1,563rd Cheon Shim Won

prepare song

Bow and Pledge #5 and 6

opening prayer of gratitude

Today, as well in this Place of Mother's Infinite Love we offer the 1,563rd Cheon Shim Won devotion.

Just as power is invisible to the eyes, but we know it exists when we lift heavy objects, and just as life is invisible but we know when we see its move, we can know that Heavenly Parent is still Living among us now when we see over 40,000 gathered for devotion, and You are the Heavenly Parent that fulfills through how much our devotion is fulfilled, and we pray that You work for the Providence of Heaven and Mother's return to the Palace and good health.

We pray that You directly govern each one of us, and just as True Parents carry the burden of the lacking children, we pray to become the ones you can boast about, saying, 'This is my son and daughter.'

For Mother's longevity and good health, I pray

Testimony

7th and 9th Spiritual Academy Graduation was today... Here are their testimonies

Hong Yo Jo

Youngest of 2 sons and 2 daughters

I wish to convey the reason why I resolved attendance. Faith had been a natural routine since my parents were ministers, but seeing my friends leave one by one, I became more down.

Also, seeing my mother receive IV drips and wondered what moves my mother to such an extent with her devotion...

Depression came over me and I decided to take a leave of absence. I began to realize what is true love and understand my mother's life and the Heart of True Parents. At Workshop, no great change came but then again I realized from facing myself how many high expectations were in me.

I could not exactly agree that the Workshop was one of grace. Did I really receive nothing. While preparing for a Hunsu scheduled at my local church. At that moment I saw the difference in not wanting to run away but deepen my faith. The academy came to mind.

At the academy more reflection of who I was. I saw the tears of desperate earnestness of the members praying for True Mother. I realized it is the important thing, not just tears but desperation. Then actually meeting True Mother, I felt this may be the first time, only chance to offer filial piety.

H gave me strength through an incredibly solemn dream. Several drums were placed outside and family members were offering prayer and praise so earnestly and solemnly that it felt fearsome. Mothers and daughters were offering devotion that moved my heart.

The moment I experienced that I should not be in this Place with a shallow heart. Someone asked me the affiliation of me, and I answered, 'The academy.' and with saying that a door opened.

I realized that I stand on foundations of before, I stand on someone's shimjeong before me... After much thought, wishing to fulfil the one-year course, I am faithfully balancing it with school life, and when I come to CP, I feel a peace as it really being my home, and I get strength again. It was a time of experientially feeling the Heart of Mother carrying on, even with such difficulties.

I began to understand the heart of my own mother. I saw that shimjeong is the way of overcoming physical pain. I resolved to walk this path joyfully. Above many graces, the greatest of my life is having received the Blessing, and I realized all the devotion was built up for this, and now taking that absolute Love of True Mother as the Center of our family, I will live a life that is the substance of true love.

I will now take over the devotion of my parents, and I will stand up and be a child who protects True Parents until the end.

Thank you for not giving up on me...

video

9th Cheongseong Academy...

back to the original heart and the day of children practicing true love, the children of True Mother's BS and Ts... What happiness will you give to Heavenly Parent and True Parents... (They do activities and speeches)

'Dr. Hak Ja Han Moon, the Life She lived, loving humanity as children, the path of world peace. Although humanity may say what it will, I will follow the True Parents. Please see Mother Moon as She is at least one time, the Heart She has.

No matter what comes, feel the Heart of True Mother. We may be treated unjustly by the world, and it may feel we were not compensated by our devotion, let us not give up hope, but go forward to bring about

the miracles

With the determination of, 'Hyo Jeong is mine' applause

Kwong Yong Min

Testimony

gratitude

Hello, I am 2nd son of 1 daughter and 1 son

I could not understand my parents who attended the church that is negatively perceived in society. At the same time, I could not ignore the hearts of my parents who gave up everything for their children, at the same time giving up everything that they owned.

I could not give up going to church, even if it was forced. However, negative words about the church when becoming an adult made me drift further away. In the meantime, after being discharged from the military, I returned with feeling numb and trapped in feelings of depression and emptiness. Because of me who wanted to give up on life, the whole family had to go through a difficult time. But still, even my daily life collapsed.

In that way, even my situation was worsening, what made me endure was the unchanging love of my family. Especially my maternal grandparents gave me great love even in a situation where I was finding difficulty to just keep living. During that period, my older sister who had been restored to the church through the 6th spirituality Workshop, by my parents' devotion, I became the only one left in my family who did not practice faith.

Naturally, the recommendations to attend Workshop repeated, and I finally went, but my negative perceptions did not change. I thought I would drift away again, and with failing my training and there being a gap with that job, thinking since I had time anyway, I would try to see about faith. But because I had not learned in the first Workshop, I did not do well, but then again I thought it could be a last chance to put my full effort, but still with the tight schedule and stress, I hurt my family saying it was just a Workshop of pain.

I thought it was from selfishness of my family wanting the relief of restoring my faith. I had a frustrated heart, because I could not feel anything. The training manager told me that they thought I lived from a passive rather than proactive position. Instead of blaming my family, I decided to speak honestly with them. I said, even if I do not want to go forward with this, would you still love me. My parents said, 'It's okay. We just want you to be happy'

I was able to escape a lot of my negative thoughts, and seeing others with situations more difficult than mine, I could, for the first time look on them with love and overcome difficulties. Seeing that a media volunteer was needed, I agreed for that and with the thought that there is still something I can learn and grow from, I went to a 6-month academy course. The video making gave me a sense of gratitude and accomplishments, but I became accustomed to that, and started feeling critical of those around me.

The thoughts kept coming that it might be better just to go out to the world. I received counseling from the Direction, 'You must endure until the end. He hoped I would remain until the end' I saw myself wanting to complete the 6 months, with the heart to go to the end, I gained strength to do it..

Looking back, I have spent the time like a miracle that 1 year ago, I could not imagine. Finding my faith here, not a person apathetic, and transformed relation with my family. Thinking that the pain and happiness has been a process of finding my own faith. I want to confidently testify that this path I chose is one of happiness, and go with my family...

4th Overseas Africa Volunteer Corps is what I agreed to join. I thank my family and church family who poured out much love and devotion, and all the trainees who worked together with me... gratitude

'As Time Passes'

HJ Report

I Su Chul Itinerant

Members, leaders all around the world

Today, in the age of Heavenly Parent's governance, this title 'Let Us Lead Our Light'

If Unificationists all fall away and I think I am the only one left, in such a position, with the Heart that Heavenly Parent has fought until now has called me here, the foundation greater than you imagined.

Being born badly, thinking it is not your problem or is not the problem, being torn apart, though Heavenly Parent have you, you must know the immense sacrifices for you to be here. Although I have responsibilities more than you can take, you must have the heart to shine bright (find that heart)

April 24 the church Chan Kong Yong resides, these two deaconesses were there in the early days, also Hong Chong In.. When they participate in activities, they are lively and energetic, coming to me and rubbing my face and talking to me. The height of us me sitting and them standing is equal and they are 90 and 91. I met them before 5pm, but the time I left their side was 6 hours in the church.

Having our elder members who stayed from the very early days is a great hope for our church... applause

Our leader Pang Nam Gil is active here and where I Sang Su is active, we went to that rather small church, small, narrow kitchen where they have lunch, but so friendly preparing the lunch was so beautiful.

On May 8th, Parent's Day, I arrived at Jeju Island and Jeju Church's wife of the Chairman took this picture of the sky, thinking that she saw a flying crane and I asked Ai and it showed me this crane that she saw...

On Parent's Day, for the first time in Korea, I went to this tower structure, memorial, a mourning tower about a war. So with the church leader couple and Shim Myong Ju... True Mother told us to look for righteous people, and PL said the greatest righteous people are those in the greatly difficult situation but still risk their life, give their life for the nation. And the people of this monument are the greatest, and for them to go to the SW and attend HMH, we offer desperate prayer and May 29th we had the special Chanyang yoksa, and with our youth and mothers, they sang the song, 'Bright Morning' oubabac

oubabachu

quenanachu(?)

Then this is in front of the church... The May 18th Independence Movement, there were two figures commemorating that... We offered flowers to True Parents and pinned carnations on the chests of parents there... And it was a day to cast away darkness...

reflection: With the heart of resolving to fulfill our responsibility, during the night before revival, my lips couldn't open, and I had two hearts that even if they don't open and with gratitude, no matter what I would think of the path True Mother walked and do my best, and my two daughters came with us to the revival, and I could feel that True Parents have called me here...

A new member, had shoulder problems, and I put everything down and attended the Workshop, and things felt different and I had faith and then my arms that didn't rise, I could raise. Telling this to my pastor, he said, 'If you offer devotion with all your heart, good things happen, and if you speak with love to others... Having faith in Heaven, with such a title, this revival ceremony became a special day.

I wounded my shoulder and the pain continued, and since Mother was detained, many difficulties came to our family, but after GW's they were solved, like not eating well and struggling mentally with pain that was 24 hours a day...

One sister showed me a video to relieve the pain, I felt a difference with hope, and after the Offering Papers even lacking money with faith, and the ailments began to heal and on the day of the revival, I

could sleep without any pain. I could see that with gratitude and devotion for True Parents, Heavenly Parent could help your family.

I was grateful to experience some of the pain True Mother might be experiencing... I am the team leader of the witnessing team, and I would think what could we do to bring more happiness to True Mother, and I would pick up trash even with my hurting shoulder and giving out flyers to people, and from now on will spread the truth of how precious True Mother is, so people will have another thing to think than what the world is giving...

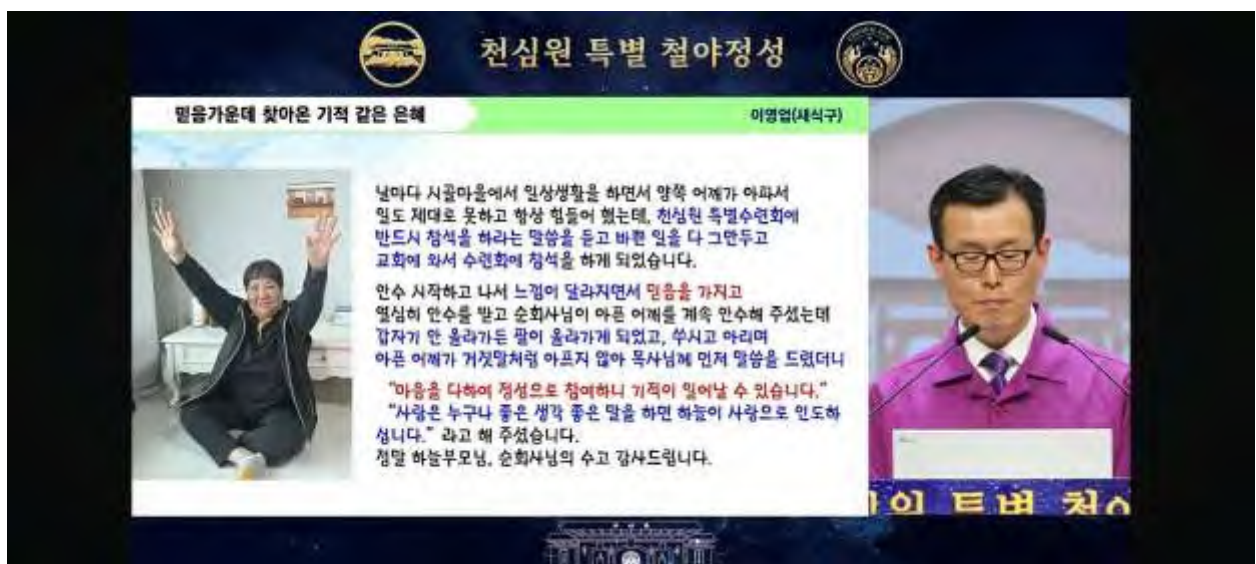

another, True Mother has been detained for so long, but seeing myself not being able to offer earnest prayers, I was living with a painful heart, but seeing my heart of complaining about it then I changed to be able to feel gratitude again, and I was touched by the Words, 'Heavenly Parent and True Parents love you, but why don't you feel it?'

I could see that Heavenly Parent came to that person miraculously. PL said sometimes there are ministers of 30 years that still couldn't hear the voice of Heavenly Parent. I felt so sorry.

And spreading HJ testimonies, I want Heavenly Parent to at least come to me in a dream and say, 'You're working hard' and I offered a prayer and the memory came that I have been already receiving Heavenly Parent's Love for 30 years, and I didn't think much of it, and realizing that I offered repentance.

So, to our members, even you don't directly hear the voice of Heaven, but think how being here is only possible through the sacrificial love of True Parents, and the difficulties on the family or individual level, how meager that is compared to what sacrificial love came from Heavenly Parent and True Parents, and it will help you overcome difficulties.

With the words that the GWs was victory, I thought it was our mission to live along side True Parents and become one with them and resembling them through one lineage and one tradition was the Dream of Heavenly Parent, living a life of high noon with no shadows of fallen nature. Through Chanyang yoksa, I saw that the future was bright, and to take a step closer was the title that reflection was give of learning, even in the position of the Mother of humanity, I also could feel Her love and able to gain a map of my life.

Now, I will take a step in reality that takes me closer to the ideal.

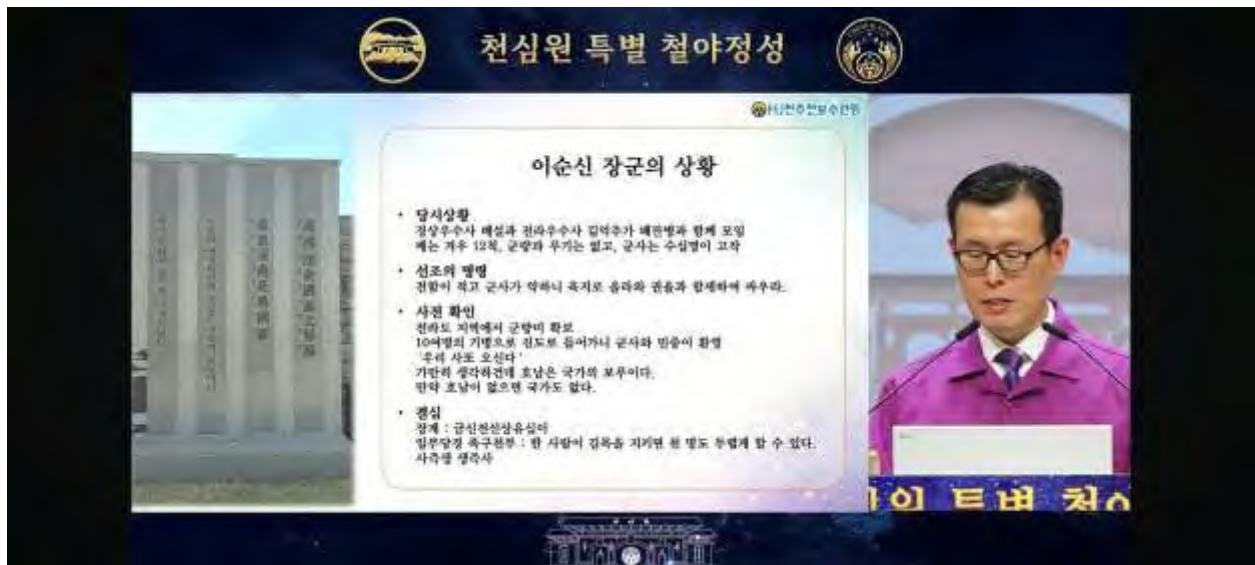

another, I feel hope about my son's faith. Although he may not want to do it, I kept making him do HD, bows and devotions, saying that it's for his growth and saying that I could not tolerate what my husband and children were doing, the Director said it was the spirits in me. Through this I realized I needed to liberate the spirits and little by little return to calm and hope.

During the Spring GWs, I barely made a promise to go, but with my parents hospitalized, realizing the GWs would end in this way I kept saying, 'TY. TY' and although my husband this and that, he is still alive and my parents are still on earth, and I shed tears at first of repentance and would question what was the tears of the central resentment spirits.

With the ansu I felt much lighter and could hear, 'You're doing good, it's okay.' And through the revival gathering I received much grace...

another: promising to put his prayers into practice. The District Leader... In the midst of H's Blessing, being able to start the Workshop, I have a heart of gratitude. There were more than expected attending, and with more coordinators, even more grace. Our students prepared cookies and macaroni for the Itinerant in a time of devotion and love.

Seeing the children able to express their gratitude to their parents was moving, seeing them pin the carnations on them. It is meaningful for the children to give carnations to the parents, and we could see many spirits liberated with each strike of the drum.

2026 Spring GWs for two weeks, amid difficult situations, moving forward with faith, realizing again that Heavenly Parent and True Parents are with us. And True Mother, with Her liberation, until the day of complete settlement, we will move forward with practice and faith...

This is near Bosan Chu Yosanyu it is called, a structure for the war of 1597, this is where General I Sung Chin was buried, and many historians say that he stayed at Shin Jok Hajin, buried somewhere else, but there is a plaque of the situation that he was in... They were kings of Korea in the past, and they ordered In Sung Chin to go North and fight but he stayed in the area to observe what was there, and with about 100 soldiers, he went to villages and they would welcome them, and he said that without Honan as the Center of the nation, and without it we would have no nation.

Now, he is using Chinese words difficult to translate in English. So, In Chung Chin, that situation I think is similar to ours now. And they did not believe the intuition of the general like today they don't believe in our words and are twisting the truth, but we too should observe in ourselves what resources we have, that the world doesn't have, and in what do we put our hope. If we do not know these things, we need to offer sincere prayer, because the will we are going to fulfill is not on this earth only but the it is the original ideal of creation.

PL said that as a tree deepens its roots in earth, we must deepen our roots of Heaven, and that is through prayer, with sincerity and through your tears, when you shed tears Heavenly Parent shedding tears, and Heavenly Parent shedding tears, you shed tears. You must have roots and those roots are prayer. You may not be able to see the roots, but that is hour the tree as well as us receive nutrients and power and energy.

Yesterday's testimony was of her gaining power through prayer. The energy of Heaven and the power to bring victory will come to us. And In Jun nim showed that if you fight, you will come to victory.

Our nation is Cheon Il Guk and our opponent may appear in the world, but also our opponent is ourself.

True Mother through the Cheon Shim Won Gift, we can deepen our roots and Cheon Il Guk then begins with us.

Cheon Il Guk is the nation where two become one, and then bottom and top and left and right, forward and back, Cain and Able, the good world and the bad world, and the physical world and Heaven world, and Heaven Parent and True Parents become one, and then the world of satanic things will disappear.

Like Heavenly Parent becoming one with True Parents, when we become one, Heavenly Parent Manifests. With that heart of oneness, we can truly forgive as a being with fallen nature cannot. Forgiveness is in love, and when we experience it...

If Unificationists fall apart, think about the position where you are alone (called pyungshin), even so, you must think of how much Heavenly Parent and True Parents have fought just for you to be here. Feel that the foundation that was laid to prepare you is greater than you imagined. Being born improperly is not the more problem, but through your efforts, you can inspire people to rise again toward unity.

Think of all the sacrifices God had to make to bring you into existence. Although insufficient and weak, you are to take on a responsibility that is 100-fold of what you can handle. And you should say, 'Oh Heaven, until the end, I will shine a clean heart.' You must have this heart.

Through prayer, although I am inadequate, I realize how You have sacrificed, and I rise again. I will become the being that can forgive. I will become the child who can say to You, 'I will shine until the end.'

True Parents's Words: 'I am always a lonely Person. I am alone. No one can interfere in the relationship between me and God.'

No matter how many Unificationists there are, it is not explaining and then fulfilling the Will but opposite, fulfilling the Will and then explaining. Because the parents did wrong, to find the position of the parents, the parents have to pay indemnity, That is the rule of the universe.

And not to inherit wrong things to the children. But fallen parents, that is what they did. They inherited

bad things to the children, and we must cut this inheritance off.

Our True Parents walked the path that is unspeakable. Reading the Words of True Parents, They could have Spoken with the Authority of True Parents, but that's not what They did. They took responsibility for this fallen world and paid indemnity. And They step by step fulfilled the Ideal of HPs. Our True Parents Lived such a Life.

At this very moment, HMH, True Mother, this path that She's Walking, it doesn't feel different. She is still on the same path. Now we are to be reborn with the Love of True Parents and bring liberation to True Parents with the heart of hyojeong.

True Father Who went to Danbury also said not to pray for Him. And today the Inheritors of True Parents's Love and Blessing also wish for us to witness to ten people and bring about the true family of One Heavenly Parent.

(I Su Chul)

Break

Hoon Dok Hae

'Heavenly Parent, the Root of True Love, Life and Lineage'

Human beings in the 2nd manifestation become those who achieve one heart, one body with God and come to complete the ideal of happiness and peace. Human beings, receiving the welcome of all things in the universe, become the masters of governance of true love. This is God's Third Blessing toward human beings.

God is the Root of Love, the Root of Love and the Root of Lineage and the Root of the Heaven Realm on

earth and in Heaven. When Adam and Eve marry, God enters into the heart of Adam and Eve to achieve a unifies love. God is the vertical True Parents and Adam and Eve are the horizontal True Parents.

Because one is born receiving the flesh and blood of such True Parents, the mind becomes the vertical eye, and the body becomes the horizontal eye. In this way, because they form the oneness of God, humans and love, a person who has completed the love of the oneness of mind and body becomes the son or daughter of God.

Today, within God's truly important Providential management, we are welcoming an unprecedented, historical and revolutionary transition period. The Lord of the 2nd Coming, the Messiah and Savior, The True Father, Who came as the Root of the Good Lineage of humanity has now departed to the SW. Therefore, we have come to stand at the Providential starting point to found the ideal Heaven Realm of Peace by inheriting True Parents's Victorious Realm.

Humanity, who became the descendants of the fall, were in a situation where they could only go to hell after living while wandering and drifting, as defeated ones of eternal solitude who were chased out of their homeland, and lost the Root of the Heart of their Original Homeland, were unable to return, even if they wanted to see their families.

Humanity has now met an era of the opening of the latter, a Post-Heaven Era, receiving the liberation from the swamp of such shackles. And the Path has opened to find the Hometown they could not forget, even in their dreams, and meet their families. When else would be a day of Blessing and return to the Homeland?

Cheonshim Choir

'We Will Achieve It'

President Lee Gi-seong's Message

The 160th is the goal you reach when repeating 40 days 40 times, and then we can see the devotions pile up so that Heaven can work.

About 42,600 gathered

It is through these 40-day WSs that our churches will keep growing. They have the people on their banner. Iksan Church Minister, Moon Baeg Wan his daughter's name was on the banner, but she graduated from the Academy, so they took her name off the banner, but truly she served in the academy for 1 year and graduated today.

Today 13 of them offered service for one year and 29 volunteered for 6 months. applause

Our first generation attended many workshops and were sent to their fields with a habitual life of praying and witnessing before they received the Blessing, but our 2nd gen don't have this foundation before they

start their families and can be influenced by the outside world and even curse at the church. But these WSs are very important for deepening the roots of faith of 2nd and 3rd gen. and returning the their church with the tradition of devotions and encourage members to attend online, and with this power of devotion, we believe that H Japan will take flight.

We have 505 long-term trainees and in front of the DC: 234th day of True Mother's difficulty, and we pray for Her health and return. The earnest prayers and special devotion connected with Cheon Shim Won is creating a great resonance with Heaven. So, beyond simple prayers that just require time and heart, they will become prayers of Love and Truth.

Today's devotion 1,563rd is offered with tears to open a path toward victory

This message from Son Min Yon

I hope you all pray for this.

Hu Min Jong... 1 year in academy... Her mother is very active in the church, while receiving IV ever day also. When she asked her mother why she puts herself through so much getting so exhausted... and her mother said she is happy to offer this...saying she is happy to work for Heavenly Parent and True Parents... but the daughter couldn't understand this and became depressed...

She went through the Workshop and transformation, and she was going to return but instead went to another Workshop... Rather than how much you feel, how earnest your heart is while praying is important. she was able to have this realization.

And meeting Mother in Cheonwon Gung, such an amazing time. But still the path of difficulty. And she had the dream with the big drums and members and public officials offering prayer and seeing the mothers praying and offering their children to Heaven, seeing all this she tried to leave the Cheon Shim Won, but heard that the doors were open at the Academy. So, Cheon Shim Won is the Place where prayers are accumulated.

Through this, Heaven in working. So establishing this foundation, you should ask how much of my devotion is in that? If you go to the SW you can use tangshin to go back in time, and seeing yourself

offering devotion and praise, the appearance of you is inspiring and day by day, imagine yourself looking in a third person's perspective, you can offer even more diligent devotion.

So what foundation did our devotion have? We are offering 1,563rd devotion, and I hope we reflect on how important it is. While serving in the academy, she said that the greatest grace is attending the Blessing, and she said she will inherit the devotion of her parents... And I believe she will be even greater than her mother, being a child who protects True Mother.

This wasn't a short period. So, what she experienced in this time, I believe will strengthen her entire life.

Kwanjon min thought he was attending a cult forcefully against his will and distanced with the words of the society. If things went well in the society, he wouldn't have come back, but depression found its way. His will to live disappeared little by little. So, can we see this distancing does not lead to happiness, just as the many who have similar experience.

This is the Providence of Heaven, if you walk the wrong path. It is a Providence of indemnity. We must understand that leaving this church is the start of misery. Knowing this we must move forward.

During that time when he was losing the will to live was his grandparents. Even they had amnesia, they didn't forget the love for their grandson. If you become a great grandfather, how big can the love become?

Recently, I saw the emergence of a 4th gen and a great grandfather. My grandmother said she would have no regret dying if she held her grandchildren and greatgrandchildren... Great, great grandchildren will love even more, never say, 'Oh, I have nothing to do with you today.'

these fallen people do not know HPs so they cannot lay down their roots. True Parents have come and They show the Love of Heavenly Parent, the Love of Heaven. This is True Love, and living this way is the life of true life and true lineage. So, those connected to the original lineage will live upon love, and those who left love, left the original lineage.

Because Adam and Eve left Heavenly Parent's Love, they entered the position of death. In this long history of restoration, Heavenly Parent came down with TLTL and TL and made this Cheonwon Complex and all humanity established the roots of TLTL and TL for humanity here, and made cheonjeong Gung and for Heavenly Parent to govern the world establish Cheonwon Gung as well, and we need to deepen roots that on the in difficult and family level, the Will will be fulfilled, not to worry whether it will be or not.

Yesterday, there was a gathering and someone received a reward. They expanded to 25 people, two becoming 25. So if ten years pass, perhaps they will become 30 and then 50 people. And my mother is still alive and we have over 60 family members. And I have a grandson, and on May 5th another grandchild, and my mother has 16 grandchildren. So, if we just fulfill as tribal messiahs, our family will expand, and living as H tribal messiah, H will come down to this land.

Through the Principles of restoration, we are the people who truly, completely studied how the history of the Providence of indemnity was carried out. Without the son seeing what the father is doing, the son can do nothing.

And Moses, the path that Jesus walked, and in the end True Parents came and walk difficulty, and every time there is an incident, when we compare to the situation of Jesus, we can see H's Providence is in all of it. But this doesn't end in difficulty but in the day victory awaits, so we need to embrace hope. We need

realize that if we pray and offer devotion, H will teach us with revelations and visions during difficulty.

Joshua said, I will put words in your mouth, so be strong and bold, not as their own representatives, but of H and True Parents. And if our churches dissolved, but if all leaders are truly representatives of our True Parents, then through holy experiences unprecedented until now, great works will appear where we can have amazing testimonies of rebirth in H Japan.

So, through the love of the grandparents, the brother entered the spirituality Workshop, and he started to blame the family for his difficulties. But he had a counseling session who said, 'I don't think you ever lived an active life of faith, but a passive life of faith' and he made a decision to be more proactive and with that mindset he attended the Workshop.

So, everyone, you must not live a passive life of faith, but offer praise and prayer that comes from your own will. And if you do H will bestow grace.

So, many in the world has this dead skin all over them. And will it come off in a day, but for our trainee here, he was able to clean it in 6 days, realizing others went through the same and much worse experiences, and seeing them offer praise with tears, he found himself shedding tears uncontrollably.

Seeing these trainees that were revived, Heavenly Parent was happy and his tears were Heavenly Parent's Tears.

With a leaders' advice, he endured to the end, and has new start with absolute faith, making a great resolution to go to West Africa where Branch Leader Sakuwa Sadamitsu is. Applause

West Africa Branch is the most difficult. And Branch Leader said that we should go to Africa to know how good America is, and then they express their gratitude to their parents. So, 2nd gen need to go to Africa for education.

The programs of Workshop are made and led by the SW, and those who know this can rise to high positions as well. During the Closing Ceremony, the is the Message from True Father, that one trainee received:

When you return home from Workshop, many temptations will find their way to you. More than what you experienced here, greater temptations will come to you, many trials. But you must offer devotion and move forward. The greatest temptation you have will be slaughtered.

Many of you will say that you're busy and not attend Cheon Shim Won devotion. Heavenly Parent's direct children live a life of advancement on a daily basis. Whether it's big or small, you must advance every day. For that the devotion that you offer today you must do a little, a little. And if you advance like this, you will be able to find yourself moving forward.

And no matter how difficult the situation is, if you take even a step forward, then the path toward victory is open. We the children must live like this every day. Before your limits, before your patience, before your fear, you must always be able to say, 'A little more.' And if you live in such a way, then in your lives, putting into practice Heavenly Parent's Words, within the Love and Grace of Heaven, you'll be able to live lives of direct children of HPs.

So, no matter where you go, you won't be exhausted, and you won't be give up, and if you put into practice what you learned here, then Heavenly Parent will absolutely lead you to the path of victory. So, to those who live lives of faith, the most important thing is to know the Providence that Heavenly Parent is leading.

Coming into the church, how many times have we heard the word, 'Providence'?

The Providence of restoration, of responsibility, of restoration through indemnity, providence, providence. And this Providence is also related to my church. And the persons who can understand this Providence become the great leaders of it. And Noah was and Abraham was the great leader of Providence.

Do you think it's easy to follow by sacrificing your child? It is beyond comprehensive. Moses did the same things that seemed impossible. Jesus did the same thing. Rather than my will, do Your Wish. True Father was on the way to get more rice, but heard the Providence of Heavenly Parent and went all the way to North Korea. And True Father went to America, and Washington, and then Moscow.

Through this, True Father said He accomplished everything, leaving us the mission homework to do tribal messiah and restore 395 nations, but because we did not and did not make the proper environment to attend True Mother is why we are paying the indemnity now. True Mother said we should at least restore Gapyeong, but we didn't do that either, so all members need start anew with new determination and resolution in this most important time.

If you say you die just eating, sleeping and living, what is that. How many seonghwa's are there these days? But in this important time, how could you go to the SW just eating and sleeping and living the way you want and having depression and taking your own life and going to the SW. Regretting for a thousand and ten thousand years with no way to undo that regret. You must offer prayer and devotion and liberate these dark spirits influencing in you.

Our 2nd and 3rd and 4th generations, you must break them free from the sin spirits and offering devotion and I hope H's Blessing is with you today as well...

Calling out / Fight Song

Chanting

Prayer and Praise

Bang Sang Il Secretary General Cheon Shim Won prays:

... the lingering aftergrowth of the emotion and grace from the Spring GWs is still deep within our hearts. HMH, True Mother Who has walked the lonely, difficult path with pain carving into bones and flesh, fully for the Will. It has already been 234 days. Thinking of this time when a day is as precious as a thousand years, our hearts collapse and our souls cannot lift our heads in apology.

Noble Heavenly Parent, please forgive our failures and disloyalty to You and our responsibility. Please look upon our past inadequacies with mercy at this time. We could not fully practice the Words of True Parents, we could not stake our lives before the Will of Heaven as True Parents did.

In order to completely liquidate the results of the fall, True Mother went the path of Indemnity on our behalf, on humanity's behalf, for Her whole Life. Through the HJ CheonBo, let us overcome ourselves, awaken before You... always from despair to hope, because we know well what the world may not know that no one can defeat True Mother's Love, so please let us be completely one with True Mother.

Persecution will make us ever stronger, and hardship will make us more one. Please work that we be the sons and daughters who attend until the end with steel-like devotions. Let the world know the Epic and all the Achievements and all the world repent and return to True Mother's Bosom.

In order to bring that day one day sooner, one moment sooner, let us become one through Cheon Shim Won devotion and pray like war, and for this world transformed and for True Mother's longevity and return completely vindicated... and ---

Bow

Oeg Monsei

Kim Jin Ul 2nd gen Church leader of

a Gapyeong Church... and my 2-year old daughter who is not well, and being so exhausted I wanted to just go home after Part 1 of vigil, but if PL tells me to do Oeg Monsei, I will stay until the 2nd part or else I will return home and do Cheon Shim Won online for Part 2... and during the break PL asked me to do Oeg Monsei... So the SW is truly with us...

TY (and we love you)
