Bow and Pledge # 3 and 4

Opening Prayer of Gratitude

Mother Honorable Heavenly Parent

Beloved True Parents of HEH

TYSM, for allowing us the time to gather at this 1,622nd Cheon Shim Won devotion... Although we pledged to live a loyal life to bear fruit and become one with Heaven, we have so many shortcomings. Please forgive us and guide us so that we may be reborn anew as You children bringing the fruits, through Your Love and Grace.

The 2nd generation make us realize that it is a miraculous hour of wonder directly supervised by True Father in Heaven and True Mother on earth together with all AGSs.

True Parents have granted us Cheon Shim Won, the Foundation of Prayer and Devotion and have bestowed upon us a precious Holy Ground capable of liberating all people and the SW, Furthermore, although HMH, True Mother, has Blessed us to become grain, we cannot help but repent for our filial unpiety and disloyalty in failing to fulfill our mission part for restoring humanity, which is steeped in selfishness and greed today.

Mother's determination to see things through to the very end until Her Life's end, in order to conclude the Providence of Your Dream, pierces our hearts with tears upon tears at this very hour. Please forgive us for failing to give our utmost to achieve the true 4PF with our True Parents, Who told us to advance like a war, with Spirit and Truth (given to us from You and True Parents)

As we gather our resolve, centering on Cheon Shim Won at this hour, for the Completion of the Providence, (we earnestly hope and pray we empty of ego to mold our hearts into one, surrendered that Your Thoughts and True Parents True Mother's Final Days' Thoughts and Directions together become ours sparing no earnest, True Mother/True Parents be our everything, at the Center of our Harmony, Trust and Cheon Shim Won World Family (hoping and desiring with You) Your Tears be our Tears, (Your Love be our Love to Give each other and the world) that members from around the world experience wondrous works unfold.

Gratitude and Love to You for all Your Boundless Grace, we earnestly pray and Desire for HMH, True Mother's well-being and safe return to the Palace...

H UPA Top Gun missionaries

letters

Tomoka Sawaka

calling out without giving up a single night for a righteous person

Until the day True Mother, You regain Your health and return to Cheonjeong Gung, I will do my very best to offer prayer with utmost devotion. This week two Top Gun missionaries joined us in Canada and we began street witnessing in earnest.

On the very first day, we were able to meet again the woman that Heavenly Parent had prepared, Chantal, someone we met last winter. The moment she saw me, she burst into tears and poured out the difficulties of her life. Although we invited her to various events after that, she could not attend due to her busy daily life, and after our communication continued for a while, her replies stopped but I did not give up calling out prayers with a mother's heart waiting for her child. I gave devotion earnestly hoping that we could meet again one day.

Even before our team made a fresh start this month, together with my team members I prayed with all my

heart at Cheon Shim Won, 'Please allow me to meet the single-most daughter that You Desire for me to meet' And the very first moment I approached people on the street, the very first person I met was that very same Chantal who I was meeting again after half a year since last winter.

I felt an indescribable joy and depth of heart I had never felt before and I could be certain that Heavenly Parent had heard my prayers. As soon as Chantal saw us, she said, 'You are the people sent by Heaven for me. Today, I must definitely go with you to where you are.' And she came along with us to the church.

She explained her various life difficulties with relationships and accidents, but remembering how I continued to invite her to events, she said, 'Heaven was reaching out a Hand to me, but I couldn't take that hand. Now I must take Heaven's Hand. I must not let go of the Voice with which Heaven is Calling me.' She further expressed her desire to come to more activities.

I gave a lecture on the Principle of Creation to Chantal, and she was deeply moved, saying, 'This Teaching is truly necessary for so many people.' And we continue to study together even now. Through her I was able to deeply feel how long Heavenly Parent has been Calling and waiting for a single person, and with that earnest Love, reaching Hand out. And that Love is Directed toward not just Chantal but all of humanity, experiencing even a little of Your Heart, True Mother, realizing once again that we are able to exist today because of True Mother's Devotion and Heart poured out for finding a single tiny needle.

Following True Mother's Heart I will follow to the very end, loving Chantal daughter, and offering devotion with an unchanging mind. Even if we are in various difficulties of environment, I will walk together with You our HMM, True Mother, Who Embraces humankind with an unchanging heart.

In carrying out missionary activities this month, I realized one more thing, that all the people around me are the grace and Blessing of Heavenly Parent. Although all the senior members who worked together with me lastly in Toronto, and I was left alone, I resolved to continue my activities myself, and Heavenly Parent immediately sent me two Top Gun missionaries.

As my heart grew closer to them, I had deeper desire to share this love, and every single one of the guests we encountered for witnessing, with whom I am currently working is a precious person prepared by Heaven, as I feel every time we meet. I cannot express how grateful I am with my fellow team members, the public officials of Toronto and the guests.

At first I wondered why Heavenly Parent left only me here, but I realized more deeply that being sent here was truly a great grace for me. True Mother, we will never collapse but always be s and d of Heavenly Parent's and Top Gun for True Parents, moving forward without ever losing our initial resolve and gratitude.

I will pray with all earnest for Mother to regain health and return to Cheonjeong Gung. True Mother, I sincerely thank You. I love You.

--- Tomoko san not letting go of a single life

LETTER

Missionary Kim Myung Jun... onsite witnessing where 1st, 2nd and 3rd gen are becoming one...

I wonder how You are now at this moment... looking back on the two months that I offered devotion in Hungary, that I perceive to have sown seeds from True Mother so that they may bear fruit. HMM You

Teach us that Love is something visible and a result of the devotion that Parents offer must surely be substantialized, and that if we become one with Spirit and Truth at Cheon Shim Won devotion, there is nothing we cannot achieve.

Engraving these Words in my heart, offering praise at Cheon Shim Won, a confession came forth through my lips. Until True Mother comes out of the DC, I will restore this major city where I am. I believe this was never my own determination but rather the resolve of True Father's Earnest Heart Desiring to Help, that True Mother is meeting within my heart.

True Father's Wish to Live even a single day of the Heaven realm on earth came to mind, and I felt the shortcoming of welcoming True Father's Seonghwa without fully accomplishing that Wish. And what appearance will I have welcoming the day of True Mother's Seonghwa in the future.

Repentance welled and the thought that I cannot just continue the same, but do whatever it takes for HMM's Love to be everywhere, for it to permeate, I will practice true love and devotion moving forward. I know that Heavenly Parent has prepared the righteous person here in Hungary.

Witnessing together with the Pastor's Wife, after the 1st and 2nd generation felt one, praying earnestly, in the process, we met Michele from Zim Bague. When we first approached, she greeted us with a bright smile and did the survey gladly, which had 4 questions regarding the cause of human suffering, ways to make a better world, the Existence of God and Purpose of Life.. She thoughtfully considered each question, answering sincerely and taking the chance to reflect upon her own life.

When we introduced our community, she showed great interest, saying s he had been looking for such a place, and took an active attitude contacting us. She has finished the lectures on the Principle and has reached the stage of studying the fall.

In the past, due to various questions, she had laid down her faith. I felt Heavenly Parent Directly residing over our meetings to correctly Teach the meaning of Christianity. She shows deep interest and joy in the lectures and continues to maintain a steady relationship with us. I resolve deeply to continue nurturing such a precious child of Heaven and do my absolute best to fulfill True Mother's Will.

Lastly, I offer my earnest prayer and wish HMM, True Mother for Your health and release.

Love and Heart of True Parents experienced on the front line... We witnessed the SW working through missionaries who convey the love to their neighbors... As deep as the devotion we offer and earnestness we share with Heavenly Parent and True Parents, we arouse miracles of hope... applause

Moving forward we will do our best to support these missionaries... Kim Jong moon

HJ Report

Director of Cheon Shim Won Kim Ju Won

(with fishing clothes)

big applause

and special song of entrance

That song you just heard is a new song, The HJ Trot Song'

Fishing devotion report

Where is there any fishing devotion lately? but we did four WSs... There is a limit to really share the details, so brief report.

PL: The 6th fishing devotion is upon us... 1,600 and the #40 40 times, this means that all of the things of indemnity, and I felt True Father would be working. I couldn't catch fish, but then felt True Father working through me, and starting this fishing devotion and praying, and miraculously I heard a bell on my fishing rod and I prayed, 'Please allow me to catch a fish related to the #600'

I realized that CARP are even more precious.. even I prayed for a big fish. The CARP 46 cm I got, I realized that... 'True Father thank you for working through me' The 1,600th devotion

True Father: Now, finally we see the fishing. When I went to the SW, I still did fishing, missing the feeling of the fishing, which was Providence, Devotion, Prayer, something I cannot exclude in My Life, and I am so glad and will be together with you all the time, even if you put only a needle on the rod, I will look upon you with such joy.'

True Mother: You need to become one with the SW and organize all the things that could be the stumbling block. You know already that you need to move the SW through the Cheon Shim Won devotion and mobilize the SW.'

With this in our hearts, we did the 6th devotion, where the Tongil staff were there. The same day, the Spiritual Academy and trainees offered the 24-hour devotion and Unification Church members offered the devotion, and it was raining so hard, and the staff were risking their lives, not hiding from the rain or afraid of it, but earnestly offering devotion in the rain until dawn, like True Father offered devotion in the rain, not to give up and offer... applause

Kim Sang yong Team Leader Song ha yong... Shin in wa I Bok jin... Jon Jang Waek... Pak Un U... Oh Jon Rok... Song Tong I... I Ju chol,... Song Hyo Ae... Ah Gon nu... Oh Jong Nok... Song ho yol (13 staff members of Tongil Foundation... all 2nd gen, and their eyes were really different...

Through the Cheon Shim Won, we will be victorious... They had such passion and spirit... a special story they told of the first time they came to Cheonyujong, where they saw the picture of True Father catching a big CARP and felt a connection from the very first. I asked them to please give a picture... The staff of the Tongil Foundation so connected and deep love for the fishing and such a grace-filled time...

CARP is hanging on the wall of the Tongil Building and we came to represent the others... and complete without anyone getting hurt.

During the 3rd Seonyujon Devotion, his father caught the most fish but then he caught more than his father, 25 of the Bu Gyo fish and such grace... with gratitude to Heaven, and they brought us a fan as a gift for us...

Thinking we should fish even if it rains all night... True Mother takes the storm upon Herself for us, thinking I will be together with Mother, then the fish came, and this Workshop is chance to realize being one with True Mother and becoming one with my public responsibility...

True Father's Words last fishing Workshop:

You must know that before concluding a Providence and moving toward another Providence, you must offer the fishing for the great victory. I offer fishing devotion without talking. Didn't Mother tell you to definitely win the Medical Yoido law suit.

She told you to offer fishing devotion while talking about the reason before Heaven, to offer devotion through the night so that Heaven has no choice but to work, and not to think lightly of it.

Until the Will is fulfilled, we must move forward, even cutting down our sleeping time, we must move forward while staking our lives and driving ourselves forward.

Do you understand? Now is the time when we must move forward, when we must accomplish. It will not do if you only listen to the Words, and do not practice them. The Parent's Will must definitely be fulfilled. I hope this becomes a time of offering life-or-death devotion.

Father asked us to cut down our sleep and offer devotion. Those who say they are too tired for devotion, I hope you will engrave these Words in your heart.

PL: We must have the heart to suffer together when Mother is receiving suffering. If the Tongil Foundation does not become a spectator and truly has the heart of suffering together with Mother, HyoJN and HeungJN and True Father Who have the Heart of suffering together with True Mother will surely work.

True Father: When I was confined in Danbury, Mother was confined in Danbury. Not a single day was comfortable. She shed tears every day and spent the cold winter there.

Thinking about HyoJN spending a hundred days in East Garden during those cold winter days when temperatures reach (so low) offering devotion.

For Mother Who receives suffering, be together as filial sons and daughters.

We couldn't catch a CARP, some of them actually caught Bass and Glue Gill, total 44, on the foundation of 1,600 he said multiply 4 by 4 and be victorious, with the most Bass we had caught.

What I realized is that we were able to fulfill these words to overcome the obstacles, we caught the 46 cm on the last day and a time to release it.... We did 4 times 4

True Father... I fished for God and was able to Meet God right there. As much as I waited, when I waited for the time, held my breath, I reached a state of non-attachment. On such days, that is a gift given by Heaven when a single fish is caught. Going quietly in deep meditation.

When you offer fishing devotion and no fish are being caught, you will automatically be in a meditative state where you pray, and in deep state of prayer, you can hear the deep sounds of nature, the water, earth, wind sounds...

When you offer fishing devotion, I find Myself Tearing up, thinking of True Mother.

VIDEO

I realized that we could overcome our tiredness and fatigue and have great results.

PL: True Mother going the cosmic path of the cross is because all of the BFs, we never have more difficulty than True Mother, so we must be the filial BFs comforting Heaven suffering with True Mother and protect our True Mother...

Joh an ung Yang Chan sung Che won su Pak sam a Paek wan Guk... participated They look like special forces of Heaven with Thphoon Bobby was swarming and raining so much...

Secretary General... We earnestly hope and desire that during these times of difficulty we can break through these times

In this Providence, what should we do as elders? I thought we who directly received grace from True Parents need to gather our devotion and fulfill the Words of True Parents...

PL: When the nothingness state returns... How many believe the Cheon Shim Won is Father's Office, where the 4PF True Father governs and the Substantial Holy Spirit Mother's Womb and a place connected to Mother's Ambilocal Cord... This importance

True Father... another Message that emphasizes how He continued His devotion no matter what...

We were told its raining and wind too much, please do not go out. The staff member said he actually experienced this,... when the youth had the experience of fishing attending True Father, but the 2nd and 3rd gen should really inherit this heart and I was preparing this HJ Report and so moved by this... Mother, after Father's Seonghwa saying we must return to the faith of the early church. living and breathing the Word

I hope a lot of youth will apply for this fishing devotion...

Tae wan su and Yong chan su received prizes... and he gave closing prayer: Amidst the start of all Providential departures, True Parents offering the devotion for all things that have been unfilial internally and externally, and declared the Era of Settlement of Cheon Il Guk... I actually never saw anyone to fish like him... even in the place where the trees were packed and he actually was throwing the rod sideways... and it was not a natural posture, but he did a 40-day in Brazil 3 times and fulfilled responsibility of

catching all the fish True Father was aiming for (Pyaw Hwei Shik)

So, how can I not offer a greater conclusion to Providence and move past it for victory. Although, my lips uttered, 'It is my sin' while Mother is suffering, have I ever truly thought of it as my sin and repented with deep remorse and tears... with a broken heart... Saying go ahead, come rain, come wind (the umbrella blew away) but I said I am truly a sinner, let it come.

Our staff was trying to convince him to go in, but he wouldn't move and continued his prayers and devotion.

This was PL Closing Ceremony:

not a path united by human strength... all foundations must be mobilized, praying even more when your body hurts...

The 3 CARP we caught... releasing them for True Mother's exoneration 'Oeg Monsei~)

Shin dong mo Tsujingte (1st itinerant of Cheon Shim Won) and I Su chol... Kim song sok... They were the ones of the special devotion of itinerant... I felt their spirit and that this is exactly what risking your life means, their passion just looking at their image...

Tsuingte wrote a poem called fishing last time, but a new one 'Lotus Praise Song'... When he was sitting on the chair, there was lotus that was blooming, and moved by the nature, when I was passing him and thought he would make another poem...

The tightly wrought lotus leaf spreads its body with all its might

like a parabolic antenna, receiving the energy of the Heaven and the universe, finally blooming a single lotus flower, erecting its flower stalk straight toward the sky, revealing its light pink, graceful posture, its solemn face, silently rides the wind

A single petal alights gently and it becomes a solitary note on a tranquil lake, my heart solemnly lies down on the petal, taking the clouds as friends and causing the open sky

One and two pretty petals, when the time comes to unfold their wings and lay them down, like a bee hive, a lotus sea pod the dreamers dream, ripened one by one, the lotus rooted deep in the mud, purify the waste water of my heart drawing up clarity like a spring (as best I could get it)

another poem shared during the break...

The bull frog constantly waits for us to come to the fishing devotion, the really big sound... How to concentrate on the fishing... (big frog comes out) laughter... When I was offering devotion, my head was affected by the sounds the bull frog was making, but Special Itinerant 'Shim Don mo' said 'Be quiet' to the bull frog, at that very moment they actually became quiet...but a few moments later they started again, but after he said Be quiet, the sound was almost gone... amazing... Words of special itinerants are really the Words of Heaven and True Father... This special education through the bull frog.

This time we could only catch a CARP on True Father's rod... not the Special Itinerants, but during the closing ceremony, what I felt is that I should always work through them, centering on them, the deep feeling, there was a CARP on Father's rod, holding on to this fish from True Father's Seat, a

representative, Shin Dong mo received the award :

I thought the time had come, but after that there was complete silence. I thought the time had come to clearly show us it can definitely be done. The fish are there, and for us who couldn't catch any to analyze ourselves, and I thought that I must offer devotion with true sincerity.

another: If Father offered devotion before True Mother, the time has come for us to also offer fishing devotion and follow Father's deep circumstances and enter the Realm of Heart and nothing can bring us closer to the concept of that Heart than fishing.... and truly grateful to do the fishing at a time when True Father's Heart is shining so brightly and brilliantly and for the sake of True Mother receiving the Purpose and having the Resolve of HMMH, True Mother and we become one.

another: After having the dream of fishing, the first day, 2 fish came and I thought it was for True Parents, one for True Mother's rapid return, comfort and health... and from now I must go closer to the field and grace to be received through me, a new start like that

PL: Because our special itinerants are the Commanders in Chief who can go to the field and testify and boast about Cheon Shim Won and make the history of grace and Blessing, history of miracles and to testify and plant new hope through this Cheon Yu Jon fishing devotion and go the fishing Workshop this time, which met a re-departure this time... to our TC too, so that Korea can make a new / true start, we can make devotion that can make Father rejoice... and summon great rewards

This was the staff, guessing who would receive the biggest and most fish and predicted the biggest was of Itinerant Shin Dong mo and the most by Tsujinte Itinerant... and True Father caught 2...

With the Words of True Father, everyone made a new start and a time of revival

This is the last report of the 9th vigil... all participated in the 7th but in the 9th the elders of Gapyeong Country participated... applause for our elder pastors...

Ju man ung and Jo Jong man... 2 times participated...

Such a dearly moving time, with all the staff receiving the most grace...

True Father: Even if we receive such difficulties, have the heart to comfort True Mother because True Mother is the One Who Wants to Comfort Heaven first, and look upon True Mother and become the filial sons and daughters who can comfort Heaven.]

Who is the filial son from the very first? Even if you are lacking, if you move forward with the Heart of Mother, you need to go step by step, not as children asking for Mother but thinking about what we can offer True Mother, for comforting Mother... that is how we need to change... thinking not to ask from Mother but to give to Mother... Let us make a place for Mother to free from Her Burden even briefly, we need to fulfill our responsibility for that, not only in our hearts but in our respective positions. We really need to protect our True Mother."

I truly believe (our fishing) was a time of devotion where truly, we were protecting our True Mother.

During the 7th Workshop, there was the typhoon, but the 9th was the hottest of the summer, and they and they had the experience when they were attending True Father where there was even more drastic environment, and they said, 'Don't worry about it'... and these caught 4 CARPs... in total five of the

significant fish...

Two of them participated several times... and one of them gave the longest reflection remarks for 16 minutes but not at all boring but only moving and grace-filled.

True Mother has said Cheon Shim Won is the biggest gift but really the greatest gift was at the Cheon Shim Won devotion, and they gave watermelons and some snacks and Deaconess said not to share, but we received a lot of gifts, and the elder pastors were so moved. applause

This is True Father's fishing Throne and He is really working there and the CARP caught on His line was 36 cm... and we could truly feel True Father working

Cho san hung biggest and Cap Yon mang caught 5 Blue gills...

President Che Sang Ul... Every time I come I can recall things... The most prominent was the #40... He actually donated one of his kidneys for his brother... He also said, 'We are so moved by his devotion, really risking his life, continuing as a 40 cm fish was caught and I truly believe it was for Heaven to let me know how I can overcome hardships in my life... applause for him to recover his health... (He gave the testimony on the spot so sincerely)

Mr Pag I mal is the one who really has deep affection toward Cheon Yul Jang here even when there's no fishing there, he really looks into it and offers devotion... There are still so many who do not know the fishing Providence

They caught the CARP at 7:20 pm

PL: There's nothing we can't say enough about becoming one... Therefore, when our seniors truly become one, it is so that we can triumph... Since it is our President Cho Jang Un vigil, I see it as resonating with True Father and appearing as a resonance phenomenon.

Even if you go to the SW, because you go to the SW as earthly messengers who can convey Mother's Words, living is hope and dying is hope, and from such a position, I believe Heaven will bestow great Blessing upon our pastors who will give rebirth in the future.

We caught 4 CARP and 1 Christian? CARP and they released them for True Mother. applause so hoping True Mother will soon return

Message after the Workshop:

Dr. Chin Sung Bae gave it... During the vigil, he showed this fish, and one of his friends captured this photo to a Christian pastor who has a relationship with him and the pastor actually gave... was thinking of True Mother with concern for Her health, and he received such words after the photo...

Pres I Te Gong has a artistic certificate and he offered devotion to receive it, and right after the fishing devotion the certificate was approved... He said it was the miracle of the cheonyujang devotion. He caught at total of 11 excluding blue gills, and I truly hope the next batch will do their best to break the records set by the elders.

True Mother: Word resonated deeply to forgive, love and unite... The parents and sons and grandparents and grandsons and daughters... I was so jealous how absolutely one in heart they were... The contents of

the 4PF is centering with the give and receive action that is one with True Father in SW and True Mother in the PW when we reciprocate where we can forgive, love and unite, our staff absolutely realized this, and afterward they gave such reflections that this elder pastor gave such stories about True Father and it was such a moving time.

Where can we hear and inherit like this, I want to become the staff... And the trainees are in competition where they want to participate where the 1st and 2nd gen become one, centering on the tradition True Parents inherit to us. It is such important devotion, so many words that are circulating in the church or anger and complaining, and that only has hurt and despair, but the amazing contrast of 1st and 2nd gen becoming one with the fulfillment of the Words through fishing devotion, forgive, love and unite...

Let us offer bigger result in difficult times and be victorious

BREAK

Busking

Hoon Dok Hae

What you need is prayer and devotion. Have you stood in the position of being resurrected yourself or at least of being a person who is capable of taking responsibility for your environment while living a life of faith.

We are not able to do so. That is why prayer is important. Prayer possesses the proactiveness that can move the standard of life and death. Offering such prayer is difficult work.

If I am building a tower a thousand fathoms high, how busy would I be, how busy must one be to build a wide and high tower? If you have resolved to build it up within 50 years, say you have not a single moment to rest.

I believe prayer should be the most powerful thing of all. This is because you can turn the impossible into the possible. The Unification Church emphasizes prayer, but we do not pray through other special methods. However, the content is different. Our Teaching is, 'Do not prayer for yourself'. I Teach you to pray for your mission, for others, so that your prayers reach and comfort God.

You must resolve difficult problems through prayer. Prayer is establishing a relationship centered on God's standard of heart over an issue genuinely concerned with Heaven's Heart and then you will be shown the path. It will be made know to you. There are many such works

Merely than expanding outwardly, you must pursue the path of unifying our minds and bodies what is pursued inwardly and outwardly. This is the prayer life spoken of in Christianity today. Rather than a prayer where you set up a goal to accomplish it, a prayer that thinks with God's Thoughts to accomplish them, is why we seek out quiet places to pray.

HJ PRAISE

Cheonshim Choir

'Love of Heavenly Parent'

PRESIDENT LET GI-SEONG'S MESSAGE

1,622nd Cheon Shim Won TYSM... the song 'Love of Heavenly Parent' and they are receiving such grace and currently receiving the precious Workshop to inherit the shimjeong of Heavenly Parent and the 4PF of True Parents Family are with us and it is the day when the 4th generation and every group is congratulating the Birth of the greatgrandchildren and for this child to grow up as the rock of Cheon Il Guk...

In 2020 a family in True Father was praying for such a child, but since he grew up with such extended devotion, I truly hope for this child. If there is a newborn baby, there are times like this, but because of this birth, you can receive a lot of good fortune, the rock of foundation for our church to spread out.

At the DC, even with the heat wave and suddenly raining, they are unwavering participating amidst these difficult times of our True Mother, and the inheritors of Heaven's Love and Blessing, we congratulate Sun Sok, a comfort for True Mother and fire of new hope... It is a promise of fulfilling True Parents Words and at this Cheon Shim Won, let us pray with one heart and devotion for Moon Shin chul family.

We are gathering such devotion internationally and about 41,000 are devoting together and H Korea and churches... here 205 of them

H Japan... 3,700 places... here Oh Tang gol... they are renting this venue, but he continues his work 2 hours sleep per day, not only the words but the living of risking their lives to make the foundation in 7 years...

14,300 places in H Japan through You Tube

Albania, East Africa, H Central America Jardim and H USA and N America... SF 777th vigil... 700th and another 500th 440th..

Pastors coming together with the members and wanting to conduct the one-heart resonance prayer, fulfilling the Words of True Mother when all members love and unite, making this our lifestyle... through Cheon Shim Won 3-Day Resonance Prayer Workshop... ingrafted into the field... more than 450 of them coming here... and not place to sit... We need this foundation being made to move forward with Spirit and Truth and power to overcoming any difficulties. We will see our power through strength and so True Mother is saying we need to find this strength and power, so don't say, especially as leaders, that it is difficult. When we speak of hope, members will gather, and we can risk our life.

When we speak of hope, not even so difficult like in the past. We were mobilized for the Peace Cup and went through so much difficulty... We just need to do our best and we will receive strength and then we can grow and others follow us.

The son 'To the Homeland'...

I Chon Mun gave the report of the UPA Cadets and H Top Gun missionaries... missionary to Canada met such special people that can share their stories with tears... Even after half a year, even not responding, with the calling out prayer making the connection, and when they met her, the person said, 'This was the hand offered by Heaven, but I was not able to meet but I now want to hold the Hand of Heaven.' Continuous calling out prayers will catch the prepared people in our love.

Hungary missionary... love is visible and your prayers and love must be visible and going out with True Mother's Heart, there is nothing we cannot accomplish and we see the guests who are our friends and relatives who still don't go to church, and when we offer our tearful prayers, we can connect with them...

W African Branch... the older sister gave a testimony at the Gapyeong Family Church. She offered so much devotion for her brother to come to the Workshop and eventually he came to the standard to go as a missionary to West Africa... Don't stay in despair...

'Wings of Cheonshim' They practiced so much to come on stage... becoming one with HMMH

Report of the Fishing Devotion... I believe this is the most popular report. If we say the vigil devotion is worth 3 hours, this fishing devotion is 24 hours. Our Division Head Tsujinte, although he was not able to catch a fish, just looking at nature, he caught a poem and there's a deep joy when you stay awake all night...

In the past, we offered prayers until 4am, and there were times when we stood up all night in the past, but now even in such rainy environment they offered like a war. Even when it's not raining, the mosquitoes ask, 'Are you still offering this devotion?' and there are such people who continue to offer this devotion...
