' And the father may say, 'Yes, now maybe your growing you faith'

What to do. Without spirituality, can we properly live in this age? I think with a time machine, I would go back and have a spiritual Workshop. CP and my wife were saviors of my life. With such a precious gift I could stand where I am now with deepest gratitude.

And how do we find righteous people. Before going to Germany, I saw the form of HyoJN and he was wearing the Cheon Shim Won clothes and offering devotion more sincerely and diligently than us, and I felt from him, 'I prepared many righteous people' and behind the TC there's two hills with trees. And I don't usually go up there thinking I don't have time, but that poor excuse. I went and I could feel HeungJN saying, along I offered devotion here.

I wasn't prepared for this, but Heavenly Parent has prepared righteous people and is waiting for us to go and find them. Our goal is one family under True Parents and we need to make a H Korea and world. Having this for our goal, we will do our utmost.

Not many members are there in our East Branch, but we have 4 Academy members there doing their best, and I believe we have many righteous people prepared by Heaven there we need to find as well.

We were able to have 40 day... and this is our staff member, doing the role of a hundred people, working really hard. I realized one person has to take on many roles here, coordinator, trainees, take people to the hospital sometimes... but as HyoJN said, many are asking to go abroad and offer devotion and volunteer...

Even now we have our volunteer here. Could you stand up? How hard they worked day and night as we cannot fathom... UPA missionaries helped as well...

Here is the data of participants of

So, spirituality centering on Cheon Shim Won devotion resonance Hoon Dok Hae and worship and praise

to bring about spiritual leaders. Cheon Shim Won is the place where we eradicate blemish and stain.

Thinking about the mistakes of my past, I thought I would surely go to hell realizing them, but being able to come to Cheon Shim Won and be cleansed is an amazing blessing.

My father who is a minister, I asked, 'Should I go as a theology major?' 'But he said you should know the ways of the world as well, and if you don't have an ownership in your faith, you will hear the words of others and then waver a lot. I don't think their original heart changed. If they receive true love and if others truly listen to their heart, they will revive, so then we will do our best.

I don't think many understand what Spirit and Truth means. It's more like mind and body, if separated, that's death. So saying this is my organization, not yours, this is a heart we need to be careful about. Everything said at Cheon Shim Won goes beyond all organizations and True Mother is emphasizing a dual system of mind and body. For more to come to Cheon Shim Won, I will work harder in H Eume Branch...

These are programs of nature resonance prayer and for Mother's longevity and safety. Our coordinators offered a resonance ansu for HMM and offered a report to PL and asked if we can offer resonance prayer for True Mother and he gave the permission. So, around doing CY at the end, she said F appeared before her with a golden Body and Light and the light would shine on everything, and seeing this vision, she shed many tears so that her entire pants were drenched and she could truly feel True Father is alive, and is loving and worrying for True Mother.

We had many lectures... to become one with True Mother, understanding with Heart, and I offer my immense gratitude to my physical mother's love, but our True Mother is walking a path of difficulty for us to understand Her Heart. So, our lecturer's core message is that F and M are One and we call that Holy Mother Han...

Secretary General Peter Staling are there ready to answer to and help anyone.

Now Programs of Practice - Every week there is no environment for 2nd gen to gather in large numbers, so to make programs for them, we try during the 40-day period, so busking and frame working and cooking are some activities...

---

For the first Korean cooking class, and eating together is the standard of a family where our hearts connect as with the other exercises... It is one of the atmospheres of education for heart connection...

We had True Parents's Birthday Service and a cultural event... We had witnessing activities

True Parents Said about witnessing: Witnessing should have a strong foundation of the Heart, with longing, drawing the people like a magnet... toward you...

And our BFD came to us in Germany. They are in about 70 countries... Enemies can come together in the Blessing, the walls crumble

This is the BFD of Europe... We had about 18 attending this Blessing Workshop. It was about 3 days long and called the Level 2 Blessing Workshop. If we look at the reflections, I think this really complimented each other... Here's a video

This person educates 1st, 2nd and 3rd together

We shared our thoughts... Also, education about absolute sex. Have you heard of 'High Noon'... A High Noon lecturer came to the international Workshop... Having no shadow and being transparent before God. When I think whether I lived a life like this before and after marriage, and my heart pounds. \

This lecture is geared more for European people, and now we have a difference from the past that may have been a bit too direct.

A vision that people keep absolute sex. And Mr. and Mrs. Wolfenberg have money and would fund the staffers with about 170 programs: School of Love and High-Noon High School

This Book 'Core of the Universe' God's Vision for Love, Sex and Intimacy... and Professor Massenda wrote a book and the core is a couple's relationship centered on heart, and it would be good to emphasize this... It is centered on faith and practical things with the ability to discern what to do and not to do.

So, 2-day in Germany and this is our staff... And SSA Same sex attraction, and that is happening because of fallen angels, and they have content about how they overcome this. They were grateful to go deep into the research.

These are the participants with 422 central spirits liberation and the Offering Paper Melting Ceremony... and national leader of Croatia is a well-known artist who comes out on TV and ads as well.

If they come, they can also experience these activities... most important being CY yoksa, vigil devotion and resonance prayer

and we have the art Workshop

What is Art:

It is the act of manifesting the internal Heart and Beauty of God through external form

The ultimate purpose of art lies in bringing Joy to the Creator and stimulating the original nature of humanity.

So, Shin chul and Heungseong nim - talked about the daughter willing to risk her life to bring back the physical sight of her father. If I were her, I would be really afraid to sacrifice my life, but the love for her father overcame that fear.

When Abraham was going to sacrifice Isaac, you already know, right? With the Heart of Loving their Parents, they were to take such actions.

And Jesus, in such a short time, was able to show us this love.

So, we have the H Eume Choir. (He sings, 'Holy Mother, Holy Mother, Holy Mother Han, We'll Be with You. We'll Be with You... simple lyrics)

We made two songs and right now it's broadcasted on Cheonshim won TV

Music transcends national borders and races... When we sing, our hearts become one and we can feel the breath of HPs. We get inspired and shed tears.

video about the art Workshop

Benjamin Lika and his parents are missionaries. This is in Frankfort where we offer a prayer of peace and witnessing... 'shining' (?) Holy Mother Han and many are curious and happy and approach us happily.

Witnessing is the act of giving life to someone dying. It is like giving birth to a child, just like a mother risks her life to give birth.

testimony... a Cloudy day but the sun came after offering busking... So, he had offered a prayer for this...

True Parents: What is important is myself. When I go somewhere to witness, do I go as a beggar or bystander? Go, not to be taken care of but to take care of people...

They go and are dancing and singing... and shout out Aboji and Omoni... and see the Cathedral here and jumping and dancing and the people come and dance with us and we have the Autobiography of HMM here...

We had members from the ansu team and DMN said:

These hands are medical tools, human hands, if Adam and Eve hadn't fallen there would be no hospitals and people would heal with the hands... Now, anyone can have the hands of jeongseong flowing through them, to heal yourself and others, and True Parents gave us this ability...

Our first tour, 2024 and second had four ansu sister and we have 3 sent to Europe and every day the schedule was very busy with trainees not able to do full bows and afterward are able and pain vanishing and internal peace...

So, in the past ansu was very painful, but now it's ansu of love done warmly...

This is our lecturers leg healed with 2 ansu's by those two sisters from Korea. They're all the way in the back and we had ansu education 33 session and everyone here had ansu hands....

We will become the H Eume Branch that makes the impossible possible.

---

Break

---

Hoon Dok Hae

God's family is one that moves H fortune. God's Dream was to live with humanity as a Parent. He wished to embrace them as children, wishing for the children to do well and be successful. The reason God cannot embrace human beings is that they need to be in the position of fulfilling their responsibility. The position of fulfilled responsibility is the position where ancestors stand equal to God.

With the Israelites in the wilderness, there was the pillar of cloud by day and pillar of fire... The one leading the night, and these were symbolic of the Parents coming in the last days, representing Man and Woman, and the Israelites should attend Them. Those who do not follow the guidance of the pillars will fall and perish.

Heaven permitted, with an environment for the Blessed families, who should live within the environmental realm of True Parents, more than anyone to be healthy and to become true filial sons and daughters and loyal subjects before the Parents, and started the Holy Spirit Works centering on CP.

On that foundation, welcoming a new era and new history of FD, centering on this CP working through True Mother, the OBD and the SHS, this is the Place to receive the Substantial Holy Spirit, and also, not only you, but centering on your 3-generational realms, ancestors can be cleansed without even a spec as healthy citizens of Cheon Il Guk.

Because the world and your environments are still within the fallen realm, you must visit this Place often

and make your body and mind healthy. I hope you will be people who think gratefully that such a Place as CP exists and visit often.

As representative families of True Parents, you must become families that move H fortune, connecting H blessings to your surroundings so that the world of heart culture begins. When that happens, the ideal of Creation is destined to follow eternally.

No matter how many generations, or how many thousands of years one leads a history of absolutely never defiling the lineage, the question

of whether one become a subject of the H Kingdom of God's Blessing would be, the formula is set in that way

Cheonshim Choir

'Mother's Request'

---

1,562st vigil, we are facing and today worldwide there are about 42,000 members gathered

Offering devotions without rest is a difficult path, but those who do it, I offer my gratitude... You will have many testimonies that will move the SW and PW...

Although the pastor alone is at Ame Church, he is accompanied by 460 online...

15,497 from Japan, unlike other broadcasts have sowing astonishing vitality

Asia Pacific has a 21-day spiritual growth Workshop with about 90 total attending...

Utaka and Branch Leader Kim In Chun are working so hard... we look for an inspiring report

Last Sunday, we had the inauguration of the new Branch Director of Cheon Shim Won...

Pres. Moon connects with the Main Branch every day, even in the car watching live... And the VIP's of Europe watch the vigil he is watching together... All Branch Leaders are to have that standard, moving with the Main Branch, so that more members around the world can offer devotion together shedding tears, feeling pain together. Then we enter the original world of Creation.

When we listen to Divine Principle lecturers, a world of a healthy body is the complete world of creation. If you feel pain at the end of your finger it is felt by all of you. In the world one can be happy when their neighbor fails or curse them for succeeding.

Through Cheon Shim Won devotion, HMH wants to bring all back to the embrace of HM, True Mother. Cheon Shim Won devotion is a truly amazing blessing from the Heavens and we have those at the DC, leaders and members together...

True Mother not returning to the DC is all of our wish. And True Mother walking 232nd day of the path of the cosmic cross.

This message came:

True Mother as the Mother of Peace and Humanity, in the dark, She is a light not extinguished and connected with Heavenly Parent's Love. She is supposed to be with Her family, but not being able to do so, we feel that pain and longing in our own bones as well, and we will keep this fire of devotion, continuing like war...

Pastor Song In Myong is not missing devotion even for a single day.

Today, Kim Ari Spiritual Academy trainee, had sung the song 'Just As Spring Comes Over the River'

The deeper the nights, the faster comes the morning and the harsher the cold winds blow the closer is the spring

Kim Un Jin testimony... He gave this testimony in Gapyeong Church, and he was truly sobbing and today holding back those tears. We have many gen without their own voluntary faith.

In that state, his mother got lung cancer and was fighting it for 3 years and he explained truly how the mother suffered and he finally resolved to solve this problem via devotion, and his mother experienced the GWs of the cancer reducing over 6 40-day WSs, but going back home it re-occurred and the mother asked the children to just inherit the life of faith, even if she goes to the SW it is the same for happiness with a body or not, it is the same.

His mother sent this message to his brother, and while receiving 4 40-day WSs she had many inspirations and sent them to the father and then the brother and sister also joined the 40-day, and while his mother was fighting with cancer, he read her notes saying she must convey her heart to her children, and that she is not giving up on life, but trying to overcome this for the family.

And he gave up his job and went to 40-day and kept visiting the hospital offering prayers, and the church leader said to offer prayers for her to be able to go to the SW comfortably, and they all answered 'Yes' that she could go to the SW now comfortably, knowing the family embraces her and the faith. So, she had a very beautiful ascension ceremony.

Seeing that she finally had a deep sleep after being hospitalized, and don't think it is a pity, but she ascended very happily and I hope you actually envy this.

The mother left the memo that she thought her pain was just her pain, but everything was Heavenly Parent's Love and Grace seeing the children who had changed.

So Unjin in the Spiritual Academy met a very beautiful partner and soon he will have a commitment ceremony in the Tea House. So, the 2nd gen that were resenting the church, are doing Workshop and Academy activities sending their roots of faith deep is truly touching.

For our True Mother to send this message to us that the Pain was Grace because of our change, we must have AFL and O to True Mother and then the liberation of H and E will come about. Not being able to do so, is why True Mother walks this path of difficulty, but how many tears of a moved Heart would She shed for our transformation to be filial by greater awareness of love that we want to return.

True Father went the path of going to N Korea for unification and peace. And Mother going this path and seeing us change, how much greater blessing can be bestowed in that position of fulfilling responsibility.

Hard for Unjin to endure, but once trained as a coordinator, the voice changes and I believe that the fastest way to grow as a leader is through the Cheon Shim Won Academy. And a difficulty to see the tears of his father and 2 hours after work to go to the hospital... and he saw the kind of devotion that was able to move Heaven.

The mother could go to the SW on the foundation of the family becoming one, resembling the external Form of HPs. No matter how great a man is even the OBS cannot be great of His Original Cause without the OBD in a position to inherit all the True Love, one with the internal and external education of the original form pungjurang? and chulte absolute, unique, unchanging, couple, parents and filial children, that resemble the aspects of our Heavenly Parent.

And True Parents walked that path, and to resemble that path also is our fight. So, True Father said if we restore 397 nations, we will complete our mission as H tribal messiahs, so TMs must be able to proclaim they have achieved absolute oneness as a couple, one in heart. Then they make absolute decisions, no disagreements of how to make money or work for the church, and ihwa as well, then with the title seonghwa meaning ascension, one with mind and body of both also...

Those feeling lacking do not have unity with their spouse and family just by being or working for the church for a long time.

And it is many spirits that result in the spouses hating one and another. The blood contain, jealousy and pride and the 7 deadly sins. There's also a study in the Harvard University about this. Two competitors took a test and they checked the reaction when the other competitor fails. And they are very happy. Such spirits are around us.

And when they borrow physical bodies and work, they bring about sasunjung(?) (selfishness), and the responsibility to give life and liberation to such spirits lies with all of us here. How big a R is that. To achieve absolute unity with their spouse and live in such a way of that authority to liberate and give life. You are the new humanity, the new tribal ancestors that are to complete 430 liberation and Blessing and

live such lives.

And there are spirits to receive elements of seongyeong (spiritual elements) but many receive bad spirit elements that make them worse and dark spirit bodies. The more we realize this in our day to day live, how precious every day is and then thinking of each day as the value of a thousand years.

So, what Unjin's father said: You mom truly filled my life, and after she left, he was empty. Then the son said he would live a life of filling his father's heart. And now meeting his fiance, I hope he can be the one to comfort his father.

Now, he expresses his gratitude for his mother embracing him although in the past he would not turn to her when she called and respond to her desire for him... He said if he would go back in time, he would receive a spirituality Workshop. My eldest son, I would have sent him to the Attendance Workshop (PL's son) but being unable to do that, my youngest daughter though is walking this course at the Spirituality Workshop, so truly valuable.

After I Bo Seyo leaving we have Jon Jin Ah(?) applause... He is attending now a spirituality Workshop. And now all the leaders and officials must attend this Workshop... So many members are achieving such a level of spirituality so that the leaders must also... Hon jik ja (public official workers) need to catch up... set such a standard

My youngest daughter, as a representative, I'm grateful she is going this course.

Our Vice Director I Bon Te Ho after his wife going, attended together, and they realized now in Zambia that the mission of the minister is to offer vigil devotion.

We must not ignore this benefit that comes by being in the GA with True Mother, and how otherwise to overcome the national-level difficulties and family-level. Cheon Shim Won devotion is the greatest gift, no matter where or what difficulties, it can be the hope and solution.

Today, 58 nations of the H Europe and Middle East so many problems, but miracles are happening and peace coming about if we continue enough devotion and fruition of Mother actually receiving the Nobel

Peace Prize. HeungJN gave the message: and Branch Leader received the spiritual message becoming more spiritual through Cheon Shim Won devotion as I did not hear report of before.

Many of our early members, after the Ascension of True Father, must know He is alive and working, looking upon them with firey eyes. True Mother offered devotion for the work of True Father. And when True Mother said, when you're offering devotion, think of the 3 years of Shimyeo Devotion and like at war, and experience the mobilization of True Father or else you must offer more devotion.

Hwa Da Co was blessed to a 2nd gen although he was not, and he had tattoos all over his body, and with such intense conditions of devotion he heard True Father's Voice. I hope you have faith in this and offer today's devotion and educate everyone to know that results and be embraced and feel the Living Heavenly Parent. This is my hope for you.

Prayer and Praise

Rev Yokoi prays...

While True Mother was at the DC, there was the Birth of our True Parents and the 66th Anv of the Holy wedding and there was True Parents's Day. We wanted to appear in person and say that 'We love you'... Please forgive us, please don't forgive us actually. It is hard to live with this pain in our check that our True Mother is not here and in the hospital with a troubled, painful Body. But we will not make the same mistake again.

Now with Cheon Shim Won we will give the life-and-death devotion that You will not have to go back to the DC. True Parents, please, please, please accept our small devotion and be mobilized.

After GWs, you said that aura remains for 11 days, for the last few days, please be mobilized fully and allow us to find the righteous people who will advocate for our True Parents, let us find them... And 2027, let us make the 60th True H Parent's Day victorious. For this the 1st, 2nd, 3rd gen pure water let us unite as one, we beyond enemies, we are one family under Heavenly Parent... Aboji, Omonim HyoJN, HeungJN, DMN, please work through us...

Let us all be absolutely one with our True Mother. All members connected via internet, with a heart of being a filial son and daughter...
