'We Arise'

Even with the final heights in sight, on the day the flag could not be planted, 'dura les sed les' the law was law... (this time when even bad laws are still laws), the door of the Ark, nailed shut by the Pontius Pilate of our time, became a wall of wailing. The stars of this land, which had sparkled until that very morning, were electrocuted by a bolt from the blue. (thunder strikes the earth and sparks the chest)

The time that cannot be erased, no matter how hard we try to forget, a course soaked in blood, and tears, a course, a Providential Course. The footsteps remembered before the eyes could, the stolen holy houses that still flicker before our vision.

Coming to our senses amidst the waves of temporal motion sickness, (steadyng a drift of consciousness amidst the rolling motion of time sickness)

Upon a boat drifting in a stormy night sea, two brilliant beams of light stretched down from heaven, and Mother's Letters from detention are a baptism of the Living Water of Resurrection. And the scales fell from the eyes of our souls.

Ah, just as crumbling (collapsing) is not the end, the end is not destruction, but moment the seed meets the soil. As long as we do not abandon the Will, it summons an even greater beginning. Even if solitude (loneliness) rushes in like twilight, the reason we do not crumble (collapse) is that we hear Mother's Voice calling our names, even in the pitch black night.

The reason we do not despair even where the road ends (is cut off), is because Heaven has never once turned its back. And the heavenly hosts of the SW (heavenly soldiers of the sky) are already clearing the path ahead.

God's Han (God's Sorrow), deeper than the ocean, surges within our hearts (rolls within our chests) and the untold stories of True Mother wipe away (wash away) our tears.

A seed must first be buried in the earth (once) to stand tall toward the Heavens, and the dawn conceives its light in the darkest of places.

The Mother Nation burns its own body, as an unquenchable flame that brightens the world. A Name that rises again like the waves, thought it be shattered ten million times.

The Mother Nation catches her breath. She moves the lampstand and spreads Her Wings to gather the lost years into the spark of a single year (a single year's flame).

From Rebun Island in Hokkado to the north, to Haternama Island in Okinawa to the south, She is (and we can be) tilling the fields of Shimjung (Heart) to establish schools of love.

Through the good fight of 'living for the sake of others,' She awakens (we awaken) even the wood and stone, raising the archipelago.

Heavenly Father, Who remembers our tears, Heavenly Mother, Who bears the song of the oppressed, following the pillar of cloud and the pillar of fire, to finally fulfill the Will that remained unaccomplished, upon the sea of Love of Holy Mother Han, New Japan arises now.

At the very edge of the pitch-black darkness, the Mother Nation rises again. From the edge (brink) of a thousand-foot cliff, She pierces through the dark clouds and soars as a phoenix. applause (as he raises both hands)

On April 28th the opening of the HJ Special CheonBo Workshop and the Eighth HJ CheonBo Moshim WSs held in Cheon Shim Won, the World HQ. The Workshop added deep emotion amidst the 66th Anniversary of the True Parents's Holy Wedding of the True Parents of HEH and the First Anniversary of the Entrance into Cheonil Sanctum

And PL, with the grace of the Cheon Shim Won said we are to inherit the hope that True Mother has given upon us so that we don't extinguish the fires, and we must continue our devotion.

So, Cheon Shim Won isn't just delivering prayer, but the Living Heavenly Parent and True Parents of HEH are in every aspect. If you pray on your own, then Heaven will send angels to you, and among the AGSs, they work through experts in their own field.

So, Cheon Shim Won devotion is the greatest and fastest way to settle in the many fields of the world.

So, our leaders, to deepen their roots of faith will offer devotion upon devotion at Cheon Shim Won.

And on April 24th, we had a Sona Construction employee Cheonshim robe bestowal Ceremony. And they are able to understand the value of the CS robe. And every Friday the Sonah Construction employees offer devotion. And they also showed us hope that, if you offer devotion, Heaven will answer.

The Providential Companies that started with True Parents, while desiring to return happiness to True Parents will move forward with devotion.

The 14th year of Cheon Il Guk, True Mother said that many great things will happen at the beginning of this year, and to fulfill those Words, we will do our utmost.

Welcoming Address

Pres. I Bon Sok

H Japan

Respected and beloved leaders and family members from throughout the world, hello.

Upn the grace of SGWs and 1,565 Cheon Shim Won Special Devotion, H Japan is realizing its re-organization with regional pastors Hori and family members becoming one in order to inherit the victorious Ceremony of Cheon Shim Won...

Today is the 1,565th Cheon Shim Won and today in Korea, it's Teachers' Day. While returning honor and glory to Heavenly Parent and HMH, Who became our Teachers, I will introduce the important Words Mother gave to the Japanese leaders and report the HJ testimonies of two family members:

On April 25, 2026, the full Text of Mother's Words:

The entire world is currently very chaotic, and that is because they do not attend HPs. Because we have completed the era where we can fully attend Heavenly Parent, from now on all problems can be solved only through the True Love of HPs.

The 60th Heavenly Parent's Day is important. Blessed Families must realize that they are the chosen people, and must fulfill that responsibility. Starting from H Japan, you must deeply, experientially realize and educate the people with the Cheonbumo Ron and the Great Epic of the Chosen Han People of Korea.

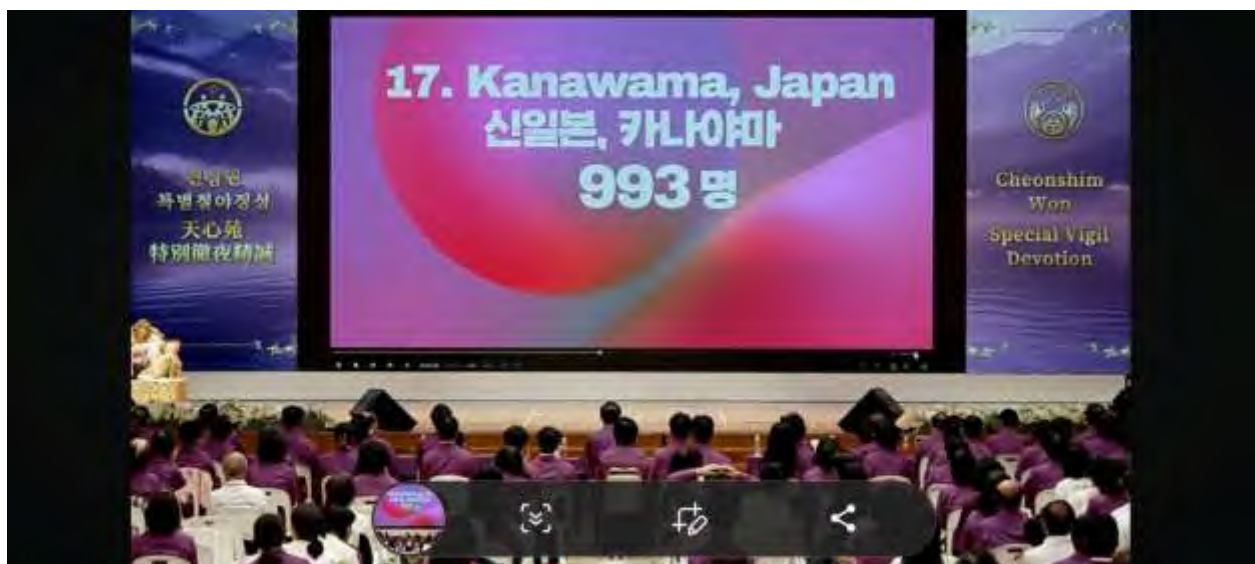

H Japan must inherit the victorious Authority of Cheonwon Gung Entrance Ceremony... The Mother/Son Relationship cannot be severed. I believe in the H Japanese Family members. I know the loyal hearts and devotion with which you continue, even amidst difficulty. Please tell H Japan Family members that I love them.'

To practice the above Words of H True Mother, H Japan will welcome the representative Lee Gi Shik to conduct education of the Epic tomorrow.

testimony (of health recovery and family restoration amidst the trials with cancer, due to Cheon Shim Won devotion) (breast cancer that returned and had to have a mastectomy, but it still expanded and she scheduled a new treatment and resolved to receive special ansu... I was told that the pain experienced was of the central spirits and to receive it with a heart of gratitude.

She heard, 'How much have your endured and held back up until this time. It must have been so difficult. You don't have to hold back any more.' And this was deep in my chest as if said not just to the central spirit but to myself. I deeply felt that True Mother Who is the Substantial Holy Spirit was embracing and liberating the CS with Her Love, and my tears did not stop.

Until now, I lived without properly understanding the SW or the Path of True Mother's Love. I have passed time without realizing the fact that the CSs were crying out in pain through my illness.

Repenting for such a self, I kept in mind the whole time, that the CSs of the SW wanted to spend each day

of the Workshop, and I kept track marked on the calendar which day of the Workshop it was. For the first three weeks, after the new medication there were severe side effects, but I thought, 'This is the pain that the CSs have felt.'

From the hundredth day of the Cheon Shim Won vigil devotions since the liberation ceremony, I received the blood test markers, and they returned to normal levels and the medication could be reduced with lighter side effects, allowing me to participate normally in the vigil devotions.

One year later in April of last year, it was confirmed that the four cancers in my lungs decreased to three. And over the past year and a half, my family members and members of the church have been continually offering calling out prayers for me. Because of that, I was able to visit CP 6 times last year and receive special ansu.

A CT scan this year showed that the cancer of 3 locations was not longer visible, which greatly surprised my physician. I have nothing but a heart of gratitude, realizing how I have been protected over the past years, thinking of the foundation for this with True Mother's Tears shed in the DC.

My eldest daughters advancement to the Blessing were also accomplished, and I could attend it. My eldest son also went to 40-day, GPP and Spirituality Workshop, offering full devotion. My 2nd son who was dormant also participated in the Blessing preparation as a guest.

Never letting the grace fall on the ground, I will continue forward for the victory of the tribal messiah.

another: stomach pain of my wife was cancer and large that received chemo. She offered her full devotion to Hyo Jeong and wrote HJ Offering Papers and the church united to offer prayers for her. There was a surgery planned and afterward a surprising report that a single round of chem disappeared the cancer cells, surprising the doctor as a miracle.

reminder of the early church, in order to keep Mother's Words, what kind of mindset do we need to possess through this scene... the deaconess, not a church member, but out of the blue a revelation came to go to the church and during the ansu time, she stood up and danced, looking like a member but strange that she was wearing red (because she came suddenly from a revelation)... She had a dream of her husband who used to believe in and always talk about Father Sun Myung Moon and he wanted to come here...

PL: The evidence that the ancestors are with us and Heaven wants to work. Offering devotion, you do not know how important this connection is and that Heavenly Parent and True Parents Word do not fall to the ground... no fear as Mother says, because They are with us.

Heaven, going toward victory, has this Providence of dissolution. With the eyes of prayer and faith you know you will see more amazing works than before.

When Jesus died on the cross He said, 'It is finished' and the disciples had no hope, but He went the process of Resurrection and Satan could not invade Him causing the march of the Holy Spirit and disciple saints could begin...

The amazing work that came down at night the Father Who offered prayer throughout the night with tears, Jesus came and passed down the Mission and our Church was of wailing day after day with the Holy Spirit. And day by day they danced like this lady at the ansu, and our members gained strength through trials and could move forward, and this needs to occur in all our churches.

When tears pour from our eyes for Mother's hardships, and you call out until raw throat with fists tight and life-and-death determination and the cry that, 'I must surely liberate Mother' and the pray we never

thought of comes out, and this is truly a precious prayer, this being when resonance is accomplished.

With this point, you can see miracles as in the early days. Therefore, prayer in this time is not quiet, but a battle with the resentment spirits. As you repeat the number of times you pray, all will receive power.

Heaven's work becomes an actual power to actually heal our lives. Here is a family member who came to love herself and her family through devotion.

She is the owner of 4 children. She came to CP to fix the ship called her family. I sincerely respected and loved my husband, but whenever stories came out from mass media, I became anxious. I thought I had done my best to raise my children, but my sorrow toward my children and my own mother, along with the feeling of not being recognized (tear and she turns her back) accumulated in my heart, and thought like 'Why am I living in Japan. For what purpose have I come here?' These thoughts occurred with also wanting to stop living now.

My life of faith waned and my frustrated heart grew, and even in a meeting with my mother, sorrow burst out, 'Why do I alone have to suffer like this?' but looking at the distant mountains, the feeling as if they were calling me from a distant place. One day my mother asked to meet me and I poured out my heart and she suggested going to a Workshop and I thought it might be God's Will, and the moment I arrived tears poured out just by looking at True Parents Portrait.

Every day, everyone I met was precious and the warm care and meals... Only after being a parent could I feel even a little of Heavenly Parent and True Parents Love, and eventually start to feel They were becoming my own flesh, as if True Parents entered my own chest.

When I went to True Parents's Place to clean, Mother's Presence was beyond a wall, and I saw my sins of life there with Her. Following to pray for True Mother's situation, my family was suddenly visible and I saw the sins inside my family and realizing that is why it was difficult and Mother is carrying this and I cried with repentance seeing all the jealousy, anger, hatred, and realized I had been tormenting myself and failing to love myself, the self I had wounded and pained, I wrapped my arms around myself and said 'I'm sorry'.

Looking around people around appeared as the images of Heavenly Parent, resembling the Dual

Characteristics of God as Principle says. I will from now resemble Heavenly Parent and build a family Heavenly Parent desires.

Next from H Central and South America, he protected the witnessing field, saying he could not give up the child of Heaven.

Giving the cause from Cheon Shim Won Devotion, a family member Papa Musa, a precious son witnessed to in Senegal 2021 and received the Blessing. He briefly left Bolivia and was in Brazil in a training program, and his wife was 7 months of pregnancy, but one day a report came that his wife's situation was critical for both mother and child, with 5% probability of survival. The leader advised him to return to Bolivia immediately, but he did not make a human choice running instead to Cheon Shim Won, pounding the floor, 'Heavenly Parent, True Parents, please save my child'

A Voice came, 'Would you give up your child?' and he responded, 'I will not give up the mission You gave me. I will entrust my child to You.' And at that moment before a planned surgery, the electricity of the entire hospital went out, and then family member Usa praying at Cheon Shim Won moved the SW, and he child in that dark was naturally born perfectly healthy not needing even an incubator. Applause

When member Unsa crossed his limits and offered everything in prayer, and he did not keep this just as a personal matter but took it that he could also save dying souls of the world... and he offered 400 bows every day and vigil with conviction. As a result, during the 120 days, he witnessed 12 children and the team he led witnessed 52 youth total victory.

He confesses that the miracle is not simply in that number but the love of Heavenly Parent's miracle response to him... applause

Even after that, he once again resolved to do a fasting offering, the reason was he wanted to know Heavenly Parent's Heart deeper and after 21 days, he concluded that Cheon Shim Won is the Place H takes responsibility for and that transforms destiny to make the impossible possible.

The SW never submits before a vague hope but only with life-and-death hope and determination goals, as

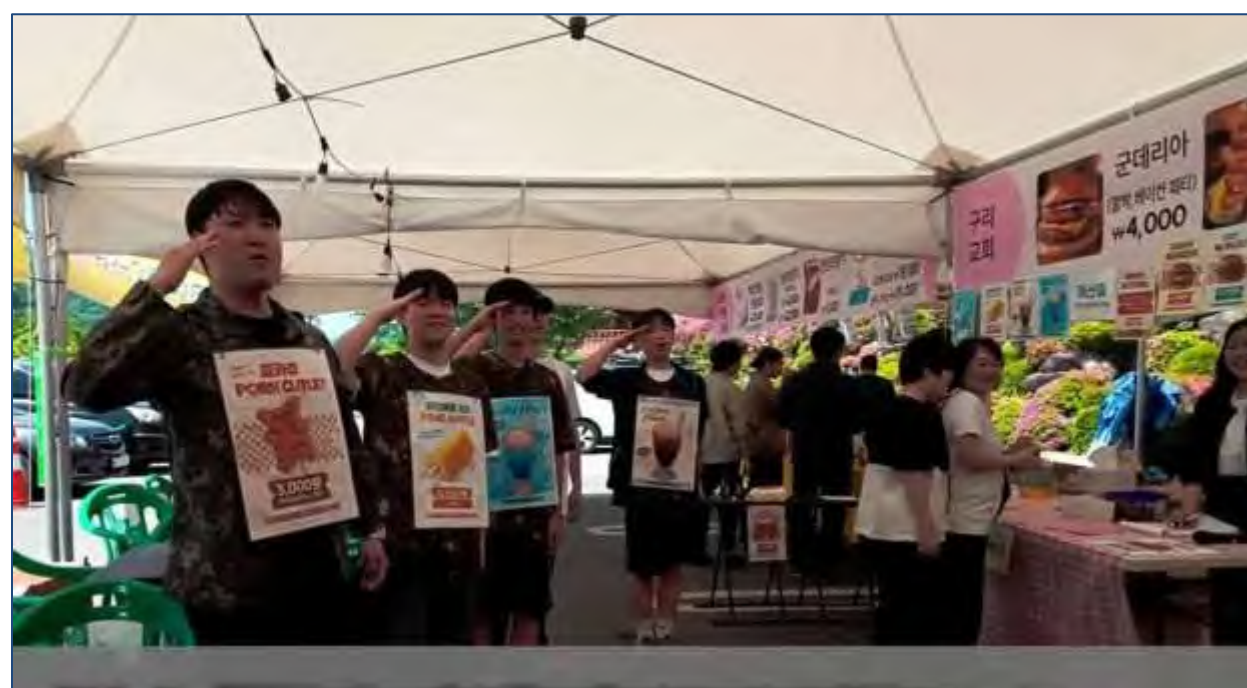

with our earnest appeals for Mother's release and health, which I'm sure will manifest upon this earth.

Behind the joy of this victory, there was the solitary Heart of True Mother, a youth thinking her devotion was not enough, this sister realized it never hit home sincerely that Heavenly Parent and True Parents are my Parents. Could she get that from Workshop. But she had the desire to restore problem in her family

I tried offering 1,111 bows, and tears of prayer, but Mother's Heart was not realized. I thought I would try to offer maximum prayer and pray earnestly with no agitation in my heart, and I thought am I so insufficient, but then I thought of HyoJN, 'How could you love True Parents and Mother so much like that?' and the thought appeared that the Mom, my Mom whom I love so much is in the DC. And I couldn't do anything, but I heard Mother saying, 'I love you. I love you all.' And I realized that I wanted to hear those Words and I realized the one turning away from the Love was me.

Even with the Physical Body that has reach its limit, She needs to rest now, yet She endures and continues to put that Body for us, and I came to know even a little how True Mother had no choice but to suffer like that and I will sacrifice myself instead, 'I will do more. I will do more.' And I'm so sorry not to comfort that Heart until now. 'Mother, please return. I miss You so much.'

What can we answer to this earnest cry. Cheon Shim Won truly the precious gift, but it seems we take it for granted at times... Watching the GWs. PL told us the value of CP

PL:

The Tree of Love Square became the Place where Cheon Shim Won youth completely harmonized, and seeing this, many people said, 'Ah, it feels like looking at Heaven on earth' With so many races and meeting each other and so happy, jumping and playing.

And I thought, 'Oh, this is what True Mother wanted to show us as with what She said at court to please come and see what was Created here.

As a 'Court Yard of Revival', the name She made. applause to our True Mother

Truly, True Parents passed down many precious things to us, but because we did not value them enough, it is also in Mother's Letter, isn't it. She Speaks that there is no single place in this Cheon Shim Won Complex where Their Tears are not soaked, thinking of True Father's Devotions before He passed, thinking of this as a Land where True Parents's BS and Ts are soaked, it is the only Place in the cosmos where blood and tears and joy come together.

HyoJN in this very Place, and I also remember Father Speaking at the Tree of Love, and with all of us coming and becoming one, there is nothing we cannot achieve, but if we do not Tears of Blood flow from Heavenly Parent and True Parents's Eyes... There are many excuses not to be one, but that became F and M's Suffering.

If we truly think, 'It is my fault.' and repent, we can move forward with Cheon Shim Won devotion. And all people can know that Heavenly Parent and True Parents are working in the Spirit and Truth...

There is no place anywhere that True Parents' Tears, True Mother's Tears are not soaked, but we failed to be one. This must be our milestone tonight, promising full investment until we once again attend Mother Directly.
