November 4, 2017

At 4 p.m. on 9. 16 by the heavenly calendar in the 5th year of Cheon Il Guk (November 4, 2017), True Parents' Special Assembly was held at the Cheonseong Wanglim Palace with the True Parents of Heaven, Earth and Humankind.

True Parents' Special Assembly began with a Gyeongbae (Bow) by the MC, Vice Pres. Myong-kwan Lee and was followed by Opening Remarks, the Cheon Il Guk Anthem, Family Pledge, Representative Prayer (Pres. Gi-seong Lee), Video Presentation (Commemorative Video for True Parents' Special Assembly), Entrance of True Parents, Gyeongbae, Offering of Flowers (Shin-bok Moon and Sachika Hayashi, staff members of the International Office.), True Parents' Address, Three Cheers of Eog-Mansei (Pres. of the FFWPU-Japan, Eiji Tokuno), Commemorative Photo and Closing Remarks.

The summary of the True Parents' Address is as follows:

Here is the holy ground and capital of Cheon Il Guk. You are the honorable citizens of Cheon Il Guk. You have to announce proudly to the world who you are, with self-esteem and pride.

I am creating the environment of this HyoJeong Cheonwon in order to show all humanity that this is the place where the Cheon Il Guk citizens reside with True Parents. From now on the FFWPU should no longer be in the dark and must be exposed to the world. You have to reveal the

truth. Where in the world are these blessings and gifts? Do you understand? What makes you scared? You must think you are the only ones who can do anything. .

All blessed families must assume responsibility for the heavenly tribal messiahship. They need to save the tribe and go further to save people and nations. This is their responsibility as a child who lives with True Parents in this age. I want to hear a lot of beautiful stories from my children as True Parents. Their hard work saved people and nations. I made them resister their names as heavenly citizens, citizens of Cheon Il Guk. The more you think big, the more you directly reach into the love of True Parents and you will receive heavenly fortune.

Dae Mo Nim devoted her whole life to the only begotten daughter. She gave up everything as a woman. So True Father has given her the title of Dae Mo Nim. Heavenly Parent sincerely hopes that all blessed families living in the environment of True Parents are healthy and become filial sons, daughters and loyal servants. Heavenly Parent allowed us to experience heavenly works centering on Chung Pyung. On the base of the Foundation Day, the new era and the new history is moving on to the substantial works of True Mother, the only begotten daughter and Holy Spirit.

Here you will receive the works of the Holy Spirit and you are in the blessed position to be able to achieve such a state that all of you has no flaw as a healthy Cheon Il Guk Citizen. This state lasts through the three generations of past, present, and future. Do you understand?

There are four seasons in all things. Depending on the season, the nature follows the laws of creation as dark green trees turn into a beautiful color in the autumn even though no one tells them to change their clothes. Now the scenery around Chung Pyung is beautiful isn't it? In the world and in your environment there still exists fallen nature, so you have to come here often, not just through the seasons but to make your mind and body healthy. I want you to feel grateful for being in Chung Pyung and become people who come here frequently. Do you understand?

Parents' mind is like that. They love to see their children happy and live well as one family. Will you be the protagonists of blessed families who make this country and the world become like that? I really hope you remember my words today and live a life without such flaws, fulfilling your responsibilities as a blessed family."
