

Faith based experience with Pizza Hut

During our live course, God gave us experiences the turn to be true, and this solidify our faith and trust in God. Although I had many experiences of this kind, I share this experience, maybe two. One day on a fundraising trip with CARP may, I had a difficult day fundraising. As many of you know, we do three fundraising runs. Morning. Afternoon and evening. In this particular day fundraising, I made about \$15. Very bad. I was feeling so guilty and not happy with myself. After I took a break, getting ready for my final evening run, I decided to pray and ask God and spirit world for help. I set on a branch near a building and prayed and repented to God and asked Him for help.

After the prayer I decided to test my intuitive power " remote viewing", by concentrating which building I would make my next sale. After I prayed I run to the building that stood about hundred feet away, head down so that no building image can get in the way of my remote viewing concentration. As I got to the building, I sat beneath it and closed my eye, and tried to visualize what the building look like that I would make my sale. In my mind I was searching for an image of a business sign. As I continued to concentrate, an image of something between hut or hat came so clear.

I opened my eye saying, Hut, Hat. Hut, Hat. I look to the street and far ahead of me I saw Arby's sign with a cowboy hat. It didn't feel right. I walked away from the building I was doing the remote viewing and I was so astonished that the building I was under was Pizza Hut! I was extremely amazed and was 100% convinced that this building is it. Do I collected myself and dived into Pizza Hut restaurant looking to make a fortune. I talked to all the waitresses but no one was interested. Dark cloud began to cover any hope of selling, let alone my failed remote viewing.

I was disappointed to say the least. As I gave up and headed for the exit door, I pushed the door and my head out but one of my legs was still in, a man came running after shouting " Hey! Hey! Wait! What you got there?"

I walked back into the restaurant and showed him the pictures I was selling. The man picked all the religious pictures, the praying hands, Jesus picture, the last supper and other picture. He bought \$100 worth of pictures. And the waitresses that weren't interested earlier on changed their minds and all of them bought pictures. I sold over \$ 150 worth of pictures! I was so elated! Not because I made a big sale, but that my remote viewing was proven good.
