Opening Prayer of Gratitude

Mody Honorable Heavenly Parent

Beloved True Parents of HEH

We sincerely thank You for calling us today to this Cheon Shim Won which is filled with boundless Love and for granting us the grace of rebirth and resurrection.

Beloved Heavenly Parent, we confess that while we called ourselves Blessed families, we did not truly know True Parents, nor did we attend Them properly. At this time, we earnestly repent that we looked to the worldly environments.

Before the Providence of Heaven, we were swayed by the words of those around us rather than the Words of True Parents looking at reality as what was before our eyes, rather than looking through the eyes of

faith. Therefore, we failed to fully realize the precious status and cosmic Value of HMM, the OBD and True Mother Who You sent after 6,000 years.

We failed to deeply comprehend the Path of True Love and Sacrifice that True Mother has Walked for the sake of humankind. Yet, True Mother has not given up on us and has Gifted us Cheon Shim Won, the most precious Place in this world. She has awakened our sleeping Hyo Jeong, the filial heart and Heavenly mind.

And as the reborn in Cheon Shim Won of True Mother's Womb, teaching us what true joy is, we will never forget True Mother's True Love and Her educating us directly about what Heavenly Parent's Dream is and never to pass down the history of indemnity. Therefore, through this Cheon Shim Won devotion, please open our spiritual eyes of understanding, and guide us to resonate with True Mother's Cosmic Mission and Heart, so that this time becomes one to fulfill Mother's Will, unshakeable amidst any environment and trial, so that the devotion of blood, sweat and tears by members around the world may bring Mother's swift return, and let us be children who earnestly return True Mother's Love.

True Mother... go out and multiply more to become pure water

song lyric

Just one person

To find that one person
we gathered here in Jardim
We prayed to find that one person

We poured out our hearts for that one person
we offered our sincere devotion with tears
for that one person
Even today we do not stop
We believe that Heaven will surely respond to sincere devotion
Just one person
Meeting even one person is never by chance
There were prayers
There were tears

There was sincere devotion
Before meeting that one person
There were countless acts of sincere devotion
The tears shed for just one person are never in vain

A heartfelt longing for one person always reaches Heaven

Heaven works through sincere devotion

Even if you offer sincere devotion through fasting, stay up all night in prayer, and pour out all your heart, it is still difficult to witness to even one person.

True Father made this prophesy long ago

Back in the 1960s and 1970s, during the early days of the Unification Church in Korea, True Father said:

Witnessing is difficult, isn't it?

How difficult is it to bring even one person through witnessing?

But don't worry

When the time comes

When God comes down,

the day will come when you won't even have to witness.

Hundreds of people will line up saying,

'We want to join the Unification Church,

and come to submit their membership application.'

True Mother: Our sincerity and efforts are measured by how much we have embraced our brothers and sisters, our tribe, our nation, and our neighbors with love.

That is the fruit of witnessing.

Then what should we do?

We've already come to the conclusion that our current actions and methods are not enough, haven't we?

So what are we going to do?

Forget about eating. Forget about sleeping. Think about saving even one life.

When a new life is born, how mysterious and eagerly awaited it is!

You will feel Heaven's blessing

We have been blessed with the opportunity to bring forth one new life every single day depending on our own efforts.

So, are we going to be lazy?

How many people have you witnessed to and how many lives have you saved?

According to that, there will be a hero's reward waiting for you.

You are the one who created it for yourself.

I hope none of you will try to avoid that path.

No matter what position of responsibility you hold, we all have one goal:

Make all the people of the world citizens of Cheon Il Guk.

That is both the blessing we have received and the purpose for which we were born.

International Yeongseong Trainee

He bows... steps out and bows...

gratitude

Hey everyone... the son, 2nd gen, third child of an amazing family... wife from Brazil, he from Hungary... grace and transformation from this Workshop

As third child, I didn't make a sound until I was 2 I'm told, but I was happy, living a care-free life of a child, but a mark on me was left on me that I didn't fully understand until much later, when I was ten and my elder brother passed to the SW.

I grew distant from the church as a teen, thinking of everyone more perfect than me, and my lowest was at my brothers Blessing, not understanding it, then considering myself an atheist, surrounding myself with those who would support that, but developed self hatred. The solution became for a while, alcohol, and then I would have social laughs, but what I had inherited from my grandfather became a serious problem.

My mother came to me with a proposal that I could marry someone outside of the church but sign up for the Blessing. I refused to even look at it, but let her browse for me. The very first person she showed me is my wife. I fell in love right away. But my mother wanted to find someone closer, so I never sent the message. Two weeks later though she contacted me herself, and the rest is history.

I gave up drinking completely and forever and began a life of faith. I'm still far from the husband she deserves and haven't come close to repaying what she and Heavenly Parent have given me, but I will spend my life trying.

We went to the 40-day Workshop together and I like to share several experiences. A few years ago, I started noticing pain in my leg I found out came from training in the gym, sometimes unable to walk, run or swim. Several doctors had no answer, just surprised of a back problem in such a young man. But I did

not lose hope and 2026 I determined that my faith in True Mother would heal me.

The pain was strong along with my faith, especially going up and singing, even I should have been hospitalized, hiding the pain and singing. After the hardest night came the thousand bows challenge. It frightened me not to be there for True Mother. Straight from bed, I took a pain killer and started bowing.

Then something I can't explain, the thousand bows felt like flying, no pain, and I felt immense gratitude that I could devote myself for Mother. The next day I couldn't get out of bed, unable to move, so I stayed in bed all day, but the day after that I was literally running.

The man crawled to Jesus, until the Son of God told him to get up and walk, it felt like the Daughter of God healed me. I connected to my brother. For years I had invited him and then forgot about him again, but during the chanyang I felt I should catch up with him and invite him really into my life. Suddenly, a thought I'd suppressed for a very long time burst out, 'Why was it you that had to go and not me?' It was not until I apologized to him, before I could move forward and fulfill this mission in both of our names... applause

Moving forward from the Workshop, I want to grow together with my wife, for her and for Heavenly Parent and True Parents that we both be a living witness to the truth of True Parents and the Blessing, truly leading by example. applause TYSM Heavenly Parent and True Parents I love You He makes a heart

'Let Us Rise Again'

True Father told me last week while offering the praise... 'I was praying 16 hours a day alone, but you

have each other. Let us feel hope seeing the members here.'

Let us feel hope together and offer this praise

Yun Chan Hu

TESTIMONY

gratitude

eldest son of 1 son and 1 daughters of Mokpo University Church... grace of Heavenly Parent and True Parents in the 22nd Yeongseong Workshop... I was a short-term mission to Bolivia and heard that M had entered the DC and I was in such shock that I could not concentrate. However, M gave us the Word to do our best, even in the hardest environment. I still had times wanting to give up, but Heaven gave the Message not to give up, especially with Mother so difficult.

After returning to Korea, deployed as a Cheonwon Gung staff member, but I faced realities and how people hated or mistrusted each other, I felt disillusionment along with the thought not to return to UPA, and a social hurdle began, but think of True Mother not giving up in Her much more difficult situation it is not right, and I must move forward.

I devoted to campus witnessing and studies but doubts remained if it was okay for me to graduate with such conflicting thoughts and am I qualified to graduate. I thought going to Workshop might help me sort out and organize the direction to move forward with the Will.

All the education directly by True Father, and with the wonderful lectures, the feeling still remaining until now, I felt that it was not just a trait of the great lectures, but of True Father's Heart wanting each to be awakened. I realized that True Parents are always with us expressing love to each and every one of us.

My prayer, 'Am I lacking as I am?' and Heaven gave me answers through others, 'It is fine, True Mother does not look for a perfect child, but those who move forward to give their best. I hope this becomes a

time where you do your best and feel the Heart of Heavenly Parent and True Parents in this Workshop.' I felt that Heavenly Parent was speaking to me through those around me and gratitude swept over me, with True Parents grace and love.

The 24-hour devotion stands out with each trainee having different goals and aspects, and how could we really untie, but many trainees agreed to the suddenly suggested program of 24 hours, and I realized the others' hearts resurrected and transformed coming out from the sincerity devotion From no hope to seeing this, I felt truly amazed and this itself is a miracle.

I had been content to understand the Words of True Parents as a knowledge and also the different dimensions of practice and resemblance of True Parents's Heart, and every moment became an education in the Workshop, offering devotion and living together as a community in this process of a life of faith, and responding to orders and not neglecting the small devotion to be trusted by Heaven. Thinking of the Lifetime of True Parents, I could face my gratitude as well as my own shortcomings, and thinking of all those who endured so much without giving up.

I discovered myself as someone who easily complained and give up in the face of difficulties, but how True Parents look for children who trust Heaven until the end. It was the love of Heavenly Parent Who lifted me up and saved me when I was collapsing, so rather than hiding my shortcomings, I want to be honest before Heaven and challenge anew and be the child who follows Parents to the very end, no loved for being perfect, but even lacking does not leave the Side of True Parents, so that there is no wavering from that, and become a leader of that process.

I will offer my devotion and not let it end as a one-time thing but go forward and be strength to HPs...

'Stand Up'

Japanese Report

Kim Hyung Jun

Team Leader of Workshop

255 40-day Workshop

Beloved, Greetings (He bows)

Loving Heaven and humanity and one's country (topic)

Earnest devotion to inherit the Heart of True Parents:

What is loving H. No matter how vast Heaven may be, that is external. To move the Heart of Heavenly Parent is love. When we say, 'Loving humanity', the human is not an individual, but humankind. Loving one's country, a country does not follow just any person, but the person who loves the country more than anyone else.

True Parents have taught us that we must love Heaven, humanity and our country because this 285th Workshop in the month of June, the month of patriots, we reflect on the true meaning of patriotism. It means loving Heavenly Parent and loving humanity. Who are b and s, realizing Parents' Ideal Word of Creation. This Workshop focused our devotion above all else on understanding the painful Heart of True Parents Who walked every path for the sake of every person.

The resonance prayer gathered the heart of love, loving country devotion program and martyrs and spirits who sacrificed themselves to love other people, and the Cheon Shim Won devotion centering on the Heart of Heaven this testimony

True Parents. When 3 brothers become one and 6 people become one, they can turn Heaven upside down. When the 4PF becomes one, there is nothing that cannot be done. That is the pride of our Unification

Church. Comrades of faith are necessary. 4PF is necessary. Offering prayer on a mountain, 3 or 4 must pray together and afterward consult with each other. When you consult outside people, satanic can enter. Three or four people who can truly rely on each other, people around them will look upon them with envy. And then, God's Will shall naturally multiply.

Three people of that beautiful appearance who can truly rely on each other, advancing together and exerting an infinite power... video

In Japanese elementary school, there was a festival and a representative from the 8th grade and the brother is showing is utmost talent challenging the highest, but too difficult to go over what was taller than his height... and trying and failing again, so now he is crying because he is upset... and again he fails... What would you tell this boy? His classmates came around and encouraged him... beautiful... Then, he tried again and unbelievably he did it... Encouragements of others, has amazing power...

This skater fell... By encouragement, they can have an amazing turning point... and that skater later won... When we come together, it gives great motivation and strength to each other. So, this is how we need to love humanity.

One-heart prayer experience is like this, laying themselves down before Heaven for shared resonance and empathy, able to be spiritually one with Heavenly Parent and understand their fellow companions... video...

testimony: So, I know True Mother's situation is very bad. Even when I met True Mother, She had no vision and was speaking like a baby. When I was giving ansu, I came to True Mother. True Mother has serious Physical condition, so I made resolution. She has better vision now and some better. My eldest son, I told him this is the time to believe in jeongseong and CP and all could be gained. And True Mother TY for inviting us here, and I miss you so much... Please return to the Palace.

Now, for the patriotic spirits who sacrificed themselves :

True Parents' Words: Ultimately, God had to protect the Son and Daughter Who came to this time for His Will. And the entry of the UN into this war was brought about by Heavenly Parent's resolution and we call the Korean War a Holy War.

On the 6th day, we boarded two helicopters and went to Cheongju... My Husband visited His parents' graves and offered flowers. The sky of my Hometown, Anju was dimly visible in the distance. My hometown house that had warmly embraced Me was still there with corn still growing in the back yard.

Where was my maternal grandfather's grave? I was curious about everything. Yet, I did not show any emotion. The reason we went to North Korea was not because We wanted to visit our hometown, or because We Wanted to sight-see the Mountains there, but because We wanted to meet Kim Il Sung and negotiate the future of the nation.

For this Calling, I should not selfishly display My Personal Emotions. I believe that some day would come in the future when anyone could freely visit their hometown. (from 'Mother of Peace')

The Korean War of 1950 is expressed as an historical Holy War in which countless countries from around the world were fully mobilized to protect True Parents, the Messiah. Regrettably, a history of pain had not yet been concluded and continued as a wound.

And the feeling They bore of not being able to tread upon Their Homelands was agonizing in Their Hearts over long years, which our trainees also came to feel and share. Thinking about such regrettable division and pain spanning a long period of 76 years, in order to further understand and comfort the Heart of HMM, True Mother, our trainees performed a 3-day devotion course.

First was the devotion of folding paper cranes containing True Mother's Well Being and yearning for the unification of South Korea. Second, was the Cheon Shim Won prayer devotion and writing a letter of love to True Mother. Thirdly, the Memorial Tower of Praying Meeting... the Prayer Devotion toward the Victory of H unified Korea.

The cranes, one of the ten Korean traditional symbols of longevity, peace, nobility and wisdom. And above all, longing for Mother's well being and peaceful unification, 'Mother, we missed You.' 'Mother, please return to Cheonjeong Gung quickly.' We will surely achieve Victory for H unified Korea with unified heart' (these messages on the cranes) and presenting them with a unified prayer meeting, centering on the love we received from True Mother, and also the time to write the letters of love to be read to True Mother.

We presented the paper cranes at the Monument Tower of the martyrs and spirits, with yearning for unified Korea prayer and Mother reading aloud the letters.

True Father's Words: Even now at the age of 90, I ask and think about why God called Me. It was not because of a fine appearance, great character or a strong conviction. I was mainly a stubborn, foolish and insignificant boy. If there was anything that God wanted to take from Me, it must have been an honest heart seeking and yearning for God, an affectionate love towards God.

No matter when or where, the most important thing is love. God called Me while searching for someone who lives with a heart of love and can cut through something with the sword of love even when facing trials.

I was a country boy with nothing to boast of. Even now, I am a foolish Person desperately hanging solely onto God's Love, and earnest and affectionate Heart of Love directed toward Heavenly Parent.

A trainee, Hak Yo Chong, who entered a 245 general Workshop, was a young person who at that time was extremely depressed, enveloped in a deep despair. I would read the testimony submitted to the Korean Office at that time. At Cheon Shim Won I offered a prayer lamenting my fate, saying I was lonely. Countless tears poured, and tears flowed endlessly, until I reached the Tree of Blessing.

Along the way to the Holy Ground, the thought suddenly struck me, 'True Mother has walked this lonely Path all by Herself.' I realized that there was not a single emotion or pain I had felt that True Mother had not experienced even more. I reflected and repented for only thinking about my pain, and from now on, I will more deeply reflect True Mother's Heart and become a mature child.

This trainee, through her devotion has felt and inherited True Mother's Heart and an amazing response came from Heven, and her and her spouse graduated last week, moving forward with devotion.

So, I am the one who graduated and despite the difficulty and after devotions, I met my spouse and despite any difficulties, if we move forward we can overcome any difficulties... Yay... applause

(truly beautiful couple)

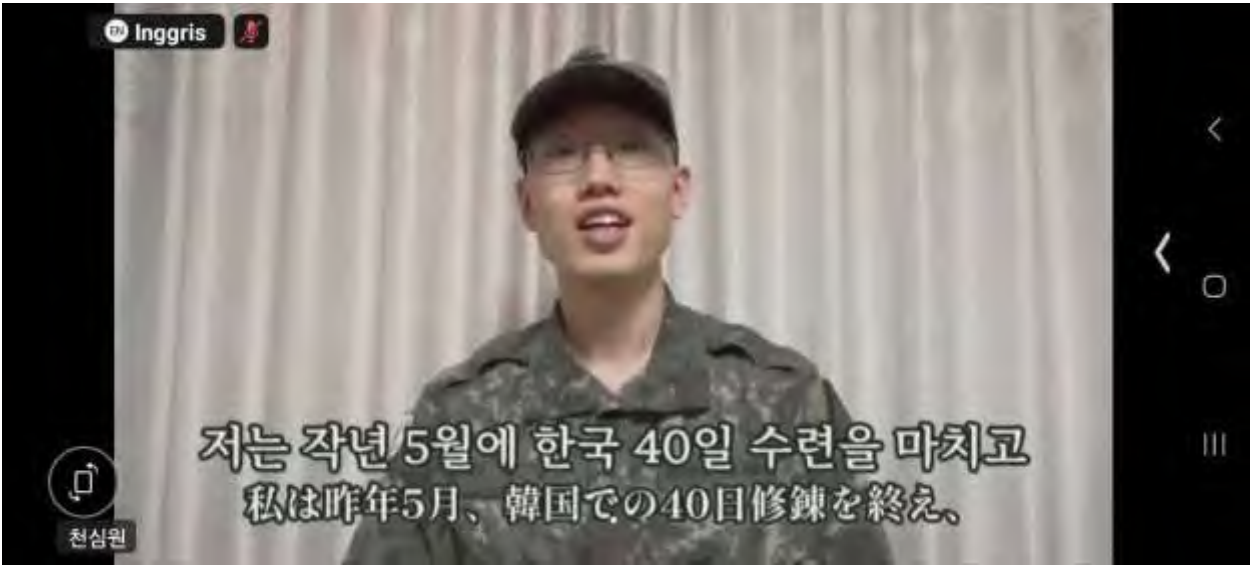

I Je Yong

TESTIMONY

He failed the 2020 Blessing and was about to give up on his life. But then resolved to live solely for True Parents. Living in Japan had hesitated a lot about whether he should go to military, but decided to go and become someone who could love and protect this country Korea and definitely want to play, 'Spring Maiden' which True Mother loves. (He did not have to enter military service, but entered voluntarily,) and had promised he would come back to the TC, finish his bows and devotions and shared his recent news with us. He wanted to sing for True Mother as in this video when he performed it for True Mother:

In the beginning of service asking, 'What am I doing here?' But then every day became a gift and loving Korea more and a process of preparation for my Blessing, all because of the devotion of my parents and the love of Heavenly Parent and True Parents, and until the end, I will live for Them.

Our use of Unification Church Movement, they go to military voluntarily, and he will surely finish safely and come back, having met his spouse and doing well now with the Blessing. He told me that centering on the Cheon Shim Won devotion is a love.

HMH, True Mother, through a Life of devotion has shown us a life of Love and Devotion for realization the ideal of Creation where all unite as one and offering devotion that can move Heaven even more, and all of us will do our best.

BREAK

Busking

Hoon Dok Hae

The TC is the stronghold that liberates you from evil spirits. Father hoped that even the most hideous, death-row prisoners in a prison would receive Heaven's confession. When Jesus died on the cross, He said to the thief on His right, 'Today you will be with Me in the paradise.'

Father has fought to give new hope and aspirations to people with stories mixed with tears. Many spirits enter into people, but Cheonpyeong Providence is pulling these spirits out.

Because people today are coming into contact with evil spirits and suffering harm, we must savor this. We were shaking off all evil spirits. CP TC is the stronghold that liberates you from evil spirits. There is also the TC in the SW. Through that TC, we must resolve the spirits from on earth. Now we have cleared away the entire era of indemnity, and the sons and daughters born from now should go strait to the Heaven Realm.

But if you cannot go directly a paradise will be created where Blessed families wait outside the Heaven realm. You must wait until the sins committed by your own children are liberated. You must go to CP TC and hold ancestor liberation and training ceremonies. You must quickly liberate your ancestors and afterward receive the Blessing so that the angelic families of the SW can protect the BF's on earth. Only then will there be no tribulations in the family. Otherwise, you cannot escape.

You will remain as you are in satan's world. You the BF's are tribal messiahs. You must entirely liberate your own clan in both the P and SWs. You have such a responsibility. Up until now in the CP Providence and the work of DMN, by liberating ancestors, the Peace Flag SW is changing into a bright light SW. You must accomplish the ancestor liberation for all your ancestors.

Furthermore, you must witness and educate the people in the direction of liberation of their ancestors. Only then will the pitch black SW become bright. In the future, as you advance with Heavenly Parent and True Parents, the entire SW will be with you. That is the Wish of Heavenly Parent and True Parents and the Content that you must take responsibility for. Aju.

HJ PRAISE

Cheonshim Choir

'Mother's Request'

President Lee Gi-seong's Message

1,616th Special Vigil Devotion. Welcome and congratulations for being here.

This 309th day of True Mother's going to DC. Offering devotion in front of the DC: Today is a day of remembering the UN veterans of the Korean War. Heavenly Parent moved those who protected True Mother and saved True Father. That day the UN of their sacrifice and courage will never be forgotten, and Heavenly Parent's nation of God was saved by those veterans and the contract was made by them.

So, with the history of Heaven, to protect True Mother, that sacrifice will always be remembered. The 1,616th Cheon Shim Won vigil devotion, we offer special devotion for them...

The grand church leader has sent a message: There were 16 countries that joined the Korean War from the UN. So, all this SW will be mobilized 100%, and they will protect True Parents. Let us offer and pile up devotion in the SW tonight.

So, every corner of the world, 19,300 places and now 200 in Cheonwon District, Kong Sang Gu was looking for a bus driver and ten people volunteered. In the past difficult to find even one driver, Cheonshim Church...

opening ceremony yeongseong trainees and we have the seonghwa HARP Workshop trainees, and Taiwanese Workshop, 676 long-term... Seonghwa 40 from elementary to 4th gen (2 4th gen here) and Kang Gug Won Hang Un Sang Qwan Kuk Ki.. Qwang Pastors... 4th gen attending their great grandfathers... Maybe if they are Blessed fast, we will finally see a grand, grand, grand father. Now, people live past 100. Oeg Monsei means we will pass down this generation.

We are coming to a realization. We have seen H Central and S America realizing the Words of True Mother, going out to the branches. True Mother told the court, and to realize True Mother's Words, pure waters are striving to their utmost best to convey True Parents's Words.

We have the 2nd gen from Hungary sharing the testimony.

He should have tremendous grace from his older brother's Blessing, but the extreme of atheism came to him. There are still parents who didn't give spiritual blessing to their children. He lived a secular, earthly life, but still it was not a life of happiness, but it became a self hatred and depression comforted by the alcohol. But the tearful prayer of his mother, just one person just requested the Blessing for him, a Blessing website, and it was the water turned to wine, and now they are a devoted pastoral couple laying a foundation to come to this international Workshop.

So, the more pain in his leg, his faith became stronger and he challenged 1,000 bows and there was a miracle of healing. His worsening leg, after 3 days and 1,000 bows, an amazing healing. The pool of Bethesda, the angels come to the pool and the one who jumps in is the healed one. So, you have to be fast in faith to jump in... But he was not fast enough, but Jesus felt empathy for this patient and told him to rise up and take you mat and walk. They had Sabbath on that day, and there were some Pharisees that told Jesus, he violated the Sabbath, but still experience this miracle.

He could have just said he couldn't do it, and took the pain killer and finished the 1,000 bows and had an amazing healing, this Work of God and Heavenly Parent and True Parents of humankind. And his older brother was Blessed in the SW and had the amazing work of conversing with him. He devoted to work for his wife, God and True Parents. That resolution is tested in the SW and PW and he will be the model. So grateful for him.

Also, In Sang Yu, as the cadet, went on to the mission work, but felt so difficult and many of our b and s

must have felt difficult circumstances but he heard the Voice, 'Never give up'. And I beg you also to never give up.

In this community there were many hatreds and difficulties, but he has risen up again and goes for the education. Still so many people with hatreds and doubts of each other. This is the fallen nature that we have to get ride of, cleanse that fallen nature and H and earth will unfold.

So, he did hard work with his studies. An ambiguous heart is not qualified to become a leader. There should not be an ambiguous leader and give sermons. Then there cannot be a march forward. So, this brother's reflection is good. And he felt the direct education of True Father to him. So, coming here, you must feel that too. There are many responses of Heavenly Parent in various forms that you may have thought were coincidence, but it is not so. It truly is the love of God, living in the direct Dominion Leadership of Heavenly Parent.

You must experience this feeling yourself, not just a motto of words but through God's Lips, giving an education to us. Through the lips of Aaron too, God is teaching us.

We have so many b and s in this kind of difficult situation, but his is our hope and a miracle. Do you feel hope through them? Aju.

So, gratitude toward True Parents, this is the love and Providence of Heaven. I will have the unwavering heart of resolution. With this opportunity, I will change my life, I declare it to the cosmos. So, I believe he will be an amazing leader.

The praise today, let us rise up and stand up and march forward. And Kim Yong Jin, loving humanity and Heaven and nation was experienced. The power of one-heart resonance is strong. We saw the Japanese trainee overcome the hurdle by the encouragement of his team... If we gather our hearts like this, the H work will happen. More than 3 and then becoming one.

We have listened to True Father's Words so many times about 3 and more becoming one... This 3-day resonance, if more than 3 gather for the one-heart prayer, we have seen one brother... Have you experience this too? Maybe if you did not come to the Workshop. Still, this prayer becomes a culture, and we feel how it is to look at our b and s from the view of Heaven.

Someone who gives up on their lives and suicides, they have no one to rely on. When this happens in our country, 40 people committing suicide and 2nd gen committing suicide and we send them to seonghwa, let them have at least 3 people to rely on to not give up on their lives. So, this prayer has to be deep rooted in our churches.

After True Father passed, there was no one True Mother could rely on. 'I was all alone.' When 40,000 people become the reliable people, 400,000, 40 million offering devotion for True Mother, it will conclude the hardship of True Mother. All the churches must become reliable for True Mother. What if we are the ones that give worry to True Mother and indemnity piled on True Mother. Come on, come on, come on...

True Mother is giving us strength and energy. Two people become two hundred people, 'True Mother, please gain strength' This must be done. This should have been done. True Mother is saying, 'I'm here.' And there are more people praying and united because I am here.'

In this kind of situation, we must give back the happiness. We must give more results. Ceaseless marching, and True Father will work through us and we will gain more strength. Please I bless you and this session to become such a time.

(PL gave us the strength and graceful time with His Words...)
