OPENING PRAYER OF GRATITUDE

MOST HONORABLE Heavenly Parent

BELOVED True Parents of HEH

TY, TYVM, Today, as You Open the Doors of Heaven, TY for Allowing us to hold the 1,667th Cheon Shim Won Special Vigil Devotion, and for Directly Presiding Over this Vigil.

With Mercy and with Love, our Heavenly Parent, Your Deep Boundless Heart, Oh please Allow us to Feel that Heart and Inherit that Heart, (let us give ourselves over, intimately and together gathered and Feeling Sure) in Your Embrace by such Grace, Allow us to Realize Your Heart, so that we can liberate all the thoughts of the wrongdoings.

At this hour, we have gathered here. Please allow us to stay within Your Love, Heavenly Parent, and for Your Providence, please Allow us to Offer utmost Devotion. Amongst countless people, You have called us who are lacking, Established us to do Your Will, yet how can we not confess to be the proudest for You.

How can we be the children that You Know feel sorrow when You Feel Sorrow, feel joy only when You Feel Joy, Allow us to be children who align our mind and body and move forward explosively. We want to realize You Working through us, to make our true happiness.

*`Right now, the BFs from around the world are gathered to bring their prayers and devotion with one heart and one Will, and they are crying out toward this Place. (So, please cleanse and embrace all of us for that protection of purity experience in this Place with Holy Fire.)

All who are sincerely Attending in this Place, please let Your Power be shown for healing Connection. You have Directed us to move forward in Spirit and Truth, and we will put all of mind and body and will into that Practice, so that this prayer and devotion can have unwavering Faith. And please allow us to

witness to the people of the world with Your Perspective of them, with Your Spirit and Truth coming through us for them (however that may best interpret by Your Heart through us) and for the churches around the world.

Heavenly Parent, please have mercy upon us and for the nation of Korea. Through the Epic History of the Chosen Han People of Korea and the Divine Principle of Creation, please allow people of Korea and the Mother Nation of Japan to become anew, and all to be armed with Unification Theology, and please Work through HMH for us to Realize Your Direction for Your Dream with us.

Please Allow us to meet all the righteous people and prepared people to Offer Devotion, centering on this Cheon Shim Won to become one. Please Work. We truly hope to practice and make changes in ourselves that Attend True Mother's Safety and Well-Being...

In my name, Kim Jong jin of a BF in grateful Attendance to HMH

VIDEO - Cheon Shim Won TODAY - Grace of the TC and all the news of today

As the Autumn night deepens, our minds re-connect with a scene with True Parents under the full moon... together with verse of a song we sang together, that remains in our heart.

Oh that all life on earth and in Heaven become one. Today, putting our Longing for True Parents into devotion, we are moving forward step by step toward the Will

700 or so members participated in the 3-day Workshop, continuing to Offer their hearts to Heaven. PL emphasized that it is a condition to inherit True Parents's Realm of Victory and to found our further prayer and devotion. He recommended that each church form a one-heart prayer to continue the devotion.

testimony - With the Heart wholly for True Mother's Hope, I will live each day on a path of practice resemblance to True Mother. All of the trainees will offer prayer and devotion for True Mother to be released, for Heaven's Mission Fulfilled. We will gather our hearts and move forward with Cheon Shim Won Vigil and further prayer.

The trainees conveyed that they deeply experienced Heavenly Parent's Heart and recovered their prayer and Faith. They resolved to return to their churches, practice one-heart prayer and pray for the nation and its people.

At 2pm on September 12th, the Holy Candle Multiple Occasion Ceremony was Held at Cheon Shim Won, with a grateful and reverent mind, in order to convey the Tree of All Things Holy Candle, which is one of the Blessings to all children of 5 oceans and 6 continents ahead of the 2026 Autumn Great Works, which is the last GWs.

In his Benediction Prayer, PL prayed that the bright light of the Holy Candle passed down by True Parents would be inherited by the owners of Cheon Il Guk. Also, through the prayers prayed while illuminating that Light, this nation could advance onto a Blessed Path as soon as possible while Attending

Holy Mother Han, True Mother.

On top of this, with the Tree of Blessing the Holy Candle, please breathe in Your fortune, breathe in Your Heart. When we pray clinging onto this Holy Candle, please allow Cheonshim Resonance to Occur. Before this Candle, when we light the Candle, if there is a problem ahead of us, please bestow the Power of Heaven in order to Organize and Resolve the problems.

On this day, the Seed Candle of the Holy Candle has been Inherited by 8 representatives, so that this can be sent to all the Continents.

Upcoming at the Autumn GWs, this will be multiplied and inherited to all the members from around the world. All the roots of the trees are below the ground, but the branches move toward Heaven. Just like that, our hearts may be connected with Heaven, and we carry forth our devotion.

Even if the clouds cover the moon, the moon silently illuminates the dark earth. Amidst the Providential Course, the True Parents have silently Advance the Providence for Unification and world peace, harboring the Will with Unchanging Love.

Let us who have inherited that Will, also shine the Light upon the oceans of the world that the True Love Heavenly Parent and True Parents have for Their children can become abundant fruit.

WELCOMING ADDRESS

Dooshin jung Director of H USA Cheon Shim Won

REV. DOO

Most Honorable Pres. Lee Gi-seong and President I Bon Sok as well, and all the Branch Leaders and members Offering Prayer and Devotion, to our beloved members, hello everyone. (He bows)

Today, I was appointed as the Director of H Cheon Shim Won. I am Doo Shin jung, and will Offer my prayer and grace. The deeper the Autumn set in, our longing for True Parents is becoming deeper as well. With our True Father Who is in the SW, and with our True Mother Who's Embrace of us is Greatest Love, Their Grace is truly ripening within this Autumn.

Truly it is a Season when we can feel the Love of True Parents. During this time when the day and night is not different, I hope you stay healthy. After September 11th, as I was given the Mission at H USA Cheon Shim Won, I came to H USA, and I've been working at the World Mission HQs, and on September 27, I was able to hold an Opening Ceremony in H USA at the H USA Cheon Shim Won

Shinshin chul, World Mission HQ Director, and all the leaders have sent me very warm, welcoming

addresses, and we were able to conclude the Ceremony very well. In the past year, the Course that I Walked which was Allowed by True Mother was at the WM HQ that eventually led me to be the Director of Cheon Shim Won USA, and that has become a foundation for me to serve our members.

Especially to a person as lacking as myself, the true love and circumstances that True Mother has shown me, whenever I am lively to share about True Mother, I realize how that can share the deep Heart of Heavenly Parent. From the moment I was Appointed as the Director of the World Mission HQ, I've been working in the position of a servant in order to Attend all the leaders and members around the world.

I resolved to be such a bridge, in order for our members to be connected to True Mother. And before the members and the leaders, as I promised, even at the last moment when I stopped my mission there, I tried my best to fulfill the promise I had made ---sending the Love of True Mother to Her children and sending the love of children to True Mother.

In order to become the Messenger of True Mother, I've been running for the past year with that heart.

Moreover, Moon Shin chul, the Inheritor of Heaven's Love and Blessing, has been established as the Director of WM HQ and the Third Generation Leader. I was given an opportunity to take the bridge as the 1st generation WM HQ Director, to connect to the 3rd generation. And I would like to offer my gratitude to True Mother for allowing me to be in this position.

Personally, this new mission as the Director of H USA Cheon Shim Won, as I walk the Course of a Public Official, I believe this is the opportunity for me to fill the glass of devotion that I could not fill throughout my life. I believe it is truly the Love and Grace that Heavenly Parent and True Parents Bestowed upon me.

As a proud son of Heavenly Parent and True Parents, I would like to Offer my Resolution today that I will do my utmost. And with a public heart, I will not stay within my individual prayer. I will resonate with Heavenly Parent and True Parents, and inherit that Heart to our members, so that, Centering on Cheon Shim Won, I will become the Bridge of Heart to Connect members to the True Parents.

True Mother Who has always Trusted me and Allowed me to be in a responsible Position, I will do my best so that True Mother will not be Embarrassed for having Appointed me in this Position. I will do my utmost to fulfill our devotion.

President Lee Gi-seong, who is my Elder Brother, I hope that you can send me a warm encouragement.

Through the last 3-day Workshop, I would like to share some of the testimony of the members:

First, the Grace received from Chambumo Ron and True Parents's Theory Lecture. Instead of just staying and enduring the pain and suffering, we must accept the trial happily, make the Power of Creation and Offer the Glory and Gratitude back to Heavenly Parent and True Parents. That is life I must live.

(This is what the member realized. I would like to offer my gratitude to the member who shared such truth and to the lecturer who revealed it).

From now on, she said that she will proactively live her life in order to face all the difficulties, so that she can move forward more today than tomorrow and more tomorrow than yesterday. She, with that heart of True Mother, Who is Moving in such a Way, she has resolved to be one with Her Heart and move by True Mother's Direction of the Way.

Next testimony, about the Grace of the Resonance Prayer. As soon as prayer began, all my mind and body was shedding tears. Up until now, the grudge in my heart that I was ignoring, has been revealed in its entirety, and I could not stop the tears. When the prayer was about to finish, there was a pile of tissues that I used.

And after the prayer, my heart has been refreshed, and all the pain, sufferings and sorrows felt that they were washed away with my heart purified. With abundant grace, and joy and happiness, it felt that I was reborn spiritually. Such deep liberation was what I felt.

Next, the Kodan Director Luke Kishimoto's testimony: Spiritually, the Secretary General's Words felt like True Parents's Words. At a time when we need earnest prayers and devotion, children of True Parents, I wonder whether I thought about True Parents's Heart and Circumstances before my own heart and circumstances.

I thought I loved Heavenly Parent and True Parents, and that is what I've been proudly saying, but I realized that I've been putting myself before True Parents. That's what our brother confessed. However, SW already knew the Center of that brother, and in that moment our brother was able to face a lot of spiritual guidance that he couldn't feel before.

He is still receiving a lot of Love from Heavenly Parent. He is truly a person so needed in the Providence. He is a person who can overcome this path. That is the conviction that our brother has received from Heaven.

Next is a testimony of grace through CY and resonance prayer, leading our member Allowed to know the deep Heart of Heavenly Parent and True Parents through the entirety of mind and body.

Of course, the member could not see visibly, but while Offering Praise Prayer and Resonance Prayer, the member felt the Great Presence of True Mother. That member felt indescribable, deep joy, and the time went really fast, and that members' persistence/perception with her prayer completely changed.

Next, about the prayer of the mediator, the one-heart prayer. When we offer one-heart prayer for one person, we held onto the hyojeong staff to offer prayer, but without my intension, the mike that I was holding was shaking, my hand was shaking, and I felt the thrill of the good spirits being present with me.

So, as we offered one-heart prayer for the member, I felt that Heavenly Parent and True Parents were with us, Offering Prayer together with us. That's what our member felt. From the beginning until the end, the member could not stop crying, and the member realized that True Mother is always Offering Prayer and Devotion for all the people. That's what the member experienced.

And the member realized how noble it is to offer prayer for our neighbors and for our brothers and sisters and others. And after that the member offered prayer and devotion at Cheon Shim Won and felt that Heavenly Parent and True Parents were embracing them, and heard the Voice that comforted the member. That's what the member shared.

Lastly, I would like to share an Elder Members Testimony. That member did not want anything to be paid back, but walked the path of the Will. That's what the member felt, but later the member realized how the entirety of that member's life has been Graced. From that moment, from the bottom of heart, offering gratitude with realization that rather than hold onto that grace, to share it with (ever-extended) family.

With the heart of apology for not being able to understand True Parents and True Family, and was able to resolve to be a filial child of Heavenly Parent and True Parents with True Father.

True Love does not have language but must be experienced to be understood. No matter what kind of betrayal and suffering one may meet, our members need to resolve to move forward to true love regardless of anything. (In order for our members to resolve to have true love, we must follow after True Mother/True Parents Direction for our path)

That was the resolution the member made. And at this time, I would like to conclude the report of H USA to all the leaders and members around the world. Kamsahamnida

WELCOMING ADDRESS - Cheon Shim Won Director of H Japan, I BON SOK big applause

1,667th Cheon Shim Won.. on top of the 1,660 devotion commemorates the Founding of the FF in H Japan. Although the religious corporation was dissolved, it is a day welcomed in the hearts of the Unification Family Movement, taking Root in the local communities as a religious organization centered upon the family.

In H Japan, President Hori and all official family members are becoming one, offering Cheon Shim Won Devotion and doing their utmost toward the rebuilding of H Japan.

The number of Yeongseong Workshop graduate whom Mother has sought to find as a single small needle, those being children who can become one with True Mother. Those numbers have exceeded 1,000. These Yeongseong 40-day graduates are voluntarily forming the Yeongseong Academy, centering on each region and are active.

Introducing two testimonies of graduates at the prayer gathering in Region 1:

In the Calling out prayer was my original mind saying, 'I want to become one with True Mother.' True Mother's Heart was gradually growing louder while shouting

Director Igarachi... your own sin and fallen nature separates us from True Mother being able to stay within us...

set a limit that that chanting/devotion was all I could do right now... Ignorant regarding the Heart and situation Mother is Placed in...

when you feel fear, remember today... Become one with True Mother and move forward

TESTIMONY - 밤상황에서도, TV 를보다가도

1,667th Korea HQ Cheon Shim Won Model for other CSWs 10 2 26 Friday recording

the eldest son... at any time or location, interrupting watching TV... my father would say all the words he wanted to me, and he often continued for more than an hour.

However, there was one thing I earnestly wanted more than those words he spoke of. It was nothing grand. I just wanted to hear affectionate words like, 'You did well' when I did well, and when it was hard, and I was having a hard time, 'It's hard but you are working well.'

I hoped for an ordinary love of finishing the day while sharing stories harmoniously among family members. However, such memories barely come to mind. And feelings of resentment piled up one by one. Even hearing just one of my father's words brought up anger from inside my heart, thinking, 'Our house only has messages and words and no love.'

Only when I became a middle school student did I come to know why our father gave us those words to such an extent. My father said that we did not know how much longer True Parents would Live on earth. So, our family must achieve Perfection and Completion as soon as possible and become people of character, who can convey True Parents's Love.'

I still hated listening to my father's words, but I came to respect him. And each and every word that my father gave, imperceptibly, became the model of my life. And I resolved to become a pastor. However, there was one problem. It was that to become a pastor, I neither knew nor felt what Love is and what God is.

The reason I entered theology department at Sun Moon University was also because, since I could not feel God, I wanted to know God at least academically. So, I ended up going to Sun Moon University. However, Heavenly Parent was not Someone Who could be Understood with the head.

After graduating and passing through the witnessing tour team and being a CARP Leader and coordinator at the TC, my mind was still hungry for love, and hungry for affection. As the Cheon Shim Won Providence began, I earnestly offered devotion, but the mind of love did not open easily.

One day while offering Cheon Shim Won Devotion, the question arose, 'Do I really love True Parents?' That day when the time for the one-heart resonance prayer came, a hot heart toward True Parents came up. However, strangely, that heart disappeared like cotton candy melting in water. It was like that on Monday, Tuesday too up until Thursday as well.

The heart came up hotly, but it disappeared without a trace in an instant. With a truly serious heart, if that heart disappeared again, even in the final Vigil Devotion on Friday, I thought of giving up my Faith.

And on Friday, once again the heart toward True Parents came up, but again it disappeared. However, that day was a little different. The moment the heart disappeared, I saw my father's face together with True Parents. I could realize at that moment that the anger toward my father is blocking my heart toward True Parents.

On that spot, I started offering a calling out prayer for my father. At first I clenched my teeth and called out, 'father, father'. When it reached about 300, my heart started to calm down. When I called out about

700 times, feeling my father's pain, I shed tears endlessly. My father also wanted to live harmoniously (tears). However, because he knew True Parents's Words, he wanted to lead us with the Word, not with humanistic mind.

Such pain of my father, resonated and my heart also began to ache, tearing apart. The mind of wanting to love my father overflowed like a tide. And at that moment, the heart to love True Parents also overflowed in this chest of mine, like a blast furnace.

Only then, all the more did I realize that my loving True Parents and my heart of loving my father were not separate things. After that I visited my father more often, and brought out stories I had buried in my heart. My father also talked about why he had no choice but to do that, and what kind of heart he had. My father was loving me, and with that love, I could feel True Parents's Love that I had been wandering around looking for (tears) so much.

However, my story did not end with that. As my mind forward my father was sorted out, only then did my mother begin to be seen. For over 30 years of time, my heart was only full of anger for my father. There was not a single spot for my mother to enter. No matter how much I thought about my mother, I could not feel any heart at all. Was it because of that?

Even though True Mother is in the midst of suffering, there was no agitation in my mind. That numbness made me suffer even more. If I had even a tiny bit of heart, I would hold onto that heart and at least pray. (tears) But nothing could be felt.

For several months, I became exhausted, and with the heart of giving up, I entered Cheon Shim Won. Looking at the True Parents's Portrait, I called out my mom, 'Mom, mom, mom' While I was continuously calling for mom, these Words came up from deep in my heart, (tears), 'I wish my mom would not hurt any more.'

At that moment, tears burst out. The mind for my mom which felt as if it did not exist for me, came alive. Naturally, the heart for True Mother also opened, 'True Mother, please do not hurt anymore.' (tears) 'Because we are here, please do not hurt any more.'

At that time, through Cheon Shim Won, I came to know a little bit about what the grace I received is. Cheon Shim Won is a Place that made the love inside me which was blocked with scars and anger and disappointment, flow again. It made me meet again the love that was buried within the anger for my father. And it changed numbness toward my mother into love. (tears)

If someone asks me where Heavenly Parent's Love is, I want to say it is within the family. I believe that love in the family is the fastest way to love Heavenly Parent. Now, going back home is happy. And I have come to love True Parents, especially True Mother. Wanting to inherit True Parents's Heart, the devotion I offered at Cheon Shim Won ultimately became the devotion that allowed me to love my father and my mother again.

Now, I do not intend to stay only at feeling Heavenly Parent's Love within the family (tears). Loving the people, nation and world beyond the family, I want to experience the Heart of Heavenly Parent Residing within them. Like that, I want to grow the love inside me larger and deeper. (tears)

TESTIMONY recording - 1 wkly 1,667th Korean HQ Cheon Shim Won Model 10 2 26 Friday

VIDEO of Heshuin couple's testimony

www.youtube.com/watch?v=jd8upPiR_2I

... I didn't think it would be a Korean...

Korean wife: As a 2nd generation family, when True Mother Founded UPA, I applied as the first class at the time and I studied and I studied at the Sun Hak Youth Graduate School. With gratitude for the love of True Mother that I received at that time, when I thought about how I could return it, I was told to go out as a missionary now.

So, I did mission work in about 4 nations for ten years until I came to Korea. I realized that I lacked a lot of experience. I thought that I too, now must find someone who can be a plus and minus complimentary partner for me.

At that time there was a European Leaders' General Assembly here in Korea. Then hearing that they were looking for a Korean daughter-in-law, the parents started conversing together. We also met in Senegal, and I gained the conviction that if it is truly this person, we could achieve an ideal family, a true family together.

He is a mixed Finnish and German descent and I am a mixed Korean and Japanese descent, I felt that we could truly achieve the Cheon Il Guk culture, so we came to Blessing smoothly. I think a lot that I am truly, truly so grateful.

The husband speaks: I definitely feel that it's very good for brothers and sisters, and I can really see why True Parents Wanted us to do (international Blessing and mission work). And as an international couple, I think it's very enriching.

Certain challenges come out of course, but sometimes you need to understand that it's not just about that person but the whole ancestry and culture that they come from. There is definitely an additional element that comes from this international Blessing.

And you build something together, and I think that strengthens you as a couple. It deepens the relationship, and I'm getting experiences I would never get if I was stayed in Finland. The Chuseok Celebrations with her relatives and a lot of completely new experiences that are definitely very enriching. It's never going to be boring.

(Leaving economic profit behind and investing in public mission...) We were to become pastors, and we told her, 'Okay, it will be difficult for two years. It means our free time is gone. Our evenings and weekends we need to do mission. But we decided to achieve something. In two years' time, we need to make a difference in the community. We need to implement some changes.

So, we were working very hard for 2 years, and I think we were actually the first 2nd gen pastors in Vienna community. And I think in those 2 years, we managed to include some of the younger generation to engage a bit more in the community.

The best thing is that after we finished, we had at least 3 new couples who took on the pastoral mission as a trinity. And I think they continued building on what we started. So, we're very grateful.

(So, to build the foundation...)

I studied international business and finance, which are topics that you need everywhere in every country in every business. And the CEO of Il Hwa was visiting Austria when we were pastors. And they were looking for someone in Europe who could support Il Hwa, and they asked us for anyone in the community who has studied business. In our case, there was a lot of guidance.

In Europe, there are a lot of wonderful brothers and sisters, but what we lack is the financial foundation. Many of the national leaders, the pastors, do not work full time (for a church business). They have to work a full time job elsewhere and give their free time and evenings and weekends. That's when they work for the Providence. And we did that as well.

Doing consulting full time in the day and investing in the Providence evenings and weekends. But in my opinion, if we want to change the world, we cannot do it just in our free time. We do need more resources. So, part of my plan, this 5-year Plan is to encourage brothers and sisters in Europe to start companies, support them in selling Il Hwa's product, ginseng or beverages.

And in this way starting to build up an economic foundation. And the nice thing is, if we do this with different people, then we can support each other, we can learn from each other on shared basis practices and so on.

Il Hwa is at the background supporting these companies. So, it's going to be a win/win/win situation. Il Hwa is benefiting from having more companies distributing. The Providence will benefit from having this liberty and benefit foundation to support the local Movement if these brothers and sisters are doing well.

And I'm happy to say we already have 4 or 5 brothers and sisters who are in the process of starting something with Il Hwa product since I started. So, I'm really looking forward in 2026 that this is going to materialize more.

Of course it's going to take a while before this is strong enough to really support our Movement, but we're looking at the long term, 4 years, maybe 5 years from now, if we're going to have a strong enough foundation then it's good to work on it now. So, I'm looking forward to it, and one of the things I love in my job also.

... What do we do then, and what does Heaven want? Heavenly Parent really wants there to be a bunch of people on the same level as True Parents, people who do not make excuses saying, 'Okay, there's someone out there who will take care of the problem, but who will take full responsibility to live a life as a citizen of Cheon Il Guk, not to think that the standard that True Parents have set is something far beyond, but something that I have to live.

I have to become like True Parents. I have to become a person who is in the direct dominion of our Heavenly Parent. And I feel that at this time, more and more people are awakening to this and recognizing, 'I have to be this.'

And we have to make the miracles happen. We have to bring every ounce of our wisdom, our knowledge, our passion, our strength to change the world. And I think that's becoming clearer and clearer now, that we cannot wait for something.

And thinking like that, then we really cannot waste time. It's not (to worry about True Mother). It's interesting that True Mother keeps saying the same thing, 'Don't worry about Me. Go out and do your mission. Go out there. Teach the Principle of Creation.' So, I think we need to know as a Movement that we need to really step up to that and make the decision, 'Okay, now is the time to change the world.'

His wife prays: As day by day passes, just thinking of Mother floods my eyes with tears. (tears) Food does not go down. And I have so much feeling of being sorry just spending a day.

But in the time I have that sorry mind, that sorry heart, when I came to think about it, I realized how importance it is to practice what we can do in our daily lives for the sake of the Will. Because I know that True Mother will be more joyful through that, I desire that we become such children of our Heavenly Parent Who can express our thoughts more before the world, pour out our hearts before the world, and show our practice through our lives.

(The flower of 2nd and 3rd gen family bloomed upon the path of True Mother's Sacrifice)

Thinking of my mother who received the Blessing truly for the sake of Heavenly Parent and True Parents (tears) in a country called Korea. And she did not think about... and even a mother-in-law who went through the Korean War, and lived her whole life in order to practice the value of True Parents and True Love, I come to think again that she was a mother worthy of so much respect.

Coming down to me, forming a family in Korea like this, (tears) although my mother could not see them, raising my first daughter and my second, and now even my third here, I feel my mother's heart a lot. And I think I have grown a lot to be able to feel True Parents's Heart even more.

As much as I miss my mother, as much as I miss True Mother and as earnestly I am in this position, I will do my absolute best, and truly fight a hard battle so that I can accomplish more things with harder work than my mom while I am on earth, and while True Mother is on earth.

And I will promise, True Mother, that I will forgive and love all people and become one with all people, and members and do my best so that I can certainly accomplish the kind of earth that Heavenly Parent Wanted to Accomplish. I promise this to you, mom.

... so that True Mother can stay on the earthly longer even by a minute or a second (tears). Even if it means cutting down my lifespan, I want to make it so...

The mother who gave birth to me passed away from cancer when I was one year old. At that time when I was so young, and my older sister was also young, I was separated from my three older sisters, and grew up alone.

Because my grandfather was opposing the church, I had to make my living expenses and other expenses on my own. And he with one of my older sisters asked my biological father to quit the church. So, my older sisters grew up without identity as 2nd generations.

The fact that I was adopted separately and could grow up in the embrace of my current parents who have deep faith (tears), I truly felt that Heavenly Parent had Guided me like that. So, even when I alone could live... because my biological older sisters all left the church, while participating in the Vigil Devotion, thinking of my older sisters who had left would bring me to tears.

Sometimes, because I didn't grow up with my older sisters, I had no affection for them. And because the mindset of not really wanting to face them was strong, at night I could make the determination, but when the day passes, my heart sank with not wanting to face them rising up, and I thought it would be difficult, but the thought I had was that if I could see through Heavenly Mother and True Mother's Eyes, my mission would not be shaken and I could advance even in Japan.

So, wanting to have such a heart, I participated in the Yeongseong Workshop. I said I will restore my three older sisters. So, it is only 3 people, but True Mother Said She would restore all humankind alone, and She was Speaking the Words about that situation Saying She was the only one left.

Looking at my family situation right now, there's only me and I only have 3 older sisters. Yet, even that is so difficult. But when I felt that True Mother departed while Speaking the Words that She would restore 7 nations alone, I was so very sorry. Thinking how difficult it must have been.

Seeing as I realized even a little bit of the Heart with which True Mother Advanced Alone, so tears flowed. Four 2nd generations were born, and although I still do not know everything about Heavenly Parent's Heart, when there was no choice but to watch 3 children leaving, when I imagined it, I felt that truly, if I did not resolve to do it, then it would not be accomplished.

So, I have never lived together with my older sisters, and honestly I don't remember their birthdays or what they like or what they dislike. (tears)

When I entered university, my second oldest sister came to visit the place I was doing part-time work before,... or even before entering to Workshop, when I mustered the courage and went to eat with my first oldest sister, she bought me various things, and bought me. So, I said, 'I must restore them, and I must give them love. And I must do it first.'

But when I look back, I felt that my older sisters were caring for me and loving me first. Upon hearing that my mom, before she passed away, had a tremendous interest in the education of 2nd generation.

I think my older sisters are living even now without knowing anything of how they are 2nd generation. But if we had all lived together as 2nd generations, what would my mother think when seeing my three older sisters from the SW?

When I think about what she would think and when I talk to the Family Department Director, with a situation of an older 2nd generation who passed away from cancer, in a situation where she had to go to the SW when her child was 2 years old, when I heard the story about the things she said about her child and loves her, but her body was in so much agony that she couldn't even think because I was in her womb when she was in her terminal stage.

I thought that my mother must have truly been in agony at the end (tears), and my oldest sister was also

only 6 years old, so think she must have truly been in agony.

Seeing the testimony of the 2nd generation who was doing 40,000 calling out prayers for the family, I resolved once and accomplished it, but because I couldn't think if my older sister through Heavenly Parent's Eyes, and considered that they had nothing to do with me anyway, I quit the condition midway.

When I came to general 40-day Workshop, and came to see that person's testimony again, I felt that H Mother was speaking to me to call my older sisters once again, and that it would be good if I offered calling out prayers.

So, thinking that I wanted to bring joy to True Mother even a little bit by offering 40,000 calling out prayers in the general Workshop and in this Yeongseong Workshop period, when I offering 60,600 calling out prayers a day, I did not know yet whether the SW was moving for my older sisters. But through that experience I could realize that Heavenly Parent is calling my name and my older sister's names even more than I do. (tears)

Coming to the Yeongseong Workshop I came to truly feel that True Father and True Mother are my Parents. (tears) I lived arrogantly thinking that I had faith, but when Heavenly Parent called my name, and called me to the family of my current father and mother, (tears) and when I felt that Mother had already prayed for me first, I realized how arrogantly I had lived.

True Mother Who did a double resolutions in front of the 2nd generation in 2023, how much does she love 2nd, 3rd and 4th generations, and how much does She anticipate 2nd generation? When my resolution gradually became weak, and time just flowed by without being able to offer any result before Mother, I feel truly sorry.

Honestly, how much longer will True Mother live on earth from now on? and how much She Wants to Work while walking together on this earth, with True Father Who is in the SW, honestly there must be many things She Wants to Accomplish.

But I am currently healthy and young, and I can move forward. But if I am unable to fulfill, the Mission given by Heavenly Parent, even if it means reducing my life span, so that this path of the Will True Mother has Advanced until now can be compensated even a little bit, so that True Mother can stay on this earth longer, even by a minute and a second, even if it means cutting down my lifespan, I want to make it so that True Mother can Walk on earth for one minute and one second more.

(I hope that all of her sisters can come back to the Embrace of True Mother... applause of encouragement)
