Opening Prayer of Gratitude

Most Honorable Heavenly Parent

Beloved True Parents of HEH

Today as well, we sincerely thank You for Calling and Gathering us to this 1,659th Cheon Shim Won, the HQ of World Devotion, the Office where True Father Personally Work and like the Womb of True Mother, allowing the Blessed children of the whole world to offer Cheon Shim Won Special Vigil Devotion with one mind and one Will.

Heavenly Parent, tonight is the night that is so Special and heartbreaking for us, when we think of the

particularly pitch black day one year ago, when we faced a situation we dared not imagine. We cannot even bring ourselves to lift our heads. While passing through winter, autumn, spring, summer and welcoming autumn again, we have still lived our daily lives, but when we think that True Mother has walked that Path of Suffering with Tears regarding a single day like a thousand years, we cannot restrain this heart of apology and inadequacy.

Beloved True Mother, how lonely must You have been all this time. How many frustrating and heartbreaking moments must You have spent? Even so, Mother, You Told us not to worry about You, but rather to pray and offer devotion for us, our families, the Unification Family and the Will of Heavenly Parent.

Mother, Mother Who Thinks of Her own children before Her own Suffering. True Mother Who Worries about the Will of Heavenly Parent. Before Your own Pain, before such a Mother, we cannot help but deeply reflect at this time on what kind of children we have truly been over the past year, how earnestly we have prayed and how many tears we have shed.

We who were unfilial and disloyal in the past days, without being able to look upon the Cross True Mother is Bearing, we distanced ourselves from devotion due to small physical fatigue, complained of hardship over small difficulties, claimed unfairness over small misunderstandings, wanted to be recognized for small sacrifices, were such people. So, please forgive us.

True Father Who offers devotion more earnestly than anyone, now, please Work so that we will be completely transformed through Cheon Shim Won Prayer. We will become one so that True Mother will no longer be lonely. We will fulfill our responsibility so that True Mother will no longer worry.

We will surely achieve victory in our respective missions, so that the Path of Suffering True Mother Walks will not be in vain.

Through Cheon Shim Won Devotion that Mother requested, we will move the SW and bring the Truth to Light for the world, throwing the Heavenly Gates of Cheon Shim Won wide open, we thank You. Thank You for Granting us this Precious Time of Devotion, where we can once again repent, once again resolve and once again become one with True Mother.

We earnestly hope that our this night will become a comfort and hope to our Holy Mother Han, to our Beloved True Mother.

I pray with gratitude in my name, Kim Ju han of a BF Attending Holy Mother Han...

Starting with the general 40-day Workshop of May of last year, I went to Yeongseong Workshop and Pure Water Assembly, receiving about 120 days of Workshop, and then entered Moshim Workshop and the Cheon Shim Won Academy in December of last year, now before I knew it, I have spent 9 months here.

Also, during my Academy activities, I was able to bear the precious fruit of the Blessing. I am active in the Education Team of the Academy, taking charge of the welfare and education of the trainees as well as various paths related to Resonance Prayer 3-Day Workshop.

Looking back, I never thought I would change to this extent. While engaging in Academy Activities, there was an opportunity for me to especially feel the power of devotion. My younger brother had participated in the Hyo Jeong Special Workshop several times before, but he said he did not feel any great emotion or any special experience.

However, in December of last year, as my younger brother came to participate in the Hyo Jeong Special Workshop again, he began to show a slightly different appearance. Even before he entered the Workshop, I began to offer devotion, praying like this, 'Please let my younger brother feel the Heart of Heavenly Parent and True Parents.'

I offered devotion of calling out prayer every day. Even while offering devotion, I also thought, 'Can my brother's mind change? Then my brother who returned after finishing the Workshop, said the following:

'This Workshop was different from previous WSs. This Workshop was the best.'

The moment I heard those words from my brother, I was able to feel that the power of devotion is amazing.

From that time on, I too began to engage while thinking more deeply about the importance of devotion. And I have one more unforgettable matter. My mother participated in the 16th Cheonshim Resonance Prayer 3-Day Workshop. Receiving the Workshop in the same space as my mother was initially welcome and something I was grateful for.

However, it was a Workshop where over more than 430 members participated, and since I was involved in various tasks as a staff member, it was not easy to spend time together with my mother. While running the Workshop, there were many things to pay attention to, and there was not time to rest properly. Even after finishing the Vigil, I went to Hyo Jeong Traditional Farm to receive the HJ water, and I moved without rest to receive the water even several times a day.

Although my body was tired, I wanted to do my utmost in the position I was entrusted with. Furthermore, I came to take charge of guiding the one-heart program in that Workshop. And on the last day of the Workshop, I was able to have lunch together with my mother and share stories about the Workshop.

At that time, my mother said she was deeply moved while watching the appearance of her son, unlike before, praying while thinking of Heaven in front of many people, and offering devotion for someone, unlike anything she had remembered ever before. Especially, she said that while praying in Cheon Shim Won, she received the appearance of Father as if Saying,

'I educated him'.

I also felt a great resonance in my heart upon hearing that story. And looking back I see that I only could become who I am today because Heavenly Parent and True Parents had been Guiding me all this time, and because my mother had offered endless devotion in unseen places.

Coming to the first general 40-day Workshop was by no means a matter of course. Because there was my mother's devotion, I could go then and now reach my current appearance, never just by myself alone, but with the Guidance of Heavenly Parent and True Parents and piled up devotion of my family. Now I want to carry on that devotion.

While spending over 9 months in the Academy, what most greatly remains to have impressed me, is the power of Devotion, devotion for one person and the earnestness of the person unseen, that devotion for me that I want to carry on for my family --that my brother can feel Heavenly Parent more and more closely and I want to live more uprightly so that my parents can feel joy looking at me --giving love and devotion back to the trainees and the Academy as well.

I still have many lacking points, and there will be moments when I stumble in the future, but now, rather than thinking, 'Why am I having such a hard time?' during difficulties, I will again look to Heaven and offer devotion. I too want to become a person who some day can say to my family and to the people I meet, 'I am also offering devotion for you.'

In my future life, I will not lose devotion and will live sharing the love and grace I receive back to my surroundings. I would like to offer my love and gratitude to Heavenly Parent and True Parents for Opening the Path so that I can be in this Place now, and the my mother and the members of the Hangpyeong Church who offered devotion for me for a long time in unseen places.

With this I will conclude my testimony

Pak Jin Min

Coordinator

bows and gratitude

Hello, I am Pak Jin Min serving as Coordinator on the Korean Workshop Team.

I grew up amidst tremendous expectations of my father as the eldest among 5 sibling 3 sons and 2 daughters. My father conveyed the words he had realized regardless of time and place, even in front of the dining table or while watching TV. Once he started his words, his message continued for more than an hour. However, there was one thing I wanted with more earnestly than any of those messages that he shared...

It was not something grandiose. Rather, when I was doing well, I wanted to be told, 'You are doing well.' When I was having a hard time, 'It's hard isn't it? You are working hard.' I wanted my father to share such affectionate words.

I hoped for an ordinary love, where family members harmoniously shared stories and wrapped up the day together. However, in my memory such times barely come to mind. Feelings of disappointment piled up one by one, and from a certain moment, just hearing a single word of my father's message caused anger to rise up in my mind.

(I thought) 'Our house only has messages, and there's no love.' It was only after becoming a middle school student that I came to know why my father gave the messages so much. My father said, 'We did not know

until when True Parents would live upon earth. Therefore, our family must perfect ourself, as quickly as possible and become persons of character who can convey the love of True Parents.

I still hated listening to my father's message words, but after hearing those words, I came to respect my father. Each and every word my father gave me, unawares, became the model of my life and I resolved to become a pastor. However, there was one problem. To become a pastor, I neither knew nor felt what Love was or what God was.

The reason I entered the Theology Department at Sun Moon University was because I could not feel God. I wanted to know God even academically, at least. However, Heavenly Parent was not Someone Who could be understood with the head or academically.

After graduation, going with an witnessing tour group and serving as a CARP member, I became Coordinator. But my mind was still hungry for love and hungry for recognitions. As Cheon Shim Won Providence began, I diligently offered devotion, but my mind of love did not open easily.

One day during Vigil Devotion, I prayed holding onto the question, 'Do I really love True Parents?' On that day, when it became the time of one-heart resonance prayer, a passionate heart toward True Parents rose up. But strangely, that a heart disappeared in an instant as if it was cotton candy melted in water. It was like that on Monday and on Tuesday, Wednesday and Thursday as well.

A heart rose up passionately, but it disappeared without a trace in an instant. I was truly serious. If that heart were to disappear, even on Friday, the last Vigil Devotion of the week, I was thinking of giving up my faith.

On Friday, the heart toward True Parents rose up once again, but it disappeared. However, that day was a little different. The moment that heart was disappearing, I saw the face of my father together with True Parents. At that moment, I could realize that the anger toward my father is blocking my mind toward True Parents.

I started the Calling Out Prayer for my father, right there. At first, clenching my teeth, I called out, 'Father, father, my father, my father, my father' trembling all over. Around the 300th time, my mind began to calm down. And when I called out around 700 times, I felt my father's pain and shed tears endlessly.

(tears)

My father too, just like any other family, wanted to live harmoniously among family members. However, because he knew the words and Love of True Parents, whenever he had even a little time, he conveyed True Parents's Message to us, hoping that we would live happily.

My father's pain resonated with me. And my mind also ached as if it were being torn apart. The desire to love my father overflowed like a surging tide. And at that moment, a heart toward True Parents also overflowed in this chest of mine, like a melting furnace. Only then did I realize for the first time that the mind that Loves True Parents and the mind that loves my father were not separate things.

After that I visited my father more frequently and brought out the stories I had buried in my mind, saying, 'Dad, I was really having a hard time back then. I couldn't understand this kind of behavior from you back then.' My father also told me why he had no choice but to do so, and what kind of mind he had at that time. (tears).

Sometimes we parted with mutual wounds, but even so, I went to visit my father again. It was because I felt my father's love, and within that love resides the Love of True Parents that I had been wandering so much in search of. In this way, the devotion to find the Heart of True Parents, gradually changed the anger toward my father into love.

However, the story inside me did not end with that as my feeling toward my father was sorted out, only then did my mother begin to be seen. For over 30 years, because my mind was filled with anger toward my father, there was not a single place for my mother to enter. When I thought of my mother, no feeling arose. It was like a blank sheet of paper. Perhaps that was why.

The heart that arose while thinking about True Father did not arise at all when thinking of True Mother. Even though True Mother is in the midst of agitation, there was no agitation in my mind whatsoever. The numbness was even more painful. If I even had the slightest bit of feeling, I would have held onto that feeling and at least prayed, but nothing could be felt. (tears) What kind of feeling could it be? Where could my feeling for my mom be?

For several months, I became exhausted, and with the heart of giving up, I entered Cheon Shim Won. Gazing at the Portrait, I called out, 'Mom, mom, mom...' While continuing to call out my mom, though these words resonated from deep within my heart, 'I wish my mom would not hurt any more.' At that moment tears burst forth.

The feeling toward my mom that I thought was non-existent, came to life. Immediately after that, my mind toward True Mother Opened as well, 'True Mother, please do not hurt anymore. Because we are here, please do not hurt anymore.' (tears) At that time, I came to know a little bit about what the Grace I received at Cheon Shim Won was.

Cheon Shim Won is the Place that had made the Love inside me that had been blocked due to wounds, anger and disappointment flow again. It allowed me to meet again the love that had been buried amidst the anger toward my father. And it awakened the love that had been buried amidst the numbness toward my mother. (tears)

If someone were to ask me, 'Where is the Love of Heavenly Parent?' (tears) I would like to say, 'It is within the family.' I believe that Loving one's family is the fastest path to experiencing the Love of Heavenly Parent. Now, I am happy to go home and I have come to Love True Parents, especially True

Mother.

The devotion I offered, wanting to inherit the Love of True Parents, ultimately became the devotion that allowed me to love my father and my mother again. (tears) Now, I do not intend to remain at merely feeling the Love of Heavenly Parent within the family. Transcending the family, I want to love people, the nation and the world, and experience the Heart of Heavenly Parent residing within Them.

In that way, I want to cultivate the love inside me to be greater and deeper. If there are those who are experiencing difficulties within their family, like me. Or if there are those who want to feel the Love of Heavenly Parent, I hope you can come to the 40-day Workshop True Family Happiness Workshop so you can feel it together, and also come to Cheon Shim Won.

Resolving love within myself, I will practice love within the family and expand the Love to people and the world and become a child who offers joy to Heavenly Parent

HJ REPORT

Vice Director of the Japanese Workshop Team

Yokoi Toshiyaki

Members from around the world, hello everyone.

It's been a year that True Mother has been Walking the Course of Suffering. I came out today to bring the joyful news to True Mother. I truly hope True Mother can stay health and return the Cheonjeong Gung as soon as possible.

Today's title: 12th CheonshimWon 3-day Workshop, the Battle is not Over

True Mother's Words: We who are one with True Mother, are moving forward together with True Father, with life-or-death determination. Centering on that, I believe the center of our Movement is Prayer

Practice.

Through Pres. Lee Gi-seong, whenever we listen to True Mother's Words, we are given the Message that we must offer prayer as if we were at war. And as we gain more people while coming to offer prayer and devotion, when we think about and reflect about all the Words, I believe we couldn't fulfill our responsibility is why we are facing what we are facing.

However, H Japan is now becoming more and more in the motion of running. Centering on President Hori with the FF and with H Japan Cheon Shim Won, and while also becoming one with HJ CheonBo Heaven and Earth Cheon Shim Won, H Japan, as long as we are one, I believe that nothing is impossible.

And this time we had more than 700 people come applause and great work occurred. And this video (last time we created it right after the Workshop and it wasn't a complete version, but today I would like to share the complete version...

'I am still unable to realize many things, but even so, please listen to the cry from my heart. '

applause

True Mother Said: 'Let us prepare for the next, the battle is not over yet.'

So, when we have a lot of Japanese members who are revived like this, how can we be defeated. I believe that the end of our path is victory.

If you believe this... applause...

Our goal was 640 and the registration total was 702. Rev. Jun Yu san talked about the #160, and when he was talking, I received a message, 'The #160, you must do four times more than that.' So, I resolved to have a goal of 340 and spoke of that with our team, but Heavenly Parent gave us more than that, in order for people to be moved and become one with True Mother, more than 700 members have come from Japan, and the total number graduated from the 3-day Workshop is 7,360 from the 1st to the 12th.

And until the end of this year, we are going to go over 12,000. If we continue this way, all the members

from the 3-day Workshop, 1st, 2nd, 3rd, and 4th generations, will become one. We will set a condition for True Mother to return to Cheonjeong Gung and we will make True Mother's Sacrifice, not a sacrifice but a stimulant that we move forward much faster and harder. The 12th Workshop was the Workshop with family, with children, with parents.

So, there's the significance of the 12th Workshop. They came as a group. In Korea, in the Resonance Prayer Workshop, a lot of reports are given that a lot of pastors came with their members from their churches. Looking at that, I feel that our Japanese members also felt that they needed to do more.

So, Korea has a culture to become one, so why can't Japan become one? With positive competition, West Tokyo Hakuka Area, more than 500 members came. And later, the video said 50 but later including 40-day Workshop trainees, more than 55 attended. And at the Kamikawa Church in Sykama, 18 members and Nagano 20 came... and I believe more will come in groups for the future WSs and come as couples and parents and children all as family, and I believe great Works will occur. applause

representative testimony through video

North Hukuka Area 80 members came, Victory, Victory, Victory

testimony: Looking for a place to carry on the Spirit and Pray out loud... Then a member lent us a dance studio where we could go to pray out loud at Cheon Shim Won Devotion, pouring out their all with all their might before Heaven. We built up the time week by week... with the Cosmic Seonghwa Anniversary of True Father, we can conduct Vigil Devotion every day...

Depending on the resolution the leader makes, the more Grace can be received, and I felt that it shouldn't just be me, but that many people should come here. With that heart I immediately prepared a tour of about 40 people. I had doubted that there could be that many gathered, but as soon as recruitment started the seats were filled. As a result, a total of 48 people participated this time. By conducting it in the form of a tour, many who had found it difficult to participate could come this time.

I think there are people with physical hardships that cannot attend alone, but coming in groups, members can support each other and come and experience the grace together.

How to continue this grace when returning to Japan? not just my own grace but passing it on to the people around me. I think this is a most important part that Heavenly Parent and True Parents Want. With these 48 people as a starting point, I want to create an environment where it is easy for even one more person to participate in this Jeongseong 3-day Workshop in the future. applause

For H Japan, just like Haguka is reviving, the Place that is among the most reviving the most is Nagano Grand church. They sent 20 members, and let us share testimony:

'In a way, I had to force myself to join this Workshop with my husband. I think we are having quite a bit of good competition between the churches. Every time a member's participation increased, they made it very visible by saying which group and how many people. It became that we honestly thought, 'Let's work hard.'

Even with the dissolution, you could say things haven't changed at all since then, in a good way. Although the environment has changed to be renting homes or some facility for the Church.

How was your experience in the church?

I came thinking that I wanted to resonate, but as I was suspecting, I couldn't resonate. So I wondered how others could resonate. During and after Hoon Dok Hae, the person I was with gave a reflection testimony feeling that God had called them. I felt very deeply that I too had come because God had called me. And I wondered if that was when I felt God's Love for the first time. Because I was able to resonate then, it flowed in. So, I could say I resonated.

My wife prepared the entire path and brought me here. So, I could feel God's Love, and I thought, 'This is Love. I am... '

Wife: 'I am the Jacob child, and although I came to this Path when I was young, without properly meeting Gid in my life, I dragged myself this far. When I was receiving prayer, the very first person who came to my mind was my husband's face. So, with me saying, 'Oh, God, You are this close.' I came to feel that this is my Meeting with God this time.

Because it is an excellent Workshop, that you cannot taste unless you come to the Yeongseong 3-day

Workshop, everyone, everyone, if you're hesitating, it is definitely good to participate. Please definitely come!'

I believe that woman was in the Nagano Church. As I watched this video, I thought, 'Oh, she looks like me.' And if it's okay, I would like to share this message,

'In Japan, such a member exists like that. So, it's not cold. And I feel that, because of this kind of woman, we cannot help but be victorious.' applause if you agree (smiling) She is like Nagano Hyo Jeong. I believe she can be the Ambassador for Nagano, and her husband will be happy too.

Next, there's a pastor from Kamikowa Church:

Is there a reason you were able to participate:

'At Kamikowa Church, we Offer Vigil Devotion every day from Monday to Friday. And through that I also came to know the Contents of the Yeongseong 3-Day Workshop. And I had a pure heart of, 'Oh, I want to participate. Since, it felt a bit odd for the church leader to go alone, and with the heart of wanting to participate with as many members as possible, I encourage those at the Kamikowa Church who could go together, to go.

Members who could practically go were encouraging each other. Those who said that their legs hurt a little, said they would try participating this time when everyone was going. That way the members who were able could gather proactively.

Please tell us about the atmosphere of the Church.

Fortunately for the Kamikowa Church, the previous rental company, lent us another building early on, and because we established that place as a temporary church, we had an environment where we could hold daily vigil devotion, weekly Sunday Services and various meetings.

Because such an environment was prepared where we could unfailingly offer such Vigil Devotion, host Sunday Service, make sounds, sing songs, and pray, the members are truly reviving. And truly, first of all, I was able to participate in this 3-day Cheon Shim Won Resonance 3-Day Workshop together with 17 members. There was a member who came to CP for the first time in over 20 years, and there were those with families that also participated. So, everyone was able to cooperate and help each other truly like a family.

It became through the Yeongseong Workshop that I felt that this is truly what President Hori desires for a new civilization, and that we are generally building it, starting from here. Thank you.

'Kamikowa Church is in the area of the secular world that True Father Visited 3 times. Even in this crisis of the dissolution order, Kamikawa Church was given a temporary Church, and while participating in the Cheon Shim Won Vigil every day, and praying for Mother's Return to Cheonjeong Gung even a day sooner, we will do our utmost in all devotion. Sungri Sungri Sungri Omonim Kayo

Kamikowa Church is not a big Church, but when you look, you can see that a lot of members gather, and you can realize why they were able to have many members, especially this time, for H Japan, West Tokyo area, Wendung san Pastor and all the pastors came together. So, centering on Pastor Im Dong san, the

West Tokyo area has become one. And they are trying to revive through this 3-day Workshop.

Grand Church Pastor's testimony:

How did you come to participate:

Fundamentally, to overcome this current difficult situation, we must become completely one with True Mother, and to do so, I believe that, just as Heavenly Parent and True Parents became One, we can become one with True Mother only when we've become one with Cheonshim. I thought the pastors must first become one with cheonshim and guide the members so that they can become one with Cheonshim.

So, I came to participate in this Cheonshim Workshop for all the pastors in West Tokyo.

Which part was most interesting or significant?

Our Church usually concludes with the Holy Blessing centered upon resonance toward Heaven or gratitude. Our Benediction, we offer benediction this way, regarding the difficulties or health issues of the members, I think there are rarely issues where we struggle to empathize or comfort them, or give them such Benediction like that in the Sunday Service.

So, while doing one-heart resonance prayer this time, I felt that these things are truly necessary. So, I thought that I should incorporate such ministries, Sunday Service and such prayer that can directly convey the Blessing of Heaven to the members.

What was the Workshop for you?

Watching the members who come here earnestly listening to the lectures being given, taking notes diligently and shedding tears together when the lecturer shed tears, I realized that, although in a way as a pastor, I'm in a position to have to lead them like that, I learned that faith should be done like this, --not doing faith with one's own standards, closed thinking or one's own world, but learning, feeling, giving, realizing, giving thanks and rejoicing from anyone at any time. I think that this is true faith, and guiding them like this, is the ministry.

However, because I had many experiences in a way, I also repented that I had a slightly arrogant heart. And going back to the field in the future, while the experiences I've had are also important, it was very precious, valuable, joyful and happy time, where I felt I must open my heart to the various things starting anew and do my ministry so that I can communicate those things well to the members.

To the members of the West Tokyo area, all beloved members of the West Tokyo area, today, I am in Chung Pyung, the Restored Garden of Eden, established by True Parents. Participating in 3-day Resonance Prayer Workshop, I was able to feel the Love of Heavenly Parent greater and deeper.

Because President Hori's great consideration was also present, enabling me to take these steps, let us become one with the wish of President Hori, who True Mother has appointed, and let the members of the West Tokyo area also participate in the 3-day Workshop, become one with Cheonshim, become one with True Mother, overcome all difficulties and bear witness to the Living Heavenly Parent in our West Tokyo. I ask for your kind cooperation.

applause

Now, as the Family Federation has been dissolved, as a 2nd generation member from Korea, this is a Grand Church Pastor who is working hard. In a way, I believe that Japan is one of the hardest church sites that one can work in as a Korean. We encourage our brother Kim Gong san for his work.

Next, Nakamura Sorichigo Taka elder family came. For 8 years they've been working as missionary and lecturing Divine Principle. Actually, he is a truly famous Divine Principle lecturer. They came and received abundant grace. The couple did this interview:

How was it participating in the Workshop?

The thing I felt was most important and that left an impression on me was the testimony of Vice Director Yokoi. It brings me to tears. In 1996, HeungJN called him, and tried to solve various problem related to kidnapping and confinement. And to solve that problem, that HeungJN had also been agonizing over, he heard, 'Can you do it?'

So he was ultimately doing it for 30 years up until now. The various trials and victories during that process, he has overcome everything representing Japan. I thought he was like the grandfather Noah, thinking that he has done everything with them, and that the CP Providence exists amidst that process, what I felt is that it would be good if all members could participate.

Especially if the older families come, then I thought the 1st, 2nd, 3rd generations will all be able to become one and move forward. If there was a change of mind toward Mother, please tell us.

Around 2016, when Mother Said She was the OBD, the first generation was in shock. Therefore, in the case of the first generation, as we went forward we could know that this was proceeded because Heaven acknowledged it and Father acknowledged it.

Although we felt that we could not step forward all at once like the 2nd generation, I think that is because the lineage is different. So, although we have a mind toward Mother, it doesn't work out like that.

Yesterday, during the testimony, didn't Mr. Immanaka talk about it? It can't be helped that we feel that we cannot become like 2nd generation. The lineage is different. There's a difference between being a direct

descendant and being engrafted.

To tell you more, President Lee Gi-seong's words were salvation for me. Why is that? While speaking about the spirit world, because he is a Divine Principle lecturer, he speaks about the Principle accurately. When PL said that resonance prayer is resonated with the heart of Heaven's historical Providence of Restoration. I was able to understand that immediately.

So, the first generation comes from this history (one side), and the 2nd generation comes from here (the other side), just needing Mother. So this (2nd gen) comes all the way and connects us perfectly. For the first generation, also, we had only been listening to Mother's Word partially through various videos, but coming here and listening to the connected Words, Mother's Appearance was fully.

When that happened, it felt like returning to being a young child before Mother. The lecturer Adaishi said, 'A change occurred where I felt a step closer to the heart of wanting to return to Mother's Embrace. This is truly an amazing thing.

Message to True Mother:

Like Heavenly Mother Who went through much hardship behind Heavenly Father in a Place unseen. While Father Stood in front managing the difficult history and difficult Work, Mother You Gave Birth to many children in such a Place unknown to anyone, stepping forward unrevealed in the background.

And also, after Father's Seonghwa, taking responsibility for all the areas we did not know due to our lacking, and continuing to Walk to Achieve Victory. For this I am sincerely grateful. Through this Workshop, my feeling is, 'I miss You.'

Wanting True Mother to be released as soon as possible, and come to us, so we can see You. Thank You.

Next, let me share the testimony of the wife:

How was it participating in the Workshop?

Although, there were various problems in Japan this time, I strongly feel that the reason we were able to be saved that Japan could endure because this Chung Pyung Providence existed. When the Church which was truly a Place to rely on, disappeared, and we did not know what to do, because this Vigil Devotion existed, everyone united there, and by participating in it, I acutely felt that we were able to protect our faith without losing it.

Therefore, I even think that True Mother telling Pres. Lee Gi-seong to start this prayer, might have been because She foresaw that such things would happen. I acutely feel that Japan has been Guided and protected by this Chung Pyung through this current problem.

Therefore, I am simply full of gratitude. Thank You very much. Seeing the appearance of these young people becoming spiritually elevated, living vibrantly and walking the Path of the Will, I strongly felt, 'Oh, they have truly changed.' I felt that they are genuinely the pure water that Mother is proud of. So, I had the mindset that you are our elders in faith, that you 2nd generation members are our elders or seniors. (I love watching her as he spoke and him now as she speaks)

So, I acutely felt that the era has now come where we follow the faith of the 2nd generation (He is pleased with what she is saying and nods) Thank you very much. I really give my thanks.

Letter to True Mother:

My eyes are uncomfortable right now. When I think of You, Mother, my heart aches. My eyes are a bit uncomfortable right now, and my ears are uncomfortable too. Amidst this, I heard that Mother's Eyes are also uncomfortable, and I feel really apologetic that You are living such a harsh Life in this situation.

Therefore, I feel that I want to liberate You even a day sooner, but I do not know what to do. For me too, there was the Calling Out Prayer for Mother, starting out from 2025, right? For 40 days, from then until now I have been continuing to do 1,000 calling out prayers every day.

It is because I thought it would be good if I could be of even a little bit of help. So, it truly hurts my heart when I think of Mother, but I earnestly hope that She will be released as quickly as possible, and I pray that way. So, if everybody can truly feel Mother's hardship deep in their hearts, if they obtain such a heart, I think Heaven might Work greatly once again.

(Together they wave and say thanks)

The wife said that she cannot see well and she cannot hear well. Despite such condition, with the heart of wanting to Meet True Mother, Wanting to Experience Mother's Heart, she decided to come. As I listen to this testimony again and again, I listened to this testimony. It was very moving. And to be honest, if we did interpret better, I believe we would be able to make much better scenes and better video. But I feel sorry.

There was a Spiritual Message to the 3-day Yeongseong Workshop:

Everyone, do not collapse in the midst of sudden tribulations. What have you seen during these 3 days? What did you empathize with? Whom did you meet during these 3 days? Did you not Meet Heavenly Parent Who is with you, Heavenly Parent Who Works without giving up in any situation.

I saw hoe through all of you. How about you? Did you see hope? Do Not forget that heart and move forward. These 3 days are precious three days. Three days is a sufficinet period to create an opportunity for a person to change. Heaven has completed all spiritual problems (way to be resolved) and let this Workshop be 3 daus sufficinet to change life on earth.

What remains is your responsibility. How to practice the grace and realization felt during these 3 days moving forward? The grace of these 3 days must not end as just the grace of 3 days.

The grace felt by doing the Workshop must not end just by doing the Workshop within the 3 days in the TC. The 3 days you spend in this Workshop must be made into grace that continues for 30 days as you return into your respective Places, and you have the responsibility to build it into 3 years of grace.

Do not think it is difficult. Even if you practice what you learned in 3 days in your respective positions for 30 days, that grace will bestow grace beyond 30 days. If you do what you learned for three days for 3 years or 30 years, that grace will far surpass 3 years and surpass 30 years, transforming your entire life, and also changing your surroundings.

Heavenly Parent always operates with the Providence of starting from small things and accomplishing greater things. You are within such a Providence. Heavenly Japan is Heavenly Japan only while living to Attend Holy Mother Han. The people and the families chosen to Establish it in the Position where it can be called the Mother Nation, are you.

If you believe in such a fact. do not forget the things you learned in your position and practice them. From there, Heaven's Work begins. Hope is made to spread throughout Heavenly Japan through you. Do you believe this? I hope you become those who march forward powerfully with such an absolute faith."

These are the Words True Parents Gave us. As I heard this spiritual Message, I cried a lot. Just like our brother Nakamiro Ishimuro shared in his testimony, in March 27 of 1996, the Doors of Heaven Opened and my spiritual eyes were Opened and in the Special Prayer Room, I experience for the first time meeting HeungJN, and during that time what HeungJN told me was that there are a lot of spirits within our body, and because of this, problems occur.

From the confinement and kidnapping in Japan, the more hard working members are, the more problems they face. HeungJN shared the cause of the problem and HeungJN asked us, 'Can you do it on behalf of me to resolve the problem?'

I cannot forget. Even 30 years afterward, I attended Workshop without missing a single time. I attended 40-day Workshop. I offered devotion with my family. All of the reasons for Offering Devotion was to Fulfill the Promise I made with HeungJN.

Although this Workshop was 3 days, if that became 30 days, and that turned into 3 years and 30 years, once we never changed, the result would bring positive change to our environment, changing people around us. If we did it that way, I believe a lot of things would have changed.

I believe that grace received from Cheon Shim Won, not only for Heavenly Japan, but through Yeonseong Workshop, 40-day Workshop, the Grace that we have received will never change...

In October, we're going to hold the 13th Heavenly Japan Resonance Prayer 3-Day Workshop. We were told that October 13 and 14 is Autumn Great Works. So, since last year, October 14, the First 3-Day Resonance Prayer Workshop began for Japan. So, the 13th of October is exactly the first year Anniversary of this Workshop. And I believe that, if we have more than 417 members coming, there will be amazing Grace.

If we add all the accumulated numbers, eventually the number would go to 7,777. So, using the number of perfection as the 4PF, setting this as a victory for H Japan, I hope we can go over this number. I hope we can go over 90,000 or 100,000 people so that we can set a condition for Mother to Return to Cheonjeong Gung. And with that heart, we have set a goal to reach 7,777. applause

Right now we have 357 who have reserved, and at the 14th 3-Day Workshop, the registration will begin from today. Within one day, 350 members reserved. Let's go over 1,000. And we would like to meet the Autumn Great Words, but first, let us not just reach this number 7,777 but let us go beyond that.

And let's go beyond 10,000 at the end of this year, so that we can offer devotion, and H Japan will become a nation that Offers Devotion.

"The battle is not over yet. We will absolutely be victorious. And with this I would like to conclude my report. TYVM.

Since you're the ones who have stepped forward after making a pledge, do not complain. The Purpose of our learning True Parents's Words, the Purpose of our polishing our character, and Purpose of our quickening ourself with heart is to defeat Satan and take back the people on Satan's side. Only then can we enjoy the glory of victory, having been victorious over Satan.

It is to make you those who have achieved victory while harboring indignation, harboring sorrow, and

harboring resentment and to make soldiers of Heaven who can fight it out, uniting completely until we can defeat the enemy. Even if you're placed in a difficult environment, you must not criticize that environment. You must stay in a position to digest all the environment and conditions.

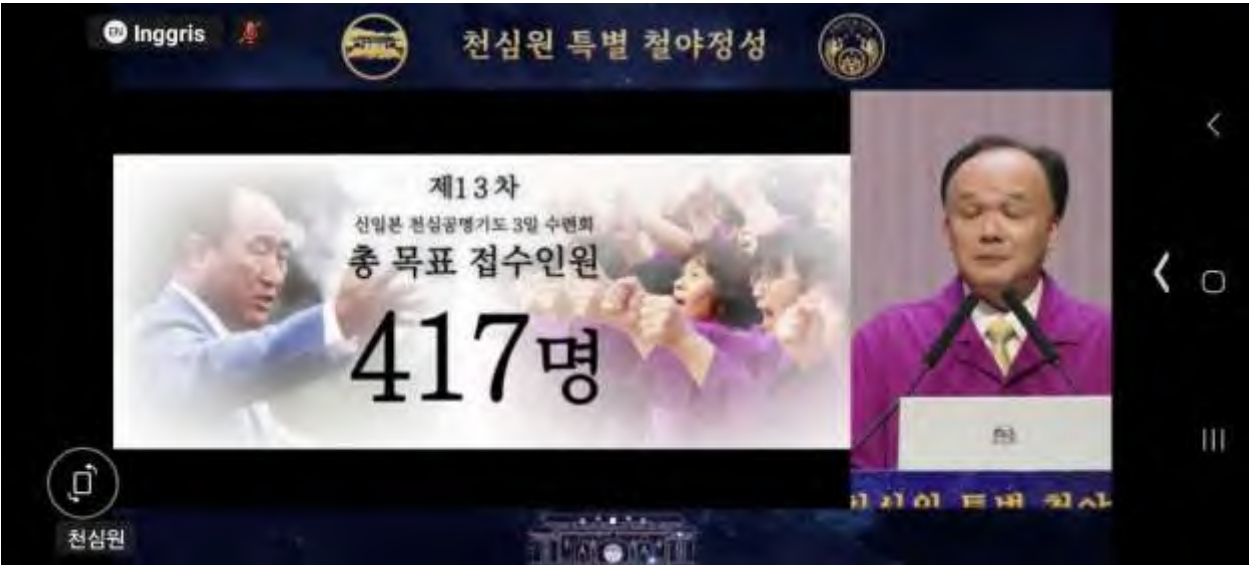

Since you are the ones who have stepped forward after pledging to do so, you must not complain. Knowing that you must think not only of your own self, but you must take a public position. You are in a position representing the entire Will.

Therefore, you must resolution and Pledge from a Position of Responsibility. You trainees must discover that you, yourself, are in an extremely sad position. You must feel this acutely. You are such a sad, 'T', and you become the 'T' of problem solving.

Having become descendants of a history of deep resentments, you must take responsibility for and resolve God's Deep Resentment on God's behalf. Going to the judgment seat, you must comfort God Who is harboring deep 'han' and you must become of a heart to say, 'Please do not judge these sinful people.' 'We are loyal citizens and filial children, so please look upon us and be able to forgive those who are with us.

In order to become people who remain in the Age to Comfort Indignant God, you must enter the indignant position. And to comfort yourself and the Sorrowful God position. Only when sons and daughter emerge and go forward to Attend God, Who Harbors Deep 'han' Sorrow. Let us go forward to comfort God Who Breathes Infinitely. Let us go forward to resolve the deep 'han' and infinitely Indignant God.

Will the sinful history come to an end while rousing indignation towards Satan? You must know how to pray for the sake of the world and humankind. God comes seeking God's sons and daughter starting from the very front line. God Picks them out coming from the very end. God needs the members who possess the heart of Heavenly people.

You must walk starting from the very bottom of the nation. Look clearly at this world. Since the world's situation revolves together with the Movements of Heaven, you must have conviction. Aju

Most Honorable Heavenly Parent

Victorious True Parents of HEH,

I sincerely thank You for Guiding us to 1,659th Cheon Shim Won Offering of Devotion. Heavenly Parent, OBD, Substantial Holy Spirit, True Mother, Who has already been Suffering unimaginable Pain of Her Holy Body and Heart for 365 days. What are we to do about Mother's Pain? We cannot help but confess that it is difficult to bear with our inadequate abilities.

Most Honorable Heavenly Parent, even so, we all wail and plead, crying out for our True Mother's Acquittal and Release continued at Cheon Shim Won. Receiving the unmanageable, sad news, we came to realize once again that our devotion repentance has been lacking. Please Work so that we can cry out 'Aju!' with repenting heart again, and cry out to 'Aboji' 'Omoni' more strongly and boldly. Please Work through us! (Aju!)

Please Work so that we never again cause more indemnity that Mother takes upon Herself. Let us not be bystanders, but cry out with an even more earnest heart. Please Work. Please Guide and Correct us. Most Honorable Heavenly Parent, please let the Truth of our Parents Who are the Messiah, Who are the Savior, never to be distorted by political power. Let this and all members and all people awaken to know not to persecuted our True Mother, but rather to rush to Attend Her in this time of chance. Please guide this people.

Heavenly Parent, please Intervene so that the legal authorities of Korea do not trample upon the Heart of our True Mother Who is the OBD. Please let all clearly know that this is the pain of this people themselves to do so, only bringing on more of the suffering and sorrow of history. Please Work to let them clearly know.

Most Honorable Heavenly Parent, please let them know that our Mother is not Someone Who can be measured by earthly law. Please let a Work occur that confirms the Life Course of our True Parents.

Please allow such Work to unfold. Heavenly Parent, please, True Mother Said that She has never colluded for power with money, and that She has never compromised with involvement in injustice or corruption.

Heavenly Parent, please Work so that our Mother Who has Lived solely to Fulfill the Will of Your Heart, may be returned to Cheonjung Gung with innocent verdict... Please protect and Guide Her and all those around Her to utmost protect Her. Please Work through our prayer and devotion.

Heavenly Parent, we know that the 2nd trial is proceeding under chief Judge Kim Mu shin, Judge I Yu i, and Judge Yu Dong gyun of the 13th Criminal Division of the Seoul High Court. Please guide them to make a decision with a rational and wise verdict from these great judges. Please guide them.

Heavenly Parent, in our community and in the court, please Allow all the AGSs to come down by the outcry of our direction, so that True Mother's treatment of injustice will be liberated. Please Allow such Work to Unfold. Heavenly Parent, our community is currently in the midst of hardships and difficulties. Especially amidst these difficulties, gathering our hearts at Cheon Shim Won, please let us all become a community that uses the language of unity and the language of heart with the same thought, same action and the same heart. And let our community become one with gracious Heavenly language. Please Guide us.

Heavenly Parent, please Grace our thought and language to align to become one, and let us not use any language of division, but rathe the language of unity so that we can completely align with True Mother. Please guide us. Heavenly Parent, please let us become those who use the language of Abel, not the self thought with the satanic, angelic language, so that we can become the children who Found the Cheon Il Guk of Heavenly Parent and True Parents...

Please guide us so that we can become such filial children. By doing so, please let us become the pillars who are one with the pillars of True Mother's True Father's 4PF and Inheritors of Heaven's Love and Blessing, Shin chul nim and Shin heung nim, as one in heart, so that we can open the Door of Unification of North and South Korea. Please guide us so that we can become such soldiers of such unification. (Aju!!!)

Please let the Era of Heavenly Unified Korea be Opened. Especially for all the children and families joining at this time, please let the great Grace of Heavenly Parent and True Parents Overflow.

Offering all these words, I pray with gratitude and Bless this moment in my name, Anhoyol of a BF
Attending Holy Mother Han... Aju.
