Good morning

I hope you're doing well

1672nd Tenshin-en All-night Seisho

Summary of the remarks by the head of Tenshin-en

Thanks to the devoted service of the Hyochan (the affectionate term for the staff in charge of Seongpyeong), the number of participants in the major event has increased significantly. Serving without receiving any reward is considered the most precious treasure in the spiritual realm. In order to move the spiritual realm and move the ancestors, we must sacrifice ourselves for the greater good. When my father first met my mother, he said, "I must become a sacrifice." My mother, who walked the path of the spirit, walked the path of the spirit, suffering with a sacrificial spirit, so that we can become one with Holy Mother Han. The path that is taken with consideration of the cost is difficult to become one with the good spirits, so it is only by making every effort that we can truly connect with the spiritual world.

The sincerity of sincerity is to accomplish the impossible. We must not only verbally pledge to make a

family covenant, but also firmly understand the fact that we must move forward toward the unification of the heavenly world and the earthly world. We must not think that we can win in reality if we lose in spiritual struggle. In order to eliminate the voices of distrust in society, we must increase our sincerity to drive out all dark forces.

Testimony of an International Shushin: I was blessed at a young age and gave birth to a child, but my family fell apart. I got back on my feet and was blessed again, becoming a mother of five. I have been diligently praying and striving with all my might. Even if the blessings don't go well, I heard the voice of heaven saying, "Don't worry, I am protecting you and your child." These words are a source of hope for everyone who is walking a difficult and challenging path. I hope that even if there are difficult things, they will not give up and will strive with all their might to remain unchanged.

The Ten Holy Sutra: "After a long life of prayer and meditation, the teacher finally met the real God and was taught the absolute truth that God is love. It was an amazing content that revealed all the secrets hidden behind the universe, life, and history. If this content is applied to society, social problems will be solved, and if it is applied to the world, world problems will be solved. Not only that, but also the unresolved problems of religion and philosophy will be solved."

The True Parents' Story: "Love runs a straight line. You can't imagine how much your father suffered to find this principle. He had to walk a painful path, shedding his skin and tearing his pants to the point of tears. To save humanity as his children, he had to strip himself bare, skin his flesh, carve out his bones, and even squeeze out his marrow to become a sacrifice. Knowing the feelings of God, he was merciless to himself."

The key to solving all problems is true love. All creations are created from love, and if they become the essence of love, they resonate with everything and can travel faster than the speed of light. However, those without love are dead, suffering from suffocating pain and living a life centered on corruption, so they have no choice but to be destroyed and fall into hell.

It was said that if the resonance power that makes one cry with the feeling of God's emotion arises, the spiritual world will mobilize. Through the cultivation of heavenly consciousness, if 10,000 or 100,000 people enter such a state and pray together with one heart, they can completely unite and be one through a prayer of unity. For that, prayers must be made so that the Father can intervene. We must do our utmost to drive out darkness and move forward toward the unified Korean God, just as heavenly officials are sent to this country. To assist in this, we hope that everyone who prays will know and pray about the fact that the absolutely good spirits and our ancestors, including the Toshin-sama, the Koshin-sama, and the Omo-sama, are praying with us.
