Opening Prayer of Gratitude

Most Precious Heavenly Parent

Beloved True Parents of HEH

Once again, we sincerely TY that BF's from around the world You enable to offer devotion with one heart and mind. Today the world talks about AI without missing a single day how to utilize it on the internet. However, no matter how technology evolves, it cannot replace the human conscience and the love between husband and wife, nor the earnest prayers with tears of hyojeong.

Therefore, please make the advancements that witness Heavenly Parent and True Parents and for the unified Korean and world. Therefore, we realize that this Cheon Shim Won is the most precious Gift to be where our dormant hearts can awaken, based on H universal law, more accurately than any AI, as you have led us to taste the joy of life that is to live for the sake of others, teaching us what the shimjeong, the heart, and what true love is.

You have given us the power to resolve all difficult problems with gratitude, all the more feeling that this is the global devotion educating us who were in so ignorant limits of the value of true life, love and lineage.

In this Cheon Shim Won where True Father works directly and True Mother embraces us, we believe that this Cheonwon Complex will become all the more a beloved Holy Ground of Heaven, leading Your Providence where people all over the world will come to attend True Parents.

This 1,614th Cheon Shim Won Session will never fall to the ground, and the universal path walked by True Mother we plead may be brought to conclusion speedily now by our earnest white devotion.

Please guide us. Please guide us, allow us to continue with an unwavering heart of hyojeong until the day of victory.

True Mother at Opening Ceremony

We are able to offer this Cheonshim Hospital to God and True Parents. I will make this harmonious in PW and SW, this hospital and CP TC so that they become reborn in their original image and become an institution that can save all humankind.

Seeing True Mother's healthy appearance from 23 years ago brings tears to my eyes after seeing Her recently. True Mother wanted Magnolia Hospital to be the Place of SW and PW healing of human beings by restoring hem to their original place without fallen nature.

Although our hospital started with True Parents's Will and Words, it may not match other hospitals in terms of external scale, it has the unique value unmatched, directly established by True Parents and of which They are truly proud.

It is the only hospital in S Korea that can proudly reveal True Parents to the world. This is the large photograph of True Parents leading up the stairs to the hospital lobby.

There is the St. Mary's Hospital displaying the Image of Jesus and of Mary, but what hospital has True Parents precious photo on the first floor of the lobby? And we proudly bestow an amethyst bestowed upon us by True Parents.

With the Blessing True Parents gave, I hope that everyone who enters the hospital receives much spiritual energy emitted from the amethyst, and that they are always healthy. The large promotional display on the 2nd floor lists the hospital's history and introduces True Parents presiding over the Opening Ceremony.

The 2nd Feature is that it is the Universal Holy Ground where True Father underwent His Universal Seong Hwa.

It is a hospital that has played an important role for True Mother's health and well-being until recently.

PL's words during the Cheonwon Gung Cheonwon Church's worship service July 12th.

You need to live in this Place, even if you are a person lying down in the Cheonshim Place of this Hospital, it is a Place where True Father went to the SW, and even to our last breath we can live a life of gratitude.

Like PL's words, we hope that BF's around the world will lead happy, healthy lives and when the final days come, we hope you will have this hospital for your last days passing (even where Father spent His Passing Days).

It is a Place where Rev. Bo Hi Pak and I Yu Won and other Disciples spent their final days, contemplating through our hospital environment before going to the SW.

Several years ago, when hospital management was in a difficult situation, various leaders reported to True Mother multiple time, 'Mother, it is difficult to continue supporting the hospital like this. We must downsize it to an out-patient clinic, or close high-expenditure departments like the emergency room and orthopedics.'

At that time, True Mother firmly responded to the continuous reports, 'I do not want to (do it). They say it is the only emergency room operating that is capable of performing surgeries. If we close it, what will the residents of Gapyeong do?'

Following continued reports, True Mother also said, 'I also need to receive treatment.' And She protected the hospital until the end.

Experiencing 2025 and 2026, when our hospital roles were crucial during the difficulties True Mother underwent amid political and legal hardships, we are filled with emotion and amazement at True Mother's profound insight to resolve to maintain the hospital saying, 'I also need to receive treatment.'

The Third Feature: As True Mother said that the H and E HJ CheonBo TC and Magnolia Hospital should maintain harmony inside and out, completely heal the human beings who are ill both spiritually and physically. It is the only hospital able through Spirit and Truth.

Particularly this year, under the active internal and external support of Pres. Lee Gi-seong, centering on the CheonBo TC, our hospital and the Sun Hak and Seonghwa Universities have formed a consultive body for the academization and features of healing that are mutually cooperative.

Furthermore, it is most the hospital that combined Western and Oriental healing medicine, actually carrying out treatments for both spirit and body for BFs.

TYSM HPs for submitting this fourth HJ Report today. Since Chairman I Sang Mon took office at the hospital in Feb 25, there have been 3 reports, and Operator Kim Jin Ah gave the report saying the Orthopedics Dept. broadened and 12 people actually underwent surgery.

We gave the report regarding the health checks, and afterward, many BFs visited. And I want to express

my gratitude for all who have shown deep interest and dedicated devotion to the hospital. applause

Today, we want to introduce a portion of the content recently broadcast about our hospital and treatment center. First, contents of Yong I Bo Gang Medical Encyclopedia focusing on the media with our hospital background.

'This is a hospital where a lot of cancer patients came. Here, a person with abdominal pain came. There are many cancer patients, but here we see why, because the cancer cells want to protect themselves in an acid environment. So the stress actually became the foundation where cancer could grow.

So, through this high temperature device radiating this red light, we can get rid of the cancer cells. Testimony: I felt rage and despair, asking why this happened to me. But there are a lot of people who die because of that. It is not really recovered through surgery.

'Do you have any respiratory problems?' the doctor asks. If we don't support immunity, the body is inflamed. It felt like my heart was disabled to want to do anything. That might be normal, but the immunity cells would attack themselves and the immunity would collapse.

We also have a lecture education content centering on the media coverage. We have various lecture topics every months for patients and local residents. The Yong I Bok? was also proposed after the hospital staff saw our presentations and lectures.

Dec. 1, 2025, True Mother stated in the courtroom:

'Everyone, come to Gapyeong and see what I have done.'

Our hospital is also making efforts for it to be known through TV drama, movie filming as well as medical-related press and broadcasting companies.

Here is a clip from the film, 'Wonderful World' which was highly broadcast last year...

video

Next, a national welfare health project that many BF members may not be aware of. On March 26th the Ministry of Health and Welfare launched Integrated Health Care Medical Services as a national program for elderly patients who find it difficult to visit a hospital. Our hospital is the only one in the region to offer a Home Medical Center, initiating home visits in 5 townships and 1 town in Gapyeong County

These are national projects where the hospital, doctor, nurse and a social worker visit the patients residence to conduct medical checkups and treatments. This is for elderly that have been diagnosed with chronic illnesses (or such as stroke, or? disease) who are very difficult to directly visit a hospital.

This also has nursing facilities for the patient to stay at home instead of going to a nursing facility outside of the home, receiving medical checkups and treatments at home, also because of economic limitations.

We are asked how we can manage, even traveling for an hour to go and conduct home medical care. But these were the Words of True Mother, that no other is doing it, and we would have to do it, and we could contribute significantly if other hospitals do it as well. Please support this.

We had a small ceremony to mark our 23rd anniversary and it was amidst joy and happiness with people expressing the gratitude that our hospital exists.

I want to emphasize that, for a healthier and longevity of life, from the perspective of SW, there might be no hospital that understands the SW as ours does. May you all live to a ripe old age, and when the final days of your life approach, please make good use of our hospital.

Once again, deepest gratitude for this chance to give this report. TYVM.

True Mother's Words

CP must become a Place where members grow and resurrect. As the head of the history, we must run many WSs and make them run automatically, strengthen counseling and put effort into the 2nd gen education'

At the TC, there are so many volunteers and Workshop for the B wives and the general and other WSs. We are seeing #'s increase. A lot of those to go to the Moshim Workshop, so centering on Heavenly Parent and True Parents, where we attend the Abel Type and the 40-day where we attend for the Cain type.

A lot of 40-day have a heart of volunteering and as academy they go out to the nation in the international volunteer course after realizing True Parents's Love.

testimony: A daughter I could not love, I felt I was a bad person who could not practice True Father's Words, but I had felt with my head not my heart. When realizing how the Parents were loving me so deep. Now, I can't believe how beautiful the family members look. I saw that I had not been able to love myself until now.

Many had the same kind of realization

testimony: By some kind of pull, I who was distant, came to the Workshop, and became trusting of the Will and guidance even when I didn't want to. This person entered the UPA University and is preparing to become a Cheon Il Guk leader.

True Mother: I have resolved for us to return to the early church Spirit and Truth

These are the essential Words of our various WSs.

True Parents's said: Spirit does not refer to spiritual power or action but the power of God's Love that brings harmony and resonance of the SW and PW through Divine Love.

It is God's Love resonating in our daily lives and being shown in fulfillment of these Words.

Our trainees offered prayer exceeding 24 hours, so among our members and leaders, there are people who said 'Why don't we shorten the devotion' but those who are resonating, their prayers and devotions become deeper to sincerely want to offer 24-hour prayers.

Many said they wanted to participate as well, joining their devotion and resonance experience.

True Mother: I waited for a long time to see you. The needle in the sandstorm I was trying to find is precisely you.

Given to the 5th Yeongseong Workshop... And to the 8th and 9th Workshop, True Mother:

'You are my direct children.'

'We must bring a culture spiritually bright. Cheon Shim Won is the Place that cultivates people who can share the Voice of Heaven and Speak the Heart of Heaven. No one can come and sway it. The SW and the earthly world must become one and move forward.'

Sometimes PL will speak of those who say they cannot hear the spiritual messages... It makes me feel ill. But when True Mother said one of the missions given to Cheon Shim Won was to being and cultivate people who could know the Heart of Heaven and convey it. 'No one can come and sway it.'

Our 2nd and 3rd gens are coming into the position to directly communicate. Also, we have the short-term WSs, condensing the Content of the long-term WSs. Every weekend, the weekend WSs. And tomorrow is the 1,740th weekend Workshop,

also the Cheonshim Resonance Prayer Workshop and Hyo Jeong Fishing Devotion Workshop, Unity of Body and Mind Spirituality Workshop, True Family Happiness education, Cheon Il Guk Chosen People Workshop, and Special WSs of our itinerants where they do CheonBo Tours.

And this Cheonshim Resonance Prayer Workshop, we are encouraging to see the 15th, and it is not just for devotion but really a time to become one with our HMM and for overcoming this difficult situation.

This is True Father's Words:

The Workshop that compressed the 40-day into 3 days is the Cheonshim Resonance Prayer Workshop, a time to learn to resonate with the SW for 3 days.

When you go home and live the life of a practitioner, when you collide with the

world, the AGS world will let you know things. There is no need to fear. You are not fighting alone. Heavenly Parent, True Parents and AGSs are together.

There is reliable background. You can lean back to the SW and move forward.'

'And we must do witnessing through this Workshop. However, witnessing is not done by my own power. So, we must be able to pray properly. To do that for these 3 days, we must properly and correctly learn how to pray, purifying ourselves when negative thoughts arise and when we always treat them with the Heart that they are True Parents's children, representing that Heaven's Heart to them.

So, through this 3-day Workshop where they resonate with this cheonshim, learning how to pray, how to do one-heart and calling out prayers, really engrafting this into the churches...

So, this hyojeong church when we participated in this service, 30 were new members, and such a grace-filled time, but even more the grace that our tribal messiahs and leaders are centering on these prayers and able to see the new guests gathering...

So, during the first resonance prayer, this card content:

Firstly, for the Will of Heavenly Parent and True Parents and True Mother's longevity and return to the Palace and for the pastor's family (we added that) and for our IP's wishes... I have made this one-heart resonance prayer card. I gave this to utilize in the field, both horizontally and vertically, all our prayers included.

I put the name, including everything, One-Heart Resonance Prayer Card, and the idea to put the names of the VIPs. Even in the same church, we didn't know the names of the witnessing guests, that more really can know.

When I asked, 'Do you know the dream of our b and s? No one raised their hand. But now more are raising our hands. True Mother said it is better for us to offer devotion, writing down the person... Offering devotion where all of the names involved are written on the card... and more power and might and energy, sometimes holding hands or laying hands upon the head and shoulders of the central person object of prayer.

even though we are apart in our family, we can offer this one-heart prayer and gather in the church for this prayer, making this atmosphere. There is a group practicing this and testimony:

We are dividing into groups of 3 and 4 practicing this. And 3 witnessing guests and dormant members participating in the 40-day. And once a week we gather to talk about the contents we are praying for, and tears flow with realizing we are each not alone. A power to love wells up. I think this is a life in Heaven.

So through this and the fishing and hyojinjeong Workshop, we are able to be reborn through hyoshim and filial piety.

Also, the mind and body and family happiness and chosen people WSs we are really cleansing ourselves and the nation. And True Parents gave the Words that there are two ways to unite our mind and body:

First: hit our body

Second: give energy to our mind to pull our body

This really purifies and then go deeper to fill our hearts with gratitude and joy

Third: We deeply experience and treasure Heavenly Parent's Heart.

Extra step is cheonshimhwa to listen to and feel shimjeong of Heavenly Parent

Happiness 3-day has the physical, psychological and spiritual centering on True Parents Words as a model for my life.

True Mother: Now the internal and external elements for Cheon Il Guk have been established, but the people have not reached this standard. Then why has witnessing been blocked? The reason is that we have not become models of true families and true love.'

So, through this true family happiness Workshop, before doing this, I had the heart that I don't have, I was not in the position to do this Workshop and how could I practice this myself. I realized there were a lot of things I was not able to do for my wife, not able to express, and I thought to try to express this through a letter to my wife and give it to her.

This actually became a book with the photos, and with a heart of gratitude I shared this. And one letter

entry:

'A woman's belly is the most sacred imprint of life in the world. Your changed belly is not to be ashamed of, but is the most sacred, holy mark of love where five lives took root in this land. The swollen belly was the earth that embraced and raised those five lives of children, and your rough hands were the sturdy shield that protected our family. We confess only now that your swollen body was the noble imprint of life that you bore alone for the sake of our family.' applause TYVM

Actually, after giving birth to 5 children, several times I thought of my wife, 'Why don't you lose weight?' and was not able to express the gratitude to my wife for her body, so that my wife could not really receive that, but I wanted to share my heart through these letters and made it a book. And this is the letter that I gave to my wife. Amazingly, this was finished after preparing it for 3 months, and it was amazingly finished on the 1st day of the Family Happiness Workshop.

True Father's Words: Satan knows that the first Place where Heavenly Parent Dwells is the Family. He strikes the family first. Where is the Place he targets first in order to strike the family? What Satan targets first is precisely the couple relationship.

If the couple collapses, the entire family collapses. But if the couple becomes one with true love, no matter what trials come, and if the children are carrying a huge problem, that family is always accompanied by Heaven.'

To become one as a couple you need the heart to really put up effort. Sometimes there is a small understanding that can become big, except for our heartistic effort.

Secretary General Pang Sang Il said that even if you win outside, you need to lose within your household... lose to your spouse. I truly believe that when we are able to do so, we can become a true family centered on True Parents's true love.

And a husband who really can't express their love and emotions through words, I want to ask you to try writing it down in a letter. And this Cheon Il Guk Chosen People Epic 3-Day Workshop is where we center on the education of the chosen people, the pilgrimages and volunteering.

True Mother has given the chosen people direction for the BF's to become one with True Parents. So, this great Epic of the chosen people needs the BF's to raise this climate of the reason we are conducting this Workshop.

True Mother: CP is the Holy Ground prepared by Heaven to save humankind. It is the capitol of the Substantial Cheon Il Guk. Therefore, public officials of Gapyeong and members around the world must become one and completely restore the GY Region.

Not only the members who are living in the Gapyeong Region, but internationally all members should give efforts in restoring GY. These are the Words of True Mother given to us ten years ago. So, for these Words to not be fallen to the ground, with a heart to support, we were able to launch the Gapyeong Hyo Jeong Volunteer Corps' where a total of 1,300 volunteer activities have been conducted from September 20, 2024 up to the present every day, since from when we were able to see this GPP Workshop.

Centering on these trainees we went commemorating the 74th Korean War Anniversary Event. We participated in the Event. We see that there were a lot of students who volunteered to participate, and over 100 student soldiers were in Gapyeong, and with a heart of offering condolences, we took this photo.

And in Hanlanyi in Seorang Town, there is a battlefield memorial monument of this really big battle. It is also the one that actually shifted the Korean War that was here in Seorak. We offered our prayer gathering, but because it was raining a lot, centering on the staff, we offered our prayers.

However, we had the feeling that we needed to do another prayer here with our trainees July 2nd.

video

There are a lot of proclamations and rallies on earth, but these are not just for the earth but they have greater impact in the SW, and really we are receiving cooperation through the organized SW. They are able to unfold more Providence on the earth.

True Parents's Words: We need to liberate and bless 430 generations of our ancestors and resolve the resentful spirits within us and really organize the SW. Centering on this Seorang myeon, there was this Gapyeong battle... this Yeonmun sang Battle, we did liberation for the ones who sacrificed their lives, the

Korean armies, the UN armies, the Chinese armies...

The this is the name of the hyojeong volunteers, the GPP trainees and the 3-day Workshop Japanese members funded this actually in liberating these spirits, and it had the similar spirit power of the first liberation ceremony we did. We did the 2nd liberation ceremony last July 10th.

The Korean trainees and the Korean office have gathered their funds in support. I was praying, 'Please show me in my dreams if I am doing it right.' I didn't actually have a dream, but when I woke up, my son who is in high school received an award given by the Chief of Staff of the army.

He said he actually doesn't know why he received this away, but when I saw this in this small Seorak Town, how could it be, but it was right after we did the liberations, and I realized this is not given to my son, but because of the support of our members and the liberations, this is the sign that the SW is showing, and every time when we pray, the SW will show the sign.

Also, the filial piety junwongo junwonsak for faithful women and other for richest women... and I was thinking to liberate this person, but PL said he already liberated... He actually cut his hand and his mother who was having a seizure, he fed her this blood, and her mother tasting it and screaming for the physical health of his father, he trained a falcon to hunt the quails and he has a similar story:

Actually capturing a quail to feed to his mother when his mother... (this is all that is being translated like this in pieces) He was such a filial son that he actually gave his mother his blood and gave some explanation.

And we offered some prayers, and the volunteer activities around this pavilion, I saw that two of them were not liberated, so Ki yong chun and Ajut, we did the liberation for these two spirits. And amazingly, my son received an award which is a filial duty award. applause

I asked my son, 'Are you the filial son in the school? Why did you received this?' And he said he did not know. I also realized that, when we liberated these filial sons and daughter, I was able to see that his is the works of Heaven.

Also, before coming to this Cheonwon Complex, there is a library. And next to it there is a Freedom Defender Martyr Spirits Tower that has the names of the casualties (already liberated), but one of the people said that whenever they are going to this Place, they saw that one person was not actually liberated. And we liberated that person last week, Kim Hyon Mun.

This person is a martyr and I realized how much he has been in sorrow. All 62 of the others were already liberated, but not him. And we liberated him and his wife. Also, the... Afterward, people came and cleaned and really took care of this Place and put flowers.

I realized that the SW is really educating us through this process.

Hoon Dok Hae

One must offer devotion to stand in the position of official recognition. Devotion is the act of dropping the anchor line of the Heaven realm into a place where there is none. It is needing to stitch to make the anchor line extend downward. When you offer devotion, the anchor comes down in that manner.

You can freely ascend to the Heavenly realm by riding that descending line. If it is not there, you cannot ascend. Therefore, you must offer the devotion to tie and set up the anchor line. Once it is secured, you can climb up it as much as you like.

When this happens, the gate of prayer opens, and as you offer devotion, it expands horizontally depending on the anchor line. As you pray more and more, it expands and ceases to be just an anchor, but becomes a ladder. With more devotion, it becomes a mountain. At the top of that high mountain you meet and connect with the Heavenly realm.

To build an economic foundation that can remain for the nation and the world, establish indemnity conditions for the liberation of all people. And stand in the position where you can receive official recognition from both God and Satan.

Because Father lived that way, that is why He went to CP every single day until midnight... and because he longed to see that Place again, He would go back again the next morning.

Father always offered devotion. You must offer devotion, bundle it and offer it back to Heaven. Only when you offer it back with your own blood and sweat, can Heaven as the Subject that Supplied the materials to create the nation and the world, not feel ashamed. 'I lived according to the Principle.'

Even after 80 years old, I added devotion every single day, whether while shedding blood or walking, moving one more step, never subtracting anything. For Me, there was no such word as 'stagnation'. Stagnation connects to defeat and death, while development connects to prosperity and the Heaven realm (Love and Life).

You must receive the inspiration of the Holy Spirit, even if you rebel against God and rebel against the Son of Man, you can be forgiven, but to rebel against the Holy Spirit, you cannot be forgiven. Just as a baby in the Mother's Womb can grow if the Mother is still there, even if the Father has passed away.

All beings must go through the Mother's Womb first and respect the Mother before respecting the Father. when sons and daughters have good and joyful things happen, they come to seek the Mother first. Sons and daughter on Heaven's side, who absolutely obey the Mother's Words, also obey the Father's Words and God's Words
