OPENING PRAYER OF GRATITUDE

MOST NOBLE/HONORABLE Heavenly Parent

BELOVED True Parents of HEH

We offer gratitude for Opening a precious Day today, and Granting the time for this 1,670th Cheon Shim Won Special Vigil Devotion. Even though we pledge a life of fruition and loyalty to Heaven again today, we have so many lackings and failings of heart, so please Guide us so that we can become your children who are newly born again through Love and Grace.

We come to confirm that today's Cheon Shim Won is a time of amazing miracles directly presided over by True Father in Heaven and True Mother on earth, Who have Become One. Their Spirits are Together. True Parents have Granted us Cheon Shim Won, which is the Foundation of Prayer and Devotion and have Granted us this Holy Ground of Devotion that can liberate all people and the SW.

Not only that but HMM True Mother has Blessed us as true grains along with the resolution that She will certainly see Your Will on earth through to the day Her Life ends. In order to Conclude Your Providence, She Spoke the Words, 'Advance with Spirit and Truth'.

Therefore, please Guide us so that we can achieve a true 4PF with True Parents. Especially for all the members gathered today, please let them experience amazing Works unfold when they pray and offer Devotion at Cheon Shim Won, and we earnestly hope and desire that You Will Mold us at this time into children of Hyo Jeong.

Offering Gratitude before Your Endless Grace and Love, and reporting all these words, I pray with gratitude in my name, Kim Yong Jin, in grateful Attendance to HMM

4TH MOSHIM 40-DAY Workshop

Bow and gratitude

Hello, I am Sung Hun Lee, 2nd son among 2 sons and 1 daughter - Hejong Central Church... During the

2nd 40-day Yeongseong Workshop, there was a passionate enthusiasm in my mind that I would become a substantive person of faith who fully attends True Parents at the Center of my life and proudly practices true love before the world.

However, returning to society after finishing the Workshop, the wall of (seeming) realities was high. Hit by anxieties over my career path, and with times for devotion decreasing, I gradually closed down. Realizing that the Roots of my faith were shallow, I entered the Workshop with a desperate to become a child that puts down deep Roots that will not be shaken in any societal circumstance.

This Workshop overlapped with the GWs schedule. So, it was a meaningful time when I could offer devotion with one mind and one will together with the members. When Mother was Walking the Path of the Will after Father's Ascension, the feeling of being sorry that we children could not fully Attend Her surged deeply in my chest, with a mind that now I will Attend Mother and advance. And I engaged in devotion earnestly longing for Mother's Release without guilt and victorious return to Cheonjeong Gung.

Especially, I came to take on the role of the person offering the calling out prayer during the Special Devotion in the GWs period. When I grabbed the microphone, it seemed like Heavenly Parent was reaching out His Hand Saying, 'Prove this admission that you are a proud child.'

When I earnestly cried out, 'Mother's Release without guilt' to the point where my voice was hoarse, I felt the burning Hyo Jeong for Mother come alive within me. However, as the Workshop continued, a deep wondering also came to me. When I received the suggestion to join the Academy from the people around me, I came to see my own hesitation because of agonies over my own social career path.

At the cheonyeong stage, I saw myself caring more about my own appearance presentation rather than experiencing Heavenly Parent's Heart. I still haven't been able to throw away my own self. Partly at least, I was just a shell pretending to attend. A deep sense of shame and agony surged within me. And suddenly the words of PL at the Opening Ceremony came to mind, 'Check for the state of your heart. And if you have realized your lack, become a child who experiences the Heart of Heaven through Devotion.'

With these words, I resolved to immerse myself even more in my personal devotion, which I had somewhat neglected due to the external volunteer work. Wondering, I ran to Cheon Shim Won every break time and offering bows, Hoon Dok Hae and prayer devotion. And I went up to the Holy Ground

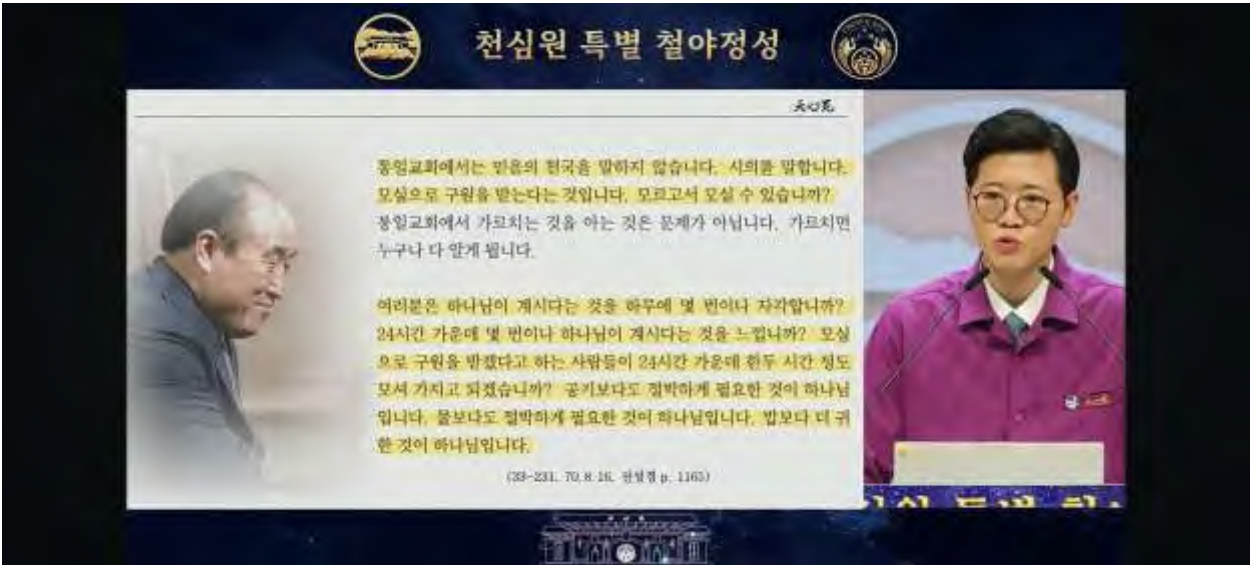

struggling to find Heavenly Parent's Heart.

Usually, in my school days, I had a habit of comparing myself with others and blaming myself. Even in this Workshop I went up to the Tree of Blessing and prayed with tears, 'Heavenly Parent, do You Love me even though I'm lacking like this?' In the midst of that, one question arose. While receiving the attention of the Workshop, 'Is it okay for me who is lacking to be a representative in an important prayer position of calling out prayer or the prayer of gratitude?'

Following that prayer, what I had confessed came to mind, which was, 'True Father, while we are still so lacking, please give us more teachings here at Cheon Shim Won.' I came to realize that True Father had been listening to this prayer of mine without leaving anything out. He did not turn away from my prayer for teachings because I am lacking, but rather pushed me into the position of grace, and was teaching me so that I could directly experience Heaven's Heart and grow.

As I realized the Grace of Parents Who Taught me without letting go of me, the self blame within me changed into deep gratitude emotion. After that, taking on volunteer work and staff roles, when I boasted the work of the trainees, who were exhausted, by calling out 'my team, fighting' I saw from the appearance of the trainees, 'Why did I only want to receive love until now?'

Receiving Love is also good, but throwing myself into giving love is also such happiness. The coordinator said that through the words of the intensive prayer, we should not make excuses about being lacking. Heaven is waiting for us to resolve it. There is no more time to wait. Rather, we must proclaim.

The moment I heard these words, I received a shock as if True Father was loudly scolding me. I felt deeply in my chest that the time True Mother will be on the earth is not much longer. Finding my agony resolved by joining the Academy. During this Golden Age Period when Mother is on earth, I want to do my utmost without regret and give true love to the trainees and members.

Receiving education every day at CheonBo Won and looking back at the noble Footprints of DMN, I came to realize that the way an immature person like me can stand in this position is that Foundation of Sacrifice that True Parents and senior members laid with Blood and Tears.

The Attendance that I came to define in this Workshop, is a life of realizing what immense True Love I have received until now and throwing myself to return an even greater true love, I earnestly pledge and resolve in this position today, that I will no longer make excuses about being lacking, or agonies of realities. Rather than a sense of duty done because someone ordered me, I will live a life for the sake of others, investing 100%, because I myself want it.

I will become the child of a proud Blessed family who proves True Mother's Return to CheonJeong Gung through my life of loyal practice in the lowest position. Thank you for listening.

'I want to become a child who doesn't change in front of Heaven, and I think I have received that Calling to be one with True Mother.'

'I came to understand what true love is and to do that I need to learn the Heart of a Parent and learn through serving others'

'I came to think how Heavenly Parent Wants all the children to come back to True Mother, calling one by one their names, I offered the calling prayer and I felt that Heavenly Parent was Calling as well.'

True Father: 'If I was young, I would have influenced the world much more. All of you here, rather than old people, young people are much faster in walking. And so, your passion, your heart of hyojeong for Heaven, this is the Way..... '

'As a pastor, as well as someone who has received the spirituality Workshop, even though I am lacking, I will work so that the mission field can become one with True Mother. And I will be that bridge. Truly the Subjective SW is resonating. And if we become those who walk step by step together toward unification, then our belief will become stronger, and the day of Victory will for sure come.

So, what we have to do before the day of the verdict is for our heart to become one and absolutely aligned with True Mother, blinding self for seeing only True Mother, so that True Mother is inside myself and myself inside HMH, and True Father is inside ourself and we are inside of True Father as well. And we have to pray a prayer that moves Heaven.

We are now repenting, truly and sincerely repenting our past days. And we will never neglect True Mother again. And we will always Attend True Mother' And with that heart of resolve for True Mother we will move forward.'

HJ REPORT

YU SU HUN, Secretariat Team Leader

10th Moshim Workshop Grace

During hottest time of summer, July - August.

True Parents's Words: From now on, you have to live a life of Attendance. Until now you have received salvation through faith, but now it is the faith and attendance that will lead you to the salvation of the Era.

Wherever you go you have to feel that in front of you is True Father and behind you is True Mother, and Heaven is right next to you. And if you do everything with a heart of praying, then Heaven will Guide you.'

'In the Unification Church, we don't talk about faith in Heaven. We are about a life of attendance. It means receiving salvation through attendance. When you attend without knowing... Knowing what the Unification Church teaches is not the issue. Through Attendance, you will come to know it all.

How much do you know that God Exists? In 24 hours, how much do you feel that God Exists? For people who say they receive salvation through attendance, will it do to attend for only 1 or 2 hours out of 24 hours? What is more desperately needed than air is God. What is more desperately needed than water is God.'

As you know, our Moshim Attendance Workshop is being conducted targeting Yeongseong Spirituality Workshop graduates. If during the 40-day Workshop period, you struggled to experience Heavenly Parent's Heart and to become one with Mother, now centered on that experience heart, in this 40-day Attendance Workshop, we are walking the path of training to Attend Heaven, and put down deeper Roots as a person of Faith.

This Moshim Workshop was not a Workshop made by force. When the 40 days ended, the trainees who received grace, came to a resolve, saying 'I too will devote myself (continuing to increase) even a little more toward the Will. I will gather more devotion for Mother.

As young adults gather more devotion like this, it naturally led to more education and gradually, as many

came to be gathered, an academy came to be created. And during the process of preparing for the Entrance Ceremony for Cheonil Sanctum and Cheonwon Gung, since they said they needed people for the cleaning volunteer work, gathering those who volunteered and hoped to do it, this Attendance Workshop was launched.

At first Mother was very happy to hear this news, and as a token of that She attached the Word, 'Special' to this Attendance Workshop for the name, 'Hyo Jeong Cheonshim CheonBo Yeongseong Attendance Special Workshop'. Then passing through the 1st, 2nd and 3rd WSs with great success, we welcomed the Entrance Ceremony to Cheonil Sanctum in Cheonwon Gung with...

From then on every child came to be reborn. It was a training and life Workshop. And Mother already Spoke the Words right here at Cheonjeong Gung for you to put down the Roots of Faith deeply and on you own, do prayer and devotion. And now the Yeongseong graduates who have experienced Cheonshim, have come to receive the Workshop, while struggling and breaking through the limits and also doing the volunteer work in order to find the value of Attendance on their own and live a life of Attendance.

Mother Lived a Life of Total Investment in order to Attend Heavenly Parent. While walking the 13th Year of Cheonil Guk, what She gave us as the year's motto was that the FF would carry forth from now on was Attendance. And She Bestowed the Grace so that we could pray as BF's Attending HMH. The Principle Says that human beings in this era who are believing in and Attending the Returning Lord True Parents, are completely resurrected spiritually and physically, and their spirit body comes to form a Divine Spirit.

The Place for human beings who have perfected the Divine Spirit on earth is Called the Kingdom of Heaven on earth ((The King Mother and King Father Heaven Realm on earth). When a perfected human being who was living in the Kingdom of Heaven on earth in their physical body, their spirit body as a Divine Spirit goes to live in the Kingdom of Heaven in Heaven, which is the Spirit World of the Divine Spirit Beings.

When looking from a Principled Perspective, our Attendance Workshop, because we can receive the Yeongseong Workshop and the Attendance Workshop, in the Restored Garden of Eden, the HJ Cheonon Complex, during this Providential Golden Age, when we can Attend HMH can also be seen as a Workshop where we can be Resurrected as a Divine Spirit.

Actually, when we speak of this Attendance, we cannot help but fathom the life of DMN, Who Lived Her whole life in Attendance with AFAL and AO. Mother Spoke these Words about DMN like this:

'In the past, 2,000 years ago, Mary could not fulfill Her responsibility before Jesus. However before the OBD Born after 6,000 years, DMN Fulfilled Her responsibility to Protect and Raise the OBD well, and offer Devotion so that She could have the Marriage Supper of the Lamb, and Become True Parents.

DMN Lived an Exemplary Life of how one must Attend the True Parents, before the BFs and church members. Because she did so, even before she went to the SW, she was able to play the role as a representative before True Parents. Her Name is 'Great Mother' 'Daemo' and Daemo nim is someone absolutely needed before the fallen humankind.

BREAK and BUSKING

Hoon Dok Hae

Do not leave your remaining life to flow by without a (true) name and without (true) life.

Since I Lived by God's Word, you also must live by God's Word. You must read, memorize and practice the Word so that you can become several times more proficient than Me. While doing so, you must say, 'I must go this kind of path.'

'Since the path True Parents Want is this kind of Path, I must go this way.' Then, when you enter a certain village, even the ancestors of that village will come and want to be participants of joy who can Attend you. When you are consumed with Grace and step forward with resolving your life, God steps forward Holding the microphone instead.

The angelic world is the same. I am also like that. Because of that, if you become intoxicated with these Words and raise to the level where you can forget to eat, forget to sleep and forget living, anyone among you can substitute for the Work I was Doing. This Action is Great.

True Parents Completed, Concluded and Consummated all of the history of the Providence of Restoration through Indemnity and Opened a New Era. They Opened the Era of Cheon Il Guk. Now you must educate your many neighbors who do not know the Will. And furthermore, guide the people of various nations so that they can become one with the Will of Heavenly Parent and True Parents. Only that Path is the Path to Repay the Debt Owed to Heaven. It will become the Path to Fulfill the Mission before the world.

Now, Heavenly Parent Directly Governs. Even if it is a small strength for a small devotion, you must not miss the moment when you can be in agreement with True Parents. It means, do not leave your remaining lifetime to just flow by without a (true) name and without (true) life. Only we are the Dream and Hope for humankind of this world. Wherever you go, you must create a happy environment. The Center there is True Parents.

I said the Words that this Period, this Time, this Hour, when we can Fulfill our Filial Piety before Heavenly Parent and True Parents of Heaven, Earth and Humankind is the Golden Age. It is the Golden

Age. In your lifetime, it is the most precious time that can be remembered for eternity, and you can boast of victorious achievement. It means how much Heavenly Parent has been Waiting for this one time.

It is not only the 6,000 years Spoken of in the Bible, Heavenly Parent Waited a longer (such longer time than that) for the True Parents Who could Know the Providence of Heavenly Parent and Circumstances of Heavenly Parent and take Responsibility. Aju
