

WFWP USA: WFWP Ohio's Bridge of Peace with guest speaker, Denneze Nelson

Katarina Connery
November 8, 2025

On November 8th, WFWP OH, hosted the Bridge Of Peace event at the Ohio Family Church Center, welcoming twenty-five participants, including five newcomers.

Our guest speaker, Dr. Denneze Nelson, delivered an inspiring presentation on the meaning of BOP, sharing personal experiences and insights about the founders of WFWP and their core values. The audience responded with enthusiasm and appreciation for her message.

We were also delighted by a beautiful dance performance by Genesis, which added a special touch to the day. The event concluded with a heartfelt rendition of "Let There Be Peace on Earth" and a group photo to capture the moment.

Afterwards, attendees enjoyed a warm and inviting lunch, seated with their respective sisters or brothers of peace, providing a wonderful opportunity to share, connect, and exchange contact information.

One of our guests, Iliana, shared a touching testimony reflecting the impact of the event:

"I was praying for peace, and shortly after, I received an invitation to a women's gathering. There, I met an inspiring woman, Marie, who works at Children's Hospital, and discovered that they have multiple job openings. As I prepare to leave my current position and seek God's guidance to find a role where I can care for others, I feel that God has been answering my prayers by bringing me to this event."
