Opening Prayer of Gratitude

Most Honorable Heavenly Parent

Beloved True Parents of HEH

At this time with the scent of the summer coming, with the longing heart for Heavenly Parent and True Parents, we have come to 1,566th Special Vigil Devotion to offer our bow and offer our devotion. Thank

you for allowing us to have such a time. Despite the victorious and glorious history of the Providence, we remember the pain and suffering the the True Parents had to walk. So, please throughout tonight's vigil, allow us to fully open our hearts to meet You Heavenly Parent and True Parents.

Human history which was embedded with anger and resentment, let us change the course of history of anger and resentment to a course of forgiveness and love, and allow us to realize our True Mother, Who has been walking the thorny path in order to make a beautiful flower blossom path for us. This Mother has brought the new breath of life and water of life Who gave Rebirth by re-orientating and re-organizing ourselves.

True Mother allowed us to be comforted by Her Tears. And allow us please to become the Water of Life like You, True Father, so that we can bring comfort, bring peace.

At this time our True Mother Who is searching for those who are suffering instead of those who are well, please allow us to understand and experience Your Heart for even a brief moment in this short time of vigil. And if we can do that, I believe we can transcend time and space for such a precious time that can remain eternally, by opening to understand True Mother's Heart.

Please allow this to be a time to revive the PW and SW. Just like the sacred Place of Cheon Il Guk, please allow our body and heart to be the Sacred Place so that the Course that True Mother is walking will be filled with flower blossoms, based on our prayer and devotion. We truly hope that True Parents's Hope and True Mother's Love will spread throughout the world so that people will receive mercy, receive salvation.

So, please guide all the people to live for True Mother to be in eternal peace. Please allow this time when we have forgotten that it is the night, please allow this time to be the stepping stone to move forward with the Providence and please allow our devotion to be a cornerstone to give strength to our True Mother

Jun Yu San

CHANYANG

Testimony

Yun San Min

Attendance Workshop trainee

First, I sincerely thank Heavenly Parent and True Parents for standing a lacking person like me in this position...

youngest son of 2 sons and 1 daughter... Cheonwon Church

For five years I was a dormant member who considered the life of faith of my mother to be strange. However, the reason I changed was my mother's cancer, that re-occurred after we thought it was overcome... Mom wants to live we said and he still has a lot she wants to do, seeing her daughters starting family after receiving Blessing, and we offered devotion to save our mother, and the leaders prayed for her and gathered money for the hospital expenses. I was deeply moved also by their devotion for my mother.

After she could be discharged from the hospital, the battle continued at home, and I saw my mother so painful, saying, 'It hurts.' And being able to do nothing but shed tears, I felt so pathetic. Even so, my mother endured that pain for the sake of the family. I heard my mother's dream hearing Father's Voice saying, 'I'm sorry. I'm sorry.'

The cancer then worsened and she entered confused consciousness because of the strong pain medicines. My mother's tears were the last I saw when at the age of 52, she ascended to the SW. But I wasn't ready for her to go, and I had not fulfilled my promised yet. I wished it was a dream. I fell asleep crying. Someone grabbed my shoulder, and my siblings had this same experience, and it became a turning point in my life, realizing it was my mother.

Inheriting my mother's faith on earth, I pledged to walk the path of the will. Since the last two WSs, I overcame my limits and continued the path of faith solely for my mother. While praying the words, 'public ministry' came to mind as the best choice for my mother's sake, to witnessing True Parents's and bring back those who left, and that resolution continues to this day.

After military, I entered the Attendance Workshop, and thinking what attendance meant, I thought of my mother, who came to an unfamiliar Korea and engaged in devotion for her family... Although the Workshop was mostly Japanese, I felt an environment similar to when my mother first came to Korea. There was a wailing in me that overlapped with True Parents's Heart, and True Mother's Heart and my mother embraced me, 'Now you understand and I hope you will continue in the place of my body. Son, I love you so much.'

Although there is no physical body, I could feel my mother embracing me, and after hearing that voice, I continued every day with fasting, bows and calling out prayers. I had a question and answer session with Heavenly Parent at Cheon Shim Won and Heavenly Parent told me, rather than continuing in pain any more, your mother wanted to transcend time and space and watch over your family from the SW.

I prayed for my mother together with Workshop attendants in the special prayer room. Tastung(?) that flavor of attendance devotion, I came to realize that to me attendance means my mother's heart living and dying for the sake of others.

I hope to live after her expanding more widely to the world. Finally, I want to say I am so grateful to my mother who gave me so much love in the small time of 19 years and my family and church members always cheering me on and I will put attendance into practice centering on Heaven.

Japanese Workshop trainees

'True Mother's Tears'

Testimony

Mun In Eh

eldest daughter... from 2 WSs and Academy and thanks to my parents who were public officials, I was always close and protected with the church and my ancestors were close, calling me. but still I began to lose gratitude and my faith weakened. Because it was not a faith I established, I received difficulties in the Blessing.

The Yeongseong Workshop was when I repented and sought to resonate with the heart of my parents, and I came to experience an indescribable happiness throughout my body, and feeling that Heavenly Parent loved me this much, my tears did not stop and if I could live within that love for a lifetime, I would want to follow whatever that path was, and I could comprehend if only a little, the Heart She had for humanity...

I came to the Attendance Workshop, and the question, 'Could you die on behalf of Mother' and I realized and reflected what kind of determination am I having to make True Parents joyful. Wanting a faith that does not shake in any situation, and working in the Academy, I put in full investment for the growth and development. In that process, seeing other Academy overcoming difficulty and having comrades walking the same path of the will was a great comfort and strength to rise again from the difficulties and appreciating deeply Mother offering such devotion.

I could raise my voice without doubting that this was the right path, but seeing one and another exhausted, my heart suffered and I felt sorry, and recalling True Father Who would want to work right away and to offer a little comfort for what Mother was experiencing I increased my devotion. I came to realize what a valuable life we are living, walking the path of devotion for True Parents.

I could feel the hope that if we forgive, love and unite until the end, Heaven's Will can be accomplished. To spread Mother's Love to a wider world, personally feeling with my own skin the Love of Parents, and going from city to city, I could feel something of the Path of Love They walked for world restoration.

Going out to the streets of people poorly clothed and with the smell of marijuana, I witness more earnestly feeling the heart of Heavenly Parent Who doesn't want to give up on any child, and the deep joy emotion I felt for the first time how much Heavenly Parent wanted to embrace Heavenly Parent's children. And I witnessed that even if the words did not communicate, we could witness with the heart of love and discover my original self of wanting to give love like this, and I was happy and grateful to move forward as one with my colleagues of the will, and realizing that I could witness to my heart's content was a joy and realizing that this was truly a happy life.

This time gave me hope that my faith was firmly established and Heavenly Parent gives me this life of prayer and devotion because of how Heavenly Parent love me. Also, I needed to repent and move forward more in the future, and as those devotions accumulated, my devotion deepened faith and I was able to come all the way to this time of conclusion.

Beloved Heavenly Parent and True Parents, You have not given up on a lacking person like me for a single moment. I know you were the Parent Heart weeping in times of my difficulty and always wanting to be happy with me. I could widen my limits and be more solid and realize what true love and happiness is, and in the future I want to make a new departure for giving the love I received. And in moment I fight against fallen nature, I will remember and realize Heavenly Parent and True Parents cheering me on, and I will surely attend True Mother and build true family showing the world the happiness of a life with You, and gratitude now for allowing me to share this life, and for the others of staff and Academy together with me.

President of H Europe and Middle East Branch activities

True Parents singing...

HJ Report

Moon Im Pyo

In the month of May, I hope that Heavenly Parent and True Parents's Love will overflow in your family as well. When I was young, whenever I was asleep, or whenever something... my parents took care of me very well. Now, I take care of my parents, put blankets on them, but I believe connecting the deep heart of our parents and Heavenly Parent just like our elder members, I believe the history will be recorded of what they have done.

My mother worked as a youth pastor, as national messiahs before their Blessing and after and I saw the book of recordings of them. I saw them wearing the traditional clothing of families in the nations and before President of the countries, and this was not just the history of our parents, but all the members who sacrificed their life, their body in love of True Parents.

We might think we are experiencing difficulty, but H's strategy is being struck and then taking back for Heaven's side.

When I was facing personal, severe difficulty, I thought, 'When will this end?' This tunnel may seem very dark, but it will eventually come to an end... It became a foundation to become who I am.

I am sure many families are facing what they cannot enjoy. When my son caught cold and I brought him to the hospital, I thought of the past when my mother would hold onto my hand in the hospital with me when I was sent there when I was sick. I remember thinking how warm my mother's hand was and that this is how much my mother loves.

When I was the CP Providence and I was the MC, my mother was coming out to offer the donation as a representative, and I was able to realize how amazing our elder members are. She offered very humbly in front of True Parents. I witnessed it, and to be honest, this kind of history, I believe is the same for all the

members around the world, that they are conducting such work with the love of True Parents.

Japan has a lot of members but other places have very few. With such number, using the power to motivate oneself is almost impossible unless they love True Parents with life-and-death determination. Based on what I felt and experienced with my level of heart, I am sorry I am offering this report with a lacking heart and help me with advice and to see my lack and please offer prayer for me too.

True Parents's Words:

The new age of the 21st Century is an age of universal values. It is an age when material things do not dominate, an age when we live in oneness with God, and age when people will realize that living for the sake of others is far more valuable than living for oneself.

Self centeredness will fade away and altruism centered on mutual dependence and shared values and prosperity will finally and triumphantly emerge

By grace of Heavenly Parent and True Parents's, we were able to set a new record. The Continental Director dearly loves True Parents and with that heart of love toward Mother he moves forward with us to convey the Message: For what we can do, let us do our best. With that heart and position, from 62 nations many members joined.

The land of Russia is very big and they had the most number we inherited, and Moscow is biggest and members are moving forward diligently, and if you look at the timeline, it is widespread, and in that sense Russian members are very important when we think of God's Providence.

testimony: While clapping she cut her hands and had a painful situation, but as she continued clapping, small angels came and started to stitch the wound on her finger. So, even that small cut is healed by Heavenly Parent, and how could we think about how Heavenly Parent wants to heal our heart. And I was able to receive a great revelation.

And while Ukraine is at war, our members are working so diligently, and our national Messiah, Rev. Chung's father worked so diligently in the past, and the members of this nation, despite the time of war, in order to contribute to the Providence, going out to witness.

And before True Father Ascended, He did the UPA Inauguration Tour and during Oct 2o, the world tour of the 120 nations with the Universal Peace Federation, established the Peace Kingdom Corps and Police Force for the welfare and future of humanity. Through substantial work of the HS, I truly hope the pain will end soon.

Armenia registered the most at 3rd place, and the Ararat Mountain of Noah's Ark in behind them there... And I visited that place, truly beautiful at the border of Turkey, I felt the special energy there. Every Saturday we have intensive prayer... centering on HJ Praise and just like it is done at the Main HQ and we do it on line.

Many masterpieces and beautiful songs of repentance, love and compassion. So, True Parents fully with the Spirit sang the songs again and again and again. And I witnessed it in the video deeply embedded in the culture and civilization that established Europe of now, even there were hardships, still able to develop Christian civilization with deeply embedded praise.

And they work so diligently, and as I introduced high noon last time the special devotion, and many joined and Bengamin Lida place Chello and piano and sings well and he came as volunteer choir team and staff. Through the music, we wanted members to come to Cheon Shim Won to be connected more deeply. And also we had one-heart resonant prayer through the music and about 120 place, at least 60 place are connected when doing intensive prayer.

testimony: I like the reverberating prayer that makes me feel that I am amidst the stars of Heaven with True Parents.

another 2nd gen member after beginning family is living in Central Europe, and through the intensive prayer saw a spiritual vision (Originally from America, but now living in German and worked diligently as a youth pastor and this is his testimony) We sang the song 'The Blessing' The Lord Bless upon you and keep you, make Face shined upon you... Then he saw a vision, gushing from above, a stream of pure water through all my limbs washing away the sin there, then the water became more liquid like and into my heart and out to the rest of my body.

There are different ways to clean filth, but one way is the overwhelming force of clean water... It was

difficult for him to make a loud prayer, but then I saw the vision throughout the prayer, 'I was in a dark battle field and spirits were all around me attacking me, but there became a clear path and I began running down elbowing my way through the sharp claws of those attacking me. Looking down the path toward the Light, I saw that it was True Mother there, standing victorious, holding the Staff and the Purple Robes as She was during the Cheon Il Guk Proclamation, and I was fighting my way towards Her.

So, the prayer that we offer, the Cheon Shim Won Prayer, from Heaven's Point of View, how amazing it is. And he saw many people dying and Noah and Adam and Eve... many Contents came to him and still running, suddenly from behind and above him started shining and he knew it was True Father from the SW lighting his way and making the path clearer, and he kept running until the end of the prayer.

There were various series of the video, someone handsome sitting down and tears all over his face, and that was a member who was witnessed to spiritually. There things we cannot see until time allows us to see how valuable. And witnessing is the great Blessing we can receive... applause

We sing a lot of English songs and can become more familiar with the Cheon Shim Won as well as Cheon Shim Won songs...

True Mother's Words: Why is Cheon Shim Won prayer so important? Because it enables Father in the SW to work within the realm of the environment that we must expand for the sake of our Heavenly Parent.

Mother is telling us that we must call upon True Father to be mobilized. Because They love each other so much, and They want to work together and for each other. We also do the intensive prayer for True Mother's safety and return to the Cheon geong Gung and to stay safe and well, that is our focus. We also say, as a representative of Europe and the Middle East, we have gathered for HMM.

I may not know many things, but I know that we gather for Heaven to accept it with joy. And with the main message, I introduce HyoJN's song, and many listen but with the Korean, it is difficult to understand. And when Father Speaks so fast, it is difficult sometimes even for Koreans to understand... But with the songs, even we cannot understand everything, the Content is so deep and strong that we can feel 'How can I offer my last prayer to True Parents, How can I stay connected and not betray True Parents.' HyoJN loves True Parents and His siblings so much... applause...

And this is the title song, whenever I listen, my heart is moved think how much he put effort and devotion into this song. He makes a person almost half naked kneel down to receive the spiritual light from Heaven...

He plays HyoJN's song

He was in tears with others when he sang this song. And especially Japanese members, although facing difficult times at this moment, HyoJN is sending a lot of love to them right at this moment. And we have many missionaries working diligently for that nation to become H Japan... applause

I'm sure HyoJN wanted to come to Korea and hold such a concert here, and True Parents's wanted to create that environment, and when HyoJN performed at the Little Angel's Hall, True Parents were very happy and many younger members gave testimony and they are the members who worked to change the course of the Providence, so with the same heart they worked...

Director Balcomb shared his experience of how much he loved True Parents... Frankfort Germany, this brother was a CARP member and worked with a small number and centered on Pres SaGonggi? he worked with Faher pushing him even though Germany was divided, and I believe some of you attended this...

This is the Secretary General in France... and all of you have genius that will be exploded by that song to move... I wanted to grow the zone of genius and by 21 grow testimony of True Parents and show how hard working...

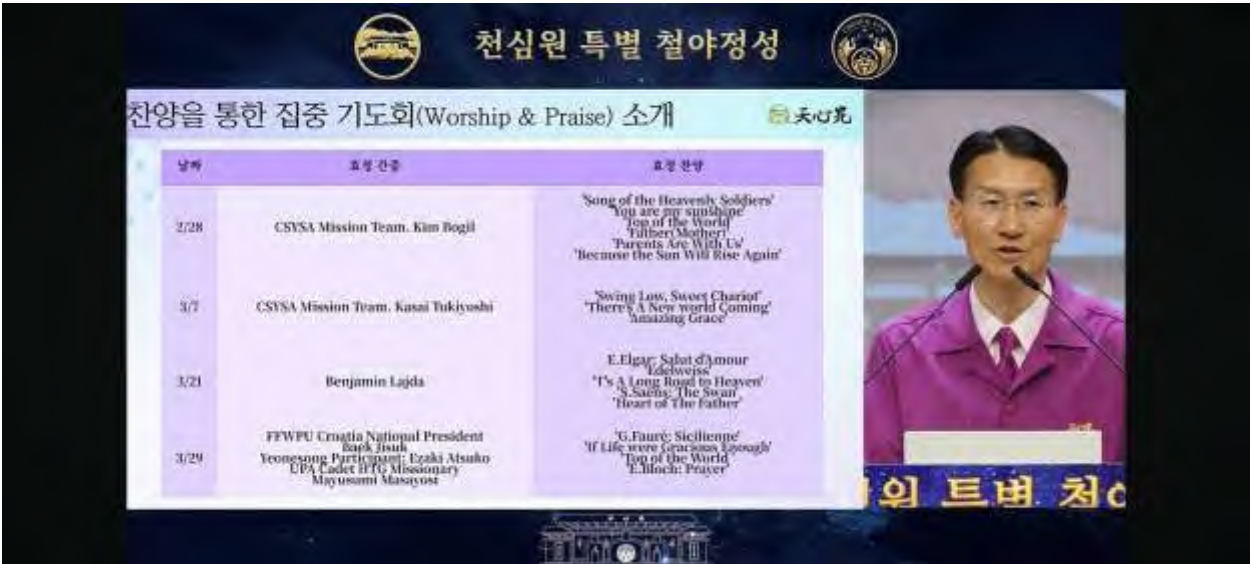

If you pray with your talent, Heaven will work through you, and if you ask Heavenly Parent, you will be given the vision and various other paths of... I had the support of many people, and many appeared to me from SW supporting. I believe it was in my heart when 15 or 16 when I started studying English, and at young age ask HyoJN and HeungJN

This person's name is meaningful and the Korean saying, 'You must fight as if blood would burst' and now PL walking the course, and when I go back to Europe PL is the one responsibility and that is very heavy, and without life and death determination, I believe it would be impossible to bear.

Dr. Yon Figel, who brought great joy in Europe testifying to members...

The greatest professors of the Workshop is True Parents, so we offer the flowers.

In France they have the dish that is so good and I eat too much of it... but the French bread also is beautiful. I don't know French but I know merci bouqu thank you very much. The LA's sing TYVM... The language and the nature and heart there is beautiful...

True Father went there and told them: Even to the point you have to forget the French and the French name and adopt this H Tradition. Now is the time we have to sow seeds. Our time has finally arrived. For the time of spring we have to sow seeds in the ground. You need to become the 2nd true parents. (Nov. 5, 1995)

Since the beginning of this year Father has been sowing seeds in South America, then in America, Mother in Japan, then True Father and True Mother in Korea. Finally, True Parents have come to the European continent to sow seeds in the ground.

Father has sown these new Heavenly seeds and you are the ones who have to make sure that these seeds germinate, sprout, grow, flower and bear all kinds of fruit.

In other words you will become a second True Parents here on your level, and bring all these fruits and harvest to heaven along with your family. This is the way that we will build the ideal world on the European continent.

True Mother's Words

Who is that one small needle? The child who can become one with OBD, the True Daughter. Heavenly Parent's Dream is to live together with Heavenly Parent's children on earth to realize the Heaven Realm on earth.

I hope I can become one of those needles so that how grateful would True Mother feel, even I have fallen nature lacking part, I will never give up to move forward.

In order to become that needle, we go forward...

We will be dividing staff, and Russia has a great infrastructure of people,

True Mother's Words:

Blessed families must recognize that they are the chosen people and fulfill their responsibilities! In H Japan you must deeply understand and educate about the Theory of True Parents and the Great Epic History of the chosen people of Korea!

You must ensure that Heavenly Parent inherits the victorious sphere of the Cheonwon Palace (and love each other) I believe in the Japanese members! I know your faithful heart and sincere devotion in believing and following even in the midst of difficulties! Please tell all the members of H Japan that I love you!

Mother mentioned that H Japan will never fall, never lose. It will absolutely be victorious.

Following the Middle East and we will be working with members in countries around the world. applause

Break

Hoon Dok Hae

Remember the laborious history of True Parents. For fallen human kind to be reborn, they must be reborn through the Blessing of True Parents. Through the laborious history of True Parents, numerous BF's have been born worldwide today. Through you, your ancestors can receive liberation.

Please try to think about how much all the ancestors who have come and gone throughout the 6,000 years of history spoken of in the Bible, have longingly anticipated that is spoken of today. Where else could there be a miracle greater than this.

I have never once forgotten even in my dreams. And even if this Body is crushed a thousand times and my Bones turned to powder... Even in the past historical course, no matter what kind of position I was in, God was together with Me. God labored so much for my sake. The path of restoration is not easy. Do you think I ate, slept and was comfortable at all, like you all. How serious is the Principle itself. I would anguish, color on My Knees, on My Knees from praying. I don't know how many tears I shed knowing that there are many people dying without resolving the path life must go, and in order to resolve that, I always prayed with my eyes turned red.

You all must pray every single day. In prayer life, you must offer a tithe of ten to one every single day. In My Prayer Life, I prayed 17 or 18 hours, usually 12 hours. I did not eat lunch. Usually, I would loudly wail. If I did not do that, I could not live. All directions were tightly blocked so there was no hole to go out. Only when prayer of such a course would a needle hole be visible. It is through going such a course of trial that I found out the Principle.

You would not even be able to imagine how many internal struggles Father had, what effort and pain were required for the path to Providential Victory. When HeungJN and HyoJN Ascended until the Day of the Victory of Love when Father opened the Gates of Heaven at Danbury, I for thousands of times wanted to enter Danbury with Him, while comprehending the suffering Father was experiencing.

Cheonshim Choir

'Longing Toward Heaven'

President Lee Gi-seong's Message:

Chon Bok Bong... Chin Jung, from March 18 with that vigil for eight people from 3am, he began vigil with unchanging heart since... applause and Family Director of World Mission HQ our brother comes to offer devotion

Song In myung Grand Church Pastor... 239th day of True Mother's trial of detention and today the 400th day since the Entrance Ceremony... and H Africa Rev. Sakua leaving again for Africa two days from today, his son is at the DC. True Mother is at the hospital, still a course so difficult to endure and we are realizing our responsibility and True Mother trial is everyone's trial and Her patience and love and devotion needs to be ours. Where we have gathered here, it will prove that True Mother is not alone.

Today about 41,000 have gathered to offer devotion in one heart.

Pres. Kim Dong De never missed a vigil and other pastors are always there to attend at Cheonchon Ch applause

Although retired, our elder always offers devotion... I am witnessing... Kim Dong Eh Pastor...

North America is connected with us, and I am grateful...

tomorrow we will play a beautiful choir video sent to us...

H Japan, now testimony: TYVM for the grace of Cheon Shim Won. The reason I'm attending is since Jan. 2024 asking what can I do and offering prayer, I sensed True Father calling me to the vigil, and from the bottom of my heart, True Father's Heart started to flow and I gained that I must offer devotion at the church although tired spiritually so I ran toward church with my bicycle and looking to the sky, I felt True

Father speaking to me through the moon. I will contribute myself for fulfilling Your Wish Heavenly Parent, and I felt joy in my heart.

From PL Words I found the answers to my questions and I repented and through True Mother's Testimony I could connect deeply and despite difficult times, having the strength to move forward, and after True Mother's Prayer not to worry about Her, everything is okay and the tears flowed for how patient Mother has been with difficulty, and I am such a happy person, the fact that devotion comes with such result and True Mother calls me Her child and as a child that resembles Her, I will be a child that loves others and is the needed sacrifice of myself. I truly hope for True Mother's return as soon as possible.

The more you offer prayer at Cheon Shim Won, the closer you will come to M's Heart. TY for you devotion.

During this time when we become one, the impossible becomes possible. And that's what Mother wants from us.

More than twice the amount of registrants for the CheonBo Workshop... This year 1 million is our target to educate and we went over 400,000 reaching more than 40% of our goal. So, let us all be one for unprecedented achievements.

Today's testimony moved me to tears to read... Five years a dormant members and through his mother's cancer, he could become such an amazing child. He carried on her wish she suffered for, for her children. The mother also heard the sound of Heavenly Parent telling her, 'I'm sorry. I'm sorry.' And afterward, the last scene of his mom was with her eyes closed. The brother was resentful of her passing like that. But he and his siblings experienced to same dream of his mother grasping his shoulder, and that became the turning point, how he knows she is working from the SW, and he must inherit the faith and walk the path of the Will, and he joined the WSs and overcame his limits.

Through the deep prayers, he will lead a life of a public official to accomplish Heaven's Will. Such people must come. People must step up who will risk their lives for the will. And our brother could have had the heart to just play and have fun, but he joined the Workshop to set a condition to be on the front line for

True Mother to return. I hope his condition reaches Heaven and all of you gather with the same heart of devotion.

Even if one received the message that True Mother will come out soon, but those others will be tested thinking, 'Well, why is True Mother still not coming out?'

Our brother received a message that the Will shall be accomplished in 3 years, but what if it isn't. And some changed course not to go into the military... Jesus gave a message that He would return soon, and Christians hoped that He would come down from the clouds and actually saw that vision before they died. All the persecutions was stronger but they gave greater strength and because of that more people joined.

If Jesus said, 'I will return in 2,000 years' they would have gone separate ways, but because He said that, they had visions of His coming soon and all the more people could come because of the endurance.

If you give up after 100 and 200 days, that will be a problem. It's only 239 days and you must have the conviction that our prayer will be accomplished and push forward with that heart. Our Heavenly Parent unchanging and absolute set the Will and that Will will be accomplished. That is the Providence of Restoration...

applause for our brother becoming an amazing public official...

Our Japanese members sang the song, 'True Mother's Tears' and when True Mother heard this, She was very moved. "When I went into Mother's Heart, there was a very beautiful pond, the tears She shed for sons and daughters that Heart that You couldn't speak to anyone, that Course You had to walk alone... "
