

True Father was standing behind me and put both of his hands on my shoulders

Irma Mas
March 26, 2019

In 1995 our family moved from Florida, United States to Uruguay, South America. My husband received a new mission to work for our newspaper 'Ultimas Noticias'.

At that moment True Parents also stayed in Uruguay for quite some time.

It was an exiting time to be there at the same time with True Parents leading the Providence there very directly. Uruguay has a very small population and our movement was the largest investor there at that time. One of the most notable was our purchase of the finest hotels 'Victoria Plaza'. Then we build the largest Conference Center in the Southern Hemisphere right next to Victoria Plaza. King Carlos of Spain stayed there during the time we lived there.

I like to write about a very deep experience I had with True Father.

It was in 1995 when he called the CAUSA conference at Victoria Plaza. I am including some photos here from that day. It was at that moment that True Father was standing behind me at some point and then put both of his hands on my shoulders. I have not seen a photo from that very moment, but it is still etched in my memory, because it was like an infusion of his love and power. He also told my husband then shortly afterwards that he was a 'General'. It was only very recently, after my husband passed away, that he appeared to me looking like General George Washington. He probably has such a mission in the spiritual world now
