Dear WFWP-GWPN members, friends, and supporters,

Established in 1994, National Parents' Day is celebrated on the fourth Sunday of July, to honor the role of parents in raising the next generation. To honor this day, WFWP USA will focus our forum discussion on parents' essential role in creating healthy families. This topic holds deep significance for Mother Moon, co-founder of WFWP. She has passionately shared that parents and family are key to creating a peaceful world, serving as the foundation of family harmony. She believes that the love and values upheld in a healthy family are essential for global peace. The relationships between parents and children where each lives for the other, serve as a model for how love should be expressed in all aspects of life, promoting harmony and understanding. Additionally, she asserts that a healthy family requires everyone to take responsibility in creating an environment where each member thrives.

The discussion will focus on practical steps for creating healthy families, from lived experiences to expert

insights. We will explore how the insights of Mother Moon on the topic can be practiced daily and address questions from the audience on challenges faced in making these healthy families a reality. Join us as we share actionable advice and real-life examples to help families grow stronger and more connected, honoring the crucial role of parents in this process.

June 27, at 5 PM PT/ 6 PM MT/ 7 PM CT/ 8 PM ET

We invite you to join us and RSVP below:

Sincerely,
WFWP-GWPN USA

A WORLD WITHOUT PARENTS: EXPLORING THE VALUE OF PARENTHOOD

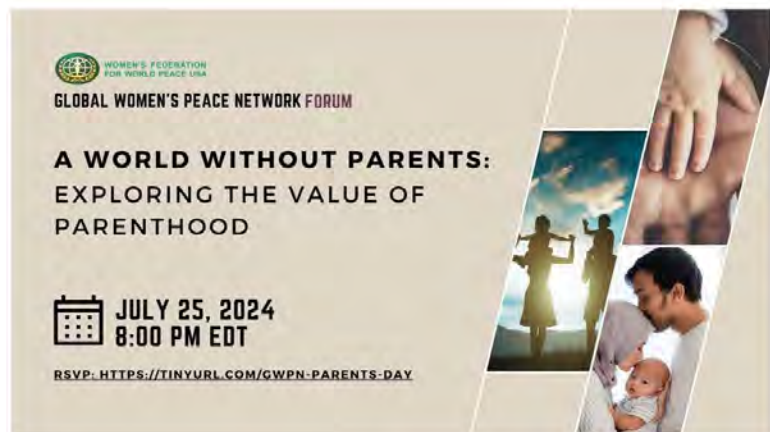

Thursday, July 25, 2024
8:00 PM – 9:00 PM

Women's Federation for World Peace USA
481 8th Ave. Suite 1228, New York, NY 10001, United States (map)

In a hypothetical world without parents, society would be fundamentally altered, losing the primary caregivers and role models essential for children's emotional, social, and cognitive development. The absence of parents would disrupt the transmission of cultural values, traditions, and social norms, leaving a profound void. Yet Mother Moon, co-founder of WFWP, suggests that the world is filled with orphans, not just literal ones, but those disconnected from our first parent, the Heavenly Parent.

By becoming parents ourselves, we can begin to reconnect with the Heavenly Parent, fostering stronger bonds in our children in turn. Parenthood's value extends beyond caregiving, creating stable environments where children thrive. As more families reconnect with the source of parental love, our world will become more peaceful.

Join us in honoring National Parents' Day with our speakers as we discuss the value of parenthood and share personal reflections on how parenting has elevated our spiritual connection and deepened our understanding of divine love.
