

Improving pleasant living environment places, President No Hi Park visits Seilo Co., Ltd.

May 6, 2013

Seilo was founded in 1999 and is a company that provides professional recruitment services and facilities management, as well as machine and equipment works and facilities management.

President No Hi Pak visited the Gangdong-gu Seilo Headquarters Offices at 2pm on May 6th 2013. The schedule was presided by president Young Tae Kim and his staff and also began with a business report.

The business report was broken down into several major areas of services, distribution business, and the affiliated company. The report began with a discussion concerning 2012 year of results as well as the 2013 goals projection. They continued discussing the reports on the status of each business division and a report on the pending issues Seilo faces.

Mr. Pak spoke about how "each business division should carry out safety training and efforts should be made to create an accident free work place" and "in terms of labor-management problems by division the stability of labor-management relations based on a foundation of creating human relationships should be double checked to create assurances." And he also said "we must devote all our energy towards achieving the goals of Vision 2020 by means of creative management, responsible management and expanding foundations."

Lastly, he gave words of encouragement to the staff to create a Seilo where employees can develop further.
