February 11, 2018

Last week was one busy week for the CIG missionaries in Prague. Check out the activities we were involved in!

### **Universal Peace Federation Event:**

On Tuesday evening, we attended an interfaith peace event! Several religious representatives were able to attend and share in the common goal of peace and unity around the world. We broke up into small groups and discussed our religious histories and how we can positively affect the future. It was an amazing experience to be able to share freely and listen to the different perspectives of faiths. Afterwards, it was beautiful to see everyone mingled and talking of their own accord, almost forgetting the stereotypical and historical tension between them. We also met a group of young, American Mormon missionaries who deeply inspired us.

### **University Lecture:**

Carp holds a lecture every other week at the Charles University in Prague. It is a prestigious university in Europe and it is a blessing that they can have lectures centered on Principle on this campus. This past week we had a lecture on the difference of man and women. The lecturer shared about the 5 different love languages. As men and women we all receive and give love in different ways.

### **Peace Blessing and Valentine's Ball:**

We helped with organizing a peace blessing! Over a 100 people came to attend and recommit their marriage to each other centered on True Love. We had performances from a orchestral quartet.

Afterwards there was a valentines ball, playing classic Czech songs so the couples were able to ballroom dance. It was a night of smiles, laughter, and love.
