

## Six reasons why True Parents created New Future Films and New Future Photo

Ken Owens

When I joined New Future Films/New Future Photo back in 1980, I was told six reasons why True Parents created these two departments and why they are so valuable:

- 1: There is no image of Jesus, so because future generations didn't know what Jesus looked like, there have been problems from that.
2. It is to preserve the history of True Parents and the Unification Church movement.
3. The photographs should be used in publications and other media to understand True Parents value and to show True Parents works (Book of Acts) for generations to come.
4. The main attitude that we should have towards True Parents while filming: the most important is "Heart and respect. Never be arrogant and selfish."
5. We can help the security team since we can move around and observe where they cannot.
6. The photograph True Parents want most is the size of the crowd or audience, like the photos of the Yoido Rally, Washington Monument and Yankee Stadium.

I learned these from day one and never forgot them.
