prepare song

Holo Arirang

A lonely island in the East Sea far away

A strong wind will blow again today

Because the wind blows on the small face

Dokdo, did you sleep well last night?

Arirang Arirang Alone Arirang

Let's go over Arirang Hill

Even if we take a break when we are tired
Let's go hand in hand and let's go together
The clear water of Geumgang Mountain flows into the East Sea
And the clear water of Seorak Mountain also goes to East Sea
Where do our hearts go
When will we become one?
"

"
Take a boat ride on the Duman River in Baekdu Mountain
We are going to take a boat from Halla Mountain in Jeju
Let's go and anchor alone on an island
and greet the rising sun

Bow and Pledge #1 and 2

Opening Prayer of Gratitude
Most Precious Heavenly Parent
Beloved True Parents of HEH

We sincerely thank You for allowing us to welcome the 2,621st Cheon Shim Won Special Vision Devotion. Heavenly Parent, we cannot express how precious this time is, when the children of the Unification Family can offer their hearts of devotion together before Heaven to the subject SW.

Tens of thousands of young people and members are gathering their devotions here, healing the pains of the past, resonating and experiencing Cheonshim, Your Heavenly Heart, and gathering to become one with Mother. We cannot measure how precious this grace of Cheon Shim Won given by Mother is.

Heavenly Parent, now even the Seonghwa students are becoming one with Cheon Shim Won and

reaching out from Korea and Japan. Young people are entering the Academy to plant their roots deep beyond general programs.

GPP, Spirituality and Attendance WSs and across the 6 Branch Centers worldwide, hundreds of spirituality trainees are gathering devotion upon devotion to advance their spirit and truth with one mind and one heart, praying frantically, offering devotion frantically.

We are all spreading the realm of heart culture so deeply with help of HyoJN, through the Hyojinwon, how precious and grateful this is. Now they have become restorations of families and churches, piling up towers of devotions with one mind and one heart.

Furthermore, through the 3-day resonance prayer Workshop where 1st, 2nd and 3rd generations together receive Cheonshim training, armaments and mobilize the entire SW to offer CS devotion, we believe Heaven will work even more mightily.

Heavenly Parent, that we can advance in this way is proof that our Cheon Shim Won devotion HQ attends You, the Creator, Heavenly Parent, as a Substantial Reality. It is proof that True Father is practically working and it is proof that HyoJN, HeungJN and DMN are working (excruciatingly much) to become one (with and through us for attending Mother).

The Greatest Gift is this, toward the Will True Mother earnestly Desired with You Heavenly Parent, and let us march forward step by step together for the longevity and acquittal of True Mother...

Mozambique Africa Workshop

TESTIMONY

Yu Chong Wu

big applause

19 years old

2nd of one son and one daughter

Yeongseong Workshop, before it greatly disbelieving... My father a church leader and my older sister, a cadet... I hated going to the Workshop and had complaints and dissatisfaction to pile up.

At school when asked which church I attended, I said, 'None' hiding the fact. While riding a van, one said that our church we passed was a cult, and I lowered my head... Only because my mother's health was not well, my father of 80 to 90 days going to the Workshop, said he hoped I would go and fulfill the #100 for our family.

Still more negative thoughts, wanting to prepare for adulthood, and why do I have to go. Not a day went by not complaining, but unable to go against my fathers will, I made a resolution that I would put all my efforts and if no change, I would completely leave the church.

Unpacking and receiving the training the first day the negativity was constant, until I put all my sincerity, learning truly a great deal from the training directors who ignored their own exhaustion for the trainees sake. I tried more and when their were peers younger than me and when we were tired and didn't want to go, we became pillars for one another to go forward.

I set a goal of finding a baseline for my faith, and one group members said they lacked faith and wanted

to try to establish a baseline for their faith and that resonated with me.

As my first devotion, I visited holy grounds and 120 bows and going to the Hyo Jeong Tree, and 2nd was trying to make an ansu hands, and I resolved to make ansu hands clapping until my blood vessels nearly burst and crying out prayers... and I asked the training directors about my sensations, if they were signals given by Heaven.

Then with a salty taste a double nose bleed was coming, and I felt some sense of pride for how hard I had tried and an emotion welling in my heart and I wanted to cry out Mother and Father, and the self-consciousness began to leave and confidence came with an echo, 'If you don't shout out now, you will never do it for the rest of your life.' and I shouted at the top of my lungs, and then felt a vibration and experience I cannot even explain. I believe this phenomenon was Heavenly Parent looking upon my changing heart with an earnestness I had so deeply desired.

The training period feels far too short now unlike before and I plan to enter the 40-day and become a 2nd gen who fills in what is lacking and visiting the military, set down deeper roots. Although it may be a bit far from my future, I would like to enter the Academy after military, in case my heart drifts at all, and then to make sure, I will make plans to study the Principle and offer a prayer before going to sleep and offer devotion for my future spouse.

My father's urging has now become what transformed my life, and all his words felt meant for my own sake, and I will not forget the grace I gained here and strive to the very end.

big applause... so that these days do not go to waste.

'River in My Heart'

Though countless days have gone by,

The River in my heart flows

Though that day, that time, is gone now.

The river in my heart flows endlessly

Each precious pearl formed one by one

Shines even more with a tender glow.

"

Far beyond the deep blue sky

Clouds flow gently and drift away

Fierce winds, harsh rain, biting frost --
Though every passing trace brings pain to my heart
"
"

TESTIMONY
Yeongseong Workshop
Kikuchi Miri
she bows
gratitude
(in Japanese)
daughter of a BF... now in the 23rd Yeongseong Workshop after previous Workshop
The reason I came to consecutive WSs:

First, to become one with True Mother
Second, complete Blessing of my ancestors following the 430
I believe my ability to be born as the first 2nd gen in my family was by ancestors, that I wish to repay...
continuing devotion up to the August GWs

Second: restore the eldest family position to the eldest birth right. Our family has not yet been fully restored... faith from my grandmother, and my older sister received the grace of restoring the birth right and became one...

Since then, we have walked together centered on the 3-stage foundation, but I came to harbor resentment toward my elder brother.

I was tormented by my inability to love him when I wanted but ultimately realized that I had to change first.

Amidst this, my 2nd older brother's daughter had hearing loss, but we resolved to liberate 13 spirits for my niece and walk as a family together... Through this, I was able to convey the meaning of liberation and participation in the Workshop to my brother, and then he also began studying together (miraculously) Because of numerous grace and encouragement of my family, my coming not to be taken for granted, and I determined to be more earnest than anyone else.

During the intensive prayer, I was Blessed to see True Father seated on the Throne and fell this Place His Office and True Mother's Womb and that my ancestors were working together with us.

However, as time went on I realized a deep self-centeredness and arrogance in me, and at times lost sense with the purpose I had come to the WSs. But through the programs I could recovered and saw the reason was my own deep-seated arrogance that I could not love my brother.

I became the one who cried out the most loudly and went to the 24-hour devotion, and determined to never give in the exhaustion, my heart became joy and gratitude and realized, putting myself down to be only for True Mother was true devotion.

When I finished, I didn't feel I had changed drastically but astonishing changes were taking place in my family.

The eldest brother studied with mother and the second elder began reading text, and all the offerings for the 40 gen ancestor Blessing were prepared to receive at the August GWs.

I received word that the niece of hearing loss reacted only to the toy I gave her that I had made myself. I felt Heaven working together with us. applause... In addition, I received a message from my eldest brother, who was grateful to find a joy suited and thought it was from the family's prayer support.

I realized that my participation in the Workshop was already a great devotion that affected my family so much. And my heart became greatly changed in me as well, realizing how Heavenly Parent created human beings with such joy, and a natural smile came to my face without even realizing it.

Through the Workshop, I was able to experience countless times that Heavenly Parent and True Parents were with us, and I will devote with all my heart and march forward with joy and hope so I can restor my family and march forward as tribal messiah.

HJ PRAISE

Japanese Workshop Team

'Heart of Filial Piety'

HJ REPORT

285 Japanese 40-day 178 Family Workshop ended July 22

True Mother July 7th: "I believe Heaven is alive. Heaven will surely realize the Dream on earth. The 2nd and 3rd gens of the Unification Church, who are capable of taking charge of that work are stepping forward as true children of Heavenly Parents."

N.A.B.I Activities 'Walking straight ahead'

I am now a 2nd gen member of the FF and I live with pride, joy and gratitude. Our precious faith, and in order to protect this Place, we are now raising our voices, having the same faith as one's parents. I am truly proud to be a 2nd gen member.

another: 'I truly love my family, I truly love my parents. I love my siblings. I love the Family Federation.

another: 'They have friends of the same age, or older b and s, or younger. That environment gave me nothing to fear. It was a Place where I could feel so safe and happy.

another: I was able to start a (truly blessed) family. I want to share the joy, this happiness, with more people. I want people to know

another: I grew up receiving such love from my parents. The reality of the Unification Church as reported in the media is vastly different from what I have experienced. I feel it very, very strongly.

another: 'It is not as reported in the media. It is certainly not a bad church. I have come to be convicted of that.

another: For someone else, for the world, for God... That's how she (from Unification Church) prayed earnestly, loudly, with tears in her eyes.

another: 'No matter how harsh the words I said to my parents were, they accepted them and always stayed by my side. This faith made me realize the love of my parents. I love my parents very much now.

"Let's reach the world. The voice of the 2nd generation!"

We will not stop. I myself will keep moving forward. Thank you for your attention. She bows.

This 40-day June 13 to July 22nd, thinking of the situation of Japan after the March 4th dissolution when liquidators entered the church and rendered it unusable for us. At the same time, amidst the ongoing detention of True Mother, this was a period when 40 days Workshop participants gathered their hearts for a fresh start.

151 people attended and among them 60 first gen and 91 2nd gen... approaching with utmost devotion...
VIDEO

applause to Heavenly Parent and True Parents... testimony of a trainee who resolved to enter public ministry: I once asked my mother why she decided to walk the path of faith. She said, 'I know it is a difficult path of hardship, but if I don't, someone else will have to go '... and she determined it in tears... I realize that my mother's faith is being passed down to me.

(His father was a pastors and because there was a leader's meeting, he was visiting the training center. We secretly filmed a video message... Please say a word to your son, from the mom.

'You don't have to carry this by yourself. Heavenly Parent is surely protecting you. You are a son of Heavenly Parent, so please don't forget that and do you best.

A portion of Mother's Words given on April 25th to the Japanese members:

The relationship between Mother and child cannot be severed. I believe in the Japanese members. I know the loyal heart and devotion with which you believe and follow amidst difficulties. Tell all the members of H Japan that I love them.'

To repay this Heart of Mother, we earnestly offered this Special Cheon Shim Won Devotion throughout the entire 40 days. The first characteristic is true devotion for the victory of HMM's Trial.

testimony: I approached this with the mindset of putting my own problems aside for this time alone to pray. Seeing the yeongseong and moshim attendance trainees offering 24-hour devotion, I could truly realize what it means to pray in a spiritual battle.

See True Mother Walking such a difficult Path, I deeply repented for myself living comfortably until now... video

testimony: missionary to Hawaii USA on video... Actually, my son before coming here with me had been a shut in. I asked my other 3 siblings to pray for him While having prayers offered for me, I heard a Voice saying, 'It's going to be alright. Your son is going to be alright'... I was so happy.

And when I asked my son what did he want to do from now, he said, 'I want to live for 2nd gen and members in Honolulu, and I will look for a job.' A child who had not even eaten meals with us before said, 'Let's eat together,' and spoke to me with such heart attitude, I felt as though I was ascending to Heaven.

I was truly happy to feel that from here we can make a new departure together with my child. I am truly grateful.

Regarding the significance here in CP, especially the contents of Vice Director Yokoi's lecture, it came like such a shock for me, like being hit on the head by a hammer. I said, 'Ah, so this is God's Love.' And it is what I strongly feel in this 40-day Workshop.

And just seeing the 2nd gen children and spiritual children participating in this all-night devotion. It's moving to see the 2nd gen, 3rd gen, as can only be experienced when here with them, seeing them crying and shouting every single day at Cheon Shim Won, I came to know that these are children who Mother has truly Loved and that True Father has raised right here (His face is his heart so moving me to tears every word)

The reason these children are walking a path of hardship is because the 1st generation did not become one. If Blessed families had walked together (with True Mother and True Father) while True Father was with us, there would not have been such suffering 2nd gen children. As parents we truly have done nothing. Now the reason True Mother is bearing the cross is because of what the 1st gen committed, forgiving us over and over again.

Once we realized that Heavenly Parent cannot abandon this 1st generation, wanting to go together to Heaven with us, we simply have no choice but to do it. We must create a family that resembles Heavenly Parent and become those who proudly bear witness to the greatness of the Principles.

Therefore, I truly believe right now BFs must come to CP. 3 days is not enough. I wanted to truly come to 40 days and touch the Love of Heavenly Parent. But for those that 40 days are too difficult, please let me recommend to come how much you can, and the staff and leaders offer so much devotion so that you can really feel this prepared by God and 4PF BF... Even this is only 3 days, how wonderful if we could meet here.

It is too short, ending right as you are praying, and you can immediately pray what you have understood, praying right after the word and understanding of Heavenly Parent and True Mother far more than ever before. These 40 days were truly unbelievable experience in my life of faith.

Therefore, I truly want you to come and understand what I am saying right now.

Uehsegi trainee

Third: Inheritors of faith

... precious witness of faith being passed down... video testimony Uichi Kodeta with his son...

Led to come... My son already attended GPP many times and I felt I had to do something more... Members were encouraged by him, and I wanted to pour strength into the members here and across the nations.

My son and I had attended the 21-day Workshop in Ceba 3 times. That ended up being featured in Today's World, Sekai Kaiteh... I was able to see how my son listens to the lectures and engages in praise. He served as the leader of the chair squad this time, and seeing how he guided everyone, gave me immense encouragement and I thought to myself, 'I won't lose either.'

During the praise, things built up toward the middle. And when we sang 'Butterfly' and everyone wall that they have, broke down and a rush like a tidal wave of everyone becoming one, and my heart was so moved that the tears would not stop, and experiencing what Mother said about becoming one.

Until now, in Japan, I didn't really grasp Mother's situation very well, but now... and feeling True Father alone in the wilderness when all His foundation collapsed, and Mother all alone like in a desert storm, such a cross of the Heart alone for 11 years... and tears poured out. And I have the heart to carry Mother on my back to each house.

The Content is so deep that no matter how much you learn, it feels that its not enough and you need to keep reviewing it over and over... I want to shout out to all member to understand the Content.

I worked in public ministry, dismissed before May, but was taking care of younger students, facing various challenges, and instead of joy, I found myself focusing on the pains and after dissolution at a loss how to continue...

At the Workshop, instead of thinking to pray for myself, but instead living for the sake of others in roles given, I felt myself stripped away for my original self to emerge.

Then I heard the news that my uncle had ascended, and how much grief and sorrow he must have felt... and how am I cherishing this life and the foundations of those passed away...

Then the prosecutors demand for 13 years' sentence for True Mother made me think of my own mother, taking her existence as well as True Mother's sacrifice for granted.

I was made to repent when learning more about the case and when Mother's desire is to fulfill a church with Spirit and Truth and not being able to go all over the world as She wants to...

When on the path of public service, I often blame myself for being not enough by myself, but unless earthly matters are sorted out by organizing the spirit world and desire we want to achieve on earth. If I am not spiritually organized myself, I cannot fulfill the Will by myself. If I leave here, who will take responsibility for the young people, but the church told me to go ahead, and I realized that for the sake of my local field I need to more advance together with the SW and be sorted out within Mother's Womb.

Mother, thank you so much for raising me and I can see Your Love. I will hold fast to it, knowing you believe in me no matter what and will be with me, and so that You can walk in greater ease, I will walk this path from now... Please live on with a Smile...

Is it not truly beautiful to see the faith inherited... applause

True Mother's Closing Statement excerpt: Until the day My Life comes to an end, wherever I may be, I will continue to march forward toward that Goal. I will conclude by making an announcement regarding the H Japan. We will do our utmost best to resonate with the Mother's Heart. (Takaki Sehji Instructor from the Japanese Training Team)

BREAK

BUSKING

Hoon Dok Hae

By mobilizing all methods, let it be known that True Parents have Come. Since My Youth, through extraordinary spiritual experiences, I came to know God and communicated with saints and Jesus. Through spiritual communion, I awakened to God's Will and Heart and clarified the Heavenly Way and the inherited Path of human life.

Human life does not end completely with the death of the physical body on earth. In the SW, not only saints and sages, but also our ancestors are alive as spirit bodies which are distinct personalities from the physical body.

Compared to the World of Origin Created by God, that is the infinite and eternal World, this natural world in which our physical bodies live is merely a tiny fraction.

Now I set up spiritual mediums to send directed messages to the SW, and in response, reports are brought back regarding to actual conditions there. Even more astonishing is that the representatives from the five major religions gathered in one Place in the SW and Proclaimed that God is the Parent of humanity, while Proclaiming Me to be the Savior of humanity, as the Messiah and 2nd Advent of True Parents.

They Proclaimed that the Unification Principle is a Message of Peace for humanity and that Cheonil Guk Peaceful Nation will be accomplished through living for the sake of others, centered on true love, transcending religion, nation and race.

Furthermore, they resolved to harmonize, unite and march forward for the Kingdom of God and world peace attending True Parents.

This is what has taken place in the SW at the end of 2001. The Era in which we live is an historic, cosmic revolution, a great revolution in which we must change history, make the SW and the PW one and build the Ideal Kingdom of Heaven on this earth, which God has Desired since the Beginning.

There is no longer any time to delay or postpone. Heaven has already Proclaimed January 13, 2013 as Foundation Day. It is urgent that we make know to all humanity around the earth that True Parents have come. Christians are still waiting for the Messiah of the 2nd Advent. We are already moving beyond the Completed Testament Age and opened Cheon Il Guk. Yet, those people are living without knowing the Providential time.

We cannot simply stay at all idle. By mobilizing all methods, we must make it known that True Parents, the Messiah Parents have come. We must make known the world achievements for the salvation of humanity that True Parents have carved, through the Words throughout Their Life. These things are not accomplished just by speaking them. They are not practiced by proclaiming them. We must put them into practice by taking action and reaping the fruits.

HJ PRAISE

PRESIDENT LEE GI-SEONG'S MESSAGE

big applause

I respect all of you who have come, not too weary but coming here together

316th Day... It seems like the nature is also walking the treacherous path, the weather is boiling and nature suffering as well. We sincerely hope and pray for the peace, through the freedom of True Mother, the nature will be liberated as well.

about 41,000 gathered worldwide... for this vigil

800th Special devotion Seongchan Church every night I see them...

H Japan Nagano 34... other 12, 11, 10, 8 together... 14,000 Places are connected

Albania, H Central and S America, Mozambique, H N America, SF, LA, Belarus and so on... grateful

616 long-term trainees... Seonghwa Heongseong students about 50 from J and 40 from Korea...

Mozambique, East Africa gave us a video

Ui Tong Yu youth, a pastor's child with hatred toward the church... He didn't proclaim to be a proud 2nd gen, but declares no belief at all. His friend pointed at the church saying it was a cult, and he stayed silent and lowered his head. What if he had continued that attitude, could he have received a good Blessing... He gave testimony, how he struggled to come when his parents said he must.

He is in his senior year of school, and he came not being able to deny his father's request and was able to determine to give his utmost and see whether he will leave the church completely, but he came to be moved by the training directors and friends next to him.

As he thought about his parents and True Parents pouring out Their all for him, he following and did

conditions every day even making the ansu hands and shouting, even having nosebleeds from both his nostrils and actually felt proud for how hard he was working. You too and myself as well, when I had a nose bleed, I didn't really think it was a proud thing, but youth is a different thing.

If you go with a heart of joy and happiness you will meet Heavenly Parent and True Parents and do well. He had a heart of desire come out to shout Father and Mother (hearing the voice that if he didn't shout now, he couldn't after that at all) He experienced Heaven's work and the intense vibration throughout his body. And you can experience this as well, and then you will want to seek it more and then Heaven can work great things through your for others.

If you see someone who can shout with all their heart, I think you should be jealous of them in a good way. It is that time when you can experience Heaven's work. Let this special devotion be a time when you can let that door open, talk to Heaven.

The brother even vowed to come back in the winter and after his military service to the Academy. All of his resentment have changed to gratitude and love, and I believe that is how the seed of faith falls and blooms into a flower. The father received the best gift ever... and also the son...

The Moshim praise... Her singing skill I think is improving day by day, and I hope True Mother will return and listen to her song.

Today, Higuchi Mari, has two older brothers, but her parents were already married before the Blessing, so she was the only 2nd gen. She came here with a very sacred motivation. She wanted to be one with True Mother and she also came during May and did the 430 gen liberation.

As he ancestors are receiving 120-day training she went to 2 yeongseong WSs and this is the standard. Most who offer the 430 liberation, don't have this much desire to offer their devotion for them afterward.

Her third goal is for her elder brothers to establish an unwavering faith in any circumstance to restore her elder family to the position of a birth right. It's is amazing... On Saturday and Sunday night, it is the time when these trainees come together to offer a deep and sincere devotion.

And how sincere was she in her devotion that she saw True Father sitting on the Throne, and the experience of True Father's Office and True Mother's Womb being here.

When she found herself resonating with satanic instead of the H Cheonshim, she saw that she had arrogance inside as well, and seeing that fallen nature, she worked harder on the devotion.

Sometimes, just attending church, we might not realize the deep fallen nature. Sometimes others might notice this from a pastor and say, 'Oh, he will never change.' But she felt gratitude and joy to see the fallen nature, and how two major things happened with her older brother, joining study and finding a good job.

The hearing problem of her niece started to get better as well. She really felt Heavenly Parent and True Parents working, and now has resolved to be a H tribal messiah.

There were the trainees from Japan and they sang the heart of filial piety. Sakagi Seiti gave the HJ report of the WSs showing the videos of the trainees experience... one saying the amazing transformation of his

son wanting to do his best for 2nd gen in Honolulu. We can see this revival, born again through Mother's Womb, the individual, family, nation to cosmic realm, all has to be reborn. And this amazing Word has been given to us.

In this Place is where the youth can find the deepest root, for their happiness. And if struggling financially, the church should help, all supporting that finance should not be a barrier.

All the youth, receiving this kind of Workshop at age 14 to 16 is the all-important experience. You can really listen to True Mother before She was 16, She could already listen to Heaven One on One, and it is important for us to have this spiritual standard before age 16.

Those who already went to the military, already become a young adult, you can listen to all of their struggles and wounds, but our youth who are very pure, we need to continue these WSs so they cannot lose to the world

Hoon Dok Hae... Father through extraordinary experiences... came to know God and the H Way, communicating with saints and sages and Jesus... We listened to the lectures countless times, but in the SW there are many who don't know about this. Human life doesn't end completely from just the physical body in this natural world... It is merely a tiny fraction. This is what we must clearly understand...

Father set up mediums to report the actual condition. Even now these kinds of WSs need to be happening. True Mother wants to foster pure, young people of that standard and realm.

The five representatives of the five major religions proclaimed... God and True Father as the Messiah of 2nd Coming and the Principle is the Message of Peace...

Furthermore, they determined to attend Heavenly Parent and True Parents as the Parents of Heaven and humanity... Transcending religion and nation, this happened, and True Mother worked to restore the 7 religions and nations. Even if the nation's president had a different religion, they received True Parents's Blessing and becoming Heaven's child, that is a condition for the restoration of 7 nations, so True Mother gave many Blessing wherever She went.

Sao Tome and Prncipe are traditional Christian nations or the Islamic nation, but they received the

Blessings, the VIP's and youth who can be central figures received the Blessing and created the standard of the Blessing. The PM came together and attended True Mother and conducted a Summit and had the Blessing, because the saints in the SW received education and were behind to move for harmony, unity and to march forward.

That is why, after that, the Pyeunghwa Jeong says we are living in a cosmic, great revolution in which we must change history and make the SW and PW one and build the ideal world on this earth that God Desired since the Beginning, and no more time to postpone. FF is already Proclaimed by True Father as well as True Mother...

True Mother Proclaimed moving forward after True Father's Seonghwa... and said, 'It is urgent that we tell all that True Parents have come. Even we are already living in the Era of Cheon Il Guk, those people still do not know. We must make it known that Messiah has come and the achievements for the salvation of humanity True Parents have carved throughout Their Lives.

... not just proclaiming them but taking action and reaping the fruits...

The members are going to their local communities and to each church and are really trying to witness, and I was grateful... For some people, they might say that this is a hard time, a hard situation, and the pastors keep saying that as if we can't do anything, but then Heaven cannot work through you.

We need to have hope and move forward, and answer the SW what did we do in such a hard time... What did they do when Jesus was dying on the cross. The disciples kept a far away place. What did you do when True Mother was walking such a hard path, that I didn't even witness or tell the Peace Ambassadors about this.

Especially at a hard time, we need to move forward more and take action with hope. In CP as well, we are planning to educate 100 leaders from Gapyeong about this.

We will offer a Cheonon Special District Joint Service as well. We need to create an atmosphere to let people know Who HMH is, and through the online services as well, that all know...

Now this case is known to everyone worldwide and the cosmic world is aware of this. Even if people say we are a cult, a bad place, but if we move with all we have, the SW will move as well and those who persecute their ancestors can work through this.

There was a time in the CP District, a Place Seongpang mi... a person didn't want to sell his land to the church, but his ancestors came and told him to sell it, and the church was able to buy that land. We have to make sure the SW can work like this. In the spirituality as well, those who persecuted Jesus, became to stand in the forefront of expanding Christianity. You cannot just be satisfied by offering the 800th Special Devotion.

We need to pray for what kind of work can happen and that Heaven will work, pray frantically like someone gone mad. A baby calf cries, how much sincerely for their mother, and we also need to cry out for Mother as well.

The very word of our crying out for Mother is the Place at the very end. Let us offer this cry tonight
