The World Research Institute for Science and Technology was formed by Rev. Sun Myung Moon in the early 1980's. The most important assignment has been the making of a "Spirit World Machine".

As "homework" for this project, we were asked to study "how mediums do what they do". As I was studying the top character for "Truth" in the calligraphy for W.R.I.S.T., it reminded me of the symbol for OM (AUM) in Hinduism and Buddhism. Thus began my attempt to understand inter-religious mysticism, which resulted in the formation of this notebook. Peter Nordquist 1/6/04

Unification Thought

Two Stage Process of Creation / Two Sets of Dual Characteristics

Gen 1:27 So God created man in his own image, in the image of God he created him; male and female he created them.

A) Sung Sang / Internal Character / Subject / Mind / Heaven

B) Hyung Sang / External Form / Object / Body / Earth

A) Yang / Masculine / Subject / Aggressive / Positive / Heaven

B) Yin / Feminine / Object / Passive / Negative / Earth

Three Blessings

Gen 1:28 And God blessed them, and God

said to them, "Be fruitful and multiply, and fill the earth and subdue it; and have dominion over the fish of the sea and over the birds of the air and over every living thing that moves upon the earth."

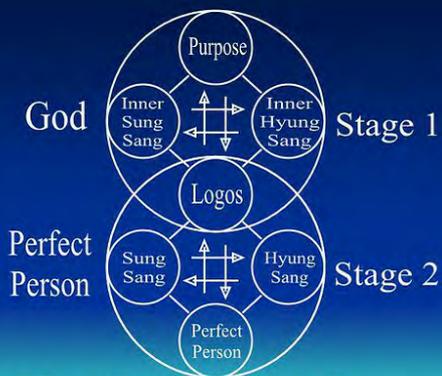

First Blessing- Be Fruitful

- Grow to spiritual maturity by obeying God's Word.
- Unite Mind and Body
- Prepare to receive God's Second Great Blessing – the Blessing of Marriage

John 1:1 In the beginning was the Word, and the Word was with God, and the Word was God.

1Cor 6:19 Do you not know that your body is a temple of the Holy Spirit within you, which you have from God? You are not your own;

1Cor 6:20 You were bought with a price. So glorify God in your body.

Freedom and the Fall

Adam and Eve did not fall because of Freedom.

There is no Freedom outside the Principle.

There is no Freedom without Responsibility.

There is no Freedom without Actual Results.

Free Will is subject to Free Action as object.

Original Mind is subject to the Conscience as object.

God - Hananim	하나님
Life Mind - SaengShim	生心
Body Mind - YukShim	肉心
Original Mind - Bon Shim	本心
Emotion - Jung	情
Intellect - Ji	智

“In the Divine Principle there is a section in the Principle of Creation about the original or divine mind. That mind is the essence of each person, being the living soul which is eternally connected to God. It is through the original mind that people can be regenerated, to live the true value and purpose of life here on earth. Without the divine mind we have no means by which to make any relationships between ourselves, God, the spirit world and the physical world. Your divine mind functions in conjunction with your conscience. As it does your whole body will certainly have a purpose and direction. By working in obedience to your divine mind you will become one with God.”

“The greatest problem of humanity today is the separation between mind and body, with these two contradicting each other instead of harmonizing with each other. In restoration, it is when the divine mind or soul becomes the master of the human body that a person's life can become God-centered. It is as if God's mind were coming to dwell within that person. As a person responds to his divine mind that person will find his purpose and goal. Fallen man has no hope or direction unless that connection with the divine mind takes place. Until then, man's existence cannot have value.”

“The purpose of religion is to plant the divine mind in the human heart. There are many kinds of religion: some form small circles and others large circles, but some even form distorted circles. The important thing is to realize that even though there are many religions, very few actually deal directly with the divine mind.”

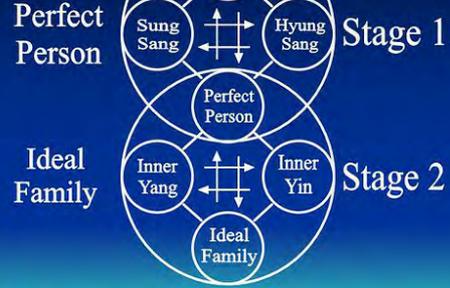

“Fallen man's ultimate goal is to reach his divine mind. Religions have evolved now to a point where they are close to finding the divine mind, yet still they have not touched it. They circle around and come out again yet they do not see it. When the true religion of God finally is fully revealed its focus will be the divine mind; it may come out and go in and circle around many times, but still it will not fail to pinpoint the target.”

“The amazing thing about this search is this: In searching from the outer to the inner circle the individual is in front. However, after reaching your divine mind there will always be someone else in front of you; from that time on God is ahead of you. Once you reach the divine mind within you and come back out to the world, you will find that God is already before you; thus nothing will be able to disconnect you or overcome you. In this way the world is guaranteed of finding peace.”

Rev. Moon, “The Spirit World and the Physical World” February 6, 1977

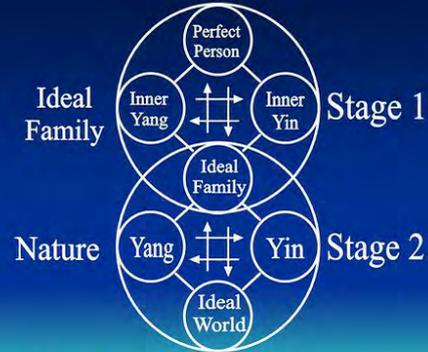

- The Dual Characteristics of Sung Sang and Hyung Sang are Primary relative to those of Yang and Yin, which are Secondary.
- Perfect Person - The Output of Stage 1 becomes the Input of Stage 2.

Third Blessing- Dominion

The Yang and Yin qualities of the True Family represent Inner Yang / Inner Yin, which act as Subject to the Yang / Yin of Things of Creation as Object.

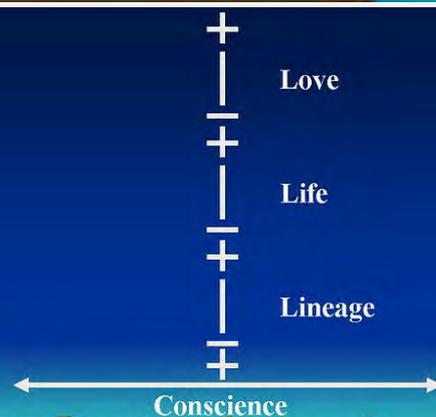

True Love, Life, Lineage and Conscience: The Womb of God

On May 1, 1998 at the 44th anniversary of the HSA-UWC, Rev. Moon explained about Love, Life, and Lineage in conjunction with Universal Prime Force as the Feminine aspect of God.

“Lineage,” he explained, “is the Subject of Conscience.”

“Another way of interpreting this formula of Origin, Division and Union, is that the Origin, which is God’s position, can be interpreted as a plus. The Union can be interpreted as Man’s position, which is a minus.”

Love, Life, Lineage and Conscience: God, Mankind and Nature

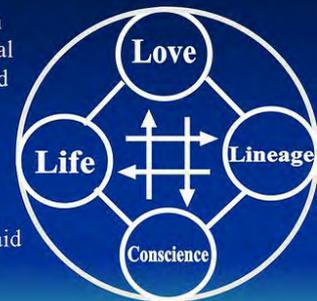

The Origin stage position represents God; the Division stage of Subject and Object can be interpreted as Adam and Eve (Mankind); the Union stage can be interpreted as Nature.

Love, Life, Lineage and Conscience

Love contains elements of heart and purpose, which in Unification Thought are central to the Identity Maintaining and the Developing Quadruple Bases, respectively.

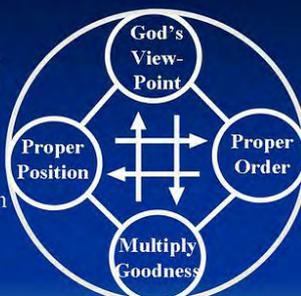

Although he felt that English does not have an adequate word, Rev. Moon said that the best English word for the Korean word for love is “cooperation”.

Four Original Natures

Opposite to the Four Fallen Natures that resulted from the Fall of Man are Four Original Natures.

Three Aspects of Freedom

The Divine Principle defines freedom as requiring three criteria. These correspond to the Three Great Blessings, and to the 3 stages of development of the 4-Position-Foundation.

Three Aspects of the Commandment: Why God Gave the Commandment

The reason for God to give the Commandment was not to test mankind, nor simply to prevent us from falling.

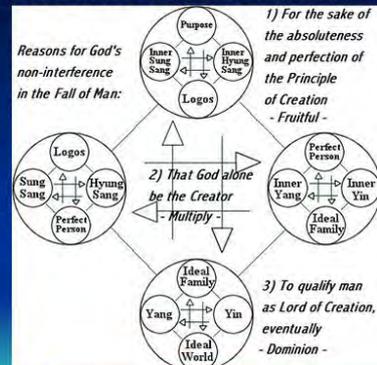

The three reasons listed in the diagram also correspond to the Three Great Blessings and the three stages of development of the 4-position-foundation, which are:

Origin, Division, Union

Why did God allow Adam and Eve to disobey His Word? The answer is closely related to the reasons for giving the Commandment.

In the usual Unification Thought diagram, the Logos is the output of stage 1. The Logos then enters into the Sung Sang position of the stage 2 Quadruple Base. In this diagram that transition is drawn vertically with the emphasis on the dual characteristics of the Sung Sang and Hyung Sang.

Ilshim 一心 + Ilshin 一身 = Ilchai 一體

On May 3 of 1998, Rev. Moon spoke at Sunday service and explained that he had just completed a special 14-day

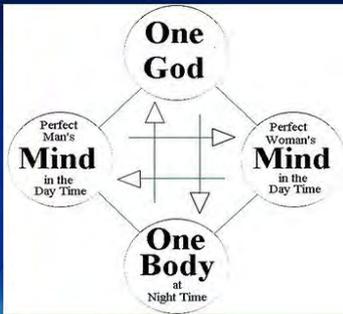

prayer condition for the families of Heung Jin Nim and Jesus, after having just elevated America to the Elder Son position in a ceremony in Korea. For the first time in 40 years, he explained that he could again work with America representing worldwide Christianity. At the ceremony held after the 14 days, he made the condition to unite the religions of the world centering on Christianity. Then Father Moon explained that our motto was “Ilshim, Ilshin, Ilchai”. Everything else we can forget, he said, but not this motto. This motto emphasizes the ideal of the family.

Ilshim 一心 + Ilshin 一身 = Ilchai 一體

On the foundation of having achieved mind/body unity as individuals, the husband and wife unite their minds during the day (Ilshim) and their bodies at night (Ilshin). These two together return to the Origin stage of the Quadruple Base of the Second Great Blessing. This is the two-stage process of creation, representing fulfilling the first and second blessings. The Third Great Blessing automatically appears as Object to True Family as Subject. Rev. Moon further clarified that Ilshim represents the Division Stage of the Quadruple Base and that Ilshin represents the Union Stage.

Il Shim, Il Shin, Il Chai

Mind and body must be united twice, once as an individual and the second time as a husband and wife, married with God's blessing. This achieves the substantial unification of the two fundamental sets of dual characteristics of God.

The Four Major Holy Days

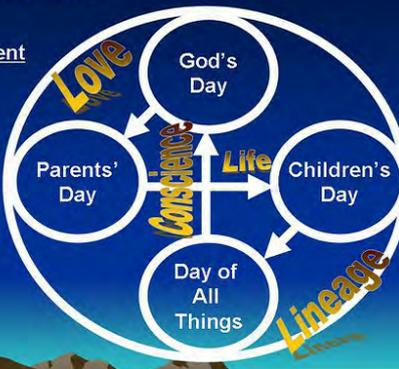

Today is the 22nd Parents' Day. Parents Day was established on April 10, and after that came Children's Day, Day of All Things and God's Day. Centering on Parent's Day and Children's Day, Day of All Things, God's Day and Day of Heaven would have all come into being at the same time. Then, of course, the history of restoration would not have been necessary. . . .

Salvation actually means saving the four heavenly days also. They should have no other origin except God.

Comparison With the Jewish Natural Array Tree of Life

There are two sabbaths, one vertical or masculine, the other horizontal or feminine. The masculine sabbath is the Yesod, representing the male sexual organ and the 7th commandment, "Don't commit adultery." The feminine sabbath is Malchut, representing the female sexual organ and the 10th commandment, that includes "Don't covet your neighbors wife."

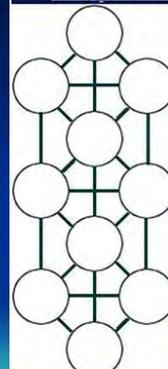

Comparison With the Jewish Natural Array Tree of Life

The Natural Array Tree of Life has 22 channels along which give and receive action take place between the 10 positions of the holy emanations. The 22 channels represent the 10 fingers, the 10 toes, the tongue, and the sexual organ. They also represent the 22 letters of the Hebrew alphabet, which consist of 3 groups.

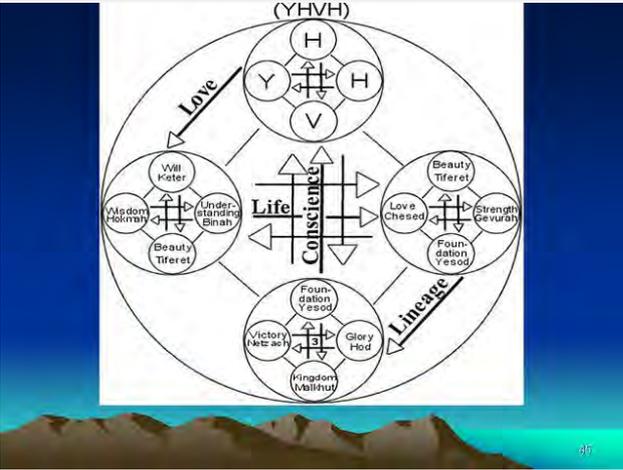

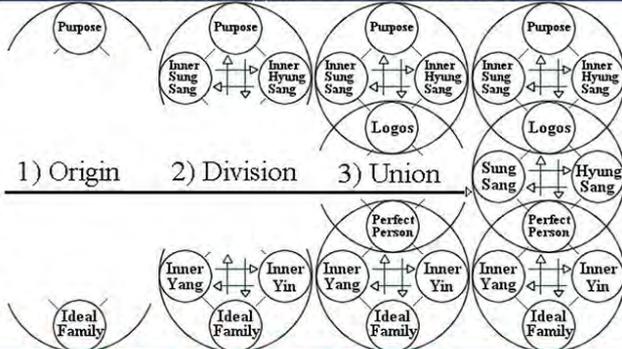

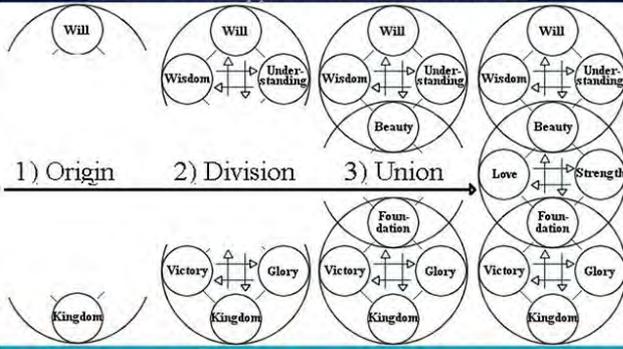

The 3 horizontal lines represent the 3 Mother Letters. The 7 vertical lines represent the 7 Father Letters, and the 12 diagonal lines represent the 12 Children letters.

Comparison With the Jewish Natural Array Tree of Life

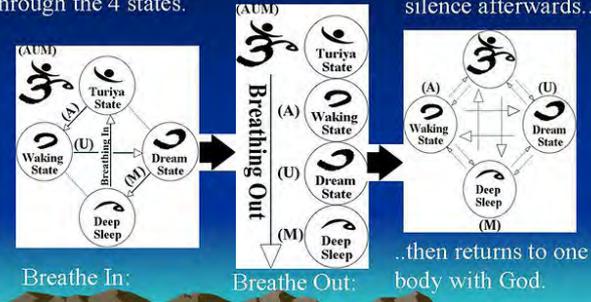

The 3 Mother Letters also represent (from the top down "Shin, Aleph, Mem", which are assigned to Fire, Air and Water) 1) Circumcision of the tongue 2) Circumcision of heart and 3) Circumcision of the flesh, which is the sign of the Covenant between God and Abraham.

The 3 Mother Letters also represent 3 levels of soul, known as (from the top down) 1) Neshamah - divine soul 2) Ruach - eternal soul 3) Nefesh - the level of soul that is in the blood and dissipates at death..

The Parnava: AUM 1 - Hinduism in a Nutshell

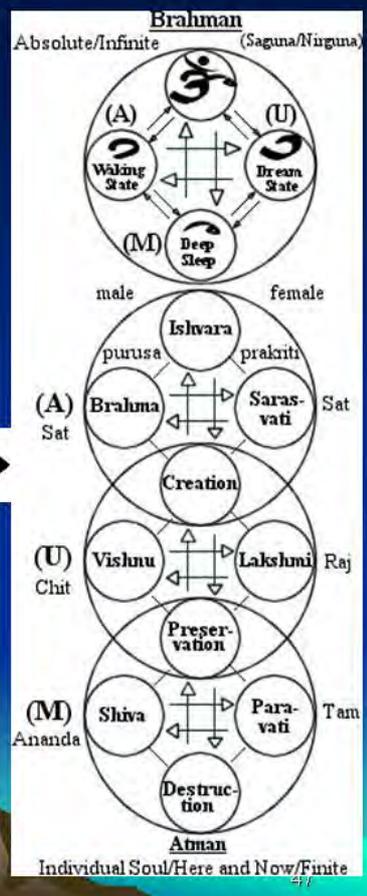

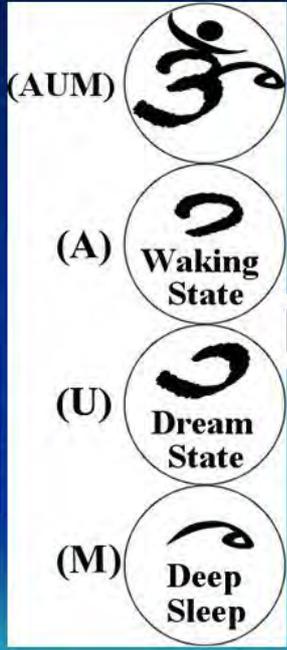

Every cycle of the breath transitions through the 4 states. Between the In-breath and the Out-breath The Aum plus the silence afterwards..

The Parnava: AUM 2

The Aum symbol is expanded to include the Creation, Preservation, Destruction (Evolution) process of Brahma, Vishnu and Shiva.

These "gods" are often viewed in a monotheistic fashion as various aspects of energy within the human body. The One God is Brahman.

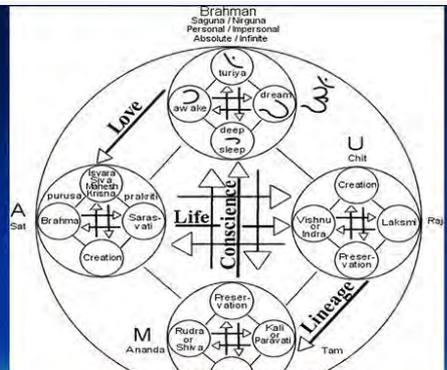

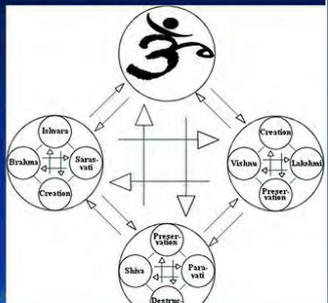

The expanded AUM expressed as a quadruple base is again showing the process of creation from a Hindu perspective. Destruction is often termed as evolution.

The term, destruction, is possibly used to emphasize a transition from that which has been preserved by an Almighty Force of Preservation.

Hearing the AUM, which can be experienced in different ways, is the experience of being initiated on

A Hindu View of Conscience

"I have come across many a person who argues with that in him which is not in Himself. Some also say they have made their conscience as Guru or Master. But I am sure they have not made their conscience as their Guru but their own ego. The conscience, as described in the Shastras, is made of four things - manas (mind), chit (deeper conscience), buddhi (cognition) and ahamkara (ego). If all these become perfectly purified, conscience will give you only correct signals.

After the purification of these things there come the higher powers. And at the same time purity has now begun all round. I hope people will excuse if I add a little more in the context that incorrect way of worship will lead to the incorrect result.

We all desire for realization, but we have no yearning for it. I pray that we all return to our original condition and see the difference between the earthly and the heavenly life!" Ram Chandra of Shajahanpur 2/24/73

**The Three Bodies of Buddhism:
The Tri-kaya**

The unchanging absolute of Buddhism is called "suchness" or "thatness".

As Tibet's great Buddhist yogi, Milarepa said, "Altruism leads to enlightenment, whereas selfishness leads to bondage."

Altruism is the principle of living for the sake of others.

Have you ever asked your minds where their original homeland is? Try and see. History has progressed and cultures have advanced. External environments have evolved and advanced to a certain degree according to culture or human intelligence. However, the world of the heart has remained unchanged. This world of the heart does not experience revolutions or progress; it is inherently eternal and unchanging. When you have a certain sense of purpose and set a clear goal, you will run limitlessly.

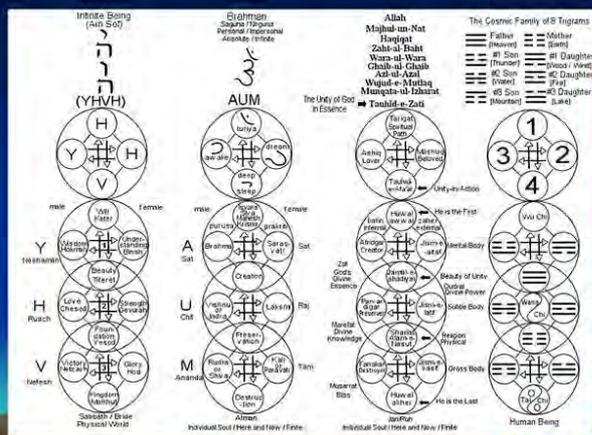

When the needle of a compass is lined up to the north and south poles, there is no way to turn it unless you apply a force stronger than the force pulling the needle to the poles. Likewise, the world of the conscience cannot be moved. The function of

the mind which cannot be moved lies in the realm of ideology. When a clear sense of purpose is set for the mind, you can certainly cause an action that can pull every cell and every emotion.

Then the problem is simple. No matter how great the function of the mind may be, it cannot be more effective than the level the person has reached. Do you understand? It cannot make a greater impact than the state the person has attained. Even though it stands in the position of a subject partner, it cannot be much more effective. Because the mind stands in the reciprocal position to control the body, it cannot function outside of the reciprocal relationship.

God cannot shift the standard of the heart at whim. It can be moved only in harmony with the body. We have to control our body, put it in a certain situation, and align the orientation of the heart with the laws of the universe. God wants such laws of truth to be established. If a truth appears which can link the world together and join it with the principles of Heaven, the conscience can expand outward without limits and be active.

The Tree of Life is not only used for meditation, but also for magic (science of the Magi). The diagram at the right preserves the numerical assignments of the three columns of the Natural Array Tree of Life.

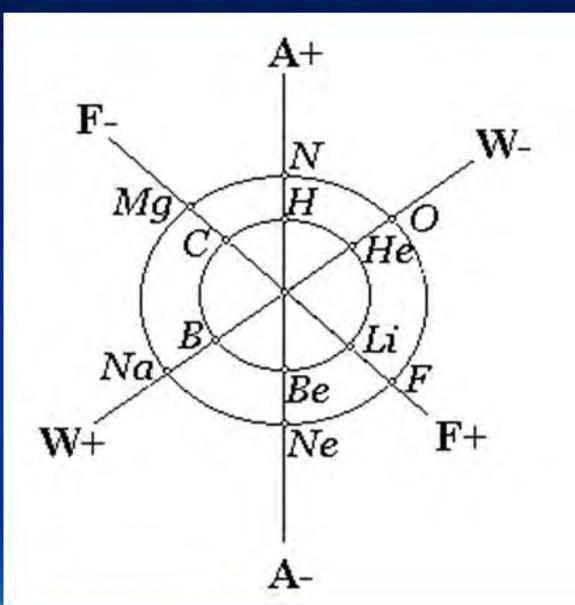

The inner circle is Above and the Outer circle is Below. Odd numbers are positive or Yang and even numbers are negative or Yin.

Science of the Magi: 1

Mystical numerology contends that wherever the same number is found that there is a similarity of purpose. This mapping of numbers relates the Tree of Life to the Periodic Table of Elements, based on the Atomic Number. All the elements in the Air column exemplify the qualities of Air which represents Will, and similarly for those in the Water and Fire lines.

Quantum Systems

(Originally published as a letter to the editor)

Here's a thought for you. Superconductivity, the Meisner Effect, the atom, the double slit electron scattering experiment, all demonstrate seemingly miraculous behavior of electrons (and the electromagnetism involved).....indicating that "electrons are psychic". The one word explanation used to explain all of these phenomena is "quantum", as in quantum state or quantum mechanics.

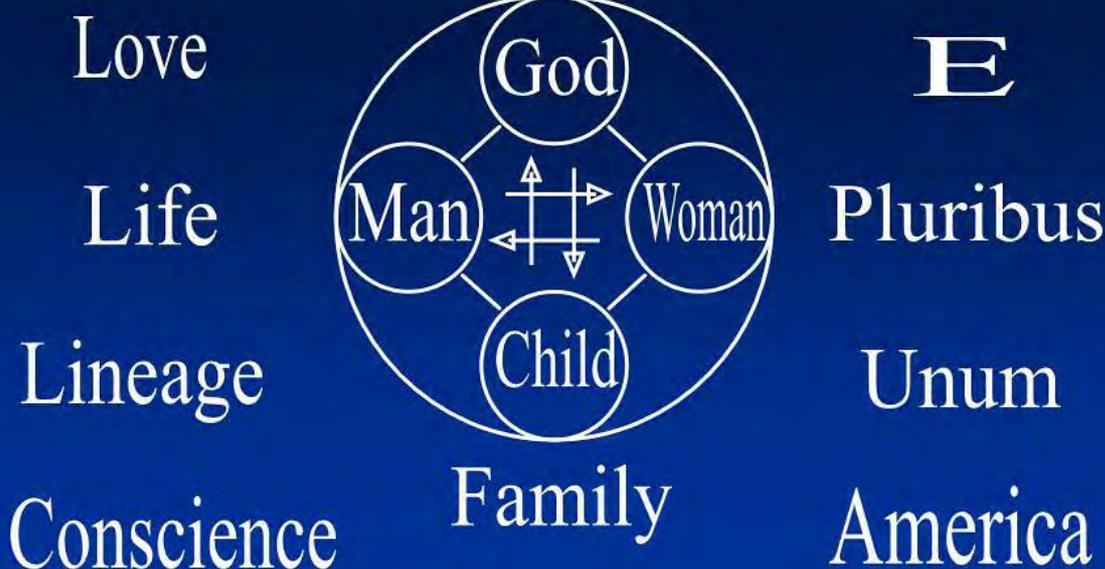

Quantum states occur in quantum systems. Since the universe at the subatomic level is a quantum system then we can assume that all consequent larger aspects built up from the smaller are also quantum systems and that God, the creator, is a quantum God who has quantized the universe.

Physicists claim that they don't understand why electrons behave this way, and that maybe nobody else does either. But I understand. The reason is that a subject and object of a lower level unite and become an object to a subject of a higher level for the purpose of gaining higher dimensional value, harmony and closeness to God, who is the subject of highest dimension.

Those particles and systems such as atoms that enter quantum states are enjoying the protection of the universe as the higher level vertical subject. Thus they maintain their identities. Similarly a family in which there is unity between parents and children, husband and wife, and siblings, enters a quantum state and is protected by the universe.

Relationships on all levels of the family, society, nation and world need to enter a quantum state in order to be protected, prosper and develop in the direction of goodness. We might call this the theory of the family as a quantum system with the expectation that a definition of the family grounded in "Quantum Mechanics" will resolve the social problems caused by family breakdown and help to systematize our understanding of what a family is and how it is supposed to work.

Sincerely,
Peter Nordquist

The God-centered Family expresses... "e pluribus unum", and teaches absolute sexual ethics and living for the sake of others.

Concluding Comments from Rev. Moon and Swami Vivekananda:

"In order to move the spirit world, our teaching must not only be endorsed by God but also accord with the desires and hopes of the many saints and religious leaders who lived and worked on earth. It must explain the core of what Gautama Buddha wanted to propose, what Confucius wanted to carry out, what Jesus wanted to preach -- and even the content of things yet unknown. All these people must give their seal of approval."

"The Hindu may have failed to carry out all his plans, but if there is ever to be a universal religion, it must be one which will have no location in place or time; which will be infinite like the God it will preach, and whose sun will shine upon the followers of Krishna and of Christ, on saints and sinners alike; which will not be Brahminic or Buddhistic, Christian or Mohammedan, but the sum total of all these and still have infinite space for development; which in its catholicity will embrace in infinite arms, and find a place for, every human being from the lowest groveling savage, not far removed from the brute, to the highest man towering by the virtues of his head and heart almost

The problem is how to connect the religions of servant and adopted son to the religion of son, which is their center and vehicle for reaching the religion of parents. Only then can a system endorsed by the heavenly spirit world and God emerge.”

Rev. Sun Myung Moon, May 1, 1981 in Seoul, Korea

above humanity, making society stand in awe of him and doubt his human nature. It will be a religion which will have no place for persecution or intolerance in its polity, which will recognize divinity in every man and woman, and whose whole scope, whose whole force, will be centered in aiding humanity to realize its own true, divine nature.

Offer such a religion and all the nations will follow you. Asoka's council was a council of the Buddhist faith. Akbar's, though more to the purpose, was only a parlor meeting. It was reserved for America to proclaim to all quarters of the globe that the Lord is in every religion.

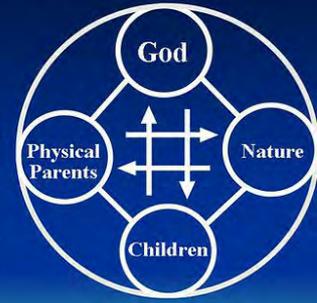

May He who is the Brahma of the Hindus, the Ahura-Mazda of the Zoroastrians, the Buddha of the Buddhists, the Jehovah of the Jews, the Father in Heaven of the Christians, give strength to you to carry out your noble idea! The star arose in the East; it travelled steadily towards the West, sometimes dimmed and sometimes effulgent, till it made a circuit of the world, and now it is again rising on the very horizon of the East, the borders of the Sanpo¹, a thousand fold more effulgent than it ever was before. “

We have three sets of parents. Nature is our first parent. Our physical parents are our second parents, and God is our third and most important parent of heart and love.
