

## HTM Workshop

Chamarande, Training Centre, France, March 17, 2019

By David Perry

On Sunday, 17 March, 34 members of the Paris area came together at the French training near Paris for a day of reflection and sharing on our responsibility as Tribal Messiahs.

The first session was a time of sharing, as each participant spoke for no more than three minutes on their advances as Tribal Messiahs and the difficulties they are encountering. Through this sharing we could see that many of us are experiencing the same difficulties and we could also benefit by hearing how others are progressing. The honest and open sharing help create a base of unity for the day.

The second session was centered on the 2nd book in the Heavenly Tribal Messiah collection, *Becoming a Heavenly Tribal Messiah*. Different points from the book were shared such as the importance of unity in the couple and the family as a foundation, the need for community leaders and national HQ to work more to support those engaged in Tribal Messiah activities and the benefits of working in a trinity.

After lunch the third session was focused on finding balance as Tribal Messiahs, building a spiritual foundation and, at the same time, taking care of ourselves by seeking help to overcome any personal problems or difficulties that are

holding us back. As one brother expressed it, "We need to save ourselves, before we can save others."

The final session was a reminder of the four points that are priorities for True Mother; creating a foundation for national restoration, accomplishing Tribal Messiah, completing ancestral liberation and raising future leaders. A new guide on how to perform Blessing ceremonies was then presented to all those present, with the hope that more members can progress on their path toward fulfilling their Tribal Messiah mission.

Everyone went home at the end with a feeling that they can move forward on their Tribal Messiah path.
