*Be still, and know that I am God; I will be exalted among the nations, I will be exalted in the earth. Psalm 46:10*

The ideal is not just for ourselves and our own sake but for the sake of the nation and the world. This is not just our concept. This is God's concept. This is the entire spirit world's concept. In other words, this is a common goal.

### Sun Myung Moon Speaks to the 2100 Couples, July 2, 1982

Hello,

Hyung Jin Nim started the sermon by talking about the King Bullethead raps. "Too Big to Rig" rap posted on a Christian HipHop channel. They are actually rap sermons.

The BBC special will come out in September or October. It is somewhat like the VICE documentary in that it doesn't seem to be just a hit piece. They asked why there are there so many attacks against Sanctuary Church? *Rolling Stone* magazine recently attacked True Father, who passed on more than a decade ago, as a leading Climate Change denier. It seems like they just can't get him out of their minds!

As we grow, anti-communism grows. As we grow, armed citizenry grows. We are not just brides waiting for the bridegroom to come. The culture of the Father is back! Radical Islam cannot grow versus the Father's culture. We are beyond the time of begging God to come. It's the time of living with the Father.

Given the reality of female fertility it's important for women especially to invest their fertility years between 20 and 40 in having and raising children.

As stated in Deuteronomy 29 worshipping other gods led to God's judgment.

Korean Confucian culture emphasizes actions to show the mother's love through making a lunch box, even if your son is a grown man.

Christians have allowed the fallen government to become a god. Western culture has lost its commitment to tribe and nation. It prioritizes relationships, but have forgotten the vertical relationship. We need to talk about faith with our children and create an environment where they can ask questions.

The younger generations have to decide to hold the father's house and to fight the monsters of their fathers. There was a study of gay men in Korea by Dr. Lee who treated 70,000 gay patients. The "Top" men who are dominant amount to 10-20%. The bottom boys are acting like females trying to have sex with Alpha men. The sexual abuse of boys is underestimated.

Note: The Department of Justice report on child sexual exploitation explains why the percentage of boy victims is underestimated: "Adolescent boy victims are highly likely to deny certain types of sexual activity. . . They are embarrassed and ashamed of their behavior and rightfully believe that society will not understand their victimization. . . .No matter what the investigator does, most adolescent boys will deny they were victims." ("Understanding and Investigating Child Sexual Exploitation," (U.S. Department of Justice, Office of Justice Programs, 1997), p. 12.)
