To commemorate the United Nations Day of Family, celebrated on May 15th, and the United Nations' [Global Day of Parents](#), commemorated on June 1st, the Universal Peace Federation UK convened a meeting for Ambassadors for Peace on our last Tuesday of the monthly gathering.

Margaret Ali explains a Universal Peace Federation (UPF) view on the 'Importance of the Family for Us and Society'. This was part of the inaugural speeches of the Universal Peace Federation by co-founders Dr Rev Sun Myung Moon and Dr Hak Ja Han Moon. They also imparted a sense of humanity as a family embraced by God. The video of her speech is [here](#).

One presenter, Teuta Advyli, who is very supportive of UPF values, has recently launched her book, entitled, "Family: The Legacy of Love". The video of her speech is [here](#).

The second guest speaker Remzije (Rema) Duli, is a great supporter of the 'Family' amongst many other initiatives. The video of her speech is [here](#).
