Cheonshim Grand Church Leaders' Seminar

Hello, I am Koju, the Volunteer Team Leader... reporting to you...

With the heart to be one with True Mother and to restore Yeongsan, we went around the 16 Districts and City Hall and Elders centers... and gratitude to the members who offered a lot of donations and to those who took the photos for our festival of filial piety (the photos of the soldiers and family to remember, set up on chairs)

When you offer devotion, you must have results. So we did a tour of the Complex and tried to bring members who had relation with us to CP... Magnolia Bird Park and visited Cheonwon Guk and learned about the Epic History of the Han People of Korea, how True Parents came as the Messiah, and I saw

many people who were moved.

Afterward, we were able to receive the grace-filled message from Pastor Ogano... We had lunch at the Place where Gapyeong cruise vessels were passing by on the beautiful lake...

We heard from District Leaders... talking also about ansu... Afterward, we took them to a place to do the ansu, and some said they didn't need this, and I said, 'Why don't you just try it casually?' And afterward, they said, 'Oh, it was really good, really good.' 'I received the good effects' 'Those people really tried to heal us with all their devotion, all their heart' 'I was very moved with my heart welling up.' 'Truly, it was different' 'Even they were hitting me like twenty times, I felt no pain, and issues my husband had to help me with, I feel are resolved.' 'I feel healed.' 'I feel that God has sent me to angels, and from that moment, I shed a lot of tears just sitting there. Truly thank you.' 'My heart was very comfortable, thinking, Oh, this is Heaven.'

This was ten times better than when other people or government officials came to us. As those people felt the heart of attendance, they were grateful. 'I felt that I entered Heaven. No other church will offer greetings like this. Every step was very humble, and I am very moved to see that.' 'It was a truly great experience. I will introduce this to those I know. I need to promote this.'

(Koreans can be so strongly negative, but so gratefully positive maybe even more)

'The grace of True Parents... I feel like I need to continue to be with them, and I feel like we need to accept their sincerity.'

We are 430 families Blessed, but this I don't think should stay as a performance event. Until the last person is witnessed, for them to know about True Parents, until that day, we should not rest but do our best to push forward. We will continuously go out and do witnessing activity. Our Region 1, proudly our missionaries and elder members have become one.

We are truly setting the witnessing system. We have prepared both internally and externally with the heart of gratitude. (I would notice and say that Her face has been so serious, like straight focused, not smiling, neither in the photos and I thought it might be difficult for some to feel love from her... but now she is smiling, not broadly, not self-centeredly at all but really Heaven centered Love to have been first in her

deliberate strategies and actions for results to reach people horizontally. She smiles deeply with her whole face when she smiles... with vertical heart of offering results that she knows can please Parents... others smile wonderfully friendly and wide youthfully, but her smile is more matured. Good to see her 'parental leadership smile' a subtle but strong energy leading Arirang... like a true love sargant calling all their hearts into song together despite resistances there to trust at first)

really big applause for her

eldest daughter of 4 children of Australia family...

Deepest gratitude to Heavenly Parent and True Parents's for guiding me back when I almost lost my faith (this is the translator brother that gets so heartistically involved in the testimonies)

I was born deaf and later received implants, but my hearing has never been perfect and I couldn't form relationships easily.

I deeply longed to feel accepted and loved. Wherever I went, I was close to my mother, but my father was distanced, and I often felt misunderstood and hurt. (translator looks at the speaker... Other translators look down at their notes.)

I kept communicative to Heavenly Parent for strength whenever I felt lonely or hurt. In 2022 my faith wavered due to painful church relations, and I wanted to be seen beyond my disability, but I felt weakened, exhausted and numb. Feeling rejected by those for whom should have cared I thought with resentments and eventually I stopped attending church, rejecting being a 2nd gen and for 3 years in the

secular world, my relationship with God faded.

The last years were the hardest, losing my motivation, and with unhealthy friendships outside the church. Feeling lost, I went to Cheon Shim Won and prayed for the first time in a long while. One word came, 'Missionary'... I rejected that. But I received advice to go to the Workshop, and I was not good with that, but I couldn't stay as I was, so I booked the flight.

I was exhausted, closed and unsure why I came. Someone told me not to pay attention to what I was supposed to feel, but what I actually felt. I was realizing a little how my heart and been closed after rejection so many times, and there was numbness.

Reflecting on True Parents suffering and devotion, I felt sympathy for True Mother for the first time in a long while and began forgiving the people who hurt me, and starting a desire to be new.

Afterwards, I attended Spiritual Workshop... I felt a warm touch on my right shoulder and no one was there. I understood it as Heavenly Parent, guiding me to go forward. I returned to Korea for the 40-day. One challenge was singing holy songs, when singing never felt natural, and self-conscious and insecure, I even skipped night vigil twice.

I asked Heavenly Parent why it was so hard, but no answer. English was my main language, but it was difficult because of the deafness, and after quite a while to learn it more comfortably... Then I as kept singing, to practice more comfortable and to use the songs to express my heart. Still, greatest struggle was to build relation with Heavenly Parent, even I prayed every day, I could feel Heavenly Parent, and I wondered, 'Is something wrong with me?'

Doing the 16-hour prayer condition with holy songs, my voice became weak, and I shouted, 'I never prayed like that before. Heavenly Parent, why can I not feel Your Connection. I miss You so much.'

At the end of the condition, I felt a warm touch again, Heavenly Parent's Hand on me and my heart began to stir with the same feelings when close to Heavenly Parent and I began to cry.' It felt as though my heart that was numb for so long was coming alive again. Heavenly Parent had not abandoned me, but my own heart I had closed, and Heavenly Parent was patiently waiting for me to open it.

I also felt angry to Satan for taking everything from me, confidence and faith and connection to Heavenly Parent and others. I no longer want to accept that feeling of rejection and feeling unqualified.

After this Workshop, I want to continue rebuilding relationship to Heavenly Parent and family and True Mother. I hope to help others find a way back too, from faltering. My journey of healing is not finished, but I am moving forward again, and I believe those distant can return one day, just as I am now returning.

I sincerely thank Heavenly Parent and True Parents for bringing me back, and for True Mother to stay steadfast and loving us despite Her pain difficulties.

SEONGHWA YOUTH TRAINEE

Ki Mu Neh

eldest of three daughters

I spent 6 years as a dormant member, but attending Seonghwa Youth Workshop, I began experiencing the

love of Heavenly Parent and True Parents and visited Cheon Shim Won and I wanted to set down the roots of my faith and live for heaven, but without knowing the Principle, my faith wavered and the Workshop grew bleary, and with people around me... caring more about how I was appearing to them, I wavered...

My heart had overwhelming desire to go to the Workshop, but it interlapped with my study and tutoring and practical thinking about my grades dropping, but thought I should attend at least the weekend Workshop...and attending Friday vigil with the trainees and afterward while volunteering at the Kids' Cafe... and I met the coordinator invited me to attend...

The next day I had a dream, 'Please help Mother! Please!' and I felt called to the Workshop, and since Heaven was calling to this extent, I should go and I wanted to pull my faith back, and all the schedule came together for it...

I felt the Heart of Heavenly Parent and True Parents for the first time and to hold that deep in my chest and become a child one with True Mother. But I couldn't feel earnestness in my prayers and negative thought arose breaking my concentration.

The words of leaders and coordinators taught us that Satan would interfere with anyone as they try to draw closer to True Parents, and I realized how I am being interfered with right now (apart from my own true desire) and I felt to push forward with devotion.

The coordinator said, 'It's hard to do Hoon Dok Hae for even an hour, right? But (True Father found these Words after 6,000 years and Spoke directly to True Mother after 6,000 years of unspoken difficulty) and True Father/True Parents proclaimed them as if shouting before hundreds of thousands of people.

How earnest must Heavenly Parent's Desire be to convey the Words Heavenly Parent wanted to convey for over 6,000 years (to even begin through True Parents, through more stages) That thought made me realize that, while True Parents walked the path of Blood and Sweat Devotion, just to try to convey Words to us, I had been taking those Words for granted, and putting off devotion because I was tired or annoyed.

Not wanting this Workshop to pass by idly, I set small, achievable goals. I resolved to read Hoon Dok

Hae every moment and cultivate a grateful heart with the other trainees.

The Words came, 'It's okay. You can start at this moment.' It felt as though Heavenly Parent was looking down on me, comforting me, encouraging me. And on August 1st, during the joint Chanyang Session, in the Main Hall, all of us singing, 'I Will Love You Forever', I offered the prayer, 'I want to grow more than before. More than in the previous Workshop, I want to grow more. Please let me be one with You and True Parents' I felt True Mother embracing me and shed tears, and this enabled me to take a step more forward.

I could plant the roots of my faith even deeper than before, with words of the staff and trainees with me. It became a tremendous source of strength, and listening to True Parents's Word and feeling us going together with one heart and mind. I could look back and see that the future might hold challenge, but I will go forward not out of obligation but love and advance to be one with True Mother.

I harbored a dream to be a public official, like the staff welcomed us and spoke to help any struggle, I want to also return that love to pass it to the students. Though I am lacking, I will continue forward and offer devotion for True Mother.

Let us move forward with great power. True Mother, I truly love You. TYVM

True Parents Words: What is it that can benefit people from around the world? It is CP, a comprehensive Center to synthesize different cultures. Those who have worked hard in the field of their countries, we want them to consider it an honor to come from the CP training and then return. That is why I want to make this place a Homeland for the world. Just as this harmony of cultures right here at the CP TC can bear fruit.

The first week is orientations and through resonance prayer and guidance of faith by Directors... This must be a Place that stays ahead of anyone else. In particular, for the lecture of becoming one with Body, Heart and Love with God, an application by the Educational Dept. for development with the AI era is used to record and verify one's practice of devotion every week.

The 3rd week is breathing meditation and Chanyang yoksa session and gathering are conducted not only indoors but also by going out to holy grounds like the Tree of Hyo Jeong and Tree of Blessing. We went to the grounds in Seoul and Pilgrimage... Hyojin won and special lecture on HyoJN and taking time to pray at the True Father site.

Through the dark night, far away

So, there is a saying that dancing is the completion stage of praise, also meditation of walking prayer, different prayers, but True Parents said we can also separate spirits through dance, and through the program including this...

Twenty years since visiting CP. During the mediation I heard, 'Live happily. That is the Purpose I Created you.' What warm words those were. I shed tears on the spot, and my partner hugged me. ... If a family puts such a heart forward attending Heavenly Parent first, there is no way Heavenly Parent would not be with them. You must know these Principles, reorganize your lifestyle and lay such a foundation. Prayer is more important than eating meals. That is why I too love nature and make spending time alone a hobby.

And I truly love silent night. There is no other way beside prayer to lay a rich foundational base for your life. You can feel love and experience love in that world position, but it has difficulty different from ordinary positions ((which God said is lighter actually than worldly burdens))

On that foundation, you must position yourself so that you can reinforce your own strength so that you can walk the path of faith by yourself. If you are always pushed along by Me, what will you do when I am not here?

Prayer is necessary for you to equip yourself with such an inner life. You must pray for the whole day or night, in order for it to be living prayer. (not quickly for a time period to end)

To pray for the important matters of your lifetime, you must cleanse yourself and pray for matters

completely unrelated to the boundary of satanic involvement. Some say no matter how much they pray, they do not receive an answer. But such prayers are not clear conditions to be found answerable (mixed with fallen nature influence). The God-centered prayers must be offered many times while shedding tears and shedding blood.

We have crossed over the peak of tears and the peak of the cross. Jesus offered a prayer of Bloody Sweat in the Garden of Gethsemane. He shed Tears while embracing the nation. Such prayers can suppress and shatter the authority of Satan.

Tomorrow 3-day in Korea, and sound of prayer raised high.

Today, our sister from Australia, born deaf, and had implants but still imperfect hearing, abut despite such difficulties, she communicated with Heavenly Parent and received a lot of comfort through that, but in 2022 she faced a great trial and blamed Heavenly Parent and the church and could not accept the words 'One Family under Heavenly Parent' and her heart was disconnected and 2025 was the most difficult, but at that time she came back to Cheon Shim Won...

And I believe that was the hope path. She heard her voice from inside to attend the Workshop in Korea. Our 2nd gen's reality is truly different, shown in her sharing. The fact that she knows that her heart was closed in itself is amazing, with many not knowing or thinking that way, having such feelings on another level.

She was able to resonate with True Mother's Heart and forgive people who hurt her, and she felt the loving touch on her shoulder of Heavenly Parent, and after that she joined the 40-day Workshop...
