OPENING PRAYER OF GRATITUDE

MOST HONORABLE Heavenly Parent

BELOVED True Parents of HEN

Today, as You have Opened the Doors of Heaven, TYVM for Directly Governing this 1,672nd Cheon Shim Won... Heavenly Parent, in order to Establish us, You Endured for more than 6,000 years. We know (we have some clue now that) You had such Painful Heart and we have gathered here before You, so please accept us. Heavenly Parent, Who has been Waiting for Your children, although our hearts are still lacking, at this hour when we truly miss You, (search for You and for our own hearts yearning need for You, to please and comfort You after how True Parents do, yearn for You, search for You), please remember us like that (instead of the too painful and long fallen history)

All who have gathered here, Allow us to stay together within the Realm of Your Heart (that HMM True Parents Reveal more in this Place)... Please Allow us to Align to the Path of Your Original Will... In front of the difficulties and hardships and when there are those who spur Your Heart to Feel more Sorrow, please Allow us to stay as Your children so that we can earnestly cry out and receive Your mercy on us

for our praise and our prayer.

Please (Guide, Correct and Expose our repentance) and Allow us to walk the Path of Patriotism and please fill the lacking part of ourselves (so that we can be used for You to Express through us what You Desire by Your Heart's Perspective and Knowing in relation to every other person, who keeps the identity of 'child')

Throughout the world, there are many BFs and brothers and sisters gathered to offer prayer and devotion as we cry out loudly to You, so please (be Comforted and Pleased with us) and add Your Strength to us (that we may go forward fruitfully for the Providence of Your Heart) In this hour Allow us to receive Your Heart, Your Power, Your Authority to us and Resurrection of us to Occur, that we Fulfill (Perfect) the Word You have Given us, putting all our mind, all our body, all our hearts with Yours, to move forward in Spirit and Truth, with unwavering hearts of AFAL and AO.

Please Allow us to deep root our Faith and become the creative Church that revives (fully Meet this Time and to give multiplied births to it)... This Providential nation of Korea, please shake us awake, that we help shake this nation awake (their true desires and needs). Through the Epic History of the Chosen Han People of Korea, allow Chosen People to Realize our Heaven Mission and move forward to uphold it.

Your Mother Nation of H Japan, please Allow it to become multiplied with BFs who move forward without ceasing. Please Work through our brothers and sisters (to believe in actual realization) to unfold the peaceful, ideal world through reaching the righteous people that You have prepared. Please gather them, centering on Cheon Shim Won so that we can be one (power army of Heaven's Move on this earth together with myriad AGSs H armies)

We (desperately) hope and pray for True Mother's Well-Being and Safety, offering all these words, I pray in my name Kim Jong Jin, a BF in unending, grateful Attendance to HMH... Aju

WELCOMING ADDRESS

H USA Cheon Shim Won DIRECTOR DOO WEUNG-YEON (두승연)

gratitude... and on behalf of the members in America, I would like to bow my head to PL who give utmost devotion and effort every day for our spiritual growth and to all the staff of Korean Cheon Shim Won, who dedicate themselves behind the scenes without seeking recognition or praise.

It has already been 21 days since I returned to America, after receiving from True Parents the precious Calling to serve as the Director of Cheon Shim Won for H USA. In H America, looking back, each day has been a continuous journey of remorse and repentance before Heavenly Parent and True Parents.

Although I believed I had done my utmost to fulfill the responsibilities entrusted to me, throughout my 36 years of public service, I came to feel painfully aware of how terribly insufficient my own spirituality was. Even though I am so inadequate, that I have struggled just to fill the empty vessel of spirituality left unfulfilled throughout my 36 year-journey, True Parents Entrusted me with the tremendous mission of guiding the spirituality of the Blessed children, whom They Love most dearly.

In the face of such great love and grace, I could not help but offer prayers every day with tears of repentance and pleas for forgiveness. On April 30, 2022, immediately upon arriving at Hannok Palace from LV airport, True Mother Said, 'Let's go to Cheonwha Gung. Without even entering the official Residence, upon arriving at Cheonwha Gung, She Said, 'The American Church is dying. So, we must surely revive it through Cheon Shim Won. That is why I rushed here without delay, even putting off urgent eye treatment.' She then Willingly Offered even Her own Residence and Bedroom for Her Beloved children, Giving detailed Instructions to Convert those Spaces into a Cheon Shim Won Prayer Room and Lecture Room.

It feels as though True Mother's Heart-wrenching Devotion took Place only yesterday, yet four years and five months have already passed. However, when I consider Mother's Earnest Wishes and Expectations, I feel that there is still a long way to go. As a result, every day my prayers become earnest and desperate pleas to True Father in the SW. True Father, please help us.

As true messengers of Heavenly Parent and True Parents, and as children Attending One Parents, I will join hands with all our brothers and sisters, to help fill one another's still incomplete vessels of spirituality, striving together with all our strength until they are Filled to overflowing.

During the Cheon Shim Won Vigil Devotion on October 7th, I was deeply moved by the Presentation of Team Leader Yu Su hoon, who explained the meaning of Attendance by interpreting the Word through the Character for 'Mother' and 'Heart'. I wanted to engrave deeply in my heart that Attending means Embracing all members with the Heart of True Mother.

Long ago, Mother Appointed me as the Director of World Mission HQ and sent me on Tours around the world, Giving me the following Instruction:

Convey Mother's Love and Circumstances to the members. That Noble Command remains an eternal Mission living and breathing in my heart even now. Although my position of service has changed, holding that heart fully within me, I will continue moving forward without wavering, toward the Revival and Victory of Heavenly North America. TYVM.

And this is the testimony of a member shared at the HJ CheonBo Great Works Assembly held last week in the Texas State of the Southern District of the United Stated, when our hearts were deeply moved by the Holy Spirit and True Love.

Amid the vast geographical expanse of the Continent, members who used to live far apart, gathered in one place, united by their longing for Heaven alone. Overcoming the geographical barriers that normally made it difficult for them to gather, the members were able to embrace one another and become one. This was the spiritual fruit of the prayers offered with tears and devotion every evening throughout the United States, centered on Cheon Shim Won in LV.

It is said that the members gathered at the Event were deeply moved to tears as they felt first hand how the Work of the Living Heavenly Parent and spiritual Bonds of Cheonshim Won were Embracing and Supporting them.

One female member experienced great Spiritual Grace while sincerely helping a family prepare for the matching of their child for the Blessing. She was deeply moved by the parents who had expressed the great spiritual foundation of victory, through the ancestor Blessing of the 430 generations ahead of their child's Blessing. She shared that, the moment she looked at the couples' faces filled with joy and victory and true love, a powerful spiritual conviction and peace welled up deep within their heart.

The Blessing of this family's child will surely bear beautiful fruit through Heaven's Great Grace.

Another participants deeply experienced the Works of the Holy Spirit descending amid fervent praising and singing. When the participant tearfully repented for not having remembered the ancestors who had gone to the SW before them and fulfilled the condition of bowing 50 times, they experience a sense of

liberation as though the burdens weighing on her heart had been completely washed away.

With tears this member resolved to deepen her bonds of true love with ancestors in the SW through daily devotion from that day forward. And one member who had been diligently preparing flowers for the event shared that upon seeing the gentle rain soaking the arid land of Texas so dry as a desert, they spiritually felt that Heavenly Parent was purifying the entire SW surrounding the GWs Venue.

Furthermore, while witnessing to young people jointly uniting in service and experiencing the fervent Chanyang Session, the member was profoundly moved by the Heart of True Mother's Boundless Forgiveness and Embracing True Love, which soaked their entire souls.

The Cheonbumo Lecture delivered during the CheonBo GWs became a spiritual turning point that awakened the soul. A 2nd generation member who listened intently to the lecture came to understand in their heart for the first time the Providential Position and Love of Jesus, True Father and True Mother. They made an overwhelming confession: Only now have I finally Established the true Foundation of my Faith.

Another female member shared that she had come to understand the real Truth as the scales had fallen from her eyes. She expressed her firm determination saying, 'From now on, I will become a new and true child, who is completely one with Heavenly Parent and True Parents, doing only what brings joy to Heaven, and never doing anything that causes Heaven Sorrow.

The Texas GWs was a Sacred Works in which the SW and PW marched into one, bringing the BF's and their descendants the grace of substantial salvation, purification and healing. The participants gained an indescribable sense of liberation in their hearts and renewed spiritual vitality, reaffirming true hope within Heavenly Parent's Holy Community.

We offer all Glory to Heavenly Parent and True Parents for granting us such incredible grace and the miracle of rebirth. And we extend our greetings from Heavenly North America. TY (And he bows)

(TY our Rev. Doo Seung yeon, You are another momentous Gift Mother Sent to raise the Standard of Life and True Love Breath of America's BF's and of our precious Cheon Shim Won Attendance, for personal growth and unity Committed Together under the Substantial Mother God's Direction, (both

leaders and members, by BF's repentance and our 'obedience which is greater than sacrifice') having attractive Holy Spirit Witness of Mother wherever we go, whatever we're doing, especially singing Heaven's New Songs of New Wine feeding our hearts to overflowing...)

Even with the Dissolution Order and Mother's Suffering, everyone know, 'If we move forward with prayer and devotion, True Father will Work. Amazing Work of Heaven will unfold, and this 3-day Cheonshim Resonance Prayer Workshop is teaching the Method how to do that'

There's no one we cannot restore if we continue with prayer and devotion, and the Name of Holy Mother Han, and the fact that we can pray with that Name, those satanic forces, no one can block us. The gap of the Distance far apart from Heaven, and the distance between You and Mother, you must cry out like a baby in order to close that gap. That's why the prayer is necessary.

'As I cried out to Mother and Father, I was able to realize how warm the Parents' Love is.

Now, more than 400 member have come here. And we are all the way to the 13th Session, and 7,777 total have gathered to offer prayer and devotion. With Your Love, from no on, we will become one and go out to the world to embrace as many people as possible. Father, please Work. applause

WELCOMING ADDRESS

DIRECTOR OF H JAPAN I BON SOK

1,672nd Cheon Shim Won VIGIL participants around the world, hello everyone (He bows)

October is the month of liberation and release, the month of Blessing and the season of fruition. True Mother, HMH, OBD, SHS, is encouraging everyone to attend the Autumn GWs, so that She will Bestow the Grace and Blessing of Grace and Fruition upon the entire cosmos. In particular H Japan will receive the greater Grace through the Autumn GWs as the Hyo Jeong Offering Seonghwa Ceremony held separately before is now being held together, which I also want to again encourage your participation in and receive the HJ Offering at the GWs together.

Today, I want to introduce testimonies about the Grace of HJ Offering Paper shared through the Special Itinerant Lecturer, Byon Jong Sok of Region 4. First, this is a testimony of Otsuka of the Mindong Family Church of how the HJ Offering Papers helped save her father's life. Special Itinerant, Byon Jong Ga visited for such grace. He shared that, 'You should not give the HJ Offering Paper only after something has happened. Heavenly Parent does not want you to get hurt. So, if something can be prevented before hand, that' what Heaven Wants. Therefore, you would be good to Offer the HJ Offering Paper on the first day of every month.'

From that month onward I began such offering. About 6 months later, one night, my family contacted me to say that my father had been taken to the hospital by ambulance and asked me to come. I went to see him the very next day. My father laying in the intensive care unit did not look much different than usual. When I heard the doctors explanation of a tear in the artery, but since the outer layer had not torn, he was currently in a stable condition. But the doctor said that at 90 years of age, his blood vessels were quite

fragile. It was truly a miracle at the point of death being saved to be stable instead of dying.

His time of stay in the hospital was also very short to the doctors surprise, and he continues to live in good health to this day. I'm sincerely grateful for the Works of the Substantial Holy Spirit Mother Protecting my father's life, and I still give the HJ Offering Paper every month.

(this is summary notes) Another testimony from a member of Kuosheki Family Church who could restore her relationship with her father in law, husband and eldest son, when those relations deteriorated. Both my husband and I were victims of abduction to renounce our faith... Since there was a possibility of my husband visiting his father to care for him in the future, I wrote the HJ Offering Paper.

When I visited I was able to talk with him and share our hearts with each other, and he spoke about his health and daily life. It became a deeply meaningful experience of tribal messiah experience. When we write down our intention and make the Offering Paper, Heaven will surely guide us.

another... My older brother and his wife began living with all ties cut. I offer grapes they returned spoiled... I contacted my elder mother's wife and she sent condolence money and also there was some conversing... Our church leader and Women's Dept Leader met together and made the Offering Paper. The discord so impossible to resolve was healed when a phone call of reconciliation was made... We are steps closer to the restoration of our tribe.

(Hope is with the Autumn GWs)

Pastor Sakatami Church Pastor sent this Message:

I'm grateful we can offer devotion at our church with all my heart... Every day I went to offer prayer and devotion together with all the families and was able to have a deep conversation with the members... It has not been long since my assignment and I am only 30, so I am lacking, but I earnestly prayed how to serve the members, what should I do that aligns with Heaven's Will and I received, 'It is to listen to each member's faith and as a pastor it is not just me who is trying to analyze our members' faith. What I'm supposed to do is check where the center of their faith and heart is, so that we can overcome the trial. It is

truly Heaven's Heart for them to overcome.

Despite the difficulties our members are facing, they have walked the path of faith with a strong heart. With earnest prayer and devotion accumulated, and September 17, we were able to rededicate our church, and finally we were able to use our church again. I'm just grateful that Heaven has allowed us to receive this grace, and through reconstruction of the families and churches, we will create a church (that does not waver in any circumstance)
