IMPORTANT: THIS IS A LEGAL DOCUMENT

Please read and understand this document before signing. If you have any questions please ask us or consult an attorney.

West Point Family and Morale, Welfare, and Recreation (MWR) and its staff have done everything possible to assure that our patrons experience a rewarding Skiing and/or Snowboarding experience. We wish to inform our patrons that winter outdoor activities are not risk free. The same elements that contribute to the unique character and fun of Skiing and/or Snowboarding and other winter outdoor activities such as physical exertion or the cold and snow can cause loss or damage to equipment, and injury, illness, or in extreme cases, permanent trauma or death to myself and others under my care. We do not want to heighten or reduce your enthusiasm for the experience, but we do want you to know in advance what to expect, and to be informed of some of the possible risks. We ask that you read, sign, and return this document to our office.

SKIING AND/OR SNOWBOARDING ACKNOWLEDGMENT OF RISK

I understand that I will be using equipment that I am probably unfamiliar with and may not fully understand. I agree to ask adequate questions concerning the use of such equipment and the operation of the equipment. I understand that using ski or snowboard equipment in snow conditions creates a higher risk of equipment failure. I agree not to hold the West Point MWR and its staff liable for any failure of the equipment to work. I also understand and agree not to sue West Point MWR and its staff for any equipment failure, breakage or malfunction of the equipment.

I understand the dangers of skiing and/or snowboarding include inherent dangers which are defined as but not limited to those dangers or conditions which are an integral part of the sport of skiing/snowboarding, including changing weather conditions; snow conditions as they exist or may change, such as ice, hard pack, powder, packed powder, wind pack, corn, crust, slush, cut-up snow, and machine-made snow; surface or subsurface conditions such as bare spots, forest growth, rocks, stumps, streambeds, and trees, or other natural objects, and collisions with such natural objects; variations in steepness or terrain, whether natural or as a result of grooming operations, including but not limited to roads or other terrain modifications; collisions with other skiers; and the failure of skiers to ski within their own abilities. I understand there are several differences in the way the skis/snowboards and I understand and accept these risks.

By using skies or snowboards to travel, you may find it difficult to go over rugged, unpredictable trail and off-trail terrain, including boulder fields, downed timber, high mountain passes, snow and ice, steep slopes, and slippery rocks. Additional risks are collisions, falling, drowning, falling and rolling rock, lightning, avalanches, flash floods, and unpredictable forces of nature, including weather that may change to extreme conditions without notice, frostbite, high altitude illness, sunburn, heatstroke, dehydration, and other mild or serious conditions. Decisions are made by the instructors, guides and participants in a wilderness setting, based on a variety of perceptions and evaluations which by their nature are imprecise and subject to errors in judgment. Participants may have free and unsupervised time. Throughout the program, participants are responsible for their own safety and for the safety of other members of their group.

I understand the activity, which I am undertaking, includes a high degree of risk to Hypothermia. Hypothermia is the name for a medical condition where the core body temperature drops to a point that the body is unable to maintain and heat itself. Hypothermia can quickly result in death. My family and I are adequately dressed for the activity and the cold weather.

I understand that I may be subject to high altitudes. I understand that this can cause shortness of breath altitude sickness, nausea, edema, and other severe or disabling illness. It is also possible that some participants would suffer mental anguish or trauma from the experience or their injuries. This list is not an exclusive or exhaustive list of possible injuries, trauma or accidents that may occur while skiing. Most of these injuries are rare and you are not likely to encounter them. However, they have occurred, and you need to know about them and other possible injuries not mentioned above. These injuries occur more often when the participants are using drugs or alcohol or not physically able to undertake the activity.

As part of the Skiing/Snowboarding trip/program or activity, West Point MWR may provide transportation by motor vehicle, van, or bus to and from the starting and ending point. In that event, I understand and agree that I cannot hold West Point MWR liable for any injury I received due to the transportation West Point MWR provides. Accidents occur during travel to and from the starting and ending point of the trip over the roads and highway. I agree that terms of this release shall cover any injury I receive due to an accident on the part of West Point MWR whether by their negligence or the negligence of others.

The list of possible accidents stated above may inflict bodily injury, disease, strains, fractures, partial and/or total paralysis or other ailments that could cause serious disability or death. It is also possible that some participants would suffer mental anguish or trauma from the experience or their injuries.

This list is not an exclusive or exhaustive list of possible injuries, trauma, or accidents that may occur while the Skiing and/or Snowboarding. Most of these injuries are rare and you are not likely to encounter them. However, they have occurred, and you need to know about them and other possible injuries not mentioned above. These injuries occur more often when the participants are using drugs or alcohol or are not physically able to undertake Skiing and/or Snowboarding.
