

Why True Mother told us to put aside our partisanship

Flore (Noel) Mathison
November 5, 2016

Dear Brothers and Sisters,

I deeply appreciate all of you, my brothers and sisters! I know many of you are doing your best to help True Parents fulfill God's Providence in America, especially those of you in my home state. I hope you can understand from the earlier email I wrote that this is more than just another opinion, it is a sincere attempt to explain in a principled way why True Mother told us to put aside our partisanship. This is bigger than any blessed couple or any political party. I wonder maybe if some of you just dismissed what I wrote with a glance, so I'd like to take the time to explain some things a little more. Even if you disagree with me, I believe that you can feel the heart behind the message. So I'm asking a favor of you. As a loyal son or daughter of True Parents, please read this with an open and sincere heart, and then open your heart to ask our Heavenly Parent what He thinks.

I hope you understand this is more than just "politics." This is about True Mother's heart and the Era of Women. What is True Mother thinking now? What does True Father from the spiritual world think about the election about to take place in a few more days?

Along with this letter, I encourage you all to read from Cham Bumo Gyeong, Book 12, Chapter 4, starting on page 1400. If you have time you can continue into Book 13. In that book, True Father said religion and politics will disappear. What does that truly mean? It means, "God's Providence is moving ahead for those who have eyes to see and ears to hear," just as True Mother said in her speech at Washington DC on the 18th of September. She was talking to those of us who hold tight to the same old ways and don't clearly understand the current emergency we're facing as a nation. God's Providence isn't focused on either the Democratic or Republican Party at this time-- it's really about God's Vision 2020 centered on women! Incredible changes are emerging and if we are not ready and centered on True Mother's vision and works, we may create an earthquake in the system and be held accountable for it. HF is on earth and wants to move forward together with True Mother to embrace all the women of the world and enable them to bring all the fallen Archangels to surrender, so we can all return to the original Garden of Eden and build the Kingdom of Heaven on Earth as it is in Heaven.

As I said in the last email, this woman, Hillary Clinton, was never someone I thought I'd speak up for. Why do you think this woman is being labeled, even by some of our Unificationist members, as so "EVIL"? Remember, my dear brothers and sisters, True Father said many times that whatever we do as Unificationists will have either a positive or negative impact on the nation. Think about who it was in this world who started labeling True Mother, the greatest woman in God's universe, as "EVIL." No matter what differences of opinion may have occurred in the True Family, such accusations should never have been made. Therefore, any woman who stands in the position to face True Mother one day as a representative woman leader in this elder son nation will not have an easy path because all kinds of accusations will be leveled against such a woman. This is especially true for a woman in position to become President of the United States of America, the elder son nation.

Another question, my dear brothers and sisters: Why do you think this woman who is called in this hour to possibly become president of our country has been in the midst of such an incredibly fierce battle with this particularly Arch-Archangel who is in position to oppose and discredit her so strongly?

Remember what happened just before True Father passed away? That should never, never have happened! An Archangel on heaven's side (Rev Kwak) who'd been working very closely with True Parents for many years fell from his proper position, not sexually but spiritually. He led both his own daughter and True Parents' eldest living son into a web of intrigue under the realm of the fallen Archangel. Because of that failure, the next eldest son, Kook Jin, was asked by Father to help restore the situation. Father stood his two eldest living sons in front of Mother and he asked them to unite centering on her. But both of those sons got stuck in the web of the realm of the Archangel and couldn't unite with True Mother or with one another as True Father had asked.

This mother-son collaboration, as in the Old Testament when God required it of Rebecca and Jacob (so the eldest son could also eventually be restored), was what protected Jacob from being invaded spiritually and even killed physically by his brother Esau. This principle of mother-son collaboration has been revealed, and so Father had certain expectations when he brought his sons together to unite with their mother. But as we all know, first the eldest living son separated himself, and then the second eldest living son followed suit and entangled himself and their youngest brother, True Parents' youngest son, in the same web of the fallen Archangel. Everything fell down like dominoes; not unlike when Lucifer, a formerly good Archangel, fell down through pride and as a result many formerly good angels fell down with him. And so, many blessed couples who couldn't understand the significance of what took place

have also fallen spiritually into the same web of the dark realm of the fallen Archangel, and in darkness they have been unable to see True Mother in the bright light. Thus True Mother warned recently that because of ignorance and greed we are going against God's Will.

And so that wonderful youngest son whom we all loved so much turned to be possessed by another identity and called True Mother evil. But what did True Mother do? Thank God our Heavenly Parent for her! She didn't fight with any Archangel realm! She kept her proper position as the True Victorious Daughter of God, as a True Wife, as a True Mother, and as our True Parent without falling under the influence of the Archangels. Otherwise, she would also have been stuck. Instead, she endured, overcame, and has been paying an incredible price while suffering in silence and working so hard on behalf of True Father to secure the foundation for the future of Cheong Il Guk, which your children and grandchildren are called to inherit. You know that if you keep your proper position as True Parents' loyal children, then your children and grandchildren can benefit from True Parents' incredible achievements!

That's the reason True Mother set the conditions to allow us to receive forgiveness for our sins. All of us could receive forgiveness, even those hesitant or unable to repent, and we could receive the Four Holy Items from True Parents. True Mother set the conditions to again forgive all of humanity, and she set the atmosphere as well for an historic fallen Eve to be able to come and stand in position to lead this nation in this Era of Women. This is why Hillary has had to undergo fierce battles with such an Arch-Archangel, even up to the last minute before this significant and providential election.

Why had this become necessary? It's because a true daughter(-in-law) in the True Family got misled by her own father (an Archangel) and influenced her husband such that he and eventually two of his younger brothers separated themselves from their True Parents. Because of this, a fallen Eve on the national level has to fight fiercely with the Arch-Archangel to win the battle on behalf of all of us. A couple years before True Father ascended he said from now on Cain will pay indemnity instead of Abel. Therefore, Hillary Clinton is in position to fight and pay indemnity on behalf of all of us, whether we like it or not! She herself doesn't know this, but we Unificationists should know it. And as a victorious fallen Eve, this soon-to-be U.S. President will find herself in position to stand before True Mother, who has the solution to help her save the nation. If God could turn the heart of Paul, who was an arch-enemy of Jesus, He can turn the heart of Hillary when the time is right! Our responsibility will be to claim the best from each political party and help join them together in the upcoming Parliamentarians' Conference, so that these leaders can unite before True Mother, God's representative for the salvation of the nation and the world during this time of the Era of Women.

It's our responsibility to find many such high caliber leaders on all sides of the aisle who can attend that conference and support True Mother's initiatives, which will be delivered in her speech before an international audience of world leaders for the sake of world salvation.

Everything I said in my first email was based on True Father's words. Through True Father's words we can understand in what direction our nation should go to help accomplish God's Providence. Therefore we should not struggle or fight about it, because the words of both our True Father and now our True Mother are here to guide us. But you know what? It's important what we do because our Heavenly Parent depends on us. Whoever gets elected, we need to be prepared to pay the consequences if the choice we make goes against God's Will.

To illustrate this, let me talk politics a little bit here. Many of us are happy to say that we believe in True Father, so it's important to determine which of the two main candidates is more in line with True Father's guidance:

The first thing Trump said at the beginning of his campaign is that he will sanction South Korea to make that nation pay its debt to us. Under Trump, the US would not support South Korea unless they pay us. I personally heard him say this three times in his campaign. I would be surprised if he does not unintentionally gamble the security of our nation to cover his own greed. Knowing that he is financially in debt to both Russia and China, who do you think would benefit most by influencing him to back-off on South Korea's security? You can research this for yourselves, brothers and sisters, and pray about it. True Father taught Unificationists about our role with regard to his homeland, and so we know how important it is now that the Elder Son Nation (America) collaborate with the Mother Nation (Japan) to guarantee the security of the Father Nation (Korea), so that South and North Korea can be reunited and restored under the direct inspiration of True Mother on earth and True Father in the spirit world..

The second thing Trump said he would do is put up walls and barriers to protect America from drugs and terrorists. However, True Father always emphasized taking down the walls and breaking down the barriers between nations! Who do you think is most interested in doing directly opposite of what True Father has told us? Yes, we are responsible to maintain security, but Trump's words are directly opposite True Father's words, and Our Heavenly Parent will surely protect America if we fulfill our responsibility for the 2020 Vision. A few years ago, True Father emphasized that a big migration on a world scale is coming and that we should be ready for this. "No more walls and no more barriers" means that a lot of

refugees are going to need shelter. So who is speaking out most against these things now? We know the real solution because we're connected in one heart with True Father in heaven and True Mother on earth. How fortunate we are!

A third concern I have with Trump stems from True Father's guidance about how to resolve the problems related to our economy by more equitably balancing the wealth of our nation. Among many other things True Father said about this, he said that the richest people need to pay 70% in taxes in order for the wealth of the nation to be equitably distributed. Look again between the candidates to see who is most against this idea. (For Father's viewpoint, please read Book 10, Chapter 1, in Cham Bumo Gyeong, about "Economic Activities to Create the Environment for God's Ideal," particularly page 1091.)

My fourth concern has to do with our nation's investment in reducing the human causes of global climate change. Caring for our environment has always been a big concern of True Parents, and True Mother mentioned this topic specifically in her recent speech. Unlike Clinton, Trump denies the need to do anything to lessen the human causes of global warming because he doesn't see the big picture; he is more concerned with minimizing costs and maximizing profits for business owners.

One more thing that concerns me: Did the majority of Christian churches put the cross down? Very few did. Those who listened to the messiah and followed his advice were mostly black ministers who have very little power up in the White House. They listened a little bit to True Father, but many later got cold feet because the majority of Christians were absolutely disunited with Father's heart and direction. Of course, True Parents still never stopped praying and making conditions and offerings of indemnity to forgive America and prevent her from being destroyed for her sins against God's Will. A big problem is that the vast majority of white Christians are still going on with their own personal agendas. Too many of them are absolutely convinced that their apocalyptic predictions will literally come true, even though that would be the absolute worst outcome for America and the world. Incredibly, some Christians who live by these terrible predictions are actually at the point of trying to justify them by getting a man like Trump elected as their "chaos candidate."

Another thing, our main concern has always been about true family values. Both parties are failing on this issue and the line between them is being blurred. More and more Republicans have loosened their principles and become more tolerant or at least unopposed to our sexually permissive popular culture, all in hopes of staying alive politically. At the same time, I remember True Father clearly saying, "Do not worry about people who go against God's purpose of creation. They will all eventually disappear. Well! that sounded kind of naive to me! I thought, "Is that right?" But then I realized that True Father was telling us that we were better off to simply follow God's mandate and Heaven's guidance. In other words, if we keep faith in True Mother and True Father, and if we do our part to be good examples and to educate others, God will do his part. We already know what we need to do, and if we just "do it" then true family values will naturally take root and the opposition will gradually turn around and see the light.

Clinton choose a good Christian man as her vice president, someone who seems down-to-earth yet has zeal and dedication to do God's Will. Tim Kaine appears to be rather open-minded and flexible about his beliefs; he probably has more ability to listen and understand how God's Will can be unfolding than many of the "apocalyptic-type" Christians. All anyone needs to do is look at the way Father worked to restore the nation for God's Providence. He never stereotyped people; he cared for all people and tried to make sure everyone got educated enough to understand Heaven's Will for all the Creation. Father brought together the conservative right-wing upper classes and the liberal left-wing lower classes as a result of paying indemnity in Danbury prison. He brought together rich, poor, and middle class religious leaders as one family while he was on earth. He helped to unite all the children of Abraham: the Jews, Christians, and Muslims. He loved and brought together both religious and secular people. We can never forget all the wonderful foundation our Beloved True Father and True Mother created for us in collaboration with us, everything in preparation for this "Era of Women" that we are now experiencing.

True Father and True Mother have together set the foundation to secure the country. To do this, they have been uniting Cain and Abel on every level, including Democrats and Republicans, in preparation for the arrival of an Historic Black U.S. President, a man who has been working hard in the role of Archangel to restore unity between blacks and whites as well as Christians and Muslims. And now, upon this foundation, Barack Obama soon will be in position to pass on his authority and the key to the White House to a woman in the role of Eve! This is what the Archangel in the original Garden of Eden was supposed to do to support and empower Eve.

Hillary Clinton is the only woman in the United States who is in position to stand before True Mother as the Victorious Fallen Eve on the national level; if she can successfully triumph over the Arch-Archangel, Donald Trump. According to God's Providence in this Era of Women, such presidential authority and power is destined to be handed-over from men in the Archangel position to an Historic Woman U.S. President in the position of Eve. This will take place in preparation for the liberation of all women from the realm of the Archangel, so that all women will be able to comeback to their proper position as true daughters of God.

So, as much as we can connect True Mother to the victory of this historic woman president, it will pave the way for all women to find their way back to their proper position, which is something True Father said had to happen. Everything is in place for the ultimate victory of True Parents in 2020-- the victory on earth of our True Mother, the "True Parent of Heaven, Earth, and Humankind!" Things are moving very fast for God's dream of the victorious restoration of the Garden of Eden and the Kingdom of Heaven on earth! Let us do all we can to make it a reality!

My dear brothers and sisters, I wish you all my best!

And many blessings to you and your families!

Most of All, May God Bless the United States of America!

Sincerely,

Flore Mathison (your sister)
