CHEH YUN SUNG

Yeongseong Workshop Trainee

He bows (especially deeply and long to True Parents and audience)

First, gratitude to Heavenly Parent and True Parents for allowing me to give a testimony at this precious time

eldest son of the Korean/Philippine family of Osan Church in Southern Geonggi Province

My life of faith was quite smooth. After becoming an adult, I was asked to be an assistant Seonghwa teacher at the church, which was my first time of doing ministry. And as the opportunity arose, I also served as a dedicated trainee at the Southern Geonggi Province for 6 months.

Continuing my ministry as a Seonghwa Youth, Young Adult, Teacher for 4 years up until now, I thought I was doing well in my life of faith because I always dedicated myself for the sake of the students and members. However, when starting to be asked to do various tasks after church, as those responsibilities increased, I gradually felt burdened. From a certain moment, leaving the Sunday Service, then became frequent. I even had a thought, 'I really hate going to SS on Sundays. I hate going to church'

And there were days when I gave up on Sunday Service and did not go to church. Eventually I only had the thought that I wanted to quit and run away. Then one day, the thought suddenly occurred to me, 'Try going to the Yeongseong 40-day Workshop. At first, I denied it saying, 'Why would I go to the Workshop?' and telling myself to go later. But I strongly felt that if I did not go now, I would not have the chance.

Because it was my first time going, I felt afraid and had difficulty to adjust. I had thoughts that I shouldn't have entered the Workshop and, 'Should I run away even now?' But still I thought, 'It's only the first day, so let's try to endure.' However, just like the saying, 'Well begun is half done,' things flowed smoothly

without a hitch as though they were prepared.

On the second day, after being awarded the practitioner's Cheonshim Robe, we went out for the Vigil Devotion. And on the third day, I moved frantically as I was put into the Special Devotion for True Mother. Not having a moment to think about running away, during the Cheon Shim Won Devotion testimony, I heard a phrase, 'I repented for not having properly Attended Mother.'

Suddenly, the thought occurred to me, 'Have I sincerely Attended Heavenly Parent and True Mother until now?' At that moment my past appearances flashed forward like a panorama. I realized that I had not been doing well in my life of faith all this time, but only decorated myself as a person of faith on the outside. I had never sincerely Attended Heavenly Parent and True Mother even once. I was so ashamed of myself, and I felt so sorry to Heavenly Parent and True Mother.

From that moment, I thought, 'Let's try to do something, anything earnestly, listening to the lectures earnestly, participating earnestly in Chanyang Sessions, and in one-heart resonance prayer, even if I couldn't feel anything right now, if I worked at it even a little harder, wouldn't my voice eventually reach Heavenly Parent and True Parents.'

Because I exerted myself from the beginning, my body was exhausted, but even so, without even realizing it, I was repeating the words inside, 'The more it is hard, the harder I must do.' Then, although my body had a hard time, surprisingly, my mind did not struggle at all. Rather it overflowed with passion.

On days when I couldn't feel a lot heartistically, I clung to the desire to feel more, like grasping at straws. Amazingly, things happened to someone like me. I was studying Cheonseong gyeong, and suddenly I heard a certain passage repeat as if spoken through a microphone. Startled for a moment, I looked back, but there was no one holding the microphone. I read that passage again, and the thought that I needed to decipher it came to me again. So, I wrote down those words into my notebook and continue to dig into them again.

Afterwards, during Hoon Dok Hae time, HyoJN said, 'To find the Truth, you must absolutely take action.' It felt as if a light turned on in my head. I didn't hesitate to copy that into the notebook, and soon afterward, the words came to mind, 'If you felt the SW 100%, you must practice 100%.' It felt like HyoJN had taught me words that I would not normally have thought of.

I prayed with the heart of gratitude, and knowing my lacking self, I tried to practice even more earnestly. Doing so, I felt myself gradually drawing closer to the heart of Heavenly Parent and True Parents. When I felt the heart of Heavenly Parent and True Parents, Who Love us children to the end, even if Their Bodies are Broken and Their Lives are in danger, I just shed tears endlessly.

On that day, for the first time, I decided not to spare true love and devotion so that Heavenly Parent and True Parents would not be lonely. Going through these events, I felt that my coming here was the Guidance of Heavenly Parent, and I asked a question to Heavenly Parent. I continuously asked, 'Why did You call me here, lacking me? What should I do?' Then, since there was no answer, with the thought that I should find it myself, I began to write down the value of my life.

Looking again at what I had written, I began to think again about the public mission I had thought about since a long time ago, but tried hard to ignore. Surprisingly, at dawn that day, in my dream, I was wearing a hanbok, the Korean traditional clothing, and preparing for something.

After hearing the words on the phone, 'Are you prepared? Can you do this with an earnest mind, an earnest heart?' I was waiting on my knees when these words were heard. Serving at the Cheon Shim Won for the sake of Heavenly Parent. Waking up after the dream, hearing those Words, I felt burdened by the weight of those Words. So, to gain the decision on this, I offered 120-bow devotion, HD devotion, and 13 minutes of desperate prayer for 3 days.

Eventually, wanting to try anything if even my feeble strength could be of help, I resolved once again to live for Heavenly Parent. And accordingly, I resolved to attend the 14th Yeongseong Workshop Academy. Applause

My name uses the character 'Yun' for truthfully, and 'Sun' for devotion. Learning the meaning of truthful devotion, attending the Workshop up until now, I came to be looking back on whether I had been living up to my name. Now, I can answer the question, 'Why was I called to this Place?'

For the remaining Workshop, living up to my name, I will become someone who advances while giving devotion, and not giving up until the end, with all my power. Attending Heavenly Parent and True Parents, Who gave such grace and Love to me, who is always lacking and only gave once, I will become one in true love. This concludes my lacking testimony. TY for listening. Hanulbumonim, Kamsahamnida, Saranghamnida! applause

'Running Heart'

TESTIMONY

Name :.....

336,000 Blessed Couple... Chansang Church in Chula Southern Province

Today is about how I regained my lost dream through graceful works of Cheon Shim Won and Il Won do Workshop. My Japanese name is Kobashi Keiko.

First I want to tell you a story about my own father. My father was an alcoholic. If something displeased him, he would use violence against my mother and older brother. And the next day, he would act as if nothing had happened.

Watching this appearance of my father, even in my young mind, I thought his actions were not right. Having such human contraction and incredulity, I came to harbor the question, 'Why are human beings born, and for what must they live?' In those days there was no one around me to tell me the answer, but one day I encountered the life of Mother Theresa in a book.

I also wanted to live a life for the sake of others. I want to go to a difficult country and live a life of service. I came to harbor such a dream in my chest. At the age of 19, while working as a public servant in Japan, that allowed me to walk the path of service that I wanted.

That was when I met my spiritual mother. On that day, I felt the works of the Holy Spirit descending upon my whole body. Unknown tears flowed endlessly, and wailing out loud from the bottom of my heart, I received the spiritual conviction. 'This is the path I must walk for the rest of my life.'

Furthermore, upon learning of the worldwide activities True Parents were unfolding, I came to harbor the hope, 'If I am with True Parents, my dream can also come true.' That's how I started to walk the life of faith. In the year 2026, it seemed my dream was finally coming true. I was given the opportunity to participate in mission activities in Africa.

Because the time I could serve there was the life I had truly desired, every single day was so happy and rewarding. The thought naturally welled up that I wanted to live my whole life serving like this. However, the wind of Heaven was in a completely different place than my own mind.

I received the Blessing with a Korean man, and came to marry into a small, rural village in Chela Southern Province. Spending about a month in my in-laws' house, I ended up disappointed by his appearance of only eating, sleeping and watching television all day long.

So, it was not just once or twice that I made up my mind that I should get divorced and return to Japan. Every time that thought happened, I offered prayers to Heavenly Parent with tears. And one day I heard the Voice of Heavenly Parent deep in my heart Saying, 'My Beloved daughter, just as much as I love you, I also love your husband. Won't you look after my son who is physically weak, and has lived a lonely life on My behalf.'

Upon hearing those Words, I couldn't say anything. Later, I learned he was a epilepsy patient and an? activist. He was a person with which a conversation was not easy. Since then, with a single resolution to keep that Promise with Heavenly Parent, I have walked struggling for 28 years.

The very first problem that had to be solved in the family was the econmic situation. At the time after our marriage, I had to put my baby on my back and loading up my parents-in-laws' truck, I went alone to do business.

Also, a problem was that my father-in-law frequently used abusive language and violence against my mother-in-law due to alcohol. With the thought, 'As a Blessed family, this cannot go on like this,' I earnestly prayed to Heavenly Parent. 'Heavenly Parent, please do not let my father-in-law drink alcohol.'

Then a few days later, my father-in-law got into an accident, falling into a valley while drunk driving. However, surprisingly and miraculously, my father-in-law had no injuries whatsoever. A few days later, after experiencing a similar accident once again, my father-in-law, and staying alive and uninjured through two accidents, 'It seems I am alive because you believe in God and pray for me.' If such a thing happens again, I might really die again. So, I should stop drinking.'

So, after that day my father-in-law completely quit drinking. applause And in the future he received the Blessing for previously married couples. applause..

Next, was my husband's illness. We went to many hospitals, but I keenly felt that it was a matter that could not be solved by human strength alone. So, I decided to cling onto the CP Works. We completed ancestor liberations up to 430 generations.

Following my will, my husband also liberated 430 generations and eventually we became a CheonBo family. He received the 40-day Workshop 3 times. Doing so, my husband began to regain his health little by little and made changes little by little. Now, my husband is also working at a job. applause

With my husband getting better with his health, we were able to prepare a new house as well. Farming apples together with my parents-in-law gained some leeway. We are truly spending happy days nowadays. However, even while living a happy family life, the passion that I have for overseas service harbored in my youth would suddenly come to my mind from time to time. But, around that time, my body would not follow.

In addition to this personal encumbrance, True Mother was imprisoned in the Seoul Detention Center. With the HMH Suffering such a situation, I could not sleep properly. Since Cheonwon Gung Entrance Ceremony, the Era when Heavenly Parent Directly Dominated over this earth has Opened, why is True Mother being so (attacked and mistreated) and wars persist in many parts of the world?'

I appealed to Heaven with tears asking that question. One day while praying like that I received the answer, 'Go the Cheon Shim Won at CP and offer devotion there' So, in December of last year, I came to participate in the 21-day Workshop. During that period the Il Won do and Tongil Mudo international spiritual Workshop was being held together.

Since I already had a little interest in marshal arts usually, I went to experience what Il Won do and Tong Il Mudo were like for a day. Ourwardly. they seemed like simple movements, but when I tried them, they were never easy. The instructing master pointed out that my body's posture was incorrect. And during that period, I even felt my bones adjusting with popping sound here and there in my body.

At that moment, the thought came to me, 'If I am in pain, Heavenly Parent and True Parents must also be in pain, because my body is the Temple of Heavenly Parent and True Parents. Even for the sake of the liberation of Heavenly Parent and True Parents, I myself must break free from the pain of this body. Therefore, with resolution, I decided to learn Il Won do more deeply.

I came to participate in the first 14-day Spiritual Workshop of this year. Before entering the Workshop, I prayed, 'Until when must True Mother Suffer?' I heard a Voice Saying, 'The conditions are still lacking.' So, I asked again, 'What kind of condition should I set?' The answer came to my ming, 'Love beyond the limits of you love.'

When I heard that, I clung onto those Words. When I thought of who was most difficult for me to love, it was Communist leaders like North Korean, China and Russian leaders. So, I offered liberation for the collateral and central resentment spirits and offered calling out prayers 1,000 times each for Korean, Chinese and Russian Communist leaders.

During the Il Won do Special Workshop period, during the Workshop, testimonies of Dr. Sok Jin ho, President Op Hyun He and Director Sun I Chol, who directly Attended True Parents, and Master I Gyon In, I was able to inherit a passionate heart toward True Parents, and I was able to fully understand the mission that Il Won do has, not just simple movements.

Not only did it align my body upright, but also it aligned my heart and allowed me to find a path. So, the 40-day members from around the world came, such as Taiwan, Germany, the United States. We were able to encourage each other and comfort each other to move forward. And as I saw ourselves becoming one, I had a strong realization. The path of the world becoming one is begun right here.

Through culture, through sports, the world can become one. The revolution of heart, the culture of heart is happening. Heavenly Parent is keeping my life naturally to ignite my heart that the path that I should go is Il Won do, the path that I have to live for the sake of others in Africa. So, I will share the Love of Heavenly Parent and True Parents to the world so that I can bring world peace and one family under Heavenly Parent by serving others. That dream revived in my heart, and I will move forward to accomplish this goal.

I would like to thank Heavenly Parent and True Parents for helping me find my dream, and I would like to thank HMH for opening up a new path for me. TYVM

TY and I love you. applause

HJ REPORT and SPECIAL LECTURE

DIRECTOR CHUN YU SAN

EPIC HAN CHOSEN PEOPLE OF KOREA

Welcome to all participants of 1,663rd Cheon Shim Won

President Lee Gi-seong asked me to give this lecture, but I am not official and proficient in giving this Lecture Contents, so, I would like to give guidance content on how the lecture should be given in general to people.

On August 6, we invited Gapyeong leaders, and over 100 people came for us to hold this special lecture. And early in the morning on that day, I had a dream. True Mother came to me several times on the dawn of that day. At first, True Mother was sitting down at a small round table with me. And She was sharing Her Words to me. But as I woke up from the dream, I really thought I was with True Mother.

And I knew that She Said something to me, but I couldn't remember. So, I slept again, and True Mother came to me again. And there was a motorcycle next to me, and as True Mother looked at my motorcycle, She told me that it could go up to 250 kilometers per hour, but you have to drive in 240 Kilometers per hour in order to win. That's what She told me.

And afterwards, I was thinking to myself, 'What is it that She is trying to tell me?' And I couldn't find the answer, so I fell asleep again. But this time there were many pure waters, and Mother Shared the following Words:

'I am on My Way. I really Miss you. I Love you.' And the Words... that She Said, 'I Love you.' really struck my heart. And through the video, True Mother gave us Words several times, and these Words stuck to my heart a lot more strongly than those I heard from the videos.

So, I honestly don't know why these thoughts came into me, but I was very grateful for the fact that Mother came to me.

And as I was preparing to put together the lecture, I chose some topics:

1. How would the Chosen Han People of Korea connect to the reality of now, rather than being merely a mythical story from the past.
2. How can we naturally testify about True Parents to the world through the Epic History without logical leaps
3. How ill we instill pride in the leaders of Gapyeong through the Epic History
4. How would the Content be delivered during the allotted time of 60 minutes

(That's the time I was given to give the lecture. So, no matter how good the lecture is, if you can just give the introduction in that hour, I don't think that's a good lecture. How can I focus to give the people my Content within just one hour?)

So, a lot of scholars and prophets, based on what they are saying, also if you look at the flow of social phenomena, the world is truly focusing on the Eastern world.

Puh Ru Suh Kau Ming su, the American political scientist, Bruce Cummings, 'Origins of the Korean War', said that it was that Atlantic that gave birth to American civilization, but it is the Pacific that drives America today.

And Poll Kennedy, Yale University Professor, said, 'Who is the Center of the 21st Century, Asia Pacific Era? It is never Japan, never China, but maybe Korea' he made such prophesy, and his background making such Words are because of spiritual, cultural power and morality, and capacity for a liberal democracy.

And Constantine Berague said that the nation of the East that will save humanity is precisely Korea.

And Cindy Jacobs, one of the best prophets said that God Said, 'I will pour My Anointing upon Korea.' She made such prophesy.

And Pacific civilization became the central position of the world trade. So, as Asia developed

economically as well as culturally, and Korea is becoming one of the major nations leading the world. And the Pacific Region is starting to make great influence around the world.

So, hayu, which is the Korean Wave is spreading throughout the world, not just K-Pop, K-drama, K-culture, K-food... So, truly the Korean Wave is a great trend around the world. And I believe this is not just a coincidence that we are witnessing.

Korean is the most suitable character for the digital age, and it can make diverse sounds and expressions and adaptations. Even some of the tribes use Korean as a major language. Some nations use Korean as part of the entrance exam for the university. And there are many countries that chose Korean as their 2nd language.

In the Unification Family's Exposition of the Divine Principle, it talks about the language of Korean as follows: If it is a fact that Jesus was the Parent of humanity, (the exemplary language is Korean and) He undoubtedly would use the Korean language. He inevitably would use this Mother Tongue, and all people would become one nation.

Do you know the original of the Korean Wave, Hanyu? The leaders, the Rev. Sun Myung Moon and Hak Jan Han Founded the Little Angels. Usually, if you would have told them, 'If you have that much money, why don't you establish your church?' But what They Said was, 'The world of peace cannot be achieved by the power of religion alone. We must nurture sensibility through art, and bring people together through sports.

So, in 1962, They Founded the Little Angels Dance Troupe. So, they went around 16 UN participating nations. Because of their performances, the nation of Korea has become one that never forgets the noble sacrifices of the UN participating nations. So, I do not believe that the Little Angels made all the Korean Wave Hanyu, but I believe it had great influence on the trend that it was showing.

So, I would like to ask a question, 'What is the spiritual soil of the culture of the Han People of Korea?. The druid of Korea had the thought of revering Heaven. It is the culture of Attending Heaven. So, the ancestor Han People, they did not know God as we do now, but historically, they had a rigorous heart toward Heaven.

The heart of revering Heaven also allowed the Korean people to develop their astronomy interests, which helped them to better know this world.

And on the ten thousand won bill is King Sejon, and on the back is a 'Miller's sphere', (which (a Honcheonui (한천우), a Joseon Dynasty-era armillary sphere - a traditional astronomical instrument used to model the positions and movements of celestial bodies such as the Earth, Sun, and Moon).

(This framework of interlocking rings representing celestial coordinates, similar to a globe but designed for astronomical observation.) Made in King Sejon's time, it was used for measuring the movement of celestial bodies, made in King Sejon's time. This shows how much interest Koreans have about the heavens, about the sky, about the universe.

The next Korean trait is filial piety. Arnold Joseph Toynbee ((14 April 1889 - 22 October 1975) was an English historian, philosopher of history, and author of the landmark 12-volume A Study of History, which examined the rise and fall of civilizations through the "challenge and response" framework) said, 'If one has to migrate to a new start, the definite culture to take along is the Korean culture of filial heart.'

So, this filial piety toward Heaven has been revealed as the filial piety within the family. Through this culture of filial piety, Koreans were able to develop their heart of reverence toward Heaven.

Also, there was the Messianic Expectation. The Korean Han people had the expectation of the Heaven's Sage or Messiah to come down.

The Korean 'War Book of Prophecy', the Jeonggamnok (a well-known corpus of prophetic writings from the late Joseon period that predicted the fall of the Yi (Joseon) dynasty and the rise of a new "Jeong" (Chŏng) dynasty led by a messianic "True Man"). They made a prophecy where a new Man will come to open up a new world.

(In Korean, the heart of reverence toward Heaven is most often expressed through the combination of 천하(cheonha) or 하늘(haneul) with honorific and respectful terms, or through the philosophical concept of 천지인(cheonjiin) - "Heaven, Earth, and People" - which embodies the sacred connection between the divine realm, the land, and humanity.

The Key term: 하늘(haneul) + 존경(jon-gyeong) / 숭배(song-bae)

하늘(haneul) literally means "sky" but in Korean culture is also a metaphor for the divine realm, the will of Heaven, and the spiritual order (www.linguavoyage.org)

존경(jon-gyeong) means "respect" or "reverence," and 숭배(song-bae) means "worship" or "adoration.")

If we summarize these three trends, hyungcheong, which is the heart of reverence toward Heaven, filial piety, which is the love toward parents, and the heart of wanting a better world, the Spirit of this has become a motivating force for the Han People to develop their culture and nation.

But this history does not end with explaining events. We must decipher it. And when deciphering in a religious way, God is added there. ((God is Essential there. There's the idea that the Heaven Parent is Essential in the Essential Love Relationships beginning with filial piety in the family of God)).

What we're trying to say is that the history of the Han people has been Led by Heaven, in order to bring about the Ideology of the Chosen People.

So, why is the world paying attention to the Han People of the Korean Peninsula? I was able to find the answer to this question from True Parents's Words. Why don't we read together:

Because the people of Israel did not recognize God's OB Son, Jesus, they failed to fulfill their responsibility. God Chose the Korean Peninsula in the East, and made it the 2nd Chosen People. The Han People of Korea is the Homeland of Attending God and the Spiritual Central Nation that will Lead to world peace.

I hope you remember the red part particularly: 'The Han People of Korea is the Homeland of God and the Spiritual, Central Nation that will Lead world peace.'

True Parents Who Understood God's Providence Shared these Words. When you look at the Han People, they are the ones who Attend God. So, what we must understand is that the main characteristic of the Epic History of the Chosen Han People of Korea is not the Han People of Korea, but Heavenly Parent.

From this point of view, the thought of Revering Heaven, we must understand what that means. The Han People, they are prepared to fulfill their responsibility by 'First' Revering Heaven. And this is what we must understand of the Concept God has Prepared.

Second is the Purpose of the Han People. The Purpose of the Han People is to Prepare for the Homeland of True Parents. So, the Family Federation finds the most important meaning of the Han People meaning that it (was Prepared) to become the Homeland of the True Parents of Humanity.

Hoon Dok Hae

The more difficult the time, the more you must have absolute faith, love and obedience centering on God. What it means to enter the position of zero centering on a perfect Subject Partner. It's just like how no shadow is cast when you are in an exact vertical position when the sunlight shines.

When it becomes noon and you stand under the sunlight, no shadow is cast. When the sun is at its highest point, the shadow disappears. When there's no shadow there, new things come into existence. It is because you entered the position of zero. A person who exists worrying there will end up in failure. However, a person who does not worry, that person will settle in a Place of a higher dimension.

Even in a position where all others have fallen, retreated or disappeared, if you do not worry, you will develop another higher dimension. That is the life philosophy of True Parents. The Unification Church has been denied up until now, but the more it was denied, the more what was low in that denied position, comes to be Fulfilled on a higher Dimension.

Therefore, we must go forward centering on the Principle that the Perfect Subject Partner Creates a perfect object partner. In the Kingdom of Heaven (the Heaven Realm of the King Mother and King Father), you cannot live by money or knowledge either. You must shed many tears of Love.

A religious leader must not be without tears. True Father Lives His Entire Life Possessing a Heart that can Wail Loudly, even if someone says just a single word. If the mind harbored here is not Fulfilled, even upon going to the other world, one must Work without resting. Because I know that the Work to be done is piled up like layers of mountains, if Living today, I Say, 'I will finish that Work even at night in order to gain tomorrow.'

Therefore, I try to do greater Work tomorrow and even greater Work the next day. For the sake of Heaven, I am building the Tower of Heaven. Someone must place even one more brick to build the Tower of Heaven. Forgetting Myself and Living like this throughout My Entire Life, I have now surpassed the Summit of the World.

You must know that numerous comrades are shedding blood and losing sleep at night in order to connect the development of the Unification Church to that nation and that people. I am a Person Who Knows that.

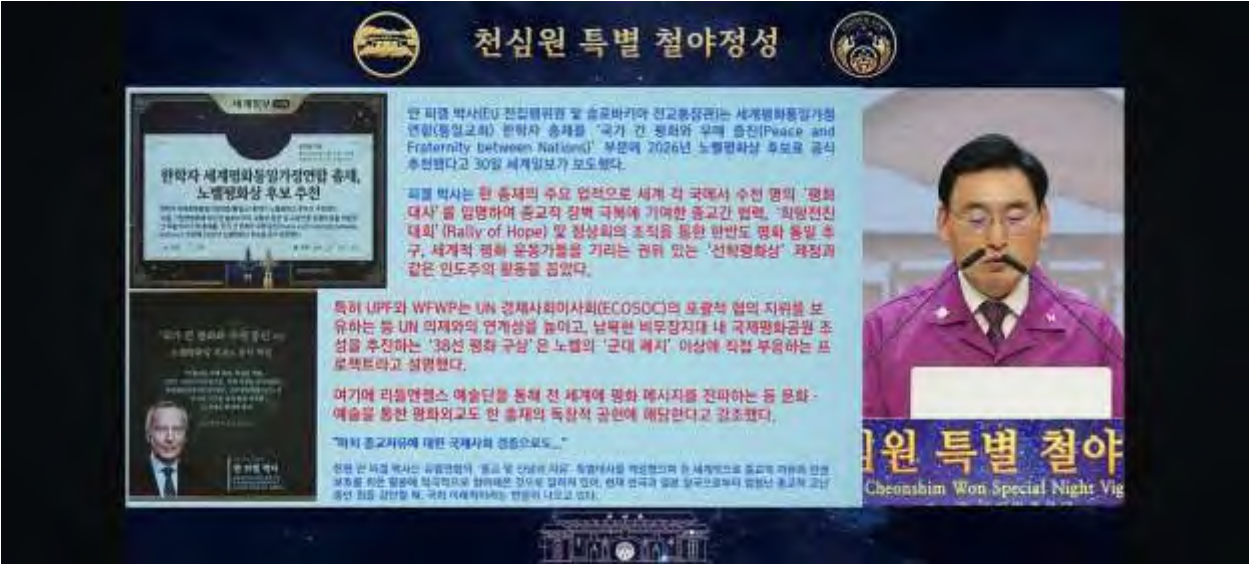

Also, because I am the Person Who Commanded it, I Endure and Live Day and Night trying not to be in debt. When it passes 12 midnight, Saying, 'It is time for them to pray,' I do make efforts to sleep or escape from My Debt to them. That is why the Unification Church is developing. Aju.
