Opening Prayer of Gratitude

Most Honorable Heavenly Parent

Beloved True Parents of HEH

We thank You for calling us to this Place Cheon Shim Won, which You have Blessed as the WW HQ of Devotion, the Heart of the Cosmic and the Heavenly Sanctum where Heaven and earth unite to build devotion. Thank You.

Before the Sublime True Love of the Holy Mother Han, True Mother, Who again today offers Devotion with Tears to fulfill Heavenly Parent's Dream amidst the harsh persecution and suffering of the world, we cannot contain our boundless feelings of remorse and apology. Before the cosmic path of the cross and suffering that True Mother is walking, we confess at this hour that we failed to fulfill the responsibility of hyojeong that

we ought to have born as children, and we repent with tears and tears.

Please Work so that the entire spirit world be mobilized for the Truth to be revealed before the world, and

that True Mother return to Cheon jeong Gung as soon as possible. True Mother who worries about Your children and prays for them even amidst the cosmic, difficult trials of the cross. Just as You told us, amidst difficult trials, to have more thanks and gratitude today than yesterday and we desire to offer this no matter what we face.

Just as pure gold is refined in a blazing fire, please work so that our faith will be renewed amidst raging storms. Please hold onto us and work through us and guide our path.

Substantial Holy Spirit, True Mother, just as members move forward with one heart and one mind onsite and online, please mobilize HyoJN, HeungJN, DMN and True Father to work powerfully for all stumbling blocks cleared away. Just as the calming waters of Cheonshim Lake, please let our hearts be and resonate with Heaven's Heart echoing across the Korea Strait and grant strength and courage to Japanese members and members throughout the world. Let us defeat the powers of satanic accusations and let our steps be strong and bold.

Father, please work strongly, for the well being and acquittal and release of True Mother, HMH.

TESTIMONY

Mika Owakowa

gratitude

I am youngest, only daughter of 3 children from NY. This past May, I received the Blessing and want to share the grace from the 3rd International Spirituality Workshop.

Growing up I always had a good conscious and went with my parents wanting to follow after them. I served as a CARP leader in US and Romania. During 3rd year of mission I was struggling and empty inside but still trying to witness, and ended up in the hospital with a panic attack, filled with shame and frustration.

For at least a year afterward my body could not move easily from so much tension in my chest...and could not function well at school. I knew my spirit was hungry for something but couldn't figure out what it was.

Then I heard about the Workshop in America and dropped all my courses. I felt like I was in the Garden of Eden with others reaching for Heaven and my heart was at peace for the first time in a long time.

That's when I found what I was longing for, but at the end, given so much love, but still trapped by what I needed to overcome. I was called to start offering Cheon Shim Won devotion with Mother's plea, but then it began to feel more conditional than actually growing my faith, and I felt a wall building between Mother and myself.

That led me here hoping to be reborn as a child of Heavenly Parent and True Parents and discover resonance with Mother's Heart. On the first day, I was struck by True Father's Words:

Do you believe in True Mother, Who is the Substantial Holy Spirit and Holy Mother Han? How much have you experienced the Love of Mother?'

Tears streamed down for how dishonest I had been about my relationship with True Mother, being complacent and hiding my true heart, not realizing that it was hurting my Heavenly Parent's Heart. That became my starting point, yearning for True Father to guide me closer to True Mother. Tears streamed down...

Two weeks later, we heard the result of Mother's final verdict hearing. What am I offering True Mother? How am I letting each day go by so quickly? I felt so angry and my original mind said to offer more or I'd regret it forever. So, I resolved to offer 1,000 bows... complaints coming on the first day, but to continue, even skipping sleep and meals to complete it in 3 days, I felt joyful wanting to offer this with my all...

On the last day, a question, 'How much of this was a true offering Heavenly Parent could happily accept?' I realized I was offering this devotion to prove myself in action while neglecting what my heart was actually seeking, that Heavenly Parent wants me to be happy and fulfilled too, not constantly giving without receiving.

I was reminded of True Father's Words, 'Only when you receive completely from your Subject Partner do you give completely.' Neglecting to receive from God completely was its own kind of arrogance. Every day our coordinators kept telling us to let go. I always thought that meant pushing myself physically. What Heavenly Parent was actually pushing me toward wasn't pushing harder, it was letting go of this image of myself put together and being vulnerable and honest before Heavenly Parent instead.

I had been trying to stand as subject before Heavenly Parent instead of object first. Even knowing that, I was creating resistance against it. then a member of the staff told me, 'You don't need to rush. Take it easy, one step at a time but with sincerity. I felt H Mother's Love Embrace me.

Ever since my panic attack, I'd been forcing my own break through but that one sentence, 'You don't need to rush' liberated so much baggage and I just cried... That same day, singing 'Mother Dear', the thought came to me, 'I already think you're so beautiful and precious. Why do you say otherwise?' Hearing that, I thought, 'Why do I keep listening to what tells me what I'm not?'

Then I realized that was resentment spirits trying to make me believe I was distant from Mother, blocking Her Heart (voice breaks) The moment I realized that, I was overwhelmed with Mother's Love and broken down with tears.

Right after that, we sang, 'I will love You at the risk of my life' and I truly felt Mother's Life, risking Her own Life, traveling the world to love every child, us before Herself.

As True Father said, 'How much joy have you returned to True Mother? Is your life not a life that attends

Heavenly Parent? Answer these questions to Me individually in the Cheon Shim Won.'

Centering on these Words, I will move forward with Cheon Shim Won and I want to show the world how to become a proud child of Heaven. TY to the Workshop staff and community and everyone for listening.

'You Raise Me Up'

TESTIMONY

Nam Yo San

International Workshop trainee

---

gratitude

youngest son of 3 brothers

Since 11 active as an elite soccer player, traveling all over the country and living at dormitories naturally distanced me from the church, with my eyes only fixed on soccer, and at age 24 I felt my faith drifted.

Then I had to stop playing soccer due to military service issues. It was the most difficult of my life. I had no idea what I should do next or what kind of life I should lead after soccer. At that time, my mother recommended the Yeongseong Workshop and I wanted to be dutiful to her and entered the 22nd General

40-day.

I did not understand why taking time to pray for others was necessary, but saw how it brought the greater joy to my heart. I wanted to know more deeply about Heavenly Parent and True Parents and entered the 21st Yeongseong Workshop. With the thought to do my best and if not helping, leave with no regrets.

I had the will to testify to Heavenly Parent and True Parents by soccer and the way was opened for that motive to help and I found a soccer opportunity. On Fridays I would travel more than 4 hours after the training. The Cheon Shim Won became the greatest strength in my life, but then I had the hamstring injury and I felt everything was stripped away and praying with tears for a long time, I poured out my heart, 'I resolved to live following the path of the Will, so why did You give me such trials' And I heard, 'Go to attend the Workshop'

I decided not to judge with my own mindset any more, and could enter the Workshop even it was already midway. The work to organize the training environment, tough labor, and I had never enjoyed volunteer work before. Working to the mindset that even a single shovel of earth was a good and precious thing, and seeing how the others were even so tire, I felt gratitude instead of hardship and was more grateful to Heavenly Parent for allowing me to come.

I wondered and received more understanding of what attendance was... Through a lecture I heard, 'We must live by attending all people and all things on behalf of Heavenly Parent.' But the question to myself was, 'Who have I really attended properly until now?' The first person who came to mind was my mother. Enduring countless persecutions and threats in Japan, my mother gave up all to come to South Korea for the sake of HPs. She walked the path of countless sacrifices in an unfamiliar land. And only now did I come to realize just a little how many scars and pains were hidden within that.

Until now I had simply thought that my mother was naturally a strong person. I took my mother's tears and sacrifice for granted and failed to express even a heart of gratitude. Here I was talking about attendance while failing to properly attend even my closest parents. Through I felt that attendance is not merely something to learn at a Workshop but a life of truly understanding, loving and serving everyone in this world and all creation, starting from the closest person, doing it to bring them all as children of Heavenly Parent.

I learned that this mindset starts when we put even the smallest things into practice, so that it is not something extraordinary but an attitude of life dedicated to the people closest, moving first, and serving them. While I had been a passive person rather than proactive, but the coordinator told me, 'Find things you can volunteer to do on your own.' It is important to practice first living for the sake of others.

I told the coordinator to please give me any task no matter what it was. From then I laid down my ego and threw myself down to pour my best into every single volunteer task, such as calling out prayers, guiding the special pray room and volunteering at the Kid's Cafe Pool. Imagining the trainees receiving grace and the little children running around the pool, I volunteered with an even more joyful heart and could pour myself into it completely.

When I brought joy to someone through volunteering, I too received immense grace. I was grateful for Heavenly Parent and True Parents guiding me to this Position to teach me that joy. I came to realize that all I poured out for someone else was precisely the Love of Heavenly Parent.

This Workshop time was precious to re-establish the direction of my life, more than my whole life being soccer, the life attending Heavenly Parent and True Parents is the most happy life. I will press forward no matter what for Heaven's Will to the very end, becoming a child who advances steadily.

Finally, my goal is to become a coach who testifies to Heavenly Parent and True Parents through soccer, raising players who do not merely exercise skill but live centered on Heavenly Parent and True Parents so that they can spread positive influence to the world.

I will grow to be a head coach of the National Korean Soccer Team proudly proclaiming Heavenly Parent and True Parents on the global stage. applause I will keep Heaven's Will at the center and keep H's Will to the end.

Hwon Sung Gu

Cheonon Special District Leader

HJ REPORT

The Word of Life for our District... True Mother's Words: Because My Life Wish has been fulfilling Heavenly Parent's Will on this world, regarding the misunderstanding and unfortunate incident that has occurred, please come to Gapyeong and see what I have done.

These are the Words True Mother gave us, and the substantial proof resides at Gapyeong. That is why we believe that these Words are the Truth. True Mother gave us these Words, and it's not just a dream or imagination, She has clear proof to show to the world. And I truly hope that through our members it can be revealed. Especially our District will center on True Mother's Words.

I received the message from PL to give this report and I thought I must offer devotion, so all of the leaders and public officials of the District went to Yeong Mun San Monument, starting from the Mountain Monument, we went around to all the areas of Gapyeong and offered our prayer and devotion with earnest heart, sanctifying a place and reading True Father's Words, for Mother's Return...

A special moment arose. What's interesting and mysterious as I prayed, 'Your Pure Devotion, your Pure Faith did not become in vain. Because of it, Gapyeong was established and the SHS, HMH has come to GY. So, thank you.' And right afterward, the rain poured down as in the video. You might not realize just by the video, but I felt that through our prayer we could liberate Heaven, and our prayers offered are heard.

In 1943 at the end of the war in Asia Pacific Region, and we didn't want... all the religions had been dissolved and there were people who relinquished their faith but not in Gapyeong, even they went to the mountains... and a little stone said, 'finding the root of faith' and as I looked at it, I remember DaeMN and

Kim Song do Grandmother and our sister Ho bin, the leader of the Inside-the-Womb Church, and all the other Christian Churches offered their bows to the Japanese god, leaders and pastors who joined the Japanese shrine worship, but there are people who sacrificed their life to pass down the pure-hearted faith. And I believe that is connected to our heart and faith as well.

There are people who went the path of the martyr, and our sister Ho Bin was imprisoned for 9 days, and eventually she died in the hands of Communists. Because of her sacrifice, that has been connected to True Mother and the Substantial Holy Spirit to come down, and eventually the Cheonwon Gung has been settled on this earth, and I'm just grateful for this fact. I hope that all the Christians who attended all the mystical figures rather than God repent. Unless they repent, they cannot hear True Mother's Voice. For all the Christians to hear True Mother's Voice, I hope they repent.

For Mother's Voice to be heard in the prison, I truly hope Her Voice is spread throughout the world. Centering on the Words of True Mother to come to Gapyeong and see, we are pushing forward with our Providence. And Nov. 8, 2025, as we asked President Seong Yong Chan and PL to be with us, we held the competition of understanding True Mother's Value and Status.

And at that time PL shared and introduced about the VIPs taking 15 minutes to introduce all the VIPs. 70 leaders in Gapyeong came and supported us and resolved to go with us. This was truly an historical moment.

And afterward, on April 4th, 2026 at Cheonwon Gung, we had the first anniversary of Gapyeong Cultural Festival, held March 29th, 2025, inviting all the Peace Ambassadors who supported us, and especially we had the precious time of visiting Cheonil Sanctum. Afterward, all who attended, I saw them offering prayer. I was very moved to see that.

When you enter Cheonil Sanctum, you just naturally bow down your head and repent your own life. A lot of people say, 'Oh, such a Place existed in Gapyeong!' to make us also realize how precious Cheonil Sanctum is.

At that time so impressive to me was that Chang Do wang, of the Elders Association gave the congratulatory address, which was not very formal, but very Truthful, feeling his sincere heart. As the Gapyeong volunteers went out to restore villages that faced the natural disaster, our volunteer corps went

to the places that even firefighters couldn't go and worked so hard for the elders. And he put all his heart into this congratulatory address.

From January 1st, 2026, I made a report centering on 32 villages of our activities, that have been reported through the group chat, I gathered all the photos, and 'wow' we really went out to visit all the villages, and many saw their own faces, moving our heart... many moving moments that I hope my report is not inadequate... and here's one video (really sweet and pure dance the two children did... 3 generations represented in the town hall.. grateful they can dance so beautifully)

There are villages that have 3 generations like this, and how happy True Parents can be to see this scene.

Today I prepared Seorak Town in my report but I hope you hear the other town's reports... All the photos of this year's activities, so grateful... All the church members who offered prayers and devotions, I want to thank you at this opportunity. Despite their churches not in good state, there are many people who gathered their donations, knowing their heart and devotion and prayer, we did our best to carry out the activities, and all around the world thank you for your prayer and devotion, and for it not to fall to the ground, we will fulfill our mission...

testimony: (I feel it alive in my heart) One of the tribal messiahs: I took my children and went around the town to meet elders, and as we shared our work, a lot of elders comforted us and were taking care of my children, and I felt like they are like my parents and curious of what they are doing when I'm not seeing them, and one day, even in spirit world I would like to keep our memory and even live together with them. I would like to meet them all the more often and share the SW and if the opportunity arises, I want to live in that village and go to the SW with them.

I felt like, wow, this is what it truly means to love Gapyeong, not focused on formality, but just like our True Mother loved us, we should love others and spread this love to Gapyeong to be the land of True Parents. Wanting to move there and live with those people.

Last Sunday, the SeongjeongGong President came and said he would go to Beoktown now. I said, 'Yes, please go there and be a core member. And he said he would bring another brother with him. And that brother in the Beoktown, where there's almost nothing, I believe Heaven will be with him.

If members resolve to go to the difficult place, I will let them go. The Caleb in the Bible resolved to go to the harshest ground and H blessed him with conviction telling him that land will be where they have absolute faith toward Heaven, and I believe those people, Heaven will be with them... big applause

There are a lot of messages we received:

Dr. Hak Ja Han has been working for the unification of N and S Korea and for world peace, and in the Gapyeong, She has created a new joy area and allowed people to live a prosperous life. And She has offered a lot of love and tried to create a peaceful world and conducted a lot of activities accordingly. And She shared the hope, love and value of volunteering to the people.

And I believe She should be respected for Her Life and the way She sacrificed Her Life.

another: Although I don't have belief in God, as I experience things just living in the physical world instead of just believing in God Who is almost hard to believe, I came to respect Mother Hak Ja Han Who showed true love with all of Her Mind and Body in Her Life. Right now True Mother is facing the difficulty, but I hope She stays strong so that, in the selfish world, I hope that Her Light will bring the revival, bring the life in order to create a peaceful world without war. With that hope, I hope Mother Hak Ja Han can stay healthy.

another: Mother Hak Ja Han, when She was imprisoned, although I have a different religion, my heart was in pain. She always worried about world peace and She always took great interest in the local areas. Whenever She created buildings, She made sure that the residents would not receive any damage. She always focused on the people and the residents. Dr. Hak Ja Han, please stay healthy and let this trial bring contribution more to the world peace somehow.

We are preparing a special lecture program on August 6, 2026, inviting Gapyeong leaders to hear the Epic History of the Chosen Han People of Korea. Every day, we feel like we are at war, with the situation always changing day by day. Our brother I Jong yo, UPF GY Branch Leader, he is at the forefront, shedding tears to prepare for this event fighting, and surely a lot of righteous people will come and know to attend True Mother.

We are setting a new start, even the situation is harder and harder and we cannot even pick up the call

sometimes, but because True Mother is enduring, we will also endure.

We tried to gather all the prizes we received, this is the proof of how we have lived and what we have done for this nation in all the areas of government giving these awards. True Mother said to come to Gapyeong and we will be the ones to reveal the truth substantially.

True Mother: Heaven will absolutely fulfill its dream on this world and 2nd and 3rd gen will make this happen. I have created an environment and now that we have rooted it, the only thing left is to prosper and develop. The peace world will absolutely be fulfilled.

We are offer prayer and devotion for two weeks centered on this and PL always says to fulfill True Mother's Words, cling onto them and fulfill them literally. Heavenly Parent will absolutely fulfill the Will as 2nd and 3rd gen go out to the world, and to fulfill these words substantially, we asked those who went out to the world to send their videos...

Hello, everyone, I am in Hungary with my mission work. There are 6 communities and here we have about 6 BF's and I will do my best

Kim Bo Song of Top Gun in Check Republic... Every week we go to the universities, and I will do the surveys and try to receive their heart from Heavenly Parent and True Parents.

I am Song Ju Won in Ohio State in Columbus with witnessing activities... In order to offer joy and support to True Mother, I am doing my best. Be well and healthy.

We are H Top Gun Hong nam Sung and Pyong Yon Lee, we are here in Australia 3 months, 6 months left and we are grateful for the opportunity and we will work hard...

doing chanyang... out of the van... eating together picnic style... doing sporty tricks and giving prizes... happy bright, heavenly faces and meeting leaders... doing activities... applause

Truly centering on True Mother's Words, we try to respond as soon as possible and carry out our actions, and we have received a lot of donations and we send it to the missionaries. I am so grateful.

Listening to the pastor say a lot of members were born, this year from 2024 22 2025 14 2026 10 and I believe more and I also became a grandfather as well... applause last time my report was that my child received Blessing and now grandchild

someone said they were not living in Gapyeong but sent their daughter to Seorak school, so that she could meet the 2nd gen, and she received a lot of good things, and her faith became upright. I tried to check what is happening, a total 177 student and 100 are children of BFs and 144 in high school 77 are BFs... school is an important pillar, even done by the government, if we center ourself... for all the parents around the world, I believe if you send them to Gapyeong, they will be able to meet a lot of 2nd gen members

10 are attending the 2026 Workshop... Last year 6 students went to the Seonghwa Youth Workshop and the participants increased 40%... True Mother are You well, sleeping, We feel sad hearing your pain. The path you teach is to forgive, love and be grateful... I really want to hold Your Hand and offer a flower... (The children are shown bowing. Last week they had a trip and the young people 2nd gen also brought their friends and the children from the secular world also offered bows, and they became the center again bringing more children from the secular world)

For the Blessing, our parents are offering great devotion not to miss a single person, and PL invited us to sing the boat song, a stepping stone for the Japanese b and s to move forward and come and offer this praise, and on the 1,000 plus vigil, I was able to experience the significance, and we gathered all from the foreign nation to hold a special service to honor their sacrifice to come here and die here.

Cheon Shim Won is truly great, and nothing can stop us by the grace and power from Cheon Shim Won Vigil Devotion. Every day a lot of things change and we will endure and overcome all that comes, with this Cheon Shim Won devotion motivating force. Now, our district is over 100 and the middle and high school students even they are playing here not somewhere else can bring great grace.

54,083 members total have attended from every day, and we strive for more to come and doing relay to attend the Yeongseong Workshop and then seeing their voice and face change so bright. Pray and sing, pray and sing brings the way of grace.

Pa Hok Ja, after finishing Yeongseong Workshop, the three words, devotion, cheonshim resonance and

risking one's life... risking one's life, and becoming one with the Parents, putting everything and living a life of practice, all you effort and power to put yourself into practice in your life ---only that way to fulfill one's life --- a very special value embedded...

The reason I chose Yeongseong Workshop was to see what kind of content our children were receiving... purity, realism and truth, even using all those words cannot express the value... The path for Heaven to come down is pure and realistic, by opening your heart and confessing what is in your heart so you can be truthful... Otherwise, Heaven cannot work... But opening that heart, you can receive the strong work of Heaven.

'Heavenly Parent where are You. I really miss You' this came out. My eldest son, I lost him at the market. Even I found him again, that was the biggest fear if not to be able to find him again. As I offered prayer, I realized that I closed the door of my heart even from that memory. Then the voice came, 'When you closed the door of your heart, I also went in there.' And tears and she was able to open that heart at the Yeongseong Workshop with a work of healing, such grace to our sister.

Danger and trial can be the moment when we witness people. Those who never listened to Divine Principle before, we will do our best so people can feel and eventually be with True Mother and our Movement

To Heavenly Parent, the Creator and Owner of the Universe: To reach this one historic day, You have endured 6,000 years of sorrow with patience, due to the fall of humankind, and now at last this day has come. Heavenly Parent, thank You. We are grateful. We are sorry, but now You are truly the rightful Master of this earth. Because of True Parents and the 2nd, 3rd and 4th generation youth of pure water who came through many BFs, we are advancing throughout the world to proclaim Your Heaven Realm throughout Heaven and earth... From this day forward Heavenly Parent, please embrace and love your children with all Your Heart.

Now this world will be set in order one by one under Your Sovereignty, a world of One Family of Humankind attending Heavenly Parent with True Love will surely unfold.

In the Name of Holy Mother Han, I proclaim to all of Heaven and earth that the Gates of Heaven, the Gates of God's Realm of Cheon Il Guk are now wide open'

Heavenly Parent is the same from the beginning until the end. True Mother is the same from the beginning until the end. Centering on these Words, Cheonon District will be the same until the end.

Hoon Dok Hae

...a church like the fire of Spirit and Truth never goes out. Please do not forget that the responsibility for this nation and all its people receive the Blessing rests upon you. Please exert yourselves even more. The only way to repay the love and grace from Father is to strive a hundred fold and a thousand fold more.

Everyone, we will now make our Unification Church a living, breathing pioneer church as of early days. Unbound by systems, we will develop into a more voluntary, creative and dynamic church. We will make it our haven where we always want to go and stay. A church centered on Principle and Love like a Warm Mother's Bosom/Womb.

Just like in the pioneer days, we will make sure that the lectures of the Principle never ceases in the Church. May all of you give thanks for what you do each day, become people who receive the Blessing and make accomplishments in your lives...

We can say that the early church began with Spirit and Truth, but we cannot say the members developed with a loving heart coming out from the depths of their hearts as time has gone on.

Though the early church was small, it was overflowing with love, and by becoming one with one another, we overcame difficult times. Setting plans for anything is not what's important. Execution is what matters.

Now is an era that demonstrates empirical truth. Therefore, we must become a church that does not sleep but is always awake with a fire that never goes out.

This nation, the homeland of the Providence must stand in the position where it has substantially fulfilled its responsibility. 2,000 years ago the OB Son Who was Born through the people of Israel, and after 2,000 years the OB Daughter was Born from the people of Korea whom Heaven has prepared to be the chosen people.

Heaven must surely be victorious. What will happen if the prepared nation of the Providence failed to fulfill its responsibility? This Cheonon Church and Cheonwon Gung, which serves as a model for the era of Cheon Il Guk will now enable all the events for Cheon Il Guk to concretely rise as its tradition. We must expand this Cheonwon Complex, mustn't we?

After all traditional churches in Korea become one with that Purpose and do their utmost to expand Cheonon Church as the model of Cheonon Complex, I said that this must move forward with the 3 central nations of the Providence, Korea, Japan and the US, united as one.

Therefore, the representative of those 3 countries are the senior pastors. I pray that this Cheonon Church does become the one and only Cheonon Church that proclaims Heavenly Parent and True Parents of Heaven, Earth and Humankind and the OBD.
